NIE/SSC/Q0201: Computer Application Accounting and Publishing Assistant

Brief Job Description

The Computer Application Accounting and Publishing Assistant is an NSQF Level 3 qualification designed to equip learners with the knowledge and practical skills required to perform office automation, computerized accounting, and desktop publishing tasks in a professional environment. The programme enables learners to use office productivity tools, maintain financial records using Tally Prime, design and publish digital content using desktop publishing software, and apply computer fundamentals and operating system concepts. It also develops employability skills, digital literacy, workplace communication, and project execution capabilities, preparing learners for entry-level roles in offices, accounting firms, educational institutions, publishing organizations, and other IT-enabled workplaces.

Personal Attributes

Detail-oriented, analytical, ethical, adaptable, communicative, and team-oriented professional.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [NIE/SSC/N0209: OJT/Project- Computer Application Accounting and Publishing Assistant](#)
2. [NIE/SSC/N0208: Concept of Desktop Publishing Software](#)
3. [NIE/SSC/N0207: Financial Accounting with Tally Prime](#)
4. [NIE/SSC/N0206: Fundamentals of Computers and Operating Systems-](#)
5. [NIE/SSC/N0205: Office Productivity Tools-](#)
6. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

NIE/SSC/N0209: OJT/Project- Computer Application Accounting and Publishing Assistant

Description

This NOS provides learners with the opportunity to apply the knowledge and skills acquired during classroom and laboratory training in a real or simulated workplace environment. It enables learners to execute assigned tasks, solve practical problems, prepare project deliverables, demonstrate professional competencies, and meet industry standards through supervised on-the-job training and project work.

Scope

The scope covers the following :

- The scope includes planning and executing workplace assignments, applying technical knowledge to real-life scenarios, preparing project reports and presentations, using appropriate tools and software, following organizational procedures, maintaining documentation, collaborating with team members, demonstrating professional ethics, and completing assigned tasks within quality, safety, and timeline requirements.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Plan and execute assigned workplace tasks or project activities by applying the knowledge and skills acquired during the training programme.
- PC2.** Use appropriate software applications, tools, equipment, and workplace procedures to complete assigned tasks accurately and efficiently.
- PC3.** Prepare and maintain project documentation, reports, presentations, and other records in accordance with organizational and quality requirements.
- PC4.** Demonstrate effective communication, teamwork, problem-solving, professional ethics, and adherence to workplace safety and organizational guidelines while carrying out project activities.
- PC5.** Complete the assigned project or OJT within the stipulated timeline, present the outcomes, and incorporate feedback to achieve the desired learning objectives and quality standards.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The objectives, scope, and expected outcomes of the assigned workplace tasks or project activities.
- KU2.** Organizational procedures, workplace practices, documentation standards, quality requirements, and safety guidelines applicable to the assigned work.
- KU3.** The operation and appropriate use of software applications, tools, equipment, and digital technologies required to complete project assignments.

Qualification Pack

KU4. Principles of project planning, task scheduling, documentation, teamwork, communication, problem-solving, and professional ethics in a workplace environment.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Plan, organize, and execute assigned tasks systematically while meeting quality standards and project timelines.
- GS2.** Apply technical knowledge, appropriate tools, software, and workplace procedures to complete assigned work efficiently and accurately.
- GS3.** Communicate effectively with supervisors, team members, and stakeholders, and collaborate productively to achieve project objectives.
- GS4.** Analyze workplace problems, identify appropriate solutions, maintain project documentation, and demonstrate initiative in completing assigned responsibilities.

NIE/SSC/N0208: Concept of Desktop Publishing Software

Description

This NOS equips learners with the knowledge and practical skills required to design, create, edit, and publish professional digital publications using desktop publishing software. It covers page layout, typography, image editing, vector graphics, document formatting, print and web publishing, and AI-enabled design tools for producing high-quality visual communication materials.

Scope

The scope covers the following :

- The scope includes designing page layouts, formatting text, creating and editing graphics, managing images and layers, applying visual effects, preparing print and web-ready documents, handling bitmap and vector graphics, using templates and master pages, and utilizing modern desktop publishing and AI-powered design tools for professional publishing.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Create and format professional publications using desktop publishing software by applying page layouts, master pages, templates, text formatting, and paragraph styles.
- PC2.** Design and edit graphics, illustrations, and images using drawing tools, layers, filters, effects, and image enhancement features.
- PC3.** Import, arrange, align, crop, resize, rotate, and manage bitmap and vector graphics to produce visually appealing documents.
- PC4.** Apply typography, color schemes, object formatting, text wrapping, spell checking, indexing, and layout optimization to ensure publication quality.
- PC5.** Prepare, export, and publish print-ready and web-ready documents using appropriate file formats, modern DTP applications, and AI-powered design tools while maintaining professional publishing standards.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Fundamentals of desktop publishing, page layout principles, typography, document design, and the applications of DTP in print and digital media.
- KU2.** Features and functionalities of desktop publishing software, including page setup, master pages, templates, styles, text formatting, and object management.
- KU3.** Concepts of image editing, vector and bitmap graphics, layers, filters, color correction, drawing tools, and graphic effects used in DTP applications.
- KU4.** Techniques for importing, arranging, formatting, and exporting text, images, and graphics for print-ready and web-ready publications.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Design and develop professional-quality publications by applying appropriate layout, typography, color, and graphic design principles.
- GS2.** Use desktop publishing software efficiently to create, edit, format, and organize text, images, and graphic elements for print and digital media.
- GS3.** Select and apply appropriate image editing, drawing, and visual enhancement tools to produce high-quality publication outputs.
- GS4.** Prepare, review, and export print-ready and web-ready documents while ensuring accuracy, consistency, and adherence to publishing standards.
- GS5.** Demonstrate creativity, attention to detail, effective file management, collaboration, and professional ethics while using desktop publishing and AI-enabled design tools.

