NFD/MES/Q0301: Digital Video Editor

Brief Job Description

The Digital Video Editor edits raw digital video and audio footage and syncs soundtrack as per the specifications of the director of the production to produce a film, documentary or video in line with the script, genre, aesthetical guidelines and target audience preferences. The editor does this by using video editing software.

Personal Attributes

A successful digital video editor is a masterful blend of tech whiz and artistic storyteller. They wield editing software like a brush, crafting compelling narratives with pixel-perfect precision. Their critical eye hunts for inconsistencies, ensuring polished visuals, while their keen ear sculpts audio to perfection. But beyond technical prowess, they excel in collaboration, weaving feedback into their tapestry of creativity. Adaptability fuels their passion, as they embrace new challenges and trends, staying ahead in the ever-evolving world of video. In essence, a great editor is a problem-solver with an artist's soul, leaving their mark on every frame they touch.

Qualification Pack

NFD/MES/N0301: Carry out footage Selection and assembly

Description

This NOS is designed to perform footage Selection and assembly

Scope

The scope covers the following :

- Footage Selection and assembly

Elements and Performance Criteria

Footage Selection and assembly

To be competent, the user/individual on the job must be able to:

- PC1.** Select the most relevant and impactful footage while adhering to project timelines and budgets
- PC2.** Assemble footage in a way that aligns with the video's narrative and objectives, demonstrating strong pacing and flow.
- PC3.** Identify potential issues or gaps in footage and utilizes creative solutions to overcome them.
- PC4.** Maintain continuity and consistency throughout the edit, ensuring smooth transitions and adherence to editing guidelines.
- PC5.** manage large libraries of footage, prioritizes key shots, and maintains clear organization for revisions.
- PC6.** Collaborate with directors, producers, and other stakeholders to grasp the desired message, target audience, and tone of the video.
- PC7.** Analyze story flow, scene transitions, and shot requirements to plan editing strategies.
- PC8.** Label, categorize, and store raw footage effectively for easy retrieval and access during editing.
- PC9.** Assemble preliminary versions of the video based on the script and creative vision, identifying strong shots and potential editing points.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand non-linear editing (NLE) systems.
- KU2.** Apply basic editing techniques (cuts, dissolves, wipes, etc.).
- KU3.** Analyze and apply shot composition.
- KU4.** Adapt editing for different platforms (YouTube, broadcast, etc.).
- KU5.** Develop effective media management skills.
- KU6.** Utilize collaboration tools for video editing projects.
- KU7.** Understand storytelling fundamentals (narrative structure, character development, pacing, conflict resolution, tone and mood).

Qualification Pack

- KU8.** Apply visual aesthetics (color theory, composition, camera angles, lighting).
- KU9.** Demonstrate proficiency in video editing software (including importing footage, creating timelines, editing clips, adding transitions and effects, audio mixing, color correction, rendering and exporting videos).
- KU10.** Apply technical knowledge related to video editing (including video codecs, frame rates, resolutions, file formats, audio formats, compression techniques).
- KU11.** Troubleshoot common editing issues (including syncing issues, audio problems, rendering errors).
- KU12.** Understand project management principles in the context of video editing (including understanding project timelines, adhering to budgets, following workflow processes).
- KU13.** Communicate effectively with clients, directors, and producers regarding editing decisions and progress.
- KU14.** Demonstrate awareness of copyright laws and proper licensing procedures for music and footage.
- KU15.** Stay updated with current trends in editing styles, technology, and audience preferences.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and comprehend complex written materials such as scripts, storyboards, and technical specifications.
- GS2.** Write clear and concise instructions, notes, and feedback for colleagues and clients.
- GS3.** Communicate effectively with clients, directors, and producers verbally, explaining editing decisions and progress.
- GS4.** Actively listen to feedback and incorporate it into the editing process.
- GS5.** Present edited videos or ideas with confidence and clarity to stakeholders.
- GS6.** Analyze footage and make quick decisions about shot selection and editing choices.
- GS7.** Identify potential problems in the footage and develop creative solutions to overcome them.
- GS8.** Evaluate different editing options and choose the one that best serves the narrative and objectives.
- GS9.** Adapt to changes in client feedback or project requirements.
- GS10.** Prioritize tasks and meet deadlines effectively.
- GS11.** Plan the editing workflow based on the script, storyboard, and project timeline.
- GS12.** Organize large libraries of footage efficiently for easy retrieval and access.
- GS13.** Create and maintain detailed editing timelines with clear labels and annotations.
- GS14.** Effectively manage time and resources under pressure.
- GS15.** Anticipate potential challenges and proactively develop solutions.
- GS16.** Understand the needs and expectations of clients and stakeholders.
- GS17.** Provide excellent customer service by being responsive, professional, and accommodating.
- GS18.** Incorporate client feedback into the editing process in a collaborative manner.
- GS19.** Deliver edits that meet or exceed client expectations.
- GS20.** Build strong relationships with clients and stakeholders.

