PSC/N0187: Support Plumbing Installation

Description

This unit describes how an assistant plumber supports the plumber in carrying out installation, operation, repair and maintenance work.

Scope

The scope covers the following :

- Follow instructions for installation, commissioning and maintenance of the plumbing work
- Support senior plumber

Elements and Performance Criteria

Follow instructions for installation, commissioning and maintenance of the plumbing work

To be competent, the user/individual on the job must be able to:

- PC1.** follow work instructions received from plumber or supervisor
- PC2.** Receive pipes, fittings and fixtures as per work requirement
- PC3.** check quantity and quality of pipes, fittings and fixtures, etc as per specification
- PC4.** report any shortcomings like quantity, quality and standards of supplies against specifications or requirements
- PC5.** Arrange and maintain tools, measuring device and consumables.

Support senior plumber

To be competent, the user/individual on the job must be able to:

- PC6.** Assist in mobilizing material requirements for the work.
- PC7.** Safely carry the materials to the work location.
- PC8.** Carry out the work as required under supervision.
- PC9.** use hand and power tools for cutting, bending and assembling pipes and fittings in a safe manner under guidance of senior plumber.
- PC10.** perform cutting, bending and forming of pipes as per the dimensions required.
- PC11.** Install pipes, fittings and fixtures as instructed by senior plumber.
- PC12.** Measure and check the fixture and/or pipework as per instructions
- PC13.** Support the pipework or fixture steadily during installation as required.
- PC14.** clear work area and store tools and other plumbing materials safely and as per the specified instructions.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organisational requirements
- KU2.** organisation's policies on delivery standards, safety and hazards, integrity, dress code, etc.

Qualification Pack

- KU3.** individual's role and responsibilities in the workflow.
- KU4.** risk and impact effects on non-compliance.
- KU5.** basics of inspection and measurement relevant to plumbing work
- KU6.** properties and the advantages of different pipe, fittings, fixture, consumables
- KU7.** Different types of fixing and jointing methods used in plumbing.
- KU8.** Water supply and drainage system
- KU9.** Pipes specific installation methods and support system.
- KU10.** Different types of plumbing tools, inspection & measuring device and equipment
- KU11.** Correct usage and handling of plumbing tools.
- KU12.** Basic repair and maintenance knowledge of plumbing tools
- KU13.** Correct installation methods of pipes and fittings for different plumbing applications
- KU14.** Pipe insulation for hot water distribution.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare checklists, reports and fill out forms in local language or Hindi/English
- GS2.** understand the various colour codes, as per standard electrical, mechanical and civil nomenclature.
- GS3.** ability to read from different sources- books screens in machines and signage.
- GS4.** perform arithmetic calculations of addition, subtraction, multiplication and division processes
- GS5.** read and interpret information (symbols, dimensions, terminology, dates etc.) given in local language or hindi
- GS6.** state information, doubts and concerns about work related matters in local language or hindi/English
- GS7.** plan one's daily tasks to achieve maximum efficiency
- GS8.** be punctual and work as per agreed priorities
- GS8.** manage distractions and maintain workplace discipline
- GS9.** listen to the higher authorities carefully
- GS10.** be courteous
- GS11.** identify ways to increase efficiency and reduce errors
- GS12.** read and understand manuals, health and safety instructions, memos, other company documents.
- GS13.** communicate with supervisor

PSC/N0140: Maintain Plumbing Tools and Equipment

Description

This NOS deals in detail with the preventive and corrective maintenance of various plumbing tools and equipment.

Scope

The scope covers the following :

- Perform corrective maintenance work
- Identify and perform preventive maintenance requirements

Elements and Performance Criteria

Perform corrective maintenance work

To be competent, the user/individual on the job must be able to:

- PC1.** Ensure tools are in good working condition, identify the reason for underperformance
- PC2.** Repair the tools as instructed by expert or manufacturer.
- PC3.** Follow correct repair procedures
- PC4.** Post repair, check the tools for correct proper operation/working, if not, repeat the repair process under expert guidance.
- PC5.** check the power tools for wear and tear and replace the parts as scheduled.
- PC6.** Ensure correct operation as per the requirements.
- PC7.** Ensure proper disposal of worn-out, defective and exhausted parts/materials.

