NFD/MES/Q0501: Visual Communication Artist: Static and Motion Graphics

Brief Job Description

This course is a short-term skill training program for freshers and amateurs to learn the craft of Graphic design and motion Graphic Design and earn a livelihood through employment or freelance assignments. The objective of the program is to prepare individuals for the job of Graphic Designer/Motion Graphic Artist, where they create visual concepts, using computer software or by hand, to communicate ideas that inspire, inform, and captivate consumers and enable them to develop the overall layout and production design for various applications such as logo designs, branding & advertisements, UI/UX layouts, logo animation, explainer videos, channel packaging, etc. with high visual impact.

Personal Attributes

This job requires individuals with a keen eye for design and creativity, adept at translating concepts into compelling visuals. They should demonstrate proficiency in computer software for graphic and motion graphics, capable of crafting impactful and innovative designs for various purposes. Successful candidates should possess a strong understanding of layout, typography, and colour theory and the ability to conceptualize and execute designs that resonate with audiences across different mediums. Additionally, they must be adaptable, detail-oriented, and equipped to thrive in a dynamic, deadline-driven environment.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [NFD/MES/N0501: Carry out visual communication through graphics design techniques.](#)
2. [NFD/MES/N0502: Carry out visual communication with motion graphics techniques.](#)
3. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

NFD/MES/N0501: Carry out visual communication through graphics design techniques.

Description

This NOS is designed to perform visual communication through graphics design techniques.

Scope

The scope covers the following :

- Vector Designing with Illustrator
- Digital & Print Publishing with InDesign
- Digital Design with Photoshop
- Branding & Advertisement
- Web Layout with Figma

Elements and Performance Criteria

Vector Designing with Illustrator

To be competent, the user/individual on the job must be able to:

- PC1.** install Adobe Illustrator.
- PC2.** detect the various features of Illustrator tools to create basic shapes -ellipse, rectangle, polygon, star, etc.
- PC3.** use pen tool to create custom shapes.
- PC4.** use Pathfinder and Shape Builder tool to modify and create intricate patterns and shapes.
- PC5.** use the 3D option to create depth in 2D objects.
- PC6.** use transform tool to resize and rotate the shapes.
- PC7.** using Types to create visually appealing designs.
- PC8.** demonstrate how to create logos with brief.
- PC9.** design logos as per client expectation.

Digital & Print Publishing with InDesign

To be competent, the user/individual on the job must be able to:

- PC10.** install and access Adobe InDesign.
- PC11.** demonstrate the process of creating digital and print publishing.
- PC12.** use Pages panel to create paper settings for book and other forms of publishing.
- PC13.** create book layouts and magazine layouts with InDesign.
- PC14.** create book cover page, inside pages with page numbering.

Digital Design with Photoshop

To be competent, the user/individual on the job must be able to:

- PC15.** install and access Adobe Photoshop.
- PC16.** demonstrate the process of image restoration.
- PC17.** use of various selection tools to select images and remove backgrounds with precision.

Qualification Pack

- PC18.** create custom made images through colour correction and image manipulation.
- PC19.** use of Layer Styles to create dynamic text effects.
- PC20.** modify images as per instruction or brief.
- PC21.** use of RAW formats in Photoshop.
- PC22.** carry out the file backup process and saving files in multiple format.

Branding & Advertisement

To be competent, the user/individual on the job must be able to:

- PC23.** demonstrate understanding in branding and promotion.
- PC24.** identify the client needs and research on market trends.
- PC25.** create advertisement for newspaper.
- PC26.** create ads for outdoor media like poster, hoardings and bus backs.
- PC27.** create online ads for social media.
- PC28.** create brochure designs for brands.
- PC29.** complete brand design as per client brief.

