RSC/Q3602: Assistant Operator - Tyre Balancing & Wheel Alignment

Brief Job Description

The Assistant Operator - Tyre Balancing & Wheel Alignment supports trained technicians in carrying out tyre balancing, wheel alignment, and inspection operations. The person prepares tools and equipment, assists in machine operation, inspects tyres, and ensures cleanliness and safety of equipment. The role requires basic understanding of automotive tyre services and adherence to standard operating procedures.

Personal Attributes

This job requires the individual to be energetic, focused and attentive. He should be able to work independently under the guidance of supervisor. He should possess physical stamina and be comfortable in performing Physical labour intensive work. Being an individual seeking perfection in performing his job, he should be willing to learn the emerging advance methods in his work area.

RSC/N3604: Prepare for Tyre Balancing and Wheel Alignment Operations

Description

This NOS covers the preparatory activities involved in tyre balancing and wheel alignment services, including identifying job requirements, selecting tools, and ensuring proper setup of equipment.

Scope

The scope covers the following :

- Identify work requirements
- Prepare work area and tools
- Set up balancing and alignment machines

Elements and Performance Criteria

Identify work requirements

To be competent, the user/individual on the job must be able to:

- PC1.** obtain job sheet or instructions from the supervisor
- PC2.** check vehicle type and tyre specifications
- PC3.** inspect tyres visually for damages or irregular wear
- PC4.** record initial tyre condition and note any abnormalities

Prepare work area and tools

To be competent, the user/individual on the job must be able to:

- PC5.** clean the work area and remove obstructions
- PC6.** collect tools and PPE as per standard checklist
- PC7.** verify availability of balancing weights and alignment sensors
- PC8.** check tyre inflator and pressure gauge for proper function

Set up balancing and alignment machines

To be competent, the user/individual on the job must be able to:

- PC9.** inspect the balancing machine and alignment console for readiness
- PC10.** perform pre-operation checks on sensors, clamps, and rollers
- PC11.** ensure machine calibration or alignment software update if needed
- PC12.** tag faulty or malfunctioning equipment for maintenance

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** basic tyre construction and types (radial, bias, tubeless)
- KU2.** purpose and importance of tyre balancing and alignment
- KU3.** common terms: toe, camber, caster, runout, vibration

Qualification Pack

- KU4.** types of tyre wear and their causes
- KU5.** standard tyre pressure values
- KU6.** interpretation of job card or work instruction
- KU7.** function of balancing weights and alignment sensors
- KU8.** basic layout of wheel alignment machine
- KU9.** process of tool selection for the job
- KU10.** maintenance checklists for balancing/alignment machines
- KU11.** PPE for tyre and vehicle service area
- KU12.** hazards in a workshop environment
- KU13.** waste disposal methods
- KU14.** importance of accurate pre-checks
- KU15.** documentation and reporting format

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret basic service documents and labels
- GS2.** communicate tyre condition to senior technician
- GS3.** write brief notes on condition and pre-check observations
- GS4.** maintain time discipline and adhere to schedule
- GS5.** coordinate with other team members during setup

Qualification Pack

RSC/N3605: Assist in Tyre Balancing and Wheel Alignment Operations

Description

This NOS is about supporting technicians in the actual process of wheel alignment and tyre balancing by operating tools under supervision, positioning the vehicle, and following step-by-step procedures.

Scope

The scope covers the following :

- Assist in wheel balancing
- Assist in wheel alignment
- Follow safety and SOPs

Elements and Performance Criteria

Assist in wheel balancing

To be competent, the user/individual on the job must be able to:

- PC1.** position the tyre on the balancing machine
- PC2.** input tyre size and specifications into the machine console
- PC3.** operate the balancing machine under guidance
- PC4.** apply balancing weights at specified locations
- PC5.** recheck balance and adjust if necessary
- PC6.** clean wheels post-operation

Assist in wheel alignment

To be competent, the user/individual on the job must be able to:

- PC7.** mount the alignment sensors or cameras
- PC8.** align the sensors with target on each wheel
- PC9.** operate alignment console to read values
- PC10.** assist technician in adjusting camber, caster, toe
- PC11.** observe vehicle behavior during test drive
- PC12.** report unresolvable issues to supervisor

Follow safety and SOPs

To be competent, the user/individual on the job must be able to:

- PC13.** follow safety precautions during machine operations
- PC14.** use PPE and secure the vehicle during lifting
- PC15.** follow step-by-step instructions during live jobs
- PC16.** report tool malfunction or hazard immediately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** basics of wheel balancing machine operation
- KU2.** principles of wheel alignment (toe-in, camber, caster)
- KU3.** consequences of improper balancing/alignment
- KU4.** types and sizes of balancing weights
- KU5.** common alignment equipment: sensors, clamps, console
- KU6.** hydraulic jack and vehicle lift operation
- KU7.** interpretation of alignment reports
- KU8.** safety norms while lifting and operating machines
- KU9.** torque specification for lug nuts
- KU10.** importance of torque wrench and pressure gauge
- KU11.** cleaning and lubrication requirements
- KU12.** step-by-step alignment SOPs
- KU13.** quality checks post balancing/alignment
- KU14.** standard service documentation and remarks
- KU15.** use of wheel chocks and jack stands

