NFD/MES/Q0201: Digital Photographer

Brief Job Description

The Digital Photographer is able to use a digital camera and its accessories to take pictures in automatic and manual modes, while applying appropriate lighting, camera settings and visual composition techniques. The individual is able to take aesthetically sound portraits, landscapes, action pictures, low light and night-time pictures, indoor pictures and panoramas, based on specifications.

Personal Attributes

The Digital Photographer he is known for his versatility and creative vision in every shoot. Adaptable to varying lighting conditions and environments, he seamlessly transitions between automatic and manual modes on his camera, adjusting settings to suit each scene. From capturing portraits to landscapes, action shots, and panoramas, he meticulously composes every image to tell a compelling visual story. Beyond technical proficiency, his passion for photography drives him to continually refine his skills and stay updated with the latest advancements, ensuring his work consistently exceeds expectations.

Applicable National Occupational Standards (NOS)

Qualification Pack

NFD/MES/N0201: Perform Pre-production activities

Description

This NOS is designed to perform pre-production activities

Scope

The scope covers the following :

- Perform Pre-production activities

Elements and Performance Criteria

Perform Pre-production activities

To be competent, the user/individual on the job must be able to:

- PC1.** Perform concept development and planning by collaborating with clients, art directors, and other creatives to understand the desired visual style and message of the project.
- PC2.** Carry location scouting and research to find and secure suitable locations for shoots, considering factors like lighting, accessibility, and background elements.
- PC3.** Choose the right equipment and props to achieve the desired results.
- PC4.** Create visual representations of the intended shots to ensure clarity and efficiency during the shoot.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Analyze project briefs and client requirements to identify the desired visual style, message, and target audience.
- KU2.** Collaborate effectively with clients, art directors, and other creatives to refine the creative vision and ensure alignment with project goals.
- KU3.** Research diverse photography styles and techniques to select the most appropriate approach for the project.
- KU4.** Conduct extensive location scouting considering lighting conditions, accessibility, background elements, legal restrictions, and cultural sensitivities.
- KU5.** Evaluate the suitability of various locations based on budget, logistical constraints, and creative vision.
- KU6.** Demonstrate knowledge of different camera equipment, lenses, lighting setups, and props to achieve specific visual effects.
- KU7.** Justify equipment and prop choices based on their impact on the final image and project budget.
- KU8.** Create mood boards, storyboards, or sketches to visually communicate the intended shots and ensure clarity for all stakeholders.

Qualification Pack

- KU9.** Understand copyright and fair use regulations related to images and props used in the project.
- KU10.** Recognize safety hazards and implement appropriate precautions during location scouting and shoot preparation.
- KU11.** Be familiar with industry trends and emerging technologies in digital photography to stay competitive.
- KU12.** Maintain awareness of environmental regulations and ethical considerations when planning shoots.
- KU13.** Adapt pre-production activities based on budget constraints, time limitations, and unexpected challenges.
- KU14.** Communicate effectively with clients and team members throughout the pre-production process, ensuring transparency and collaboration.
- KU15.** Document all pre-production decisions and plans for future reference and evaluation.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and interpret project briefs, scripts, storyboards, and other written materials to accurately understand project requirements.
- GS2.** Communicate clearly and concisely in written reports, emails, and proposals to convey ideas and information effectively.
- GS3.** Research information related to project topics, locations, and equipment using online and offline resources.
- GS4.** Prepare detailed shot lists and equipment lists specifying technical specifications and quantities.
- GS5.** Ask clarifying questions and actively listen to clients, art directors, and team members to gather information and feedback.
- GS6.** Explain technical concepts and photography principles to clients and non-technical team members in clear and understandable language.
- GS7.** Effectively present pre-production ideas and plans during meetings and discussions.
- GS8.** Negotiate with clients and vendors to secure locations, equipment, and props within budget and schedule constraints.
- GS9.** Collaborate effectively with clients, art directors, and other creatives to develop shared vision and goals for the project.
- GS10.** Plan and organize pre-production tasks effectively, managing deadlines and resources efficiently.
- GS11.** Demonstrate customer centricity by understanding client needs and exceeding expectations.
- GS12.** Solve problems creatively and proactively, making adjustments to plans based on unforeseen circumstances.
- GS13.** Think analytically to assess visual elements, locations, and equipment options in relation to project objectives.
- GS14.** Think critically to evaluate pre-production plans and identify potential risks and challenges.
- GS15.** Maintain positive and professional relationships with all stakeholders involved in the project.

Qualification Pack

- GS16.** Work independently and as part of a team, adapting to different work styles and personalities.
- GS17.** Manage time effectively and meet deadlines consistently.
- GS18.** Show a willingness to learn new skills and techniques to stay up-to-date with current industry trends.

