NIE/SSC/Q0202: Office Automation and IT Assistant

Brief Job Description

This course provides learners with practical knowledge and hands-on skills in computer fundamentals, office productivity tools, internet applications, desktop publishing, and cybersecurity. It enables learners to use MS Office applications (Word, Excel, and PowerPoint), email, web browsers, digital payment systems, and cloud-based collaboration tools effectively. The course also introduces desktop publishing software such as PageMaker, Photoshop, CorelDRAW, and Canva for designing professional publications. Additionally, it emphasizes cybersecurity awareness, safe digital practices, protection of personal devices, and the secure use of e-Governance and e-Commerce services. The curriculum is further strengthened through employability skills training and project-based learning supported by On-the-Job Training (OJT).

Personal Attributes

The individual should possess logical and analytical thinking, attention to detail, willingness to learn new technologies, effective communication and teamwork skills, problem-solving ability, time management, adaptability, creativity, and a responsible attitude towards cybersecurity, data privacy, and professional ethics. They should be capable of working independently as well as collaboratively while maintaining accuracy, quality, and customer-focused service.

Applicable National Occupational Standards (NOS)

Qualification Pack

NIE/SSC/N0211: Fundamentals of Computers and Operating Systems*

Description

This NOS covers the knowledge and skills required to understand computer fundamentals, hardware and software components, memory and storage devices, input/output devices, data representation, operating systems, file and folder management, cyber hygiene, and the effective use of ICT, mobile, and smart technologies for personal and professional applications.

Scope

The scope covers the following :

- The scope covers the knowledge and skills required to identify computer components, understand hardware and software concepts, manage files and folders in Windows and Linux operating systems, apply cyber hygiene practices, and use ICT, mobile, and smart technologies effectively for everyday computing tasks.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify the basic components of a computer, including hardware, software, memory, storage, and input/output devices.
- PC2.** Operate Windows (GUI-based) and Linux (CLI-based) operating systems, and manage files and folders efficiently.
- PC3.** Apply cyber hygiene practices to protect systems from viruses and other cyber threats.
- PC4.** Use ICT applications, mobile devices, and smart technologies for everyday personal and professional tasks.
- PC5.** Demonstrate an understanding of data representation and the effective use of computer systems for digital operations.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Explain the fundamentals of computers, including their classification and components
- KU2.** Describe memory, storage devices, input/output devices, and data representation concepts.
- KU3.** Understand the functions of hardware, software, Windows (GUI), and Linux (CLI) operating systems.
- KU4.** Explain file and folder management, cyber hygiene practices, and protection against computer viruses.
- KU5.** Understand the applications of ICT, mobile devices, and smart technologies in personal and professional environments.

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** Use computers and digital devices effectively for routine tasks.
- GS2.** Apply safe and responsible computing practices, including cyber hygiene.
- GS3.** Organize and manage digital files and information efficiently.

NIE/SSC/N0215: Office Productivity Tools*

Description

This NOS equips learners with the knowledge and practical skills required to use modern office productivity applications for creating, managing, analyzing, and presenting information. It covers word processing, spreadsheets, presentations, cloud collaboration, database fundamentals, and AI-enabled productivity tools to improve workplace efficiency, communication, and digital document management.

Scope

The scope covers the following :

- The scope includes creating and formatting professional documents, developing spreadsheets with formulas and charts, designing presentations, using cloud-based collaboration tools, applying AI features in office applications, managing files through cloud storage, understanding basic database concepts, and integrating office productivity tools for efficient workplace communication and information management.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Create, edit, format, review, and print professional documents using word processing software, including templates, styles, tables, and mail merge.
- PC2.** Develop and manage spreadsheets by entering data, applying formulas and functions, creating charts, using conditional formatting, and generating PivotTables for data analysis.
- PC3.** Design, customize, and deliver professional presentations using presentation software by incorporating themes, multimedia, animations, transitions, and presentation tools.
- PC4.** Use cloud-based collaboration tools to create, store, share, synchronize, and co-author documents while maintaining version control and data security.
- PC5.** Apply AI-enabled productivity features in office applications to generate content, improve document quality, analyze data, and enhance workplace productivity using appropriate digital tools.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The features, functions, and applications of office productivity software, including word processing, spreadsheets, presentation software, cloud storage, and database tools.
- KU2.** Document creation and formatting techniques, including styles, templates, tables, mail merge, page layout, printing options, and document review features.
- KU3.** Spreadsheet concepts, including data entry, cell referencing, formulas, functions, charts, sorting, filtering, conditional formatting, and PivotTables for data analysis.
- KU4.** Principles of presentation design, multimedia integration, animation, transitions, presentation delivery techniques, and the use of AI-assisted presentation tools.

