PCS/N0101: Provide technical sales support to industrial paint customers

Description

This OS unit is about interacting with existing and potential industrial paint customers to understand their special requirements on paint performance and provide technical support in selecting the most suitable paint for application and closing the sale.

Scope

The scope covers the following :

- Address technical queries on paint performance, various surfaces and surface related issues
- Provide solution for most suited paint system and/or application method
- Gather feedback on specific paint or coating product
- Document for future reference
- Help close the sale

Elements and Performance Criteria

Address technical queries on paint performance, various surface and surface related issues

To be competent, the user/individual on the job must be able to:

- PC1.** check with customer about their specific and special performance requirement of the industrial paint to be used
- PC2.** understand the regular and new demand of the customer
- PC3.** distinguish whether the requirement pertains to selection of paints, specific performance or its application process
- PC4.** address queries with most suitable technical explanation for the performance or application requirement
- PC5.** provide accurate information from previous experiences which required similar outcomes
- PC6.** provide existing customer's references for validation by new or potential customer
- PC7.** visit customers site for a thorough understanding of specific requirements for the given surface or substrate or ambient conditions, etc.
- PC8.** seek the support of the R&D team for higher-level queries that may require more detailed analysis and solution
- PC9.** explain about new products or product combinations in the market or of the company to help resolve specific queries

Provide solution for most suited paint system and/or application method

To be competent, the user/individual on the job must be able to:

- PC10.** provide logical explanation on why the paint or undercoat is most suited for the performance desired by the customer, e.g., chemical properties and reactions of material composition of paint
- PC11.** provide advice or solution in terms of best form of pre-treatment of surface or substrate for the desired result

Qualification Pack

- PC12.** advice on the types of checks to be undertaken on the surface or substrate before any surface preparation or pre-treatment
- PC13.** • advice on the undercoats to be used in combination with top-coat for maximum performance,
• say, durability, water proofing or fire proofing
- PC14.** advice on the most economical combination of paint and coats available in the market
- PC15.** inform about likely setbacks and precautions to be taken for best outcomes
- PC16.** educate about limitations of the paint, undercoat or application process
- PC17.** educate about elements beyond the control of the company's products or services

Gather feedback on specific paint or coating product

To be competent, the user/individual on the job must be able to:

- PC18.** collect comprehensive information on paint or undercoat performance from existing customers, as per company's standard procedure
- PC19.** capture data and information related to unexpected performance related parameters and the ambient conditions for such outcomes
- PC20.** capture any performance related complaints for a given paint or coat

Document for future reference

To be competent, the user/individual on the job must be able to:

- PC21.** document all information and data gathered from customer interaction in a coherent form as per company's standard documentation process
- PC22.** document and share in such a way that it helps sales, manufacturing and R&D teams for future product or process improvements
- PC23.** • record changing market trends and customer demands for future product development
• requirements and corresponding chemistry of paints
- PC24.** document the economics of diverse industrial paint application process for future reference on costing and margins for developing new products

Help close the sale

To be competent, the user/individual on the job must be able to:

- PC25.** convince the customer about the company's paint product that most suits the performance requirement
- PC26.** work with the sales team to offer a winning sale that suits the customer in terms of performance required, delivery requirements and pricing

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** customer's or paint company's instructions and acceptable quality standards
- KU2.** company's sales and credit policy
- KU3.** any discounts and scheme offerings
- KU4.** company's personnel management
- KU5.** importance of the individual's role in the workflow
- KU6.** reporting structure, if any
- KU7.** occupational health and safety standards