NFD/MES/N0202: Capture images using digital cameras or other imaging devices (Production Phase)

Description

This NOS is designed to perform capturing images using digital cameras or other imaging devices

Scope

The scope covers the following :

- Capture images using digital cameras or other imaging devices (Production Phase)

Elements and Performance Criteria

Capture images using digital cameras or other imaging devices

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate proficiency in operating digital cameras and imaging devices.
- PC2.** Capture high-quality images with proper focus, exposure, and composition.
- PC3.** Adapt camera settings to different environments and lighting conditions.
- PC4.** Demonstrate high technical proficiency in operating digital cameras and imaging devices.
- PC5.** Achieve consistent and accurate exposure, focus, and framing in captured images.
- PC6.** Utilises the full range of camera settings to adapt to various shooting conditions.
- PC7.** Apply a deep understanding of composition principles, incorporating elements such as the rule of thirds, leading lines, and framing.
- PC8.** Demonstrate creativity in framing shots to capture unique perspectives and visually engaging content.
- PC9.** Adjust composition to suit the subject matter and convey the desired narrative.
- PC10.** Adapt to different environments and lighting conditions to capture high-quality images.
- PC11.** Modify camera settings dynamically to accommodate challenging lighting situations, including low light and high contrast scenarios.
- PC12.** Ensure images are visually compelling regardless of the shooting environment.
- PC13.** Achieve precise focus on the subject, considering depth of field for creative and storytelling purposes.
- PC14.** Utilise depth of field effectively to emphasise or de-emphasise specific elements within the frame.
- PC15.** Demonstrate control over focus points to enhance image clarity and impact.
- PC16.** Discuss the subject matter and context before capturing images.
- PC17.** Adjust the photographic approach based on the characteristics and requirements of the subject.
- PC18.** Capture images that align with the intended purpose, whether for artistic expression or specific client needs.
- PC19.** Achieve a consistent quality of captured images across different shooting sessions.

Qualification Pack

- PC20.** Ensure that specific styles or requirements are reproducible, maintaining a cohesive look for a series or project.
- PC21.** Adhere to established standards and guidelines for image quality.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Operate various digital cameras and imaging devices proficiently, demonstrating an understanding of their functionalities and limitations.
- KU2.** Explain the principles of exposure, including aperture, shutter speed, and ISO, and their impact on image quality.
- KU3.** Apply knowledge of focus modes and depth of field control to achieve desired visual effects.
- KU4.** Articulate the rule of thirds, leading lines, and other composition principles for visually impactful images.
- KU5.** Identify and explain lighting conditions (natural, artificial, mixed) and their influence on image capture.
- KU6.** Discuss the ethical considerations and legal boundaries associated with digital photography.
- KU7.** Describe various image file formats (JPEG, RAW, etc.) and their application suitability.
- KU8.** Explain post-processing techniques and their potential to enhance captured images.
- KU9.** Identify and discuss influential photographers and their styles to develop personal aesthetics.
- KU10.** Recognize industry standards and best practices for image quality and presentation.
- KU11.** Understand legal requirements regarding copyright, intellectual property, and image usage.
- KU12.** Identify potential hazards and safety protocols associated with shooting in various environments.
- KU13.** Collaborate effectively with clients, colleagues, and creative teams to understand and fulfil project requirements.
- KU14.** Adapt photographic approach to specific deadlines, budgets, and project constraints.
- KU15.** Utilize appropriate organizational tools and resources for image storage, workflow management, and documentation.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and comprehend technical manuals, industry publications, and project briefs.
- GS2.** Clearly and concisely explain technical concepts to clients and colleagues.
- GS3.** Effectively document shooting details, settings used, and post-processing workflow.
- GS4.** Deliver persuasive presentations showcasing photographic portfolio and capabilities.
- GS5.** Actively listen to client feedback and incorporate it into revisions.
- GS6.** Maintain clear and professional written communication in emails, proposals, and contracts.
- GS7.** Make well-informed decisions based on technical knowledge and understanding of project requirements.

Qualification Pack

- GS8.** Plan and organize shooting sessions effectively, considering time constraints, logistical challenges, and equipment needs.
- GS9.** Demonstrate customer-centricity by understanding client needs and exceeding expectations.
- GS10.** Solve problems creatively and troubleshoot technical issues during shoots.
- GS11.** Think critically about the potential of composition, lighting, and storytelling to achieve desired results.
- GS12.** Analyze feedback constructively and use it to improve skills and approach.
- GS13.** Work effectively with diverse teams, including clients, stylists, assistants, and models.
- GS14.** Adapt to changing situations and challenges with flexibility and resourcefulness.
- GS15.** Demonstrate a strong work ethic, reliability, and commitment to deadlines.
- GS16.** Manage time effectively and prioritize tasks to ensure efficient workflow.
- GS17.** Continuously learn and stay updated with new technologies, trends, and techniques in the photography industry.

NFD/MES/N0203: Apply knowledge of composition, lighting, and other photographic elements.

Description

This NOS is designed to apply knowledge of composition, lighting, and other photographic elements.

Scope

The scope covers the following :

- Apply Knowledge of Composition, Lighting, and Photographic Elements

Elements and Performance Criteria

Apply knowledge of composition, lighting, and photographic elements

To be competent, the user/individual on the job must be able to:

- PC1.** Utilise a strong understanding of composition principles, including balance, symmetry, and leading lines.
- PC2.** Apply knowledge of lighting techniques to enhance the visual impact of photographs.
- PC3.** Demonstrate creativity in framing shots and using other photographic elements effectively.
- PC4.** Identify and apply the rule of thirds, leading lines, symmetry, and other composition techniques in photography.
- PC5.** Create well-composed images that convey a strong visual impact and engage the viewer.
- PC6.** Adjust lighting settings effectively to achieve the desired mood and atmosphere in photographs.
- PC7.** Demonstrate the ability to work with natural light, artificial light sources, and various lighting conditions.
- PC8.** Experiment with creative techniques such as depth of field, long exposure, and framing to enhance visual storytelling.
- PC9.** Showcase a diverse range of creative approaches in the portfolio.
- PC10.** Incorporate colour, texture, perspective, and contrast to add depth and interest to photographs.
- PC11.** Show versatility in adapting photographic elements to different genres and styles.
- PC12.** Tailor composition and lighting to suit specific photography genres (e.g., portrait, landscape, product).
- PC13.** Maintain a high level of technical proficiency in composition and lighting.
- PC14.** Ensure that images are well-exposed, sharp, and free from distracting elements.
- PC15.** Gather feedback from clients and colleagues regarding the composition and lighting of photographs.
- PC16.** Demonstrate the ability to incorporate feedback and continuously improve.

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** Apply principles of composition like balance, symmetry, leading lines, rule of thirds, and negative space to create visually appealing photographs.
- KU2.** Understand and utilise various lighting techniques (natural, artificial, flash) to control mood, atmosphere, and focus in photographs.
- KU3.** Explain the impact of photographic elements like depth of field, exposure, shutter speed, aperture, color, texture, perspective, and contrast on storytelling and visual interest.
- KU4.** Analyse the relationship between composition, lighting, and specific photography genres (portrait, landscape, product) to tailor your approach.
- KU5.** Discuss technical aspects of image quality like sharpness, exposure, noise, and digital workflow for optimal results.
- KU6.** Compare and contrast the effectiveness of different composition and lighting choices based on artistic intent and target audience.
- KU7.** Evaluate the creative use of photographic elements in existing works and identify opportunities for experimentation in your own photography.
- KU8.** Adapt composition and lighting techniques to meet client specifications, project requirements, and brand guidelines.
- KU9.** Explain complex photographic concepts and technical details to clients and colleagues in a clear and concise manner.
- KU10.** Collaborate effectively with other professionals like stylists, makeup artists, and editors to achieve the desired visual outcome.
- KU11.** Critically evaluate feedback on composition and lighting from clients and colleagues to refine your skills and artistic vision.
- KU12.** Maintain ethical practices in photography, considering copyright, privacy, and safety during shoots and editing.
- KU13.** Demonstrate professionalism by upholding deadlines, managing equipment effectively, and presenting work according to industry standards.
- KU14.** Stay updated on emerging trends and technologies in digital photography through ongoing learning and professional development.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read, interpret, and apply technical documentation, photography guides, and client briefs effectively.
- GS2.** Clearly articulate photography concepts, ideas, and technical aspects to clients and colleagues in written and spoken formats.
- GS3.** Actively listen to client feedback and instructions, asking clarifying questions when needed.
- GS4.** Write concise and informative captions, summaries, and reports related to photographic projects.
- GS5.** Effectively present photographic work and explain creative choices to clients and audiences.
- GS6.** Make informed decisions about composition, lighting, and technical settings based on specific project requirements and artistic vision.

Qualification Pack

- GS7.** Plan and organize shoots effectively, considering scheduling, equipment needs, and potential contingencies.
- GS8.** Demonstrate a client-centric approach, understanding and prioritizing their needs and preferences.
- GS9.** Solve problems creatively and adapt to unexpected challenges during shoots and editing.
- GS10.** Analyze photographs critically, identifying areas for improvement and learning from feedback.
- GS11.** Consider the ethical implications of photographic decisions: privacy, copyright, and representation.
- GS12.** Work effectively with team members, including stylists, makeup artists, and editors, contributing collaboratively to achieve the desired outcome.
- GS13.** Manage time effectively, meeting deadlines and delivering projects according to agreed-upon timelines.
- GS14.** Maintain a professional demeanour, communicating respectfully and building positive relationships with clients and colleagues.
- GS15.** Continuously learn and develop photography skills through independent study, workshops, and professional development opportunities.
- GS16.** Manage and maintain photographic equipment properly, ensuring its safe and efficient use.
- GS17.** Utilize photo editing software (e.g., Adobe Photoshop, Lightroom) to enhance and refine photographs while maintaining ethical standards.
- GS18.** Understand basic business principles relevant to freelance photography, such as pricing, contracts, and marketing.

NFD/MES/N0204: Use photo editing software for post-processing and enhancement.

Description

This NOS is designed to perform photo editing software for post-processing and enhancement.

Scope

The scope covers the following :

- Use Photo Editing Software for Post-Processing and Enhancement

Elements and Performance Criteria

Use photo editing software for post-processing and enhancement

To be competent, the user/individual on the job must be able to:

- PC1.** Navigate and utilise photo editing software (e.g., Adobe Photoshop, Lightroom).
- PC2.** Edit and enhance images to achieve desired effects while maintaining a natural appearance.
- PC3.** Retouch images skillfully, addressing imperfections and optimising visual appeal.
- PC4.** Demonstrate advanced proficiency in using industry-standard photo editing software.
- PC5.** Apply a range of editing techniques to enhance and optimise images.
- PC6.** Demonstrate the ability to adjust colour balance, contrast, and saturation effectively.
- PC7.** Utilise retouching tools to remove imperfections, blemishes, or distractions while maintaining a natural appearance.
- PC8.** Demonstrate skill in addressing specific client or project requirements through retouching.
- PC9.** Incorporate creative editing techniques to achieve unique and visually striking effects.
- PC10.** Demonstrate the ability to experiment with different styles while maintaining a consistent quality standard.
- PC11.** Maintain consistency in editing style across a series of images or projects, ensuring a cohesive visual narrative.
- PC12.** Adapt editing style based on project requirements and client preferences.
- PC13.** Develop an efficient and organised workflow in the editing process, minimising turnaround time without compromising quality.
- PC14.** Utilise keyboard shortcuts and other time-saving features to enhance productivity.
- PC15.** Practice effective file management practices, including naming conventions and folder organisation.
- PC16.** Implement version control to keep track of edits and variations during the editing process.
- PC17.** Exhibit knowledge of different image formats and selects the appropriate format based on the intended use or distribution.
- PC18.** Optimise images for various platforms, considering file size and resolution.
- PC19.** Review the edited images to ensure quality and consistency.
- PC20.** Rectify any errors or discrepancies in the editing process before delivering the final product.

Qualification Pack

- PC21.** Incorporate feedback and revisions into the editing process to achieve client satisfaction.
- PC22.** Seek opportunities for professional development to enhance editing skills.
- PC23.** Manage time effectively to meet project deadlines for the delivery of edited images.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Explain the principles of digital photography and image manipulation.
- KU2.** Demonstrate proficiency in various editing tools and functions within chosen photo editing software.
- KU3.** Understand the impact of adjustments on colour, contrast, saturation, lighting, and exposure.
- KU4.** Identify and differentiate between various retouching techniques for different skin types and textures.
- KU5.** Articulate the aesthetic considerations and potential pitfalls of applying creative editing effects.
- KU6.** Explain the purpose and benefits of maintaining consistency in editing style across projects.
- KU7.** Discuss different file formats and their suitable applications based on resolution, compression, and intended use.
- KU8.** Identify best practices for optimizing images for specific platforms (web, print, social media) considering file size and quality.
- KU9.** Explain the importance of effective feedback incorporation and version control in the editing process.
- KU10.** Discuss strategies for time management and efficient workflow optimization within the editing environment.
- KU11.** Identify and understand industry-specific standards and workflows for photo editing.
- KU12.** Demonstrate awareness of common client requirements and preferences in different photography genres.
- KU13.** Explain copyright and intellectual property rights related to photographic content and image manipulation.
- KU14.** Discuss ethical considerations regarding retouching and image manipulation in photography.
- KU15.** Understand data security and privacy practices relevant to handling and storing digital images.
- KU16.** Identify potential collaborations and professional development opportunities for digital photographers.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and comprehend technical documentation related to photo editing software and photography practices.
- GS2.** Communicate clearly and concisely, both verbally and in writing, with clients, colleagues, and collaborators about editing needs, revisions, and project details.

Qualification Pack

- GS3.** Actively listen to client feedback and instructions, asking clarifying questions when needed.
- GS4.** Prepare and deliver professional presentations showcasing edited images or explaining editing techniques.
- GS5.** Maintain accurate and organized written records of project details, edits, and client communication.
- GS6.** Analyze different editing approaches and select the most suitable option based on project goals, client preferences, and technical feasibility.
- GS7.** Plan and organize the editing workflow efficiently, prioritizing tasks and managing time effectively.
- GS8.** Anticipate potential challenges during the editing process and develop contingency plans to address them.
- GS9.** Track project progress and adjust the workflow to ensure quality and timely delivery.
- GS10.** Build positive relationships with clients by demonstrating a genuine interest in their needs and expectations.
- GS11.** Actively seek and listen to client feedback throughout the editing process.
- GS12.** Be responsive to client inquiries and requests, providing clear and timely communication.
- GS13.** Deliver edited images that meet or exceed client expectations while adhering to ethical and professional standards.
- GS14.** Go the extra mile to provide exceptional service and build client loyalty.
- GS15.** Identify and diagnose technical issues encountered during the editing process, troubleshooting them independently or seeking assistance when needed.
- GS16.** Analyze feedback from clients and critics to identify areas for improvement in editing techniques.
- GS17.** Experiment with different editing techniques and tools to solve specific challenges or achieve desired effects.
- GS18.** Think critically about the aesthetics and message conveyed by the edited images, making adjustments to enhance visual impact.
- GS19.** Adapt editing approaches based on the unique characteristics of each image and project.
- GS20.** Evaluate the effectiveness of different editing techniques in achieving desired outcomes.
- GS21.** Analyze industry trends and best practices in photo editing to stay current with new developments.
- GS22.** Actively seek feedback on editing skills and identify areas for personal and professional development.
- GS23.** Learn and apply new editing techniques and software features effectively.
- GS24.** Engage in self-reflection to continuously improve the quality and consistency of editing work.
- GS25.** Work effectively both independently and collaboratively within a team environment.
- GS26.** Demonstrate professionalism in appearance, communication, and work ethic.
- GS27.** Meet deadlines consistently and deliver high-quality work.
- GS28.** Adapt to changing priorities and manage time effectively under pressure.
- GS29.** Maintain a positive and proactive attitude toward work and challenges.

Qualification Pack

NFD/MES/N0205: Maintain and manage photography equipment.

Description

This NOS is designed to maintain and manage photography equipment.

Scope

The scope covers the following :

- Maintain and manage photography equipment.