Qualification Pack

KU5. Concepts of cloud collaboration, file sharing, version control, co-authoring, AI-enabled productivity features, and basic database concepts for efficient workplace information management.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Create, edit, organize, and manage professional documents, spreadsheets, and presentations with accuracy and attention to detail.
- GS2.** Analyze and present information effectively using appropriate office productivity tools, charts, tables, and visual elements.
- GS3.** Use cloud-based collaboration tools to securely store, share, co-author, and manage digital documents while maintaining version control.
- GS4.** Apply AI-enabled productivity features and digital tools to improve efficiency, automate routine tasks, and enhance the quality of work outputs.

NIE/SSC/N0210: Internet Basics

Description

This NOS covers the knowledge and skills required to effectively use the Internet and digital communication tools for accessing information, browsing the web, managing email, collaborating online, practicing safe internet usage, performing digital financial transactions, and securing digital accounts through password management and two-factor authentication (2FA). It also includes an understanding of networking fundamentals, internet architecture, online services, search techniques, cybersecurity best practices, email etiquette, and digital collaboration tools essential for personal and professional use.

Scope

The scope covers the following :

- The scope covers the knowledge and skills required to use the internet, web browsers, email, and digital collaboration tools, perform secure online transactions, practice internet safety, and protect digital accounts using password management and Two-Factor Authentication (2FA).

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the fundamentals of networking, internet architecture, and internet services.
- PC2.** Use web browsers, search engines, email, and digital collaboration tools effectively.
- PC3.** Practice safe internet usage by following cybersecurity measures and email etiquette
- PC4.** Perform secure digital financial transactions using internet banking and digital payment systems.
- PC5.** Secure digital accounts using strong passwords, password managers, and Two-Factor Authentication (2FA).

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Explain the fundamentals of networking, internet architecture, and internet services.
- KU2.** Describe the functions of web browsers, search engines, and email services.
- KU3.** Understand internet security, digital communication, and online collaboration practices.
- KU4.** Explain the principles of digital financial literacy, internet banking, and digital payment systems.
- KU5.** Understand password management techniques and the role of Two-Factor Authentication (2FA) in securing digital accounts.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Communicate effectively using email and digital collaboration tools.
- GS2.** Apply safe, ethical, and responsible practices while using internet services.
- GS3.** Demonstrate problem-solving skills to perform online tasks efficiently.

NIE/SSC/N0212: Concept of Desktop Publishing Software-

Description

This NOS covers the knowledge and skills required to create, edit, format, and publish professional documents using Desktop Publishing (DTP) software. It includes page layout, text and image editing, graphic design, print and web publishing, and the use of AI-powered design tools for efficient content creation.

Scope

The scope covers the following :

- The scope covers the knowledge and skills required to use DTP applications for page design, text formatting, graphics creation and editing, image handling, layout management, print and web publishing, and AI-assisted design tools to produce professional-quality publications.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Create and format professional documents using DTP software, including page setup, text formatting, styles, and templates.
- PC2.** Design and edit graphics using drawing tools, shapes, images, layers, filters, and text effects.
- PC3.** Manage page layouts by importing, arranging, aligning, grouping, and organizing text and graphic elements.
- PC4.** Prepare publications for print and web by applying appropriate print settings, export options, and web publishing features.
- PC5.** Utilize modern AI-powered design tools and platforms (e.g., Canva) to create visually appealing and professional publication materials efficiently.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Explain the fundamentals of Desktop Publishing (DTP) and its applications.
- KU2.** Understand page layout, text formatting, styles, templates, and document design principles.
- KU3.** Understand print and web publishing options, including file import, export, and optimization.
- KU4.** Explain the use of modern AI-powered design tools (e.g., Canva) for creating professional publications.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Create and format professional publications using DTP tools with accuracy and creativity.
- GS2.** Organize and manage text, images, and graphics effectively for print and digital media.

Qualification Pack

- GS3.** Apply design principles to produce visually appealing and user-friendly layouts.
- GS4.** Use AI-powered design tools to enhance productivity and improve publication quality

NIE/SSC/N0213: Basics of Cyber Security

Description

This NOS covers the knowledge and skills required to understand cybersecurity fundamentals, identify common cyber threats and attacks, secure personal computing devices and smartphones, and safely use digital services, including e-Governance and e-Commerce platforms

Scope

The scope covers the following :

- The scope covers the knowledge and skills required to recognize cyber threats, implement basic cybersecurity practices to protect personal devices and digital information, and securely access e-Governance and e-Commerce services while promoting safe and responsible online behaviour.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the fundamentals of cybersecurity and identify common cyber threats and attacks.
- PC2.** Apply basic security measures to protect personal computers, smartphones, and digital data.
- PC3.** Demonstrate safe online practices, including secure browsing, password management, and cyber hygiene.
- PC4.** Use e-Governance and e-Commerce services securely while protecting personal and financial information.
- PC5.** Follow responsible and ethical digital practices to minimize cybersecurity risks.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Explain the fundamentals of cybersecurity and its importance in the digital world.
- KU2.** Describe common cyber threats, attacks, and their impact on individuals and organizations.
- KU3.** Understand security measures for protecting personal computers, smartphones, and digital information.
- KU4.** Understand the principles and secure usage of e-Governance and e-Commerce services.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Apply safe and responsible cybersecurity practices while using digital devices and online services.
- GS2.** Identify and respond appropriately to common cyber threats and security risks.