Qualification Pack

- KU8.** different types of decorative and industrial paints available in the market
- KU9.** company's paints and undercoats products and their chemical and physical properties
- KU10.** varied combinations of base, additives, hardeners, emulsifiers, and their chemical reactions with resins as well as the outcomes possible
- KU11.** possible reactions of the paint and undercoat in different ambient conditions
- KU12.** varied combinations of paints, undercoats and painting system for a specific performance
- KU13.** new or special paints demanded by the market and their chemical compositions
- KU14.** process of manufacturing different types of paints, including industrial/ specialised and decorative
- KU15.** different types of industrial and decorative paint application methods
- KU16.** details of each application process, dos and don'ts
- KU17.** types of expertise required and available for industrial and decorative paint application
- KU18.** different types of tools, jigs and machines used for the various application methods
- KU19.** existing and emerging market trends for new products and designs
- KU20.** difference between manual and machine paint application
- KU21.** tour planning and knowledge management
- KU22.** management of institutional sales, dealer network, and sales staff
- KU23.** suitability for various paints on different surfaces (exterior or interior, metals or wood) for different weather conditions, durability, and pricing
- KU24.** availability of paint with company or dealer and concept of dynamic consumable management
- KU25.** the process of warehousing, dispatch to depot, stocking, and distribution
- KU26.** product packaging and labelling
- KU27.** quality checks done on the paint before dispatch
- KU28.** new and upcoming paints, coats, resins, additives, thinners and tinters, etc., available in the market
- KU29.** major ingredients of paints and role of pigment, binder, extender, solvent, etc.
- KU30.** common defects post painting and errors to avoid
- KU31.** colour combinations and different shades available for a colour and their numbering
- KU32.** process of computerised colour matching and tinting
- KU33.** use of moisture meter, pH paper, measuring tapes
- KU34.** dilution ratio and drying time of different types of coats
- KU35.** various techniques for estimating customer service standards in the market and benchmarks
- KU36.** importance of safety at work, especially, from dust inhalation
- KU37.** importance of cleaning post painting for complete customer satisfaction
- KU38.** use of mobile application based paint calculator and quotation generation
- KU39.** use of scaffolding, ladders, covers and slings for painting on exterior and high surfaces
- KU40.** safe disposal of paints and used materials as per standard norms

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** company's sales policy documents
- GS2.** technical journals related to paint manufacturing and application
- GS3.** customer queries and other correspondence
- GS4.** document customer feedback and queries
- GS5.** prepare technical notes and documents for dissemination to industry
- GS6.** maintain correspondence and records as per company's policy
- GS7.** draw up technical terms of contract
- GS8.** listen to customers to capture their requirements
- GS9.** answer the queries of customers in language they understand
- GS10.** communicate with customers in a pleasant, polite, calm and clear way
- GS11.** provide a list of equipment, materials and aids that would be used as consumables as per company's standards
- GS12.** educate customer on the surface treatment requirements and application process
- GS13.** negotiate terms of contract
- GS14.** select the right product and service matching customer's specific requirement
- GS15.** inform the customer on relevant paint performance and related technical issues
- GS16.** to schedule the sequence of work and meeting
- GS17.** check for related journals and technical documents as applicable to the customer
- GS18.** carry documents as per company's standards
- GS19.** ensure that the customer's queries are resolved, solutions found to the best possible extent and sale closed
- GS20.** resolve technical issues arising from a product or application process by advising the customer as per the best solutions available under the given circumstances
- GS21.** work with the R&D team to improve process or product for better performance
- GS22.** analyse customer data and information to arrive at the solution related to the performance of specific paint and/or application in question
- GS23.** assess the economics of particular paint manufacturing and/or application
- GS24.** map the critical performance requirements of the customer to the paint properties and combinations in relation with the environmental elements

PCS/N0102: Provide technical support to dealers and institutional customers

Description

This OS unit is about advising and/or providing training to dealers and educating institutional customers of decorative paints on new paint products launched and their distinguishing features.

Scope

The scope covers the following :

- Advise and/or train dealers and their associates
- Educate institutional customers
- Provide technical support to customers of existing paint products and services

Elements and Performance Criteria

Advise and/or train dealers and their associates

To be competent, the user/individual on the job must be able to:

- PC1.** coordinate with paint dealer for technical support training
- PC2.** document and resolve queries of dealers and their associates with respect to paint performance
- PC3.** educate dealer or associates on paint application process, coats and tools/ equipment to be used
- PC4.** coordinate with painters or painting contractors for conducting their training on new products and application process
- PC5.** make the dealer and/or associate aware of best practices and emerging trends

Educate institutional customers

To be competent, the user/individual on the job must be able to:

- PC6.** interact with professionals and bulk customers such as architects, builders, and large painting contractors
- PC7.** advise on best possible paint to be used for the required purpose
- PC8.** answer technical queries of customers
- PC9.** educate customer on most appropriate application process and undercoat to be applied for new or existing paint products
- PC10.** educate on the combination of tools and machines to be used at different stages of preparation and painting for the desired finish