Elements and Performance Criteria

Maintain and manage photography equipment.

To be competent, the user/individual on the job must be able to:

- PC1.** Inspect and maintain digital cameras, lenses, and other photography equipment.
- PC2.** Ensure equipment is clean, calibrated, and in optimal working condition.
- PC3.** Manage equipment inventory and communicate any repair or replacement needs.
- PC4.** Conduct thorough checks on digital cameras, lenses, lighting equipment, and other accessories to promptly identify and address any issues.
- PC5.** Perform routine cleaning and upkeep of equipment to ensure optimal functionality.
- PC6.** Adhere to the manufacturer's equipment maintenance guidelines and follow established calibration and adjustment protocols.
- PC7.** Maintain a comprehensive and up-to-date photography equipment inventory, including serial numbers, specifications, and conditions.
- PC8.** Implement an organised system for tracking equipment usage, availability, and scheduling for individual and team use.
- PC9.** Monitor and replenish consumables, such as batteries, memory cards, and cleaning supplies, promptly.
- PC10.** Transport and handle photography equipment during transit to and from locations.
- PC11.** Utilise appropriate protective cases and packaging to prevent damage during transportation.
- PC12.** Ensure secure and climate-controlled storage for equipment to minimise the risk of environmental damage.
- PC13.** Troubleshoot common equipment malfunctions and perform basic repairs when feasible.
- PC14.** Collaborate with technical support or specialised technicians for more complex repairs, adhering to established communication protocols.
- PC15.** Maintain a record of equipment issues, repairs, and resolutions for future reference and continuous improvement.
- PC16.** Integrate new equipment seamlessly into existing workflows, ensuring compatibility with software and other tools used in the production process.
- PC17.** Collaborate with relevant stakeholders to assess the impact of equipment upgrades on budget and project timelines.

Qualification Pack

- PC18.** Provide training and guidelines to team members on properly using, handling, and maintaining photography equipment.
- PC19.** Develop and maintain comprehensive documentation, including user manuals and troubleshooting guides, to support team members in equipment-related matters.
- PC20.** Ensure all team members know and adhere to safety protocols and best practices for equipment usage.
- PC21.** Collaborate with relevant stakeholders to develop and manage budgets for photography equipment maintenance, repairs, and upgrades.
- PC22.** Seek cost-effective solutions without compromising the quality and performance of the equipment.
- PC23.** Review and reports on equipment-related expenditures, identifying areas for optimisation.
- PC24.** Ensure that all photography equipment complies with health and safety standards and regulations.
- PC25.** Implement safety measures, such as proper cable management and securing tripods, to prevent accidents and injuries during shoots.
- PC26.** Conduct regular safety audits and address any non-compliance issues promptly.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Analyse the functions and operating principles of various digital cameras, lenses, and photography equipment.
- KU2.** Explain proper cleaning techniques for different types of equipment, considering materials and potential damages.
- KU3.** Describe calibration procedures for lenses and other equipment according to manufacturer guidelines.
- KU4.** Interpret equipment specifications and technical data to assess compatibility and suitability for specific projects.
- KU5.** Explain common equipment malfunctions and troubleshooting steps for basic repairs.
- KU6.** Describe safe handling and storage practices for photography equipment to prevent damage and ensure longevity.
- KU7.** Explain health and safety standards and regulations for photography equipment and working environments.
- KU8.** Discuss cost-effective strategies for equipment maintenance, repairs, and upgrades.
- KU9.** Understand the impact of environmental factors (e.g., temperature, humidity) on equipment performance and storage.
- KU10.** Explain the principles of digital imaging and sensors relevant to image quality and equipment selection.
- KU11.** Describe different lighting equipment options and their characteristics (e.g., continuous vs. strobe, flash power).
- KU12.** Explain basic maintenance of studio equipment, including power supplies, backgrounds, and modifiers.
- KU13.** Understand data backup and recovery procedures for protecting captured images and metadata.

Qualification Pack

- KU14.** Describe emerging technologies and advancements in photography equipment and their potential impact on workflows.
- KU15.** Understand internal policies and procedures related to equipment usage, maintenance, and inventory management.
- KU16.** Explain communication protocols for reporting equipment issues, requesting repairs, and collaborating with technical support.
- KU17.** Describe the impact of equipment choices on project budgets, timelines, and overall production quality.
- KU18.** Explain the importance of team collaboration in ensuring proper equipment care and utilisation.
- KU19.** Describe the role of documentation in knowledge sharing and efficient equipment management within the team.
- KU20.** Explain insurance policies and procedures for protecting valuable equipment during shoots and storage.
- KU21.** Describe protocols for equipment sharing and conflict resolution within the team.
- KU22.** Explain sustainability practices for minimising equipment waste and promoting responsible disposal.
- KU23.** Understand accessibility considerations for photographers with disabilities when selecting and using equipment.
- KU24.** Explain copyright and intellectual property rights related to images captured with company equipment.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and understand technical manuals, equipment specifications, and safety instructions.
- GS2.** Communicate equipment needs, issues, and solutions to colleagues, clients, and technical support.
- GS3.** Prepare and deliver training sessions on equipment usage and maintenance to team members.
- GS4.** Effectively document equipment maintenance procedures, troubleshooting steps, and inventory logs.
- GS5.** Actively listen and ask clarifying questions to understand stakeholders' needs and concerns regarding equipment.
- GS6.** Analyze equipment conditions and choose appropriate maintenance, repair, or replacement strategies.
- GS7.** Evaluate different vendors and options when purchasing or renting equipment based on budget, quality, and project requirements.
- GS8.** Make informed decisions on equipment usage during shoots, balancing quality, safety, and efficiency.
- GS9.** Prioritize tasks and manage time effectively to ensure equipment is available and maintained correctly.
- GS10.** Identify and assess potential risks associated with equipment usage and implement mitigation strategies.

