RAS/Q0403: Visual Merchandising for IndiaSkills/ WorldSkills Competition

Brief Job Description

A visual merchandiser creates window and interior displays in shops and department stores thus is essentially responsible for the “look” of the retail outlet. The chief aim of a visual merchandiser is to maximize sales by communicating with the target audience and creating a positive atmosphere.

Personal Attributes

The visual merchandiser communicates directly with the target audience through their designs and creates a positive impression which in turn impacts on the sales revenue of the business. Whilst not possible to precisely measure the impact of the visual merchandiser’s displays it is accepted that they are an increasingly important element of the marketing and sales mix of a successful retail business.

Remarks:

Qualification created for IndiaSkills/WorldSkills

Qualification Pack

RAS/N0407: To manage work organization and management for IndiaSkills/ WorldSkills.

Description

This OS describes the skills and knowledge required to manage work organisation and management for IndiaSkills/ WorldSkills

Scope

The scope covers the following :

- Work organization and management

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Follow health and safety standards, rules, and regulations
- PC2.** Identify and use the appropriate personal protective clothing including safe footwear as required
- PC3.** Select, use, clean, maintain, and store all tools, paint brushes, and equipment safely/securely
- PC4.** Select, use materials including mixing paints, effectively/efficiently, and store safely/securely
- PC5.** Plan, schedule and re-prioritize work as the need arises to meet deadlines
- PC6.** Work well under pressure to meet the demands of the business
- PC7.** Maintain safe and ergonomic working practices
- PC8.** Maintain sustainable working practices
- PC9.** Keep the working area clean and tidy
- PC10.** Discard waste ecologically
- PC11.** Keep up-to-date with fashion, trends, and developments in the industry and society

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Health and safety legislation, obligations, regulations, and documentation
- KU2.** The situations when personal protective clothing including footwear must be used
- KU3.** The purposes, uses, care, maintenance, and safe/secure storage of hand/electric tools and equipment
- KU4.** The purposes, uses, care and safe/secure storage of materials
- KU5.** IT programmes for 2D and 3D design
- KU6.** Techniques of time management to support productivity
- KU7.** The principles of ergonomics to support efficient workflow
- KU8.** The significance of sustainability and environmentally friendly work practices

Qualification Pack

KU9. The value of managing own continuing professional development

RAS/N0409: To effectively showcase Problem solving techniques, innovation, and creativity thinking.

Description

This OS describes the skills and knowledge required to effectively showcase creative thinking, innovation and problem solving techniques

Scope

The scope covers the following :

- Problem solving, innovation, and creativity

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Recognize problems swiftly and follow a self-managed process for resolving
- PC2.** Pro-actively re-prioritize internal customers' problems as the situation demands
- PC3.** Recognize the boundaries of own expertise/responsibility and refer to the appropriate colleagues
- PC4.** Gain inspiration e.g. through reviewing books/magazines/the internet, city/shop visits, films, exhibitions, and professional literature
- PC5.** Maintain an "open mind" whilst accurately determining the needs of the target audience, internal, and external customer
- PC6.** Use imagination and inspiration to generate original ideas
- PC7.** Develop and maintain the confidence "to be different"
- PC8.** Keep up to date with IT programmes for 2D and 3D design
- PC9.** Lead changes in design for an organization

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The common types of problem which can occur within visual merchandising work e.g. improvisation of props
- KU2.** Diagnostic approaches to problem solving
- KU3.** Boundaries for resolving problems safely e.g. referring to an electrician
- KU4.** Creative thinking techniques to generate unique designs
- KU5.** Latest/future trends and fashions

RAS/N0410: Interpret and research brief

Description

This OS describes the skills and knowledge required to research and develop display ideas to meet client/organizational goals/target market needs and aspirations

Scope

The scope covers the following :

- Conduct research based on lifestyle concepts, trends, and store attributes and develop original concepts which clearly meet client/organizational goals/target market needs and aspirations

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Conduct research based on lifestyle concepts, trends, and store attributes
- PC2.** Identify and effectively use research tools e.g. internet
- PC3.** Research briefs, themes, and products/brands to design unique displays
- PC4.** Research and develop display ideas to meet client/organizational goals/target market needs and aspirations
- PC5.** Evaluate current trends in display design, equipment, and materials
- PC6.** Develop original concepts which clearly meet client/organizational goals/target market needs and aspirations
- PC7.** Create and professionally present clean, professional mood boards to colleagues, managers, and related departments/professionals to include sketches, images, and colour fabric charts

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The concept of visual merchandising: communicating with the target audience by attracting, connecting, and engaging with customers to maximize sales
- KU2.** Roles of related departments/professionals and their focus/needs e.g. marketing and sales targets
- KU3.** The floor plans and sizes of areas to be used for display purposes
- KU4.** Target market consumer behaviour and aspirations
- KU5.** The common factors which determine themes to include seasons of the year, current fashions/trends, special events, and promotions
- KU6.** Composition of images

RAS/N0411: Design

Description

This OS describes the skills and knowledge required create 2D and 3D designs, e.g. displays and windows with props and text.

