RSC/Q3201: Rubber Product Finishing Operator

Brief Job Description

A Rubber Product Finishing Operator is responsible for preparing tools, equipment, and materials required for rubber product finishing like carrying out trimming, buffing, and cleaning operations and inspecting rubber products for visual and dimensional quality. The individual ensures that finished products are defect-free, conform to quality standards, and are ready for packaging or dispatch. The individual also adheres to workplace safety, hygiene, and documentation protocols during the finishing process.

Personal Attributes

This job requires the individual to be attentive and demonstrate the attributes of a good examiner. A good observer having a focused mindset, he should seek perfection in carrying out final finishing of the product. An individual having an aptitude for learning should be able to work independently and co-ordinate with other team members effectively.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [RSC/N9801: Prepare for rubber product finishing operations](#)
2. [RSC/N9802: Perform Trimming, Buffing and Cleaning Operations](#)
3. [RSC/N9803: Inspect Products for Visual and Dimensional Quality](#)
4. [RSC/N5007: Follow health & safety protocol](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

RSC/N9801: Prepare for rubber product finishing operations

Description

This NOS covers the knowledge and skills required to prepare for rubber product finishing operations by checking job specifications, selecting appropriate tools and consumables, ensuring readiness of equipment and workplace, and confirming availability of components. It involves performing pre-operational checks, minor machine settings, and reporting abnormalities before beginning the finishing activities.

Scope

The scope covers the following :

- Plan and prepare for finishing operations
- Prepare tools, consumables and equipment
- Coordinate material movement and quality check

Elements and Performance Criteria

Plan and prepare for finishing operations

To be competent, the user/individual on the job must be able to:

- PC1.** interpret work instructions and job sheets for the finishing task
- PC2.** identify types of rubber products and their finishing requirements
- PC3.** plan the sequence of finishing activities based on product specifications
- PC4.** ensure availability of tools, accessories and consumables for the finishing process
- PC5.** confirm the cleaning and readiness of the workstation before starting operations

Prepare tools, consumables and equipment

To be competent, the user/individual on the job must be able to:

- PC6.** identify and select finishing tools such as knives, grinders, buffers, and cleaning agents
- PC7.** inspect tools and equipment for functional condition and cleanliness
- PC8.** demonstrate safe handling and storage of tools and chemicals used in finishing
- PC9.** carry out minor adjustments or report malfunctions in tools/machines
- PC10.** perform a trial run of equipment if required for smooth operations

Coordinate material movement and quality check

To be competent, the user/individual on the job must be able to:

- PC11.** receive semi-finished rubber products from the production line
- PC12.** visually inspect products for any pre-existing defects before finishing
- PC13.** verify product tags, labels or batch identification as per company SOP
- PC14.** segregate items based on finishing type or priority requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** types of rubber products and their finishing standards
- KU2.** stages and importance of finishing operations in rubber manufacturing
- KU3.** different types of tools and equipment used in rubber finishing
- KU4.** basic working principles of buffing and trimming machines
- KU5.** various finishing defects and quality parameters
- KU6.** layout and workflow of the finishing department
- KU7.** safe handling practices for sharp tools and hazardous materials
- KU8.** documentation procedures for work orders and job cards
- KU9.** importance of time management in production environment
- KU10.** types of personal protective equipment (PPE) required during finishing

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret job instructions, manuals and safety notices
- GS2.** write simple entries in logbooks and checklists
- GS3.** communicate with team members and supervisors effectively
- GS4.** report abnormalities or delays to the concerned authority
- GS5.** apply basic numerical calculations for measurements and counts
- GS6.** maintain discipline, punctuality and hygiene in the workplace
- GS7.** follow environmental and safety protocols during preparation

RSC/N9802: Perform Trimming, Buffing and Cleaning Operations

Description

This NOS covers the competencies required to carry out finishing operations such as trimming, buffing, and cleaning on rubber components using manual or semi-automated tools. It involves following defined operating procedures, identifying and removing surface defects, maintaining product integrity, and ensuring work is done within the specified cycle time and quality parameters.