Qualification Pack

- GS11.** Develop and maintain a comprehensive inventory system for tracking equipment usage, availability, and condition.
- GS12.** Plan and schedule equipment maintenance and repairs to minimize downtime and disruptions.
- GS13.** Organize equipment transportation and storage to ensure safe handling and efficient access.
- GS14.** Develop and implement routine cleaning, calibration, and backup procedures workflows.
- GS15.** Anticipate equipment needs for upcoming projects and make arrangements accordingly.
- GS16.** Identify and diagnose common equipment malfunctions and troubleshoot issues independently or collaboratively.
- GS17.** Develop creative solutions to overcome equipment limitations or unexpected challenges during shoots.
- GS18.** Analyze equipment-related problems, identify root causes, and implement corrective actions.
- GS19.** Adapt equipment usage and workflows to different shooting environments and unforeseen circumstances.
- GS20.** Remain calm and collected under pressure when dealing with equipment malfunctions or emergencies.
- GS21.** Analyze equipment data and performance metrics to identify trends and potential issues.
- GS22.** Evaluate cost-benefit analyses for equipment purchases, upgrades, and repairs.
- GS23.** Assess the impact of equipment choices on project budgets, timelines, and overall quality.
- GS24.** Analyze safety audits and reports to identify areas for improvement and enhance equipment safety protocols.
- GS25.** Stay informed about emerging technologies and their potential impact on equipment and workflows.
- GS26.** Critically evaluate information from equipment manuals, vendor recommendations, and online resources.
- GS27.** Question assumptions and challenge traditional equipment usage and maintenance approaches.
- GS28.** Propose alternative solutions and improvements to existing equipment management practices.
- GS29.** Identify potential biases or limitations in equipment specifications and marketing materials.
- GS30.** Reflect on personal experiences and best practices to continuously improve equipment proficiency.
- GS31.** Collaborate effectively with team members, technical support, and stakeholders to achieve shared goals.
- GS32.** Maintain a positive and professional attitude, demonstrating a strong work ethic and accountability.
- GS33.** Adapt to changing situations and be flexible in your approach to equipment management.
- GS34.** Show initiative and willingness to learn new technologies and equipment protocols.
- GS35.** Promote a safety culture and responsibility within the team regarding equipment usage.

NFD/MES/N0206: Adhere to legal and ethical considerations in photography.

Description

This NOS is designed to follow legal and ethical considerations in photography.

Scope

The scope covers the following :

- Adhere to Legal and Ethical Considerations in Photography

Elements and Performance Criteria

Adhere to legal and ethical considerations in photography

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate understanding and compliance with copyright laws and licensing agreements.
- PC2.** Maintain privacy and obtain necessary permissions when photographing individuals or private property.
- PC3.** Follow ethical standards in all aspects of photography, including image manipulation.
- PC4.** Articulate key legal concepts and ethical considerations related to photography during discussions and assessments.
- PC5.** Where applicable, record obtained permissions and signed releases for subjects and locations.
- PC6.** Demonstrate diligence in obtaining necessary permissions and releases before initiating photography projects, ensuring compliance with legal and ethical standards.
- PC7.** Maintain confidentiality regarding sensitive information related to clients, projects, or subjects.
- PC8.** Showcase examples where images accurately represent the subjects and avoid intentional misrepresentation or manipulation.
- PC9.** Demonstrate cultural awareness and sensitivity, showcasing an understanding of how different cultural norms may impact the ethical considerations in photography.
- PC10.** Show awareness and adherence to intellectual property rights, including proper attribution and licensing of third-party content.
- PC11.** Updates practice to align with current industry standards, demonstrating a commitment to continuous learning and improvement.
- PC12.** Display the ability to recognise and navigate ethical challenges, making decisions and prioritising ethical considerations in photography.
- PC13.** Document participation in relevant workshops, training sessions, or courses addressing legal and ethical considerations in photography.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Explain the key concepts of copyright law, including fair use, licensing agreements, and public domain works.
- KU2.** Describe different types of releases used in photography (e.g., model releases, property releases, location releases) and their purposes.
- KU3.** Analyse the ethical implications of image manipulation, considering truthfulness, consent, and potential harm.
- KU4.** Identify relevant national and international laws and regulations about photography, privacy, and data protection.
- KU5.** Explain cultural norms and sensitivities related to photography in various contexts (e.g., religious sites, cultural ceremonies, private spaces).
- KU6.** Understand the principles of intellectual property rights, including trademarks, patents, and attribution requirements.
- KU7.** Describe ethical considerations in commercial photography, advertising, and marketing campaigns.
- KU8.** Explain potential legal and ethical risks associated with drone photography and other emerging technologies.
- KU9.** Understand and comply with internal company policies and procedures regarding image usage, releases, and copyright.
- KU10.** Explain the organisation's approach to ethical conduct and social responsibility in photography projects.
- KU11.** Describe established communication protocols for obtaining permissions, managing releases, and addressing ethical concerns.
- KU12.** Explain the role of legal counsel and risk management in mitigating potential legal issues related to photography.
- KU13.** Understand the impact of legal and ethical considerations on project budgets, timelines, and overall image reputation.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and interpret complex legal documents, including copyright law summaries, licensing agreements, and release forms.
- GS2.** Effectively document obtained permissions, releases, and communication regarding legal and ethical aspects of projects.
- GS3.** Analyze potential legal and ethical risks associated with different photography approaches, choosing the safest and most ethical options.
- GS4.** Make informed decisions on image manipulation, balancing creative intent with ethical principles and potential harm to individuals or representations.
- GS5.** Evaluate situations requiring permissions and releases, demonstrating an understanding of when and what type is necessary.
- GS6.** Conduct research and identify potential legal and ethical concerns before initiating any photography project.
- GS7.** Develop a plan to obtain necessary permissions and releases before photo shoots.