Identify and perform preventive maintenance requirements

To be competent, the user/individual on the job must be able to:

- PC8.** Identify preventive maintenance requirements of different tools.
- PC9.** Follow tool specific maintenance schedule.
- PC10.** Check and inspect tools to the operations requirement.
- PC11.** Analyse potential breakdowns and implement corrective actions under expert guidance.
- PC12.** Ensure proper disposal of worn-out, defective and exhausted parts/materials.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organisational requirements
- KU2.** organisation's policies on delivery standards, safety and hazards, integrity, dress code, etc.
- KU3.** individual's role and responsibilities in the workflow.
- KU4.** risk and impact of not following defined procedures/work instructions
- KU5.** usage of plumbing tools, equipment and materials

Qualification Pack

- KU6.** methods for cleaning the tools
- KU7.** importance of maintaining tools and indicators of damages and defects
- KU8.** different techniques and skills adopted in repair and maintenance.
- KU9.** Repair methods for damaged tools and accessories in plumbing activities
- KU10.** Consumables used in the plumbing industry as per the latest trends
- KU11.** correct wastage disposal procedures such as oily rags and others.
- KU12.** Special purpose tools, advanced tools, equipment and materials used in the plumbing.
- KU13.** effect of the hazardous substances presents at the plumbing sites and precautions to be taken while working with them
- KU14.** usage of personal protective equipment (PPE) required for plumbing work and its importance

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write common plumbing symbols and brief notes in the local language and preferably English
- GS2.** read and correctly interpret plumbing symbols and notes in local language and preferably English
- GS3.** interpret verbal instructions and information about work related matters correctly
- GS4.** state information, doubts and concerns about work related matters to co-workers and supervisors with clarity, in person and over the phone
- GS5.** organize tools, materials and equipment on the basis of safety, availability, cleanliness, damage etc.
- GS6.** plan work activities and communicate to others whose work plans and timelines may be affected
- GS7.** be courteous to everyone irrespective of gender and disability
- GS8.** identify problems at work and seek necessary support to resolve them following company policy

PSC/N0188: Perform Repair and Maintenance of Plumbing System Post Installation

Description

This NOS deals detail with repair and maintenance of water distribution and drainage system.

Scope

The scope covers the following :

- repair of minor defects like leakage and clogs in plumbing system
- Assisting and applying repair solution identified by senior/expert plumber
- Perform routine service under expert/senior plumber as per manufacturers recommendation.

Elements and Performance Criteria

repair of minor defects like leakage and clogs

To be competent, the user/individual on the job must be able to:

- PC1.** Ensure availability and usage of right tools for repair.
- PC2.** Identify the root cause for the problem.
- PC3.** Apply repair solutions to rectify plumbing issues.
- PC4.** Identify and mobilize the space, materials, required.
- PC5.** Guide user/customer to prevent the recurrence.
- PC6.** Follow safety guidelines
- PC7.** Ensure Warranty/Guarantee status of the product to be repaired

Assisting and applying repair solution identified by senior/expert plumber

To be competent, the user/individual on the job must be able to:

- PC8.** Clear and prepare the work area for repair
- PC9.** Analyse and understand the repair solutions
- PC10.** Ensure availability and usage of right tools for repair.
- PC11.** Assist senior plumber in resolving the plumbing issues
- PC12.** Follow instructions of senior plumbers when working independently
- PC13.** Ensure spare and other materials required for repair meet the specifications.
- PC14.** Perform post repair checks and ensure issues are fixed.
- PC15.** Clear the work area and handover to client.

Perform routine service under expert/senior plumber guidance or as per manufacturers recommendation.

To be competent, the user/individual on the job must be able to:

- PC16.** Read and interpret or get guided from experts on brand specific service requirements
- PC17.** Prepare working area ready for servicing
- PC18.** Identify/replace parts which requires replacements to prevent failure under guidance or as per manufacturers specification.
- PC19.** Check the system for satisfactory functioning.

Qualification Pack

PC20. Clear work area and handover to customer.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organisational requirements
- KU2.** organisation's policies on delivery standards, safety and hazards, integrity, dress code, etc.
- KU3.** individual's role and responsibilities in the workflow.
- KU4.** risk and impact of not following defined procedures/work instructions
- KU5.** usage of correct plumbing tools and applying correct repair solutions.
- KU6.** Understand customer concerns and expected outcomes.
- KU7.** Understand the specific service requirement of different brands.
- KU8.** Understand different types of post repair checks
- KU9.** Knowledge of safety guidelines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare checklists, reports and fill out forms in local language or Hindi/English
- GS2.** understand the various colour codes, as per standard electrical, mechanical and civil nomenclature.