Web Layout with Figma

To be competent, the user/individual on the job must be able to:

- PC30.** demonstrate understanding in UI/UX design.
- PC31.** create new Figma project.
- PC32.** create frames for layout and working with shapes.
- PC33.** work with image masking in Figma.
- PC34.** use of Components, Assets & Design panel.
- PC35.** use of Boolean group.
- PC36.** complete web layout design.
- PC37.** complete Design Portfolio in Behance.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand and apply visual hierarchy, contrast, balance, proportion, rhythm, emphasis, and movement in design projects.
- KU2.** Grasp the use of color psychology, color harmonies, and complementary colors to evoke emotions and convey messages.
- KU3.** Understand font selection, hierarchy, kerning, leading, and legibility for effective communication.
- KU4.** Comprehend paths, anchors, points, Bezier curves, and pen tool usage for precise shape creation.
- KU5.** Understand pixels, resolution, file formats, and image manipulation techniques in Photoshop.
- KU6.** Layout and composition techniques: Apply layout grids, page hierarchy, and white space effectively in printed and digital publications.
- KU7.** Understand brand identity, target audience analysis, and marketing strategies for impactful visuals.

Qualification Pack

- KU8.** Grasp user interface (UI) and user experience (UX) concepts for intuitive and accessible web layouts.
- KU9.** Possess proficiency in using Adobe Illustrator, InDesign, Photoshop, and Figma.
- KU10.** Understand common file formats (e.g., JPG, PNG, PSD, AI) and their appropriate usage.
- KU11.** Effectively communicate with clients to understand their needs, expectations, and feedback.
- KU12.** Manage time effectively and deliver projects within agreed-upon deadlines.
- KU13.** Work collaboratively with teams, including designers, developers, and other stakeholders.
- KU14.** Ensure high-quality deliverables by adhering to industry standards and best practices.
- KU15.** Adapt to changing requirements and technical specifications in projects.
- KU16.** Stay updated on new design trends, software versions, and technologies through continuous learning.
- KU17.** Maintain ethical conduct in communication, intellectual property, and client relationships.
- KU18.** Design visuals that are accessible to users with disabilities.
- KU19.** Understand how to effectively use data visualization techniques to communicate complex information.
- KU20.** Grasp the fundamentals of animation, storyboarding, and sound design for dynamic visuals.
- KU21.** Choose effective projects showcasing diverse skills and design thinking process.
- KU22.** Create an organized and visually appealing portfolio on online platforms like Behance.
- KU23.** Develop brief case studies showcasing project challenges, solutions, and achieved results.
- KU24.** Reflect on strengths, weaknesses, and areas for personal development.
- KU25.** Utilize online platforms and professional networks to market oneself effectively.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Understand design software manuals, client briefs, and project specifications.
- GS2.** Communicate design decisions, challenges, and solutions effectively.
- GS3.** Explain design choices and rationale to clients and stakeholders.
- GS4.** Adapt designs based on client input and suggestions.
- GS5.** Collaborate with designers, developers, and other team members clearly and respectfully.
- GS6.** Identify design challenges, analyze options, and develop effective solutions.
- GS7.** Make informed decisions based on client needs, project constraints, and design principles.
- GS8.** Evaluate design ideas, identify potential issues, and propose improvements.
- GS9.** Generate original and innovative design solutions that meet project objectives.
- GS10.** Plan and manage projects effectively to meet deadlines and deliver high-quality work.
- GS11.** Be flexible and adjust to changing project requirements and client needs.
- GS12.** Take initiative and work independently while seeking guidance when needed.
- GS13.** Focus on understanding and meeting client expectations to deliver satisfaction.
- GS14.** Stay updated on new design trends, software versions, and technologies through continuous learning.
- GS15.** Meticulously review and refine design work for accuracy and consistency.

Qualification Pack

- GS16.** Maintain organized files, project documentation, and design assets.
- GS17.** Possess proficiency in using digital tools and technologies for design and communication.
- GS18.** Social media awareness: Understand the principles of social media design and marketing.
- GS19.** Effectively communicate complex information through data visualization techniques.
- GS20.** Understand the fundamentals of animation and storyboarding for dynamic visuals.

NFD/MES/N0502: Carry out visual communication with motion graphics techniques.

Description

This NOS is designed to perform visual communication with motion graphics techniques.

Scope

The scope covers the following :

- Introduction to Motion Graphics
- Technical process of Audio-Visuals
- Creating Explainer videos
- 2D & 3D Motion Graphic

Elements and Performance Criteria

Introduction to Motion Graphics

To be competent, the user/individual on the job must be able to:

- PC1.** demonstrate understanding in design & animation.
- PC2.** create new After Effects project.
- PC3.** create frames for layout and working with shapes.
- PC4.** work with image or layer masking in After Effects.
- PC5.** use of Components, keyframe animation.