Scope

The scope covers the following :

- Execute trimming and buffing activities
- Perform cleaning and surface preparation
- Maintain quality and productivity

Elements and Performance Criteria

Execute trimming and buffing activities

To be competent, the user/individual on the job must be able to:

- PC1.** identify trimming requirements based on product specifications
- PC2.** operate manual and mechanized tools for trimming extra rubber
- PC3.** perform uniform trimming without damaging the product shape
- PC4.** operate buffing machine and adjust settings as per material type
- PC5.** control speed, pressure and direction during buffing
- PC6.** collect trimmed waste for disposal or recycling as per SOP
- PC7.** ensure trimmed/buffed surface meets finish quality standards

Perform cleaning and surface preparation

To be competent, the user/individual on the job must be able to:

- PC8.** select cleaning materials suitable for the rubber product surface
- PC9.** remove oil, dust, flash or other residues using approved methods
- PC10.** dry the product appropriately before moving to inspection
- PC11.** use vacuum, brushes or compressed air tools as applicable
- PC12.** ensure safety while working with chemicals or heated air

Maintain quality and productivity

To be competent, the user/individual on the job must be able to:

- PC13.** check consistency of finishing across batches
- PC14.** identify surface defects like burrs, dents or cracks
- PC15.** rework or escalate non-conforming pieces as per defined SOP
- PC16.** record details of finished quantity, rework and rejection
- PC17.** maintain efficiency while ensuring finishing quality
- PC18.** clean and store tools and equipment after operations

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** principles of trimming and buffing processes
- KU2.** surface finish requirements for different rubber products
- KU3.** handling techniques for various cleaning agents
- KU4.** different types of defects observed post-finishing
- KU5.** safety guidelines for using sharp and rotating tools
- KU6.** effect of improper trimming or buffing on product usability
- KU7.** limits and tolerances in finishing tasks
- KU8.** significance of finishing in aesthetics and usability of rubber goods
- KU9.** occupational health hazards in finishing processes
- KU10.** productivity metrics and downtime tracking

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read job orders and machine labels
- GS2.** document quantity processed, issues observed, and tool usage
- GS3.** communicate clearly during shift handovers
- GS4.** follow visual standards and compare with master samples
- GS5.** use arithmetic to calculate material use and scrap rate
- GS6.** observe workplace safety norms and use PPE
- GS7.** prioritize tasks and manage workflow during peak load

Qualification Pack

RSC/N9803: Inspect Products for Visual and Dimensional Quality

Description

This NOS covers the knowledge and skills needed to inspect finished rubber products for visual and dimensional quality as per defined quality standards. It includes checking for surface defects, physical deformities, flash marks, contamination, and critical dimensions using gauges, templates or measuring instruments and segregating OK and NOT OK products accordingly.

Scope

The scope covers the following :

- Conduct visual inspection
- Check dimensional accuracy
- Handle non-conforming items

Elements and Performance Criteria

Conduct visual inspection

To be competent, the user/individual on the job must be able to:

- PC1.** examine surface finish for cleanliness, consistency, and damage
- PC2.** identify common surface defects like bubbles, cracks or scratches
- PC3.** verify product aesthetics against sample or reference sheet
- PC4.** mark and segregate defective or rework pieces appropriately

Check dimensional accuracy

To be competent, the user/individual on the job must be able to:

- PC5.** use measuring tools such as vernier calipers, templates, or gauges
- PC6.** compare dimensions with standard product drawings/specifications
- PC7.** perform calibration checks on gauges used
- PC8.** record measurements as per SOP
- PC9.** identify and report deviations from allowable tolerances

Handle non-conforming items

To be competent, the user/individual on the job must be able to:

- PC10.** label defective or suspect products for further review
- PC11.** follow protocols for scrap, rework or repairable defects
- PC12.** maintain inspection log and generate quality reports
- PC13.** ensure traceability of inspected batches