PSC/N0136: Apply Health and Safety Practices at the Workplace

Description

This unit is about practices to be executed at the workplace which is crucial for creating a safe and secure working environment that promotes the well-being of employees and minimizes the risk of accidents, injuries, and occupational illnesses. Here's a description outlining the key aspects of implementing health and safety practices at the workplace.

Scope

The scope covers the following :

- Follow safety measures to avoid accidents
- Daily inspection of tools and equipment
- Deal with emergencies

Elements and Performance Criteria

Follow safety measures to avoid accidents

To be competent, the user/individual on the job must be able to:

- PC1.** identify risks and hazards at the workplace
- PC2.** wear personal protective equipment (PPE) as per the type of plumbing work
- PC3.** place protective barricades and signages around the pits and trenches
- PC4.** isolate the plumbing fittings and fixtures from electrical wiring to avoid accidents
- PC5.** adhere to organisational procedures for reporting hazards and incidents to relevant authorities
- PC6.** establish ventilation before entering underground work areas
- PC7.** work safely in and around trenches, elevated places and confined areas
- PC8.** ensure tools and hazardous materials are not left unattended
- PC9.** ensure good housekeeping in order to prevent hazards e.g. fire
- PC10.** dispose waste materials and used PPE according to regulations and codes of practice

Follow hygiene and sanitation practices

To be competent, the user/individual on the job must be able to:

- PC11.** follow recommended personal hygiene and sanitation practices, for example, washing/sanitizing hands, covering face with a bent elbow while coughing/sneezing etc.
- PC12.** clean and disinfect work area, materials/supplies, equipment etc. before and after use.
- PC13.** report hygiene and sanitation issues to appropriate authority

Use tools, equipment and materials safely

To be competent, the user/individual on the job must be able to:

- PC14.** check that the tools, equipment and materials are in good condition and as per industry standards before use
- PC15.** use power tools and machinery that are grounded
- PC16.** replace or repair split or loose tools before use

Qualification Pack

PC17. store and transport various plumbing materials safely

Deal with emergencies

To be competent, the user/individual on the job must be able to:

PC18. follow workplace emergency and evacuation procedures

PC19. use a fire extinguisher correctly

PC20. use safe methods to free a person from electrocution

PC21. administer appropriate first aid (such as CPR etc.) to victims in case of cuts, bleeding, burns, choking, electric shock, poisoning etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. possible causes of risk, hazard or accident in the workplace

KU2. organisational procedures for upkeep of tools and plumbing materials, health and safety

KU3. location of all the general health and safety equipment in the workplace

KU4. meaning of hazards and risks

KU5. hazardous environment encountered during work such as underground areas, elevated areas, areas with water and electricity supply, presence of biological waste, under construction sites etc.

KU6. work practices and precautions to control and prevent risks, hazards and accidents

KU7. importance of each personal protective equipment used such as eye protection mask, hard hats, gloves, apron, rubber boots etc.

KU8. tools and plumbing equipment as per latest industry standards

KU9. preventative and remedial actions to be taken in case of exposure to toxic materials

KU10. specific safety and health related problems faced in domestic, commercial and institutional setups

KU11. various causes of fire and precautionary activities to prevent the fire accident

KU12. techniques of using the different fire extinguishers

KU13. rescue techniques applied during a fire hazard

KU14. various types of safety signs and meaning

KU15. appropriate basic first aid treatment relevant to the condition e.g. shock, electrical shock, bleeding, minor burns, poisoning, eye injuries etc.

KU16. potential injuries and ill health associated with incorrect handling of tools and equipment

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. write an accident/incident report in local language or English

GS2. read and comprehend labels, charts, signages, manuals, plumbing symbols etc.

GS3. question coworkers appropriately in order to clarify instructions and other issues

Qualification Pack

- GS4.** plan and organize the work schedule, work area, tools, equipment and materials for improved productivity
- GS5.** determine key considerations and priorities when faced with problems
- GS6.** seek official and authorised sources of help and guidance to resolve problems that cannot be solved at one's level of authority

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Introduction to Employability Skills</i>	1	1	-	-

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
PSC/N0187.Support Plumbing Installation	15	30	0	5	50	30
PSC/N0140.Maintain Plumbing Tools and Equipment	15	30	0	5	50	30

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