NIE/SSC/N0207: Financial Accounting with Tally Prime

Description

This NOS equips learners with the knowledge and practical skills required to perform computerized financial accounting using accounting principles and Tally Prime. It covers accounting fundamentals, inventory management, voucher entry, GST compliance, payroll basics, financial reporting, data security, backup procedures, and the generation of accurate financial records for business operations.

Scope

The scope covers the following :

- The scope includes maintaining books of accounts, recording financial transactions, managing ledgers and inventory, preparing financial statements, processing accounting vouchers, implementing GST and payroll features, generating financial and inventory reports, securing accounting data, performing backup and restoration, and using Tally Prime for day-to-day business accounting.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Record business transactions by creating and maintaining books of accounts, including journals, cash books, ledgers, and accounting vouchers in accordance with accounting principles.
- PC2.** Create and manage companies, ledgers, stock groups, inventory records, and accounting configurations using Tally Prime.
- PC3.** Generate and interpret financial statements and business reports, including Trial Balance, Profit & Loss Account, Balance Sheet, inventory reports, and MIS reports for decision-making.
- PC4.** Configure and process statutory compliance features, including GST, TDS, payroll, and taxation-related transactions in Tally Prime.
- PC5.** Perform data security, backup, restoration, user access management, and data import/export operations to ensure the integrity and confidentiality of accounting information.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Fundamental accounting concepts, principles, classification of accounts, rules of debit and credit, and preparation of books of accounts.
- KU2.** Concepts of inventory management, inventory valuation methods (FIFO, LIFO, Weighted Average), and their significance in business accounting.
- KU3.** Features, navigation, company creation, ledger management, inventory setup, voucher types, and reporting capabilities of Tally Prime.

Qualification Pack

- KU4.** Preparation and interpretation of financial statements, including Trial Balance, Profit & Loss Account, Balance Sheet, inventory reports, and Management Information System (MIS) reports.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Record, verify, and maintain financial transactions accurately while ensuring completeness and consistency of accounting records.
- GS2.** Use Tally Prime efficiently to create companies, manage ledgers, inventory, vouchers, and generate financial reports as per organizational requirements.
- GS3.** Analyze financial and inventory information, identify discrepancies, and take appropriate corrective actions to ensure accurate accounting.
- GS4.** Follow statutory compliance requirements, maintain data confidentiality, perform regular backups, and ensure secure handling of financial information.
- GS5.** Demonstrate professional ethics, attention to detail, effective communication, and systematic documentation while performing accounting and financial management activities.

NIE/SSC/N0206: Fundamentals of Computers and Operating Systems-

Description

This NOS equips learners with foundational knowledge of computer systems, operating systems, and digital technologies. It covers computer components, hardware and software concepts, data representation, storage devices, input/output devices, Windows and Linux operating systems, file management, cybersecurity hygiene, and the practical use of ICT applications, mobile technologies, and smart digital tools.

Scope

The scope covers the following :

- The scope includes understanding computer architecture, memory and storage devices, operating system functionalities, hardware and software classification, file and folder management, data representation, cybersecurity awareness, Windows and Linux environments, ICT applications, mobile computing, cloud-based services, and emerging smart technologies to support digital literacy and workplace readiness.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** • Identify the different generations, classifications, characteristics, and applications of computers.
- PC2.** • Identify and explain the functions of major computer hardware components, including CPU, memory, storage, and input/output devices.
- PC3.** • Differentiate between system software, application software, utility software, and open-source software.
- PC4.** • Explain the concepts of data representation, number systems, and common data encoding techniques.
- PC5.** • Compare different memory and storage devices based on capacity, speed, performance, and applications

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Fundamentals, characteristics, evolution, and applications of computer systems across various sectors.
- KU2.** Classification of computers and the functions of major hardware components, including CPU, memory, storage, and input/output devices.
- KU3.** Concepts of hardware, system software, application software, utility software, and open-source software.
- KU4.** Types of memory (RAM, ROM, Cache, Virtual Memory) and storage devices (HDD, SSD, optical media, flash drives, and cloud storage).

Qualification Pack

KU5. Principles of data representation, number systems (binary, decimal, hexadecimal), data units, and character encoding methods.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and interpret technical information, user manuals, and system instructions related to computer hardware and operating systems.
- GS2.** Identify computer hardware components, peripherals, and storage devices accurately and use them appropriately.