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** visual and dimensional quality parameters in rubber products

Qualification Pack

- KU2.** types of surface defects and their causes
- KU3.** operation and reading of basic measuring instruments
- KU4.** standard tolerances allowed for different product categories
- KU5.** procedure for product segregation and tagging
- KU6.** basic quality control terminology and sampling techniques
- KU7.** documentation requirements for quality inspection
- KU8.** escalation protocol for repeated defects
- KU9.** relevance of inspection in final product acceptance
- KU10.** workplace safety while inspecting sharp or heavy items

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and understand product drawings and defect criteria
- GS2.** write defect reports and update inspection records
- GS3.** communicate defect trends to supervisor or QA team
- GS4.** observe closely to identify minor inconsistencies
- GS5.** use number sense for tolerance checks and data recording
- GS6.** maintain orderliness and caution while handling inspected parts
- GS7.** use quality inspection tools with care and accuracy

Qualification Pack

RSC/N5007: Follow health & safety protocol

Description

This unit is about maintaining health and safety of self and others at workplace.

Scope

The scope covers the following :

- Maintain a clean and efficient workplace
- Render appropriate emergency procedures
- Maintain standard safety procedures at the workplace
- Participate in safety awareness campaigns
- Understand potential sources of accidents
- Use safety gears to avoid accidents

Elements and Performance Criteria

Maintain a clean and efficient workplace

To be competent, the user/individual on the job must be able to:

- PC1.** undertake basic safety checks before operation of all machinery and equipment and report hazards to the appropriate supervisor
- PC2.** work for which protective clothing or equipment is required is identified and the appropriate protective clothing or equipment is used in performing these duties in accordance with workplace policy
- PC3.** read and understand the hazards of use and contamination mentioned on the labels of chemicals, utilities etc
- PC4.** prior to performing manual handling jobs, risk is assessed and work is carried out according to currently recommended safe practices.
- PC5.** use equipment and materials safely and correctly and return the same to designated storage when not in use
- PC6.** dispose off waste safely and correctly in a designated area
- PC7.** risks to bystanders are recognized and action taken to reduce risk associated with jobs in the workplace
- PC8.** perform work in a manner which minimizes environmental damage
- PC9.** all procedures and work instructions for controlling risk are followed closely
- PC10.** report any accidents, incidents or problems without delay to an appropriate person and take immediate necessary action to reduce further danger

Render appropriate emergency procedures

To be competent, the user/individual on the job must be able to:

- PC11.** follow procedures for dealing with accidents, fires and emergencies, including communicating location and directions to emergency.
- PC12.** follow emergency procedures as per company standards and workplace requirements

Qualification Pack

- PC13.** use emergency equipment in accordance with manufacturers' specifications and workplace requirements
- PC14.** provide treatment appropriate to the patient's injuries in accordance with recognized first aid techniques.
- PC15.** recover (if practical), clean, inspect/test, refurbish, replace and store the first aid equipment as appropriate
- PC16.** dispose off medical waste in accordance with workplace requirements
- PC17.** report details of first aid administered in accordance with work place procedures

Maintain standard safety procedures at the workplace

To be competent, the user/individual on the job must be able to:

- PC18.** comply with general safety procedures
- PC19.** follow standard safety procedures while handling equipment, hazardous material or tool
- PC20.** check parts of the workplace and take preventive actions like spraying and other steps to protect from leakages, water logging, pests, fire, pollution, etc.
- PC21.** ensure no accidents and damages at the workplace, reporting of any breach of company safety procedure
- PC22.** keep the workplace organized, swept, clean and hazard free

Participate in safety awareness campaigns

To be competent, the user/individual on the job must be able to:

- PC23.** attend fire drills and other safety related workshops organized at the workplace
- PC24.** be aware of first aid, evacuation and emergency procedures
- PC25.** be alert of any events and do not be negligent to any safety procedures to be followed

