PCS/N5105: Prepare for coating

Description

This OS unit is about planning and preparing the component for pre-treatment and coating

Scope

The scope covers the following :

- Plan the work
- Prepare the surface and materials for coating

Elements and Performance Criteria

Plan the work

To be competent, the user/individual on the job must be able to:

- PC1.** receive work instructions, review and plan to meet the quality requirements
- PC2.** inspect the work area, assess hazards and risks and apply controls
- PC3.** check the work site for adequate ventilation and implement steps to prevent fires and explosions
- PC4.** check the tools, equipment and jigs/ hangers are suitable and ready for use

Prepare the surface and materials

To be competent, the user/individual on the job must be able to:

- PC5.** inspect the condition of the substrate surface visually
- PC6.** mask the areas not required to be coated with masking tapes/ plugs
- PC7.** implement measures to maintain the painting area dust free
- PC8.** mix the paint/ coating materials, diluents as per instructions, to achieve desired quality
- PC9.** stir the paint/ coating thoroughly and maintain under constant stirring using suitable equipment

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policy and work instructions on quality standards
- KU2.** importance of the individual's role in the workflow
- KU3.** reporting structure of the organization
- KU4.** occupational health and safety standards
- KU5.** various paints/ coatings for different substrates
- KU6.** masking of areas not required to be painted/ coated
- KU7.** significance of following the SOP for surface preparation, paint/ coating preparation and application
- KU8.** personal protection including the use of safety gears and equipment

Qualification Pack

- KU9.** safe handling of jigs/ hangers, painting tools, equipment and material
- KU10.** importance of work station cleaning post job completion
- KU11.** need for maintenance and upkeep of tools and equipment
- KU12.** safe disposal of waste/ discarded materials as per standard norms

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read work instructions, SOP and instructions for use of tools and equipment
- GS2.** write reports and maintain records as per company's policy
- GS3.** practice active listening to capture task requirements from the supervisor/ manager
- GS4.** communicate with colleagues in a pleasant, polite, calm and clear way
- GS5.** follow the sequence of the work process as per SOP
- GS6.** select the correct tools and equipment for coating and ensure it's proper working
- GS7.** deliver quality work as per the agreed schedule

Qualification Pack

PCS/N5106: Pre-treat the component to be coated

Description

This OS unit is about pre-treatment of the components before coating.

Scope

The scope covers the following :

- Clean the surface
- Pre-treat for coating

Elements and Performance Criteria

Clean the surface

To be competent, the user/individual on the job must be able to:

- PC1.** inspect and assess the nature and quantity of contaminants to be removed before painting
- PC2.** decide on the method to be adopted for cleaning the substrate e.g.-mechanical or chemical cleaning.

Pretreat for coating

To be competent, the user/individual on the job must be able to:

- PC3.** prepare and pretreat the substrate as per SOP and instructions received
- PC4.** prepare and pretreat the previously coated substrate by removing unwanted coating and loose films
- PC5.** set up the mechanical pretreatment tools and equipment as per SOP and manufacturer's instruction manual
- PC6.** set up the chemical pretreat process and parameters as per SOP and suppliers recommendation
- PC7.** check the quality of the surface preparation as per SOP

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policy and work instructions on quality standards
- KU2.** importance of the individual's role in the workflow
- KU3.** reporting structure of the organization
- KU4.** occupational health and safety standards
- KU5.** pretreatment processes for different substrates
- KU6.** masking of areas not required to be coated
- KU7.** SOP for pretreatment
- KU8.** common defects after pretreatment
- KU9.** significance of following SOP/ manufacturer's instructions for pretreatment

Qualification Pack

- KU10.** personal protection including use of safety gears and equipment
- KU11.** safe handling of various tools and equipment for preparation and pretreatment
- KU12.** importance of maintaining cleanliness in work area
- KU13.** need for maintenance and upkeep of tools and equipment
- KU14.** safe disposal of waste and discarded materials as per standard norms

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read work instructions, SOP and instructions for use of tools, equipment and material handling
- GS2.** write reports and maintain records as per company's policy
- GS3.** practice active listening to capture task requirements from the supervisor/ manager
- GS4.** communicate with colleagues in a pleasant, polite, calm and clear way
- GS5.** follow the sequence of work process as per SOP

Qualification Pack

PCS/N5107: Apply topcoat and finish the surface.