Provide technical support to existing customers of paint products and services

To be competent, the user/individual on the job must be able to:

- PC11.** provide logical explanation on why the paint or undercoat is most suited for the performance desired by the customer, e.g., chemical properties and reactions of material composition of paint
- PC12.** provide advice or solution in terms of best form of pre-treatment of surface for the desired result

Qualification Pack

- PC13.** advice on the types of checks to be undertaken on the surface before any surface preparation
- PC14.** inform about likely setbacks and precautions to be taken for best outcomes
- PC15.** educate about limitations of the paint, undercoat or application process
- PC16.** educate about elements beyond the control of the company products or services
- PC17.** educate dealer/ institutional customer on compliance of display, documentation and reporting procedure of the company as per agreed terms

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** customer's or paint company's instructions and acceptable quality standards
- KU2.** company's sales policy
- KU3.** any discounts and scheme offerings
- KU4.** company's personnel management policy
- KU5.** incentives rules for dealers and/or associates and institutional customers
- KU6.** importance of the individual's role in the workflow
- KU7.** reporting structure, if any
- KU8.** occupational health and safety standards
- KU9.** management of dealer network and sales staff
- KU10.** suitability of various paints on different surfaces (exterior or interior, metals or wood) for different weather conditions, durability, and pricing
- KU11.** availability of paint with company or dealer and concept of dynamic consummable management
- KU12.** the process of warehousing, dispatch to depot, stocking and distribution
- KU13.** product packaging and labelling
- KU14.** quality checks to be done on the paint before dispatch
- KU15.** new and upcoming paints, coats, resins, additives, thinners and tints, etc., available in the market and their chemical properties
- KU16.** people management, especially, job workers
- KU17.** tour planning and knowledge management
- KU18.** different types of decorative paint finishes e.g., matt, glossy, satin, textured
- KU19.** difference between stencil and hand tool textures
- KU20.** new texture designs creation and stencils or hand tools
- KU21.** difference between manual and machine painting
- KU22.** use of related tools or machines such as brush, roller, spray or for sanding
- KU23.** types of brushes and rollers used for different types of paints
- KU24.** process of wall and window painting such as sanding, sealing and cleaning, putty/ primer application, top coat application
- KU25.** the types of sand paper and their use for coarse to fine sanding while avoiding wastage beyond accepted levels

Qualification Pack

- KU26.** common defects post painting and errors to avoid
- KU27.** process of computerised colour tinting and matching
- KU28.** impact of lighting on finish and final outcome against the proposed design
- KU29.** new types of paints products available in the market
- KU30.** use of moisture meter, pH paper, measuring tapes, shade cards, , fan deck, design/ texture brouchers etc.
- KU31.** dilution ratio and drying time
- KU32.** various techniques for estimating customer service standards in the market and benchmarks
- KU33.** importance of safety at work, especially, from dust inhalation
- KU34.** use of mobile application based paint calculator and quotation generation
- KU35.** significance of use of scaffolding, ladders, covers and slings for painting on exterior and high surfaces

DGT/VSQ/N0103: Employability Skills (90 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** understand the significance of employability skills in meeting the current job market requirement and future of work
- PC2.** identify and explore learning and employability relevant portals
- PC3.** research about the different industries, job market trends, latest skills required and the available opportunities

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC4.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC5.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC6.** recognize the significance of 21st Century Skills for employment

Qualification Pack

- PC7.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life
- PC8.** adopt a continuous learning mindset for personal and professional development

Basic English Skills

To be competent, the user/individual on the job must be able to:

- PC9.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC10.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC11.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC12.** identify career goals based on the skills, interests, knowledge, and personal attributes
- PC13.** prepare a career development plan with short- and long-term goals

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC14.** follow verbal and non-verbal communication etiquette while communicating in professional and public settings
- PC15.** use active listening techniques for effective communication
- PC16.** communicate in writing using appropriate style and format based on formal or informal requirements
- PC17.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC18.** communicate and behave appropriately with all genders and PwD
- PC19.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC20.** identify and select reliable institutions for various financial products and services such as bank account, debit and credit cards, loans, insurance etc.
- PC21.** carry out offline and online financial transactions, safely and securely, using various methods and check the entries in the passbook
- PC22.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC23.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC24.** operate digital devices and use their features and applications securely and safely
- PC25.** carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.
- PC26.** display responsible online behaviour while using various social media platforms