Technical process of Audio-Visuals

To be competent, the user/individual on the job must be able to:

- PC6.** demonstrate understanding Audio Visual
- PC7.** create story-based Audio-Visual presentation.
- PC8.** create corporate video & social media video
- PC9.** work with logo animation in After Effects.

Creating Explainer videos

To be competent, the user/individual on the job must be able to:

- PC10.** demonstrate understanding E-learning industry
- PC11.** create Explainer video.
- PC12.** work with Third-party Plugins

2D & 3D Motion Graphic

To be competent, the user/individual on the job must be able to:

- PC13.** demonstrate understanding 3D workflow
- PC14.** create 2D motion graphics compositing with stock footage.
- PC15.** work with 3D motion graphics.
- PC16.** complete Motion Graphic portfolio in YouTube.

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the principles of visual communication and design thinking.
- KU2.** Explain the role and impact of motion graphics in various industries.
- KU3.** Identify ethical considerations in visual communication and copyright laws.
- KU4.** Apply design principles to animation and motion graphics projects.
- KU5.** Demonstrate proficiency in using Adobe After Effects software.
- KU6.** Utilize keyframe animation, masking, and compositing techniques.
- KU7.** Integrate audio elements effectively into motion graphics projects.
- KU8.** Implement animation tools and functionalities of third-party plugins.
- KU9.** Understand the workflow and processes involved in 3D motion graphics.
- KU10.** Explain the role and applications of explainer videos in the e-learning industry.
- KU11.** Identify different types of motion graphics used in corporate communication and social media.
- KU12.** Analyze effective storytelling techniques in audio-visual presentations.
- KU13.** Explain the purpose and best practices for creating explainer videos.
- KU14.** Understand the potential career paths and business opportunities in motion graphics.
- KU15.** Identify and utilize additional software and tools relevant to motion graphics, like Adobe Media Encoder or Premiere Pro.
- KU16.** Understand the basic functionalities of hardware peripherals used in motion graphics production, like graphics tablets or microphones.
- KU17.** Maintain a professional portfolio showcasing personal motion graphics work.
- KU18.** Stay updated on emerging trends and technologies in the motion graphics industry.
- KU19.** Collaborate effectively with diverse teams and stakeholders.
- KU20.** Adapt to changing project requirements and deadlines with flexibility and efficiency.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read, comprehend, and interpret technical literature, design briefs, and project specifications.
- GS2.** Write clear, concise, grammatically correct emails, reports, and project documentation.
- GS3.** Research information effectively using online resources and traditional libraries.
- GS4.** Articulate concepts ideas and design solutions clearly and persuasively to clients, colleagues, and stakeholders.
- GS5.** Give constructive feedback and participate effectively in team meetings and presentations.
- GS6.** Actively listen to and understand user needs and requirements.
- GS7.** Apply design principles and animation techniques to create visually appealing and effective motion graphics.
- GS8.** Experiment with different visual styles and techniques to achieve the desired visual impact.

Qualification Pack

- GS9.** Understand and apply colour theory, typography, and composition effectively.
- GS10.** Analyze the target audience and tailor visual communication accordingly.
- GS11.** Proficiently use industry-standard software such as Adobe After Effects, Premiere Pro, and Photoshop.
- GS12.** Understand and manage audio-visual production workflow.
- GS13.** Integrate different media elements (video, graphics, sound) seamlessly.
- GS14.** Troubleshoot technical problems and find effective solutions.
- GS15.** Develop engaging narratives and storyboards for motion graphics projects.
- GS16.** Craft clear, concise, and impactful messages for different audiences.
- GS17.** Integrate research and data effectively into visual communication.
- GS18.** Collaborate with scriptwriters, producers, and other creative professionals.
- GS19.** Utilize online platforms and social media effectively for portfolio presentation and client communication.
- GS20.** Create and manage online assets and learning materials.
- GS21.** Stay updated on emerging technologies and trends in the visual communication field.
- GS22.** Work independently and manage time effectively to meet deadlines.
- GS23.** Adapt to changing requirements and think creatively to solve problems.
- GS24.** Collaborate effectively with team members and clients.
- GS25.** Maintain a professional and positive attitude.
- GS26.** Continuously develop new skills through self-directed learning and professional development opportunities.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