Qualification Pack

- GS21.** Analyze footage critically to identify key moments, emotions, and messages.
- GS22.** Think creatively and come up with innovative editing solutions.
- GS23.** Evaluate the effectiveness of different editing techniques and story choices.
- GS24.** Provide constructive feedback to colleagues and clients.
- GS25.** Continuously learn and adapt to new trends and technologies in video editing.

NFD/MES/N0302: Perform editing and post-production

Description

This NOS is designed to perform editing and post-production

Scope

The scope covers the following :

- Editing and post-production activities

Elements and Performance Criteria

Editing and post-production activities

To be competent, the user/individual on the job must be able to:

- PC1.** Use video editing software to create visually appealing and technically sound content.
- PC2.** Employ editing techniques like trimming, splicing, and adding transitions to create a seamless and engaging experience
- PC3.** Synchronise audio to video, adjust sound levels and add sound effects, music, and voice-overs to enhance the narrative and emotional impact.
- PC4.** Utilise colour correction tools to achieve consistent and visually appealing aesthetics throughout the video.
- PC5.** Add animations, graphics, or other visual elements to enhance the video's message and visual storytelling.
- PC6.** Adhere to project timelines and deadlines, delivering high-quality edited content in a timely manner.
- PC7.** Incorporate client or stakeholder feedback effectively to refine and enhance the final product.
- PC8.** Maintain a strong understanding of industry trends and continuously seek to enhance editing skills.
- PC9.** Take feedback, incorporate revision requests efficiently, and maintain a positive and collaborative approach throughout editing.
- PC10.** Present edited versions confidently, explain editing choices and incorporate suggestions into revisions while maintaining artistic vision.
- PC11.** Maintain clear and concise documentation track edits, decisions, and feedback throughout the process, ensuring smooth transitions and handover to other stages of production.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Analyse principles of visual storytelling and cinematic techniques for engaging narratives.
- KU2.** Operate professional video editing software proficiently for efficient post-production.
- KU3.** Synchronise audio with video seamlessly, employing sound design and editing techniques.

Qualification Pack

- KU4.** Utilise colour correction tools to achieve consistent and visually appealing aesthetics.
- KU5.** Integrate visual elements like graphics and animations to enhance message and storytelling.
- KU6.** Proactively incorporate editorial revisions, maintaining positive collaboration throughout.
- KU7.** Optimise video for different delivery platforms and diverse audiences, considering accessibility.
- KU8.** Manage and maintain digital assets efficiently for optimized workflow and data protection.
- KU9.** Apply ethical considerations in video editing and storytelling, upholding responsible practices.
- KU10.** Collaborate effectively with production team members, contributing actively and resolving conflicts constructively.
- KU11.** Employ advanced techniques like multi-cam editing, green screen compositing, and special effects.
- KU12.** Understand camera technologies and settings to work effectively with videographers.
- KU13.** Leverage online resources and tools for research, inspiration, and skill development.
- KU14.** Adapt to diverse project requirements, adjusting editing styles and workflows accordingly.
- KU15.** Present edited versions confidently, explaining artistic choices and incorporating suggestions.
- KU16.** Maintain clear and concise documentation throughout the editing process for smooth transitions.
- KU17.** Troubleshoot technical issues related to software, hardware, and file formats.
- KU18.** Promote a positive and productive work environment, fostering respectful communication.
- KU19.** Stay updated on industry trends and advancements in editing technology and techniques.
- KU20.** Develop a personal brand and portfolio showcasing editing skills and creative vision.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Interpret project briefs, scripts, and client feedback to understand objectives, audience, and tone.
- GS2.** Develop a narrative structure or storyboard to effectively communicate key messages visually.
- GS3.** Evaluate technical feasibility and resource constraints within project goals.
- GS4.** Utilise advanced features and workflows in editing software like Adobe Premiere Pro or Final Cut Pro accurately.
- GS5.** Apply editing tools such as trimming, splicing, color correction, and audio mixing effectively.
- GS6.** Export videos in appropriate formats and resolutions for various platforms.
- GS7.** Implement composition principles, framing techniques, and camera movement for impactful shots.
- GS8.** Apply colour theory and visual design elements for consistent and aesthetically pleasing visuals.
- GS9.** Use editing techniques like transitions, pacing, and rhythm to enhance storytelling and engagement.