Description

This OS unit is about preparation of the liquid paint, application and finishing the surface.

Scope

The scope covers the following :

- Prepare the equipment and paint for application
- Apply the paint, dry/ bake/ cure and finish the surface

Elements and Performance Criteria

Prepare the equipment and paint for application

To be competent, the user/individual on the job must be able to:

- PC1.** set up the application system, as recommended by the manufacturer, for the type of paint and finish quality required
- PC2.** conduct pre-operational tests before coating to achieve the desired quality

Apply the paint, dry/ bake/ cure and finish the surface

To be competent, the user/individual on the job must be able to:

- PC3.** operate the application equipment as recommended by the equipment supplier
- PC4.** apply the paint/ coating to achieve the desired colour and opacity
- PC5.** dry/ cure/ bake the applied coating as per SOP
- PC6.** identify defects in the coating, in an inline quality check
- PC7.** take corrective measures to meet the quality requirement, either by rubbing/ polishing or re-painting

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policy and work instructions on quality standards
- KU2.** importance of the individual's role in the workflow
- KU3.** reporting structure of the organization
- KU4.** occupational health and safety standards
- KU5.** preparation of the paint for application as recommended by the manufacturer
- KU6.** application methods for different products and/ or surfaces
- KU7.** masking of areas not required to be coated
- KU8.** SOP for paint application
- KU9.** common application defects
- KU10.** significance of following SOP/ manufacturer's recommendations for paint/ coating application

Qualification Pack

- KU11.** personal protection including the use of safety gears and equipment
- KU12.** safe handling of tools and equipment for application
- KU13.** importance on maintaining cleanliness of the application area and equipment
- KU14.** need for maintenance and upkeep of the equipment
- KU15.** safe disposal of waste and discarded materials as per standard norms

PCS/N5108: Maintain jigs and parts

Description

This OS unit is about cleaning and maintaining jigs/ hangers, tools and equipment

Scope

The scope covers the following :

- Clean and maintain tools and equipment

Elements and Performance Criteria

Clean and maintain tools and equipment

To be competent, the user/individual on the job must be able to:

- PC1.** clean up the work station and place waste and discarded materials into appropriate waste bins or rubbish stockpiles
- PC2.** clean tools and equipment as per SOP
- PC3.** store tools and equipment safely
- PC4.** clean the jigs/ hangers as per SOP

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policy and work instructions on quality standards
- KU2.** importance of the individual's role in the workflow
- KU3.** reporting structure of the organization
- KU4.** occupational health and safety standards
- KU5.** cleaning and maintaining the coating facility as per company's standards

PCS/N9901: Co-ordinate with colleagues and customers

Description

This OS unit is about communicating effectively with superiors, colleagues and customers, for achieving a smooth workflow.

Scope

The scope covers the following :

- Coordinate with supervisors and colleagues
- Address customer complaints and grievances
- Follow inclusive practices at work

Elements and Performance Criteria

Coordinate with supervisors and colleagues

To be competent, the user/individual on the job must be able to:

- PC1.** collect job order from the supervisor
- PC2.** establish the work output requirements, quality standards, delivery schedule, targets, performance indicators and incentive policies
- PC3.** ensure prompt and quality work as per agreed timeline
- PC4.** report challenges at work and reasons for delay to the supervisor
- PC5.** incorporate feedback received from the supervisor and colleagues
- PC6.** provide colleagues with adequate and accurate information and knowledge
- PC7.** ensure quality output by highlighting errors committed by colleagues, thus helping them improve
- PC8.** comply with the recommended steps of resolving conflicts with colleagues

Address customer complaints and grievances

To be competent, the user/individual on the job must be able to:

- PC9.** prepare a list of the products/services required by internal and external customers
- PC10.** comply with best practices to keep customer needs and complaints confidential
- PC11.** provide customers with adequate information on potential costs and hazards
- PC12.** apply organisational practices to fully understand and record customer complaints
- PC13.** solve customer issues/complaints or escalate to concerned authorities and supervisors as per organisational policies