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill forms and balance/alignment reports accurately
- GS2.** convey errors or malfunctions clearly to the supervisor
- GS3.** follow verbal instructions precisely during operations
- GS4.** keep work area organized and tools in place
- GS5.** participate actively in team alignment jobs

RSC/N3606: Inspect the Tyres and Maintain the Equipment

Description

This NOS involves inspecting tyre and wheel conditions and performing basic maintenance of tools and equipment used for balancing and alignment operations.

Scope

The scope covers the following :

- Inspect tyres and report issues
- Maintain tools and machines
- Ensure workplace safety and documentation

Elements and Performance Criteria

Inspect tyres and report issues

To be competent, the user/individual on the job must be able to:

- PC1.** examine tyres for cracks, bulges, cuts, or worn tread
- PC2.** use tread depth gauge to measure tread wear
- PC3.** check tyre inflation with pressure gauge
- PC4.** verify valve and bead area for leakage
- PC5.** document inspection results

Maintain tools and machines

To be competent, the user/individual on the job must be able to:

- PC6.** clean balancing and alignment machines after use
- PC7.** lubricate moving parts as per schedule
- PC8.** perform minor checks (cables, bolts, rollers)
- PC9.** tag defective equipment and store appropriately
- PC10.** replenish consumables (weights, clamps)

Ensure workplace safety and documentation

To be competent, the user/individual on the job must be able to:

- PC11.** follow safe disposal practices for damaged tyres
- PC12.** update maintenance logbook
- PC13.** ensure availability of basic spares and cleaning material
- PC14.** report safety hazards to authorized personnel

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** types of tyre damage and their symptoms

Qualification Pack

- KU2.** permissible tread depth for different vehicle categories
- KU3.** causes and signs of under/over inflation
- KU4.** steps for visual inspection of tyre condition
- KU5.** maintenance schedule for workshop machines
- KU6.** lubrication and cleaning procedures
- KU7.** types of cleaning materials and their usage
- KU8.** signs of wear or failure in clamps, cables, rollers
- KU9.** format and purpose of maintenance log
- KU10.** disposal rules for worn-out tyres and parts
- KU11.** PPE to be used while inspecting/maintaining
- KU12.** escalation matrix in case of safety incident

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** record tyre inspection results using checklist
- GS2.** communicate clearly with supervisor regarding faults
- GS3.** prioritize safety during all maintenance work
- GS4.** complete maintenance forms and logs
- GS5.** demonstrate personal responsibility for tools and equipment

Qualification Pack

RSC/N5007: Follow health & safety protocol

Description

This unit is about maintaining health and safety of self and others at workplace.

Scope

The scope covers the following :

- Maintain a clean and efficient workplace
- Render appropriate emergency procedures
- Maintain standard safety procedures at the workplace
- Participate in safety awareness campaigns
- Understand potential sources of accidents
- Use safety gears to avoid accidents

Elements and Performance Criteria

Maintain a clean and efficient workplace

To be competent, the user/individual on the job must be able to:

- PC1.** undertake basic safety checks before operation of all machinery and equipment and report hazards to the appropriate supervisor
- PC2.** work for which protective clothing or equipment is required is identified and the appropriate protective clothing or equipment is used in performing these duties in accordance with workplace policy
- PC3.** read and understand the hazards of use and contamination mentioned on the labels of chemicals, utilities etc
- PC4.** prior to performing manual handling jobs, risk is assessed and work is carried out according to currently recommended safe practices.
- PC5.** use equipment and materials safely and correctly and return the same to designated storage when not in use
- PC6.** dispose off waste safely and correctly in a designated area
- PC7.** risks to bystanders are recognized and action taken to reduce risk associated with jobs in the workplace
- PC8.** perform work in a manner which minimizes environmental damage
- PC9.** all procedures and work instructions for controlling risk are followed closely
- PC10.** report any accidents, incidents or problems without delay to an appropriate person and take immediate necessary action to reduce further danger

Render appropriate emergency procedures

To be competent, the user/individual on the job must be able to:

- PC11.** follow procedures for dealing with accidents, fires and emergencies, including communicating location and directions to emergency.
- PC12.** follow emergency procedures as per company standards and workplace requirements

Qualification Pack

- PC13.** use emergency equipment in accordance with manufacturers' specifications and workplace requirements
- PC14.** provide treatment appropriate to the patient's injuries in accordance with recognized first aid techniques.
- PC15.** recover (if practical), clean, inspect/test, refurbish, replace and store the first aid equipment as appropriate
- PC16.** dispose off medical waste in accordance with workplace requirements
- PC17.** report details of first aid administered in accordance with work place procedures