Qualification Pack

- GS10.** Seamlessly synchronize audio and video tracks to maintain flow.
- GS11.** Adjust sound levels, balance music and voice-overs, and incorporate sound effects strategically for emotional impact.
- GS12.** Select or create music and audio elements to align with the video's mood and message.
- GS13.** Actively engage in discussions, clarify feedback ambiguities, and bridge creative gaps.
- GS14.** Confidently present edited versions, explaining artistic choices while being open to revisions.
- GS15.** Maintain clear and concise written communication in emails, reports, and documentation.
- GS16.** Collaborate effectively with directors, clients, producers, and team members.
- GS17.** Integrate diverse feedback perspectives to refine the final product.
- GS18.** Maintain a positive and professional attitude throughout collaboration.
- GS19.** Respond efficiently to revision requests while maintaining artistic vision.
- GS20.** Analyse audience feedback to enhance viewer engagement and adapt editing choices accordingly.

NFD/MES/N0303: Maintain Technical Quality and Manage Files

Description

This NOS is designed to maintain technical quality and manage files

Scope

The scope covers the following :

- Technical quality and file management

Elements and Performance Criteria

Technical quality and file management

To be competent, the user/individual on the job must be able to:

- PC1.** Ensure technical excellence in video editing, including resolution, frame rate, and aspect ratio.
- PC2.** Enhance visual appeal through effective colour correction and grading.
- PC3.** Ensure clear and balanced audio in the final video product.
- PC4.** Troubleshoot technical issues related to video editing software and hardware
- PC5.** Manage and organize project files efficiently, adhering to a systematic file naming and storage structure.
- PC6.** Implement effective version control and backup practices.
- PC7.** Optimize file sizes without compromising quality for efficient storage and delivery.
- PC8.** Update and maintain knowledge of the latest video editing technologies and tools.
- PC9.** Follow industry-standard protocols for video file formats, compression, and delivery.
- PC10.** Implement safe and secure backup procedures for project files and maintain proper version control.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Define the key concepts of video editing, including resolution, frame rate, aspect ratio, colour correction, grading, audio editing, and file management.
- KU2.** Explain the impact of different resolutions, frame rates, and aspect ratios on video quality and delivery.
- KU3.** Describe the colour correction and grading principles and their role in enhancing visual appeal.
- KU4.** Identify common audio issues in video editing and explain techniques to achieve clear and balanced audio.
- KU5.** Explain the importance of troubleshooting technical issues related to video editing software and hardware.

Qualification Pack

- KU6.** Describe the benefits and principles of effective file management, including systematic file naming and storage structures.
- KU7.** Explain the purpose and methods of video editing projects' version control and backup practices.
- KU8.** Discuss the importance of optimizing file sizes for efficient storage and delivery without compromising quality.
- KU9.** Describe the need to stay updated on the latest video editing technologies and tools and explain methods for learning about them.
- KU10.** Identify industry-standard protocols for video file formats, compression, and delivery, and explain their importance.
- KU11.** Explain the importance of safe and secure backup procedures for project files and maintaining proper version control to prevent data loss.
- KU12.** Analyse the impact of technical quality and file management on video productions' overall effectiveness and professionalism.
- KU13.** Compare and contrast different video editing software and hardware options based on their technical capabilities and features.
- KU14.** Evaluate the effectiveness of different file management strategies based on project requirements and workflow.
- KU15.** Synthesize knowledge of technical concepts, industry standards, and best practices to solve technical challenges in video editing projects.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read, interpret, and apply technical specifications, industry standards, and software manuals related to video editing and file management.
- GS2.** Write clear and concise reports, emails, and documentation related to technical aspects of video projects, file organization, and backup procedures.
- GS3.** Effectively communicate technical information and concepts to clients, colleagues, and other stakeholders clearly, concisely, and understandable.
- GS4.** Actively listen to feedback and instructions from clients and colleagues, clarifying points of confusion and adapting approaches as needed.
- GS5.** Present video concepts and edits effectively during project meetings and revisions, justifying design decisions and technical choices.
- GS6.** Analyze project requirements and specifications to identify technical needs and determine appropriate editing techniques, file formats, and storage solutions.
- GS7.** Plan and organize workflow efficiently, prioritizing tasks and managing multiple projects simultaneously while meeting deadlines.
- GS8.** Demonstrate customer centricity by understanding client needs and preferences, proactively suggesting solutions, and exceeding expectations.
- GS9.** Solve technical problems related to video editing software, hardware, and file management, working independently or with colleagues to find solutions.
- GS10.** Apply analytical and critical thinking skills to assess technical challenges, diagnose issues, and determine the most effective action.