Follow inclusive practices at work

To be competent, the user/individual on the job must be able to:

- PC14.** treat all co-workers equally, irrespective of gender and disability
- PC15.** ensure equal participation of people across genders in discussions
- PC16.** use gender-neutral/gender-inclusive terms while interacting with colleagues
- PC17.** report instances of discriminatory action/attitude to the supervisor

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on confidentiality and work ethics
- KU2.** the market and the available products and services
- KU3.** company's customer profile, HR policies, reporting structure and documentation policy
- KU4.** standard templates for reports in the organization
- KU5.** the productivity targets of the organization
- KU6.** the importance of meeting quality standards and timelines in a team
- KU7.** the dos and don'ts of customer service
- KU8.** gender based concepts, issues and legislation
- KU9.** various types and degrees of disability
- KU10.** PwD-related legislation
- KU11.** inclusive practices at the workplace

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read important documents like company's work instructions, quality policy, printed instructions and job specifications
- GS2.** use effective writing skills for preparing documents required at the job
- GS3.** communicate effectively with colleagues, supervisors and customers to achieve smooth workflow and ensure rapport
- GS4.** organise materials and equipment required to do the work
- GS5.** resolve inter-personal conflicts and work-related issues such as customer complaints, customised orders, etc. by making appropriate decisions at the workplace
- GS6.** coordinate with different departments and multi-task as necessary
- GS7.** delegate work in consultation with superior or as necessary instead of allowing work to pile up

PCS/N9902: Maintain standards of product/ service quality

Description

This OS unit is about gaining an understanding of expected standards of product quality and/or customer service and executing the designated work in a manner that results in customer satisfaction.

Scope

The scope covers the following :

- Engage with customers to understand product/ service quality requirements
- Achieve customer satisfaction for given quality

Elements and Performance Criteria

Engage with customers to understand product/ service quality requirements

To be competent, the user/individual on the job must be able to:

- PC1.** identify the profiles of expected customers
- PC2.** evaluate market information on latest trends and customer expectations
- PC3.** analyse the product/service requirements and quality expectations of target customers as stipulated by the company
- PC4.** provide customers with the right and quality products/services
- PC5.** use appropriate close-ended questions to clarify customer requirements
- PC6.** address customer queries accurately and promptly

Achieve customer satisfaction for given quality

To be competent, the user/individual on the job must be able to:

- PC7.** participate in training sessions on new and innovative products/services as per the company's marketing strategies and product development needs
- PC8.** demonstrate the steps of escalating negative feedback to the supervisor or concerned authorities
- PC9.** ensure that maintenance and calibration services are extended to customers regularly as per company policies
- PC10.** establish the cost of fulfilling unscheduled and special customer requests in consultation with senior(s) and advise the customer on alternatives
- PC11.** perform appropriate tests to ensure quality adherence of the products/services

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on quality standards and documentation for quality compliance
- KU2.** company's end-customer profile
- KU3.** the market standards of customer satisfaction

Qualification Pack

- KU4.** types of unscheduled and special requests expected from customers
- KU5.** various parameters tested for quality
- KU6.** test pass/fail criteria and acceptable tolerance levels
- KU7.** equipment used for quality tests
- KU8.** ways to improve company's customer satisfaction rating
- KU9.** standard practices in customer orientation and quality adherence

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read important documents like company's work instructions, quality policy, printed instructions and job specifications
- GS2.** record customer queries and complaints to support product development and enhancement
- GS3.** communicate effectively with colleagues while discussing quality standards
- GS4.** make appropriate decisions while recommending products/services and promotional offers to customers

PCS/N9903: Maintain OH&S standards and follow environmental norms

Description

This OS unit is about complying with workplace health, hygiene, safety, and environmental standards to have a hazard-free environment and avoid downtime. It is also about following government laid norms for waste treatment and disposal.