Qualification Pack

- GS8.** Create and maintain an organized system for storing permission documents, releases, and legal agreements.
- GS9.** Integrate legal and ethical considerations into project timelines and workflows to ensure compliance.
- GS10.** Identify potential legal or ethical issues during planning or shoots, promptly seeking solutions to mitigate risks.
- GS11.** Collaborate with legal counsel or experts to troubleshoot complex legal concerns or ethical dilemmas.
- GS12.** Adapt photography approaches to address unexpected situations, prioritizing legal and ethical compliance.
- GS13.** Learn from ethical breaches or legal issues by analyzing causes and implementing preventive measures for future projects.
- GS14.** Analyze subject matter, project briefs, and cultural contexts to identify potential ethical concerns and compliance needs.
- GS15.** Evaluate legal consequences of different image manipulation techniques, considering fair use, distortion, and privacy implications.
- GS16.** Assess cultural representations within images, identifying potential biases or insensitive portrayals.
- GS17.** Analyze industry trends and emerging technologies to understand their legal and ethical implications for photography practices.
- GS18.** Reflect on personal biases and assumptions to ensure ethical decision-making throughout the photography process.
- GS19.** Critically evaluate information from legal documents, industry guidelines, and ethical frameworks.
- GS20.** Identify potential conflicts of interest or unethical practices within the industry, advocating for change and transparency.

NFD/MES/N0207: Communicate effectively with clients and team members.

Description

This NOS is designed to communicate effectively with clients and team members.

Scope

The scope covers the following :

- Communicate effectively with clients and team members.

Elements and Performance Criteria

Communicate effectively with clients and team members

To be competent, the user/individual on the job must be able to:

- PC1.** Engage in clear and professional communication with clients to understand project requirements.
- PC2.** Convey creative ideas and concepts to clients and team members.
- PC3.** Collaborate with team members to coordinate and execute photography projects.
- PC4.** Respond promptly to client feedback and adjusts approach accordingly.
- PC5.** Demonstrate strong interpersonal and client management skills.
- PC6.** Seek information on the latest trends and advancements in digital photography.
- PC7.** Participate in industry-related workshops, conferences, and training programs.
- PC8.** Adapt to changes in industry standards and best practices.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Analyze client briefs and project specifications to identify key requirements and objectives.
- KU2.** Articulate creative concepts and solutions using clear, concise, and jargon-free language.
- KU3.** Collaborate effectively with team members, respecting diverse perspectives and contributing constructively.
- KU4.** Negotiate and compromise to achieve mutually beneficial outcomes with clients and team members.
- KU5.** Emphasize active listening and provide timely feedback to maintain positive working relationships.
- KU6.** Identify and understand the latest trends and advancements in digital photography technology and aesthetics.
- KU7.** Evaluate the relevance and applicability of new learnings to current projects and future professional development.

Qualification Pack

- KU8.** Adapt communication strategies to accommodate different personalities, cultural backgrounds, and communication styles.
- KU9.** Demonstrate cultural sensitivity and awareness when working with diverse clients and colleagues.
- KU10.** Maintain professional ethics and confidentiality throughout all communication interactions.
- KU11.** Understand the legal and ethical implications of copyright and intellectual property in photography.
- KU12.** Explain the role of communication in brand management and client satisfaction.
- KU13.** Identify internal and external stakeholders relevant to photography projects and communication channels.
- KU14.** Recognize the potential impact of communication breakdowns on project timelines and budgets.
- KU15.** Apply effective communication strategies to manage time and resources efficiently.
- KU16.** Use various communication tools and platforms responsibly and effectively, including email, presentations, project management software, and social media.
- KU17.** Troubleshoot communication challenges and implement solutions to ensure clarity and understanding.
- KU18.** Continuously reflect on and improve communication skills through self-assessment and feedback.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and comprehend complex project briefs, technical specifications, and client feedback.
- GS2.** Write clear, concise, and grammatically correct emails, reports, proposals, and presentations.
- GS3.** Articulate ideas and concepts effectively in both written and oral communication.
- GS4.** Actively listen to understand information, perspectives, and concerns.
- GS5.** Ask pertinent questions to clarify information and gather feedback.
- GS6.** Participate constructively in meetings and discussions, sharing ideas and respecting others' opinions.
- GS7.** Negotiate and compromise to reach mutually agreeable solutions.
- GS8.** Provide and receive constructive feedback professionally and respectfully.
- GS9.** Build and maintain positive relationships with clients, colleagues, and stakeholders.
- GS10.** Adapt communication style to different audiences and situations.
- GS11.** Utilize technology effectively for communication, collaboration, and information sharing.
- GS12.** Manage and organize information efficiently using various tools and resources.
- GS13.** Think critically to analyze information, identify problems, and propose solutions.
- GS14.** Solve problems creatively and collaboratively.
- GS15.** Make informed decisions based on available information and analysis.
- GS16.** Learn and adapt to new technologies, trends, and best practices.
- GS17.** Work independently and as part of a team effectively.