Understand potential sources of accidents

To be competent, the user/individual on the job must be able to:

- PC26.** avoid accidents while using hazardous chemicals, machines, sharp tools and equipment

Use safety gears to avoid accidents

To be competent, the user/individual on the job must be able to:

- PC27.** use safety materials such as protective gear, goggles, caps, shoes, etc.(as applicable with workplace)
- PC28.** handle heavy and hazardous materials with care and using appropriate tools and handling equipment such as trolleys, ladders

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** policies on incentives, delivery standards, and personnel management.
- KU2.** occupational safety and health policy followed
- KU3.** emergency evacuation procedure
- KU4.** medical policy
- KU5.** company laws and acts
- KU6.** the risks to health and safety and the measures to be taken to control those risks in the area of work

Qualification Pack

- KU7.** workplace procedures and requirements for the handling of workplace injuries/illnesses.
- KU8.** basic emergency first aid procedure
- KU9.** local emergency services
- KU10.** reporting on accidents, incidents and problems to appropriate authorities.
- KU11.** how to use machines as per standard operating procedure
- KU12.** how to maintain work area safe and secure
- KU13.** use of hazardous materials, tools and equipments
- KU14.** emergency evacuation and first aid procedures to be followed
- KU15.** personal hygiene and fitness requirements
- KU16.** general duties under the relevant health and safety legislation
- KU17.** what personal protective equipment and clothing should be worn and how it is cared for
- KU18.** the correct and safe way to use materials and equipment required for work
- KU19.** the importance of good housekeeping in the workplace
- KU20.** safe disposal methods for waste
- KU21.** methods for minimizing environmental damage during work

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** record data which are required for record keeping purpose
- GS2.** report problems to the appropriate person in a timely manner
- GS3.** write descriptions and details about incidents in reports
- GS4.** read instruction manuals for hand tools and equipment
- GS5.** read instructions on work orders and procedures
- GS6.** receive instructions and seek advice from superiors
- GS7.** communicate clearly and effectively with others
- GS8.** take a decision for any change/issue based on earlier successes(documented previous history)on similar issues
- GS9.** work out changes in case a new improved machine/equipment is added in the process or any new material/chemical is developed replacing existing one.
- GS10.** make changes in cycle time due to improved process.
- GS11.** use the standard operating procedure or trouble shooting manuals for trouble shooting and other reference documents approved by plant management
- GS12.** consult the peer group and superiors to arrive at a favourable decision.
- GS13.** use of standard available problem solving techniques for decision making
- GS14.** review and analyze the process steps to check on system non adherence andnon conformity
- GS15.** review the current sop and other standards for continuous improvement to facilitate decision making
- GS16.** take a calculated risk with minimum losses
- GS17.** schedule daily activities and drawing up priorities; allocate start times, estimation of completion times and materials, equipment and assistance required for completion.

Qualification Pack

- GS18.** match customer needs/specification by adjusting the processing conditions (interact with customer in case any clarification required)
- GS19.** ensure that performance of his action/operation/activity does not lead to any divergence from the specified quality of the final product as required by the customer.
- GS20.** complete the assigned task in timely manner so that the final product is delivered in the timeline given by the customer.
- GS21.** communicate effectively to the superior/customer for any delay in supplies to the clients.
- GS22.** work towards fulfilling the customers requirement as per their demand.
- GS23.** in case of any complaint, ensure its timely resolution if the problem is emanating at his level
- GS24.** communicate effectively to the superior/customer for any delay in resolving the problem faced by the customer.
- GS25.** maintain good/cordial relation with customers.
- GS26.** work on the feedback received from customer regarding the product.
- GS27.** use first aid treatment in case of any injury/accident.
- GS28.** monitor and maintain the condition of tools and equipment
- GS29.** assess situation & identify appropriate control measures
- GS30.** act, communicate and report in emergency situation

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass 70% aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