Qualification Pack

GS3. Demonstrate problem-solving and decision-making skills to maintain digital security and privacy.

NIE/SSC/N0214: OJT/Project of Office Automation & IT Assistant

Description

This NOS covers the knowledge and skills required to plan, develop, implement, document, and present a project by applying the concepts and practical skills acquired during the course to solve a real-world problem using appropriate digital tools and technologies.

Scope

The scope covers the following :

- The scope covers the knowledge and skills required to identify a project problem, plan and execute project activities, apply relevant software and digital tools, prepare project documentation, and present the completed project while demonstrating technical, communication, and teamwork skills.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify a real-world problem and prepare a project plan with defined objectives and scope.
- PC2.** Apply the knowledge and practical skills acquired during the course to develop and implement the project.
- PC3.** Use appropriate digital tools, software, and technologies to complete the project effectively.
- PC4.** Prepare comprehensive project documentation, including methodology, implementation, results, and conclusions.
- PC5.** Present the completed project, demonstrate its outcomes, and respond effectively to feedback and evaluation.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the project lifecycle, including planning, execution, documentation, and presentation.
- KU2.** Explain the application of concepts, tools, and techniques learned during the course to solve real-world problems.
- KU3.** Understand project documentation standards, reporting methods, and presentation techniques.
- KU4.** Describe the importance of quality, accuracy, testing, and validation in project implementation.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Demonstrate problem-solving and analytical skills during project execution.

Qualification Pack

- GS2.** Communicate project ideas, progress, and outcomes effectively through documentation and presentations.
- GS3.** Apply creativity, critical thinking, and attention to detail to deliver quality project outcomes.

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Assessment of the qualification evaluates candidates to ascertain that they can integrate knowledge, skills and values for carrying out relevant tasks as per the defined learning outcomes and assessment criteria.

The underlying principle of assessment is fairness and transparency. The evidence of the outcomes and assessment criteria. Competence acquired by the candidate can be obtained by conducting Theory (Online), Practical assessment, Internal assessment, Project/Presentation/ Assignment, Major Project. The emphasis is on the practical demonstration of skills & knowledge gained by the candidate through the training. Each OUTCOME is assessed & marked separately. A candidate is required to pass all OUTCOMES individually based on the passing criteria.

Qualification Pack

About Examination Pattern:

1. The question papers for the theory and practical exams are set by the Examination wing (assessor) of NIELIT HQS.
2. The assessor assigns roll number.
3. The assessor carries out theory online assessments through remote proctoring methodology. Theory examination would be conducted online and the paper comprise of MCQ. Conduct of assessment are through trained proctors. Once the test begins, remote proctors have full access to candidate's video feeds and computer screens. Proctors authenticate the candidate based on registration details, pre-test image captured and I- card in possession of the candidate. Proctors can chat with candidates or give warnings to candidates. Proctors can also take screenshots, terminate a specific user's test session, or re-authenticate candidates based on video feeds.
4. An External Examiner/ Observer may be deployed including NIELIT officials for evaluation of Practical examination/ internal assessment / Project/ Presentation/. Major Project (if applicable) would be evaluated preferably by external/ subject expert including NIELIT officials.
5. Pass percentage would be 50% marks in each component.
6. Candidates may apply for re-examination within the validity of registration (only in the assessment component in which the candidate failed).
7. For re-examination prescribed examination fee is required to be paid by the candidate only for the assessment component in which the candidate wants to reappear.
8. There would be no exemption for any paper/module for candidates having similar qualifications or skills.
9. The examination will be conducted in English language only.

Quality assurance activities: A pool of questions is created by a subject matter expert and moderated by other SME. Test rules are set beforehand. Random set of questions

Qualification Pack

which are according to syllabus appears which may differ from candidate to candidate.

Confidentiality and impartiality are maintained during all the examination and evaluation processes.

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
National Occupational Standard	NOS define the measurable performance outcomes required from an individual engaged in a particular task. They list down what an individual performing that task should know and also do.
Qualification	A formal outcome of an assessment and validation process which is obtained when a competent body determines that an individual has achieved learning outcomes to given standards
Qualification File	A Qualification File is a template designed to capture necessary information of a Qualification from the perspective of NSQF compliance. The Qualification File will be normally submitted by the awarding body for the qualification.
Sector	A grouping of professional activities on the basis of their main economic function, product, service or technology.
Long Term Training	Long-term skilling means any vocational training program undertaken for a year and above. https://ncvet.gov.in/sites/default/files/NCVET.pdf
