NFD/MES/N0906: Carry out Dubbing of Foreign Language Content

Description

This NOS is about carrying out Dubbing of Foreign Language Content

Scope

The scope covers the following :

- Apply understanding of nuances and cultural context of foreign language dialogue in dubbing projects.
- Match voice-over performances with on-screen action and lip movements.

Elements and Performance Criteria

Apply understanding of nuances and cultural context of foreign language dialogue in dubbing projects.

To be competent, the user/individual on the job must be able to:

- PC1.** Identify common cultural references and expressions used in the foreign language dialogue.
- PC2.** Recall key cultural differences that may impact the meaning or delivery of the dialogue.
- PC3.** Explain the foreign language dialogue's intended meaning and emotional tone based on context clues.
- PC4.** Differentiate between formal and informal speech patterns used in the foreign language dialogue.
- PC5.** Apply knowledge of cultural context to adapt vocal delivery and avoid unintentional misinterpretations.
- PC6.** Select appropriate synonyms or phrasing to convey the original meaning of the foreign language dialogue within the target language.
- PC7.** Analyse the impact of cultural references and idioms on the overall message of the dubbed content.
- PC8.** Identify potential challenges in translating humour, sarcasm, or wordplay from the foreign language to the target language.
- PC9.** Evaluate the effectiveness of different voice acting choices in conveying the cultural nuances of the foreign language dialogue.
- PC10.** Assess the overall accuracy and cultural sensitivity of the dubbed content.
- PC11.** Develop creative solutions to dub culturally specific references while maintaining the overall flow of the dialogue.
- PC12.** Invent new phrases or wordplay in the target language that capture the original intent of the foreign language dialogue.
- PC13.** Recall basic pronunciation rules and common sound variations in the foreign language.
- PC14.** Apply phonetic transcription skills to accurately pronounce foreign language words and phrases.
- PC15.** Analyse lip movements and timing of the original dialogue to ensure synchronised delivery in the dubbed content.

Qualification Pack

PC16. Evaluate the quality of synchronisation between the dubbed voice-over and the on-screen visuals.

Match voice-over performances with on-screen action and lip movements.

To be competent, the user/individual on the job must be able to:

- PC17.** Analyse basic principles of lip reading and identify key mouth shapes associated with different vowel and consonant sounds.
- PC18.** Adjust phrasing and word breaks to match the natural flow of speech seen on screen.
- PC19.** Analyse the emotional state of the characters on screen and adapt vocal delivery to match their expressions.
- PC20.** Identify potential challenges in syncing dialogue with rapid speech, singing, or sound effects.
- PC21.** Evaluate the synchronisation quality throughout the dubbed content, identifying inconsistencies or asynchronicity.
- PC22.** Assess the overall naturalness and believability of the dubbed performance concerning the on-screen visuals.
- PC23.** Develop creative solutions to synchronise dialogue with challenging on-screen action, such as overlapping speech or sound effects.
- PC24.** Invent new phrasing or word order (within reason) to achieve a more natural lip sync without altering the meaning of the dialogue.
- PC25.** Recall the target language's typical syllable structure and speech patterns.
- PC26.** Apply breath control techniques to maintain a consistent pace and avoid asynchronous breathing sounds during voice-over recording.
- PC27.** Analyse the technical specifications of the source material (frame rate, video format) to ensure accurate timing of voice-over delivery.
- PC28.** Identify potential technical issues affecting lip sync accuracy, such as video editing errors or frame rate inconsistencies.
- PC29.** Evaluate communication effectiveness with audio engineers or producers regarding any concerns or adjustments needed for lip sync accuracy.
- PC30.** Collaborate with other voice actors to ensure synchronised dialogue during scenes with multiple characters.
- PC31.** Create voice-over performances that accurately convey the emotional range of the foreign language dialogue while maintaining cultural sensitivity.
- PC32.** Apply basic dubbing techniques to ensure smooth transitions and synchronisation

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)