Maintain standard safety procedures at the workplace

To be competent, the user/individual on the job must be able to:

- PC18.** comply with general safety procedures
- PC19.** follow standard safety procedures while handling equipment, hazardous material or tool
- PC20.** check parts of the workplace and take preventive actions like spraying and other steps to protect from leakages, water logging, pests, fire, pollution, etc.
- PC21.** ensure no accidents and damages at the workplace, reporting of any breach of company safety procedure
- PC22.** keep the workplace organized, swept, clean and hazard free

Participate in safety awareness campaigns

To be competent, the user/individual on the job must be able to:

- PC23.** attend fire drills and other safety related workshops organized at the workplace
- PC24.** be aware of first aid, evacuation and emergency procedures
- PC25.** be alert of any events and do not be negligent to any safety procedures to be followed

Understand potential sources of accidents

To be competent, the user/individual on the job must be able to:

- PC26.** avoid accidents while using hazardous chemicals, machines, sharp tools and equipment

Use safety gears to avoid accidents

To be competent, the user/individual on the job must be able to:

- PC27.** use safety materials such as protective gear, goggles, caps, shoes, etc.(as applicable with workplace)
- PC28.** handle heavy and hazardous materials with care and using appropriate tools and handling equipment such as trolleys, ladders

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** policies on incentives, delivery standards, and personnel management.
- KU2.** occupational safety and health policy followed
- KU3.** emergency evacuation procedure
- KU4.** medical policy
- KU5.** company laws and acts
- KU6.** the risks to health and safety and the measures to be taken to control those risks in the area of work

Qualification Pack

- KU7.** workplace procedures and requirements for the handling of workplace injuries/illnesses.
- KU8.** basic emergency first aid procedure
- KU9.** local emergency services
- KU10.** reporting on accidents, incidents and problems to appropriate authorities.
- KU11.** how to use machines as per standard operating procedure
- KU12.** how to maintain work area safe and secure
- KU13.** use of hazardous materials, tools and equipments
- KU14.** emergency evacuation and first aid procedures to be followed
- KU15.** personal hygiene and fitness requirements
- KU16.** general duties under the relevant health and safety legislation
- KU17.** what personal protective equipment and clothing should be worn and how it is cared for
- KU18.** the correct and safe way to use materials and equipment required for work
- KU19.** the importance of good housekeeping in the workplace
- KU20.** safe disposal methods for waste
- KU21.** methods for minimizing environmental damage during work

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** record data which are required for record keeping purpose
- GS2.** report problems to the appropriate person in a timely manner
- GS3.** write descriptions and details about incidents in reports
- GS4.** read instruction manuals for hand tools and equipment
- GS5.** read instructions on work orders and procedures
- GS6.** receive instructions and seek advice from superiors
- GS7.** communicate clearly and effectively with others
- GS8.** take a decision for any change/issue based on earlier successes(documented previous history)on similar issues
- GS9.** work out changes in case a new improved machine/equipment is added in the process or any new material/chemical is developed replacing existing one.
- GS10.** make changes in cycle time due to improved process.
- GS11.** use the standard operating procedure or trouble shooting manuals for trouble shooting and other reference documents approved by plant management
- GS12.** consult the peer group and superiors to arrive at a favourable decision.
- GS13.** use of standard available problem solving techniques for decision making
- GS14.** review and analyze the process steps to check on system non adherence andnon conformity
- GS15.** review the current sop and other standards for continuous improvement to facilitate decision making
- GS16.** take a calculated risk with minimum losses
- GS17.** schedule daily activities and drawing up priorities; allocate start times, estimation of completion times and materials, equipment and assistance required for completion.

Qualification Pack

- GS18.** match customer needs/specification by adjusting the processing conditions (interact with customer in case any clarification required)
- GS19.** ensure that performance of his action/operation/activity does not lead to any divergence from the specified quality of the final product as required by the customer.
- GS20.** complete the assigned task in timely manner so that the final product is delivered in the timeline given by the customer.
- GS21.** communicate effectively to the superior/customer for any delay in supplies to the clients.
- GS22.** work towards fulfilling the customers requirement as per their demand.
- GS23.** in case of any complaint, ensure its timely resolution if the problem is emanating at his level
- GS24.** communicate effectively to the superior/customer for any delay in resolving the problem faced by the customer.
- GS25.** maintain good/cordial relation with customers.
- GS26.** work on the feedback received from customer regarding the product.
- GS27.** use first aid treatment in case of any injury/accident.
- GS28.** monitor and maintain the condition of tools and equipment
- GS29.** assess situation & identify appropriate control measures
- GS30.** act, communicate and report in emergency situation

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