Qualification Pack

- GS11.** Make informed decisions regarding technical aspects of video editing, balancing quality, file size, compatibility, and delivery requirements.
- GS12.** Adapt to changing technologies and workflows, demonstrating a willingness to learn new skills and update knowledge continuously.
- GS13.** Maintain a professional and collaborative work ethic, respecting colleagues and clients, providing constructive feedback, and contributing to a positive team environment.

NFD/MES/N0304: Follow Workplace Health & Safety Protocols

Description

This NOS is designed to follow workplace health & safety protocols

Scope

The scope covers the following :

- Follow the health, safety and security risks prevalent in the workplace

Elements and Performance Criteria

Follow the health, safety and security risks prevalent in the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** Adhere to established safety protocols, promptly reporting any identified hazards to relevant authorities and consistently avoiding unsafe practices.
- PC2.** Advocate for and maintain a healthy posture during work activities, incorporating regular breaks to mitigate the risk of work-related injuries.
- PC3.** Prioritize proper eye care by taking regular breaks to prevent eye strain while working on screens, ensuring sustained productivity and well-being.
- PC4.** Comply with government health and safety norms and policies, including familiarity with emergency procedures such as evacuation protocols for illness, accidents, or fires.
- PC5.** Engage in relevant health and safety training programs to remain updated on workplace best practices, ensuring a proactive approach to safety measures.
- PC6.** Implement effective stress management techniques to sustain personal well-being and optimize productivity amidst workplace demands.
- PC7.** Recognize and respond to security signals, such as fire alarms, and familiarize oneself with designated safety locations like staircases, fire warden stations, and medical rooms.
- PC8.** Execute emergency procedures swiftly in the event of an accident or fire, ensuring personal and collective safety.
- PC9.** Take proactive measures to promptly address safety concerns as they arise, contributing to a secure work environment for oneself and others.
- PC10.** Uphold personal health and safety, as well as that of colleagues, through consistent adherence to precautionary measures and safety guidelines.
- PC11.** Demonstrate awareness of and responsiveness to safety-related protocols and instructions, maintaining a vigilant approach to workplace safety.
- PC12.** Contribute to a culture of safety by actively promoting and adhering to established safety practices, fostering a secure and conducive work environment.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Explain the importance of maintaining health and safety in the workplace.
- KU2.** Identify common health, safety, and security risks associated with video editing, including:
- KU3.** Analyze the potential consequences of neglecting health and safety protocols.
- KU4.** Describe relevant government health and safety regulations and policies.
- KU5.** Explain the benefits of participating in health and safety training programs.
- KU6.** Identify and assess different stress management techniques.
- KU7.** Explain the importance of a safety culture in the workplace.
- KU8.** Demonstrate proficiency in operating video editing equipment safely.
- KU9.** Implement proper workstation setup and ergonomics principles.
- KU10.** Utilize screen time management techniques to prevent eye strain.
- KU11.** Identify and report potential electrical hazards.
- KU12.** Implement basic cybersecurity practices to protect equipment and data.
- KU13.** Understand and follow emergency procedures for evacuation, fire drills, and first aid.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Follow established safety protocols and procedures.
- GS2.** Identify and report potential hazards to relevant authorities.
- GS3.** Advocate for and maintain a healthy work posture.
- GS4.** Take regular breaks to prevent eye strain and fatigue.
- GS5.** Demonstrate knowledge of emergency procedures and evacuation routes.
- GS6.** Implement stress management techniques to mitigate job-related stress.
- GS7.** Understand the importance of personal health and safety for productivity.
- GS8.** Take proactive measures to address safety concerns in the workplace.
- GS9.** Uphold personal and collective safety by adhering to precautions and guidelines.
- GS10.** Demonstrate awareness and responsiveness to safety protocols and instructions.
- GS11.** Actively promote and adhere to established safety practices.
- GS12.** Contribute to a positive safety culture through collaboration and communication.
- GS13.** Foster a secure and conducive work environment for colleagues and oneself.
- GS14.** Report safety concerns clearly and concisely to relevant authorities.
- GS15.** Advocate for safe work practices through verbal and written communication.
- GS16.** Participate in safety meetings and training programs actively.
- GS17.** Provide safety-related instructions and information to colleagues effectively.
- GS18.** Stay updated on workplace health and safety regulations and policies.
- GS19.** Participate in relevant training programs to acquire new safety knowledge and skills.
- GS20.** Adapt to changing safety protocols and procedures effectively.
- GS21.** Apply critical thinking skills to assess and address safety risks and concerns.
- GS22.** Identify potential safety hazards and analyze their risks.
- GS23.** Evaluate the effectiveness of existing safety protocols and procedures.

Qualification Pack

- GS24.** Make informed decisions to optimize safety measures and mitigate risks.
- GS25.** Take responsibility for personal safety and contribute to a safe work environment.

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