Qualification Pack

- PC27.** create a personal email account, send and process received messages as per requirement
- PC28.** carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications
- PC29.** utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC30.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC31.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC32.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC33.** identify different types of customers and ways to communicate with them
- PC34.** identify and respond to customer requests and needs in a professional manner
- PC35.** use appropriate tools to collect customer feedback
- PC36.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC37.** create a professional Curriculum vitae (Résumé)
- PC38.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively
- PC39.** apply to identified job openings using offline /online methods as per requirement
- PC40.** answer questions politely, with clarity and confidence, during recruitment and selection
- PC41.** identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for employability skills and different learning and employability related portals
- KU2.** various constitutional and personal values
- KU3.** different environmentally sustainable practices and their importance
- KU4.** Twenty first (21st) century skills and their importance
- KU5.** how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up
- KU6.** importance of career development and setting long- and short-term goals
- KU7.** about effective communication
- KU8.** POSH Act
- KU9.** Gender sensitivity and inclusivity
- KU10.** different types of financial institutes, products, and services

Qualification Pack

- KU11.** components of salary and how to compute income and expenditure
- KU12.** importance of maintaining safety and security in offline and online financial transactions
- KU13.** different legal rights and laws
- KU14.** different types of digital devices and the procedure to operate them safely and securely
- KU15.** how to create and operate an e- mail account
- KU16.** use applications such as word processors, spreadsheets etc.
- KU17.** how to identify business opportunities
- KU18.** types and needs of customers
- KU19.** how to apply for a job and prepare for an interview
- KU20.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and write different types of documents/instructions/correspondence in English and other languages
- GS2.** communicate effectively using appropriate language in formal and informal settings
- GS3.** behave politely and appropriately with all to maintain effective work relationship
- GS4.** how to work in a virtual mode, using various technological platforms
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

PCS/N9901: Co-ordinate with colleagues and customers

Description

This OS unit is about communicating effectively with superiors, colleagues and customers, for achieving a smooth workflow.

Scope

The scope covers the following :

- Coordinate with supervisors and colleagues
- Address customer complaints and grievances
- Follow inclusive practices at work

Elements and Performance Criteria

Coordinate with supervisors and colleagues

To be competent, the user/individual on the job must be able to:

- PC1.** collect job order from the supervisor
- PC2.** establish the work output requirements, quality standards, delivery schedule, targets, performance indicators and incentive policies
- PC3.** ensure prompt and quality work as per agreed timeline
- PC4.** report challenges at work and reasons for delay to the supervisor
- PC5.** incorporate feedback received from the supervisor and colleagues
- PC6.** provide colleagues with adequate and accurate information and knowledge
- PC7.** ensure quality output by highlighting errors committed by colleagues, thus helping them improve
- PC8.** comply with the recommended steps of resolving conflicts with colleagues

Address customer complaints and grievances

To be competent, the user/individual on the job must be able to:

- PC9.** prepare a list of the products/services required by internal and external customers
- PC10.** comply with best practices to keep customer needs and complaints confidential
- PC11.** provide customers with adequate information on potential costs and hazards
- PC12.** apply organisational practices to fully understand and record customer complaints
- PC13.** solve customer issues/complaints or escalate to concerned authorities and supervisors as per organisational policies

Follow inclusive practices at work

To be competent, the user/individual on the job must be able to:

- PC14.** treat all co-workers equally, irrespective of gender and disability
- PC15.** ensure equal participation of people across genders in discussions
- PC16.** use gender-neutral/gender-inclusive terms while interacting with colleagues
- PC17.** report instances of discriminatory action/attitude to the supervisor

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on confidentiality and work ethics
- KU2.** the market and the available products and services
- KU3.** company's customer profile, HR policies, reporting structure and documentation policy
- KU4.** standard templates for reports in the organization
- KU5.** the productivity targets of the organization
- KU6.** the importance of meeting quality standards and timelines in a team
- KU7.** the dos and don'ts of customer service
- KU8.** gender based concepts, issues and legislation
- KU9.** various types and degrees of disability
- KU10.** PwD-related legislation
- KU11.** inclusive practices at the workplace