Qualification Pack

GS18. Show initiative and take ownership of tasks and projects.

GS19. Meet deadlines consistently and deliver high-quality work.

NFD/MES/N0304: Follow Workplace Health & Safety Protocols

Description

This NOS is designed to follow workplace health & safety protocols

Scope

The scope covers the following :

- Follow the health, safety and security risks prevalent in the workplace

Elements and Performance Criteria

Follow the health, safety and security risks prevalent in the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** Adhere to established safety protocols, promptly reporting any identified hazards to relevant authorities and consistently avoiding unsafe practices.
- PC2.** Advocate for and maintain a healthy posture during work activities, incorporating regular breaks to mitigate the risk of work-related injuries.
- PC3.** Prioritize proper eye care by taking regular breaks to prevent eye strain while working on screens, ensuring sustained productivity and well-being.
- PC4.** Comply with government health and safety norms and policies, including familiarity with emergency procedures such as evacuation protocols for illness, accidents, or fires.
- PC5.** Engage in relevant health and safety training programs to remain updated on workplace best practices, ensuring a proactive approach to safety measures.
- PC6.** Implement effective stress management techniques to sustain personal well-being and optimize productivity amidst workplace demands.
- PC7.** Recognize and respond to security signals, such as fire alarms, and familiarize oneself with designated safety locations like staircases, fire warden stations, and medical rooms.
- PC8.** Execute emergency procedures swiftly in the event of an accident or fire, ensuring personal and collective safety.
- PC9.** Take proactive measures to promptly address safety concerns as they arise, contributing to a secure work environment for oneself and others.
- PC10.** Uphold personal health and safety, as well as that of colleagues, through consistent adherence to precautionary measures and safety guidelines.
- PC11.** Demonstrate awareness of and responsiveness to safety-related protocols and instructions, maintaining a vigilant approach to workplace safety.
- PC12.** Contribute to a culture of safety by actively promoting and adhering to established safety practices, fostering a secure and conducive work environment.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Explain the importance of maintaining health and safety in the workplace.
- KU2.** Identify common health, safety, and security risks associated with video editing, including:
- KU3.** Analyze the potential consequences of neglecting health and safety protocols.
- KU4.** Describe relevant government health and safety regulations and policies.
- KU5.** Explain the benefits of participating in health and safety training programs.
- KU6.** Identify and assess different stress management techniques.
- KU7.** Explain the importance of a safety culture in the workplace.
- KU8.** Demonstrate proficiency in operating video editing equipment safely.
- KU9.** Implement proper workstation setup and ergonomics principles.
- KU10.** Utilize screen time management techniques to prevent eye strain.
- KU11.** Identify and report potential electrical hazards.
- KU12.** Implement basic cybersecurity practices to protect equipment and data.
- KU13.** Understand and follow emergency procedures for evacuation, fire drills, and first aid.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Follow established safety protocols and procedures.
- GS2.** Identify and report potential hazards to relevant authorities.
- GS3.** Advocate for and maintain a healthy work posture.
- GS4.** Take regular breaks to prevent eye strain and fatigue.
- GS5.** Demonstrate knowledge of emergency procedures and evacuation routes.
- GS6.** Implement stress management techniques to mitigate job-related stress.
- GS7.** Understand the importance of personal health and safety for productivity.
- GS8.** Take proactive measures to address safety concerns in the workplace.
- GS9.** Uphold personal and collective safety by adhering to precautions and guidelines.
- GS10.** Demonstrate awareness and responsiveness to safety protocols and instructions.
- GS11.** Actively promote and adhere to established safety practices.
- GS12.** Contribute to a positive safety culture through collaboration and communication.
- GS13.** Foster a secure and conducive work environment for colleagues and oneself.
- GS14.** Report safety concerns clearly and concisely to relevant authorities.
- GS15.** Advocate for safe work practices through verbal and written communication.
- GS16.** Participate in safety meetings and training programs actively.
- GS17.** Provide safety-related instructions and information to colleagues effectively.
- GS18.** Stay updated on workplace health and safety regulations and policies.
- GS19.** Participate in relevant training programs to acquire new safety knowledge and skills.
- GS20.** Adapt to changing safety protocols and procedures effectively.
- GS21.** Apply critical thinking skills to assess and address safety risks and concerns.
- GS22.** Identify potential safety hazards and analyze their risks.
- GS23.** Evaluate the effectiveness of existing safety protocols and procedures.

Qualification Pack

- GS24.** Make informed decisions to optimize safety measures and mitigate risks.
- GS25.** Take responsibility for personal safety and contribute to a safe work environment.

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