Scope

The scope covers the following :

- Utilise IT programmes or softwares including Photoshop and Illustrator, for various design applications such as rendering, graphic design, 2D design, and 3D design.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Make 2D and 3D designs, e.g. displays and windows with props and text
- PC2.** Visualize and accurately 'translate' ideas and designs
- PC3.** Demonstrate brand empathy
- PC4.** Produce scale drawings by hand and by computer using Photoshop and Illustrator
- PC5.** Work within the available budgets
- PC6.** Professionally present visuals to colleagues, managers and related departments/professionals and gain "sign off"

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Full range of applications of IT programs e.g. Photoshop and Illustrator
- KU2.** Technological developments and how to exploit them
- KU3.** Rendering
- KU4.** Graphic design/2D design
- KU5.** Design of props and spaces/3D design

RAS/N0412: Implementation

Description

This OS describes the skills and knowledge required to select and display merchandise according to their characteristics, interpretation of the original concepts and briefs.

Scope

The scope covers the following :

- Develop the ability to align window displays with specific objectives

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Select and display merchandise according to their characteristics, interpretation of the original concepts and Briefs
- PC2.** Present a range of products to include fashion, accessories, tableware, and books
- PC3.** Collect, present, and support the merchandise to communicate effectively with the target markets
- PC4.** Handle all merchandise, mannequins, and materials with care including furniture, plinths, and support structures
- PC5.** Accurately and efficiently plan task breakdowns for installation, including timings
- PC6.** Select, tint, and paint pure and clean surfaces to decorate walls, fixtures, and panels
- PC7.** Use different types of materials and tools to measure and cut precisely, and finish display and make sure they are safe and solid to last for the time agreed
- PC8.** Cover floors and walls with materials as appropriate
- PC9.**
 - Professionally construct self-designed props, to enhance the
 - theme, support the merchandise and communicate effectively with the target markets and make sure they are safe and solid to last for the time agreed
- PC10.** Collect and style products, dress, and style mannequins for maximum effect to enhance themes, support the merchandise, and communicate effectively with the target markets by storytelling and styling
- PC11.** Select and place all products, props, materials, and mannequins in an effective composition in windows or instore displays to enhance themes, support the branding of the merchandise, and communicate effectively with the target markets by storytelling and styling
- PC12.** Make photographs of the same or similar displays to post on-line together with off- line displays
- PC13.** Maximize space and layouts of areas to best advantage
- PC14.** Make creative use of lighting, allocate spotlights, and adjust lighting as required to ensure merchandise is highlighted appropriately on- line and off-line
- PC15.** Review displays and photography to ensure they are aesthetically pleasing and have the WOW factor

Qualification Pack

- PC16.** Evaluate the effectiveness of window displays and photography in supporting the intended merchandise and brands
- PC17.** Check the final standard of installations for display and photography and ensure they are complete, safe, neat, clean, tidy, and professional
- PC18.** Ensure displays are finished on time and stay intact for the time agreed
- PC19.** Analyse feedback and respond appropriately, making suggestions for improvements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles of window display to include use and effectiveness of colour shapes and text, utilization, and most efficient use of space, balance, grouping, and product dynamics, focus, and specific use of lighting
- KU2.** The objectives of window display: to achieve brand compatibility, effective display of products, impact, drama, commerciality, and aesthetics
- KU3.** Materials and their purposes/characteristics e.g. wood, MDF, PVC, glue, and paints

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. The Assessment Strategy and Specification

Theory Assessment

Theory assessments will be Multiple Choice Questions (MCQ) based and will be conducted on digital assessment platform with comprehensive auditable trails.

Practical Assessment

1.1 General guidance

Assessment is governed by the WorldSkills Assessment Strategy. The Strategy establishes the principles and techniques to which WorldSkills assessment and marking must conform.

Expert assessment practice lies at the heart of the WorldSkills Competition. For this reason, it is the subject of continuing professional development and scrutiny. The growth of expertise in assessment will inform the future use and direction of the main assessment instruments used by the WorldSkills Competition: the Marking Scheme, Test Project, and Competition Information System (CIS).

Qualification Pack

Assessment at the WorldSkills Competition falls into two broad types: Measurement and Judgement. For both types of assessment, the use of explicit benchmarks against which to assess each Aspect is essential to guarantee quality.

The Marking Scheme must follow the weightings within the Standards. The Test Project is the assessment vehicle for the skill competition, and therefore also follows the Standards. The CIS enables the timely and accurate recording of marks; its capacity for scrutiny, support, and feedback is continuously expanding.

The Marking Scheme, in outline, will lead the process of Test Project design. After this, the Marking Scheme and Test Project will be designed, developed, and verified through an iterative process, to ensure that both together optimize their relationship with the Standards and the Assessment Strategy. They will be agreed by the Experts and submitted to WSI for approval together, to demonstrate their quality and conformity with the Standards.

Prior to submission for approval to WSI, the Marking Scheme and Test Project will liaise with the WSI Skill Advisors for quality assurance and to benefit from the capabilities of the CIS.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
National Occupational Standard	NOS define the measurable performance outcomes required from an individual engaged in a particular task. They list down what an individual performing that task should know and also do
Qualification	A formal outcome of an assessment and validation process which is obtained when a competent body determines that an individual has achieved learning outcomes to given standards
Qualification File	A Qualification File is a template designed to capture necessary information of a Qualification from the perspective of NSQF compliance. The Qualification File will be normally submitted by the awarding body for the qualification.
Sector	A grouping of professional activities on the basis of their main economic function, product, service or technology.
Long term training	Long-term skilling means any vocational training program undertaken for a year and above. https://ncvet.gov.in/sites/default/files/NCVET.pdf