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read important documents like company's work instructions, quality policy, printed instructions and job specifications
- GS2.** use effective writing skills for preparing documents required at the job
- GS3.** communicate effectively with colleagues, supervisors and customers to achieve smooth workflow and ensure rapport
- GS4.** organise materials and equipment required to do the work
- GS5.** resolve inter-personal conflicts and work-related issues such as customer complaints, customised orders, etc. by making appropriate decisions at the workplace
- GS6.** coordinate with different departments and multi-task as necessary
- GS7.** delegate work in consultation with superior or as necessary instead of allowing work to pile up

PCS/N9902: Maintain standards of product/ service quality

Description

This OS unit is about gaining an understanding of expected standards of product quality and/or customer service and executing the designated work in a manner that results in customer satisfaction.

Scope

The scope covers the following :

- Engage with customers to understand product/ service quality requirements
- Achieve customer satisfaction for given quality

Elements and Performance Criteria

Engage with customers to understand product/ service quality requirements

To be competent, the user/individual on the job must be able to:

- PC1.** identify the profiles of expected customers
- PC2.** evaluate market information on latest trends and customer expectations
- PC3.** analyse the product/service requirements and quality expectations of target customers as stipulated by the company
- PC4.** provide customers with the right and quality products/services
- PC5.** use appropriate close-ended questions to clarify customer requirements
- PC6.** address customer queries accurately and promptly

Achieve customer satisfaction for given quality

To be competent, the user/individual on the job must be able to:

- PC7.** participate in training sessions on new and innovative products/services as per the company's marketing strategies and product development needs
- PC8.** demonstrate the steps of escalating negative feedback to the supervisor or concerned authorities
- PC9.** ensure that maintenance and calibration services are extended to customers regularly as per company policies
- PC10.** establish the cost of fulfilling unscheduled and special customer requests in consultation with senior(s) and advise the customer on alternatives
- PC11.** perform appropriate tests to ensure quality adherence of the products/services

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on quality standards and documentation for quality compliance
- KU2.** company's end-customer profile
- KU3.** the market standards of customer satisfaction

Qualification Pack

- KU4.** types of unscheduled and special requests expected from customers
- KU5.** various parameters tested for quality
- KU6.** test pass/fail criteria and acceptable tolerance levels
- KU7.** equipment used for quality tests
- KU8.** ways to improve company's customer satisfaction rating
- KU9.** standard practices in customer orientation and quality adherence

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read important documents like company's work instructions, quality policy, printed instructions and job specifications
- GS2.** record customer queries and complaints to support product development and enhancement
- GS3.** communicate effectively with colleagues while discussing quality standards
- GS4.** make appropriate decisions while recommending products/services and promotional offers to customers

PCS/N9903: Maintain OH&S standards and follow environmental norms

Description

This OS unit is about complying with workplace health, hygiene, safety, and environmental standards to have a hazard-free environment and avoid downtime. It is also about following government laid norms for waste treatment and disposal.

Scope

The scope covers the following :

- Prevent accidents at work place and damage to environment
- Follow standard health, safety, and environmental policies and procedures
- Use safety tools and personal protective equipment (PPE)
- Achieve health, safety and environmental standards

Elements and Performance Criteria

Prevent accidents at workplace and damage to environment

To be competent, the user/individual on the job must be able to:

- PC1.** identify eco-friendly products and machines
- PC2.** select suitable non-hazardous alternatives of hazardous products to control environmental pollution
- PC3.** practise necessary steps of eliminating or minimising health, safety and environmental hazards in the work areas
- PC4.** ensure that precautions, like masking items, are taken while painting in office/residence location to prevent damages
- PC5.** practise precautions to protect children and other family members for overspray
- PC6.** determine suitable ways of optimising the usage of resources (water, electricity, fuel, etc.) in various tasks, activities, and processes
- PC7.** check for spills/leakages in various tasks/activities/processes, plug spills/leakages, and escalate to the appropriate authority, if unable to rectify
- PC8.** ensure routine cleaning of tools, machines, and equipment
- PC9.** identify processes where energy/ electricity and material utilization can be optimized
- PC10.** ensure that material and water conservation processes are closely monitored at work
- PC11.** analyse the causes of accidents at the workplace and suggest measures to prevent such accidents from recurring
- PC12.** identify methods of improving the existing safety procedures at the workplace
- PC13.** do not smoke, ensure no smoking and open flames at the workplace