Qualification Pack

NIE/SSC/N0205: Office Productivity Tools-

Description

This NOS equips learners with the knowledge and practical skills required to use modern office productivity applications for creating, managing, analyzing, and presenting information. It covers word processing, spreadsheets, presentations, cloud collaboration, database fundamentals, and AI-enabled productivity tools to improve workplace efficiency, communication, and digital document management.

Scope

The scope covers the following :

- The scope includes creating and formatting professional documents, developing spreadsheets with formulas and charts, designing presentations, using cloud-based collaboration tools, applying AI features in office applications, managing files through cloud storage, understanding basic database concepts, and integrating office productivity tools for efficient workplace communication and information management.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Create, edit, format, review, and print professional documents using word processing software, including templates, styles, tables, and mail merge.
- PC2.** Develop and manage spreadsheets by entering data, applying formulas and functions, creating charts, using conditional formatting, and generating PivotTables for data analysis.
- PC3.** Design, customize, and deliver professional presentations using presentation software by incorporating themes, multimedia, animations, transitions, and presentation tools.
- PC4.** Use cloud-based collaboration tools to create, store, share, synchronize, and co-author documents while maintaining version control and data security.
- PC5.** Apply AI-enabled productivity features in office applications to generate content, improve document quality, analyze data, and enhance workplace productivity using appropriate digital tools.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The features, functions, and applications of office productivity software, including word processing, spreadsheets, presentation software, cloud storage, and database tools.
- KU2.** Document creation and formatting techniques, including styles, templates, tables, mail merge, page layout, printing options, and document review features.
- KU3.** Spreadsheet concepts, including data entry, cell referencing, formulas, functions, charts, sorting, filtering, conditional formatting, and PivotTables for data analysis.
- KU4.** Principles of presentation design, multimedia integration, animation, transitions, presentation delivery techniques, and the use of AI-assisted presentation tools.

Qualification Pack

KU5. Concepts of cloud collaboration, file sharing, version control, co-authoring, AI-enabled productivity features, and basic database concepts for efficient workplace information management.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Create, edit, organize, and manage professional documents, spreadsheets, and presentations with accuracy and attention to detail.
- GS2.** Analyze and present information effectively using appropriate office productivity tools, charts, tables, and visual elements.
- GS3.** Use cloud-based collaboration tools to securely store, share, co-author, and manage digital documents while maintaining version control.
- GS4.** Apply AI-enabled productivity features and digital tools to improve efficiency, automate routine tasks, and enhance the quality of work outputs.

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Assessment Strategy

Assessment of the qualification evaluates candidates to ascertain that they can integrate knowledge, skills, and values for carrying out relevant tasks as per the defined learning outcomes and assessment criteria.

The underlying principle of assessment is fairness and transparency. The evidence of the outcomes and assessment criteria competence acquired by the candidate can be obtained by conducting Theory (Online), Practical Assessment, Internal Assessment, Project/Presentation/Assignment, and Major Project. The emphasis is on the practical demonstration of skills and knowledge gained by the candidate through the training. Each OUTCOME is assessed and marked separately. A candidate is required to pass all OUTCOMES individually based on the prescribed passing criteria.

About Examination Pattern

The question papers for the theory and practical examinations are set by the Examination Wing (Assessor) of NIELIT Headquarters.

Qualification Pack

The assessor assigns the roll number.

The assessor conducts theory examinations online through a remote proctoring methodology. The theory examination is conducted online, and paper compliance is monitored by trained proctors. Before the examination begins, proctors have full access to the candidate's video feed and computer screen. Proctors authenticate candidates based on registration details, pre-test image capture, and the identity card possessed by the candidate. They can also communicate with candidates, issue warnings, take screenshots, terminate a specific user's test session, or re-authenticate candidates based on video feeds.

An External Examiner/Observer, including NIELIT officials, may be deployed for the evaluation of the Practical Examination, Internal Assessment, Project/Presentation, and Major Project (if applicable). These components are preferably evaluated by external/subject experts, including NIELIT officials.

The minimum passing requirement is 50% marks in each assessment component.

Candidates may apply for re-examination within the validity period of their registration, only for the assessment component in which they have failed.

The prescribed re-examination fee is payable only for the assessment component in which the candidate wishes to reappear.

No exemption shall be granted for any paper or module based on similar qualifications or prior skills.

The examination shall be conducted in the English language only.

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
NIE/SSC/N0209.OJT/Project-Computer Application Accounting and Publishing Assistant	0	0	30	0	30	8

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
National Occupational Standard	NOS define the measurable performance outcomes required from an individual engaged in a particular task. They list down what an individual performing that task should know and also do.
Qualification	A formal outcome of an assessment and validation process which is obtained when a competent body determines that an individual has achieved learning outcomes to given standards
Qualification File	A Qualification File is a template designed to capture necessary information of a Qualification from the perspective of NSQF compliance. The Qualification File will be normally submitted by the awarding body for the qualification.
Sector	A grouping of professional activities on the basis of their main economic function, product, service or technology.
Long Term Training	Long-term skilling means any vocational training program undertaken for a year and above. https://ncvet.gov.in/sites/default/files/NCVET.pdf