Scope

The scope covers the following :

- Prevent accidents at work place and damage to environment
- Follow standard health, safety, and environmental policies and procedures
- Use safety tools and personal protective equipment (PPE)
- Achieve health, safety and environmental standards

Elements and Performance Criteria

Prevent accidents at workplace and damage to environment

To be competent, the user/individual on the job must be able to:

- PC1.** identify eco-friendly products and machines
- PC2.** select suitable non-hazardous alternatives of hazardous products to control environmental pollution
- PC3.** practise necessary steps of eliminating or minimising health, safety and environmental hazards in the work areas
- PC4.** ensure that precautions, like masking items, are taken while painting in office/residence location to prevent damages
- PC5.** practise precautions to protect children and other family members for overspray
- PC6.** determine suitable ways of optimising the usage of resources (water, electricity, fuel, etc.) in various tasks, activities, and processes
- PC7.** check for spills/leakages in various tasks/activities/processes, plug spills/leakages, and escalate to the appropriate authority, if unable to rectify
- PC8.** ensure routine cleaning of tools, machines, and equipment
- PC9.** identify processes where energy/ electricity and material utilization can be optimized
- PC10.** ensure that material and water conservation processes are closely monitored at work
- PC11.** analyse the causes of accidents at the workplace and suggest measures to prevent such accidents from recurring
- PC12.** identify methods of improving the existing safety procedures at the workplace
- PC13.** do not smoke, ensure no smoking and open flames at the workplace

Follow standard health, safety and environmental policies and procedures

To be competent, the user/individual on the job must be able to:

- PC14.** segregate waste into different categories (recyclable, non-recyclable, hazardous, etc.)
- PC15.** practise waste disposal in the designated areas safely as per company's policies and rules

Qualification Pack

- PC16.** ensure appropriate ventilation in the rooms in the presence of paint vapours
- PC17.** check if the equipment/machine is functioning normally before starting work
- PC18.** ensure that electrical equipment and appliances are properly connected and turned off when not in use
- PC19.** check if the standard process is followed for treatment of the wastewater in the unit
- PC20.** use products, free of lead and heavy metal, that meet RoHS (restriction on heavy substances) specifications
- PC21.** stack items, in an organized way, to reduce risk of injuries while handling materials
- PC22.** practise handling materials, tools, acids, chemicals, equipment, etc. safely
- PC23.** ensure that all chemicals and acids are stored in well-ventilated and locked areas with warning signs displayed
- PC24.** develop a routine for unplugging the electrical equipment before performing maintenance
- PC25.** ensure that the floors are free of oil, water and grease to avoid slippery surface
- PC26.** ensure daily tasks are executed via alternative methods such as marking attendance without using biometric devices, virtual meetings, e-payments, etc.
- PC27.** practise social distancing at workplace, e.g. increased space, 2 meters or more, between employee work areas, prevent crowding of common areas, etc.
- PC28.** perform routine hygiene and sanitation checks of work area and equipment as per SOP
- PC29.** check the availability of the products required to maintain hygiene and sanitation
- PC30.** ensure entry and exit SOP are followed

Use safety tools and personal protective equipment (PPE)

To be competent, the user/individual on the job must be able to:

- PC31.** check if all employees are aware of MSDS (Material Safety Data Sheet) details
- PC32.** ensure that the employees have access to first aid kit when needed
- PC33.** use personal protective equipment and safety gear such as gloves, mask, headwear, footwear, glasses, goggles, etc. for specific tasks and work conditions as per SOP
- PC34.** adopt precautions like insulated clothing, adequate equipment insulation, dry work area, switching off the power supply when not required, etc.
- PC35.** check availability of general health and safety equipment such as fire extinguishers, first aid kit, safety equipment, clothing, safety installations such as fire exits, exhaust fans, etc.