Follow standard health, safety and environmental policies and procedures

To be competent, the user/individual on the job must be able to:

- PC14.** segregate waste into different categories (recyclable, non-recyclable, hazardous, etc.)
- PC15.** practise waste disposal in the designated areas safely as per company's policies and rules

Qualification Pack

- PC16.** ensure appropriate ventilation in the rooms in the presence of paint vapours
- PC17.** check if the equipment/machine is functioning normally before starting work
- PC18.** ensure that electrical equipment and appliances are properly connected and turned off when not in use
- PC19.** check if the standard process is followed for treatment of the wastewater in the unit
- PC20.** use products, free of lead and heavy metal, that meet RoHS (restriction on heavy substances) specifications
- PC21.** stack items, in an organized way, to reduce risk of injuries while handling materials
- PC22.** practise handling materials, tools, acids, chemicals, equipment, etc. safely
- PC23.** ensure that all chemicals and acids are stored in well-ventilated and locked areas with warning signs displayed
- PC24.** develop a routine for unplugging the electrical equipment before performing maintenance
- PC25.** ensure that the floors are free of oil, water and grease to avoid slippery surface
- PC26.** ensure daily tasks are executed via alternative methods such as marking attendance without using biometric devices, virtual meetings, e-payments, etc.
- PC27.** practise social distancing at workplace, e.g. increased space, 2 meters or more, between employee work areas, prevent crowding of common areas, etc.
- PC28.** perform routine hygiene and sanitation checks of work area and equipment as per SOP
- PC29.** check the availability of the products required to maintain hygiene and sanitation
- PC30.** ensure entry and exit SOP are followed

Use safety tools and personal protective equipment (PPE)

To be competent, the user/individual on the job must be able to:

- PC31.** check if all employees are aware of MSDS (Material Safety Data Sheet) details
- PC32.** ensure that the employees have access to first aid kit when needed
- PC33.** use personal protective equipment and safety gear such as gloves, mask, headwear, footwear, glasses, goggles, etc. for specific tasks and work conditions as per SOP
- PC34.** adopt precautions like insulated clothing, adequate equipment insulation, dry work area, switching off the power supply when not required, etc.
- PC35.** check availability of general health and safety equipment such as fire extinguishers, first aid kit, safety equipment, clothing, safety installations such as fire exits, exhaust fans, etc.

Achieve health, safety and environmental standards

To be competent, the user/individual on the job must be able to:

- PC36.** record all first aid treatments, inspections, employees' and visitors' details, etc., to keep track of the safety measures undertaken
- PC37.** assess risks and ensure corrective action as per SOPs
- PC38.** report hazards, breaches, and incidents to appropriate authority, e.g., reporting of people with any symptoms, etc.
- PC39.** comply with SOPs in case of health emergency
- PC40.** support employees so that they can cope with stress, anxiety, etc.
- PC41.** ensure a safe working environment for female colleagues

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** the importance of social distancing and hygiene
- KU2.** modes of disease transmission and symptoms of infections like fever, cough, redness, swelling and inflammation
- KU3.** company's policies on health, safety, documentation, and environmental procedures at the workplace
- KU4.** company's reporting structure
- KU5.** common sources of pollution and ways to minimize it
- KU6.** environment-friendly materials that can replace conventional materials
- KU7.** government and company's environmental norms
- KU8.** solid waste management rules 2016
- KU9.** recommended practices for minimizing and disposing off waste
- KU10.** latest methods of energy and material conservation
- KU11.** potential hazards, risks, and threats based on the nature of work
- KU12.** standard operating procedures for safe handling of chemicals, equipment and machinery
- KU13.** the purpose and usage of protective gears such as gloves, protective goggles, masks, etc. while working
- KU14.** precautionary activities and emergency procedures to be followed for workplace safety
- KU15.** use of first aid at the workplace
- KU16.** locations of fire extinguishers, emergency exits, etc.
- KU17.** signs of stress and anxiety

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret internal communications correctly
- GS2.** write formal and informal letters/emails, memos, reports, etc.
- GS3.** communicate effectively with others to convey relevant information
- GS4.** assess situations and make appropriate decisions
- GS5.** prioritize, organize, and complete work within prescribed timelines
- GS6.** address work-related issues and problems

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Practical Skills for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for practical skill for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 60

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 60

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