Achieve health, safety and environmental standards

To be competent, the user/individual on the job must be able to:

- PC36.** record all first aid treatments, inspections, employees' and visitors' details, etc., to keep track of the safety measures undertaken
- PC37.** assess risks and ensure corrective action as per SOPs
- PC38.** report hazards, breaches, and incidents to appropriate authority, e.g., reporting of people with any symptoms, etc.
- PC39.** comply with SOPs in case of health emergency
- PC40.** support employees so that they can cope with stress, anxiety, etc.
- PC41.** ensure a safe working environment for female colleagues

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** the importance of social distancing and hygiene
- KU2.** modes of disease transmission and symptoms of infections like fever, cough, redness, swelling and inflammation
- KU3.** company's policies on health, safety, documentation, and environmental procedures at the workplace
- KU4.** company's reporting structure
- KU5.** common sources of pollution and ways to minimize it
- KU6.** environment-friendly materials that can replace conventional materials
- KU7.** government and company's environmental norms
- KU8.** solid waste management rules 2016
- KU9.** recommended practices for minimizing and disposing off waste
- KU10.** latest methods of energy and material conservation
- KU11.** potential hazards, risks, and threats based on the nature of work
- KU12.** standard operating procedures for safe handling of chemicals, equipment and machinery
- KU13.** the purpose and usage of protective gears such as gloves, protective goggles, masks, etc. while working
- KU14.** precautionary activities and emergency procedures to be followed for workplace safety
- KU15.** use of first aid at the workplace
- KU16.** locations of fire extinguishers, emergency exits, etc.
- KU17.** signs of stress and anxiety

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret internal communications correctly
- GS2.** write formal and informal letters/emails, memos, reports, etc.
- GS3.** communicate effectively with others to convey relevant information
- GS4.** assess situations and make appropriate decisions
- GS5.** prioritize, organize, and complete work within prescribed timelines
- GS6.** address work-related issues and problems

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Prevent accidents at workplace and damage to environment</i>	3	8	-	-
PC1. identify eco-friendly products and machines	-	-	-	-
PC2. select suitable non-hazardous alternatives of hazardous products to control environmental pollution	-	-	-	-
PC3. practise necessary steps of eliminating or minimising health, safety and environmental hazards in the work areas	-	-	-	-
PC4. ensure that precautions, like masking items, are taken while painting in office/residence location to prevent damages	-	-	-	-
PC5. practise precautions to protect children and other family members for overspray	-	-	-	-
PC6. determine suitable ways of optimising the usage of resources (water, electricity, fuel, etc.) in various tasks, activities, and processes	-	-	-	-
PC7. check for spills/leakages in various tasks/activities/processes, plug spills/leakages, and escalate to the appropriate authority, if unable to rectify	-	-	-	-
PC8. ensure routine cleaning of tools, machines, and equipment	-	-	-	-
PC9. identify processes where energy/ electricity and material utilization can be optimized	-	-	-	-
PC10. ensure that material and water conservation processes are closely monitored at work	-	-	-	-
PC11. analyse the causes of accidents at the workplace and suggest measures to prevent such accidents from recurring	-	-	-	-
PC12. identify methods of improving the existing safety procedures at the workplace	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC13. do not smoke, ensure no smoking and open flames at the workplace	-	-	-	-
<i>Follow standard health, safety and environmental policies and procedures</i>	7	14	-	-
PC14. segregate waste into different categories (recyclable, non-recyclable, hazardous, etc.)	-	-	-	-
PC15. practise waste disposal in the designated areas safely as per company's policies and rules	-	-	-	-
PC16. ensure appropriate ventilation in the rooms in the presence of paint vapours	-	-	-	-
PC17. check if the equipment/machine is functioning normally before starting work	-	-	-	-
PC18. ensure that electrical equipment and appliances are properly connected and turned off when not in use	-	-	-	-
PC19. check if the standard process is followed for treatment of the wastewater in the unit	-	-	-	-
PC20. use products, free of lead and heavy metal, that meet RoHS (restriction on heavy substances) specifications	-	-	-	-
PC21. stack items, in an organized way, to reduce risk of injuries while handling materials	-	-	-	-
PC22. practise handling materials, tools, acids, chemicals, equipment, etc. safely	-	-	-	-
PC23. ensure that all chemicals and acids are stored in well-ventilated and locked areas with warning signs displayed	-	-	-	-
PC24. develop a routine for unplugging the electrical equipment before performing maintenance	-	-	-	-
PC25. ensure that the floors are free of oil, water and grease to avoid slippery surface	-	-	-	-

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Practical Skills for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for practical skill for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 60

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 60

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
