RSC/Q6005: Junior Assistant - Rubber Nursery

Brief Job Description

The Junior Assistant - Rubber Nursery supports in preparing nursery sites, handling planting materials, maintaining rubber seedlings, and assisting in transplantation and hardening activities. The role involves labour-oriented tasks such as land preparation, soil filling, potting, irrigation, weeding, fertilization, pest management, and nursery upkeep. The job holder also follows safe working practices, maintains hygiene, and adopts environmentally sustainable practices. The role is entry-level and requires the individual to work under close supervision of nursery supervisors or field officers.

Personal Attributes

The individual on the job should have capacity for undertaking labour oriented activities, should have good observational skills, attention to detail.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [RSC/N6010: Prepare the nursery site and materials](#)
2. [RSC/N5612: Carry out planting of rubber plants and its maintenance](#)
3. [RSC/N6011: Support in transplantation and hardening](#)
4. [RSC/N5629: Follow safety, environmental and hygiene practices](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

RSC/N6010: Prepare the nursery site and materials

Description

This NOS covers assisting in nursery site preparation, collection and arrangement of materials, soil mixture preparation, and maintaining cleanliness of the nursery area.

Scope

The scope covers the following :

- Assist in nursery site preparation
- Collect and prepare nursery materials
- Maintain nursery area hygiene

Elements and Performance Criteria

Assist in nursery site preparation

To be competent, the user/individual on the job must be able to:

- PC1.** clear unwanted weeds, debris, and stones from the nursery site as instructed
- PC2.** level and prepare seedbeds or polybag filling areas under supervision
- PC3.** ensure proper drainage channels are maintained to prevent waterlogging

Collect and prepare nursery materials

To be competent, the user/individual on the job must be able to:

- PC4.** collect soil, sand, and compost/manure from identified sources
- PC5.** sieve and remove unwanted particles from soil and sand
- PC6.** prepare soil mixture in recommended proportions as guided by supervisor
- PC7.** fill polythene bags with soil mixture uniformly
- PC8.** arrange filled polybags in rows as per instructions

Maintain nursery area hygiene

To be competent, the user/individual on the job must be able to:

- PC9.** dispose of waste and unusable materials at the designated place
- PC10.** maintain basic cleanliness and orderliness in the nursery area

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** basic importance of nursery site preparation in rubber plant raising
- KU2.** common materials required for nursery (soil, sand, compost, polybags)
- KU3.** correct proportion of soil-sand-compost mixture
- KU4.** importance of proper drainage and site cleanliness
- KU5.** safe handling of tools and materials used in nursery preparation

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read simple instructions and signs related to nursery work
- GS2.** follow verbal instructions from supervisors
- GS3.** use basic arithmetic for measuring soil and compost ratios
- GS4.** practice teamwork while preparing nursery site
- GS5.** maintain discipline and punctuality at the workplace

Qualification Pack

RSC/N5612: Carry out planting of rubber plants and its maintenance

Description

This NOS involves assisting in planting operations, watering, weeding, mulching, fertilization, pest/disease management, and maintaining records for healthy growth of rubber seedlings in nurseries.

Scope

The scope covers the following :

- Assist in planting operations
- Carry out irrigation and upkeep
- Support in nutrient and pest management
- Maintain nursery records and order

Elements and Performance Criteria

Assist in planting operations

To be competent, the user/individual on the job must be able to:

- PC1.** collect and arrange healthy seedlings for planting
- PC2.** inspect seedlings for signs of damage or disease before planting
- PC3.** dig small pits or holes for planting seedlings
- PC4.** plant seedlings in polybags or beds at correct depth and spacing
- PC5.** press soil gently around the roots to ensure stability
- PC6.** provide shade using shade nets, palm fronds, or banana leaves
- PC7.** install proper spacing between rows to facilitate growth and maintenance

Carry out irrigation and upkeep

To be competent, the user/individual on the job must be able to:

- PC8.** water seedlings regularly in required quantity
- PC9.** ensure proper drainage after watering to avoid root rot
- PC10.** carry out hand weeding around seedlings at regular intervals
- PC11.** mulch the seedling base with dry leaves or organic matter to retain soil moisture
- PC12.** remove damaged, stunted, or dead seedlings from the nursery
- PC13.** clean nursery beds and paths to prevent weed growth

Support in nutrient and pest management

To be competent, the user/individual on the job must be able to:

- PC14.** apply fertilizers or manures in correct quantity as per instructions
- PC15.** assist in foliar spraying of micronutrients
- PC16.** mix and apply pesticides, fungicides, or biocontrol agents safely under supervision
- PC17.** identify common pests such as aphids, mealybugs, and scales
- PC18.** identify symptoms of common diseases like powdery mildew, leaf spot, or anthracnose
- PC19.** segregate affected plants and report them to supervisors

Qualification Pack

Maintain nursery records and order

To be competent, the user/individual on the job must be able to:

- PC20.** count seedlings periodically and record survival rate
- PC21.** segregate seedlings by age, size, or vigor
- PC22.** assist in maintaining simple records of fertilizer, irrigation, and pesticide applications
- PC23.** ensure proper storage of tools, watering cans, and spraying equipment
- PC24.** maintain orderliness and cleanliness of the working area

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** importance of planting healthy seedlings for future plantations
- KU2.** characteristics of healthy and diseased seedlings
- KU3.** recommended spacing and planting depth for rubber seedlings
- KU4.** need for proper watering, drainage, and moisture management
- KU5.** importance of mulching in moisture retention
- KU6.** common weeding practices and their frequency
- KU7.** role of organic and inorganic fertilizers in seedling growth
- KU8.** major micronutrients essential for rubber seedlings
- KU9.** common nursery pests and their control methods
- KU10.** common fungal and bacterial diseases in rubber nurseries
- KU11.** safe handling and mixing of pesticides and fertilizers
- KU12.** record-keeping practices for nursery management
- KU13.** importance of removing weak or diseased seedlings to maintain quality
- KU14.** basic maintenance and cleaning of nursery tools

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** listen carefully and respond to instructions regarding planting
- GS2.** use counting skills while segregating or recording seedlings
- GS3.** communicate simple observations about plant health to supervisors
- GS4.** work effectively in a team during planting activities
- GS5.** maintain cleanliness and discipline during work

RSC/N6011: Support in transplantation and hardening

Description

This NOS covers assisting in safe transplantation of seedlings into polybags or field sites, supporting the hardening process to acclimatize seedlings, and ensuring maintenance of transplanted plants for healthy establishment.

Scope

The scope covers the following :

- Assist in transplantation
- Support in hardening process
- Maintain transplanted seedlings

Elements and Performance Criteria

Assist in transplantation

To be competent, the user/individual on the job must be able to:

- PC1.** select healthy seedlings suitable for transplantation
- PC2.** carefully uproot seedlings without damaging roots
- PC3.** prune taproots where necessary under guidance
- PC4.** transport seedlings safely to new sites using baskets or trays
- PC5.** dig pits or prepare larger polybags with appropriate soil mixture
- PC6.** transplant seedlings at correct depth with firm soil support
- PC7.** water transplanted seedlings immediately after planting
- PC8.** provide temporary shade to transplanted seedlings when required

Support in hardening process

To be competent, the user/individual on the job must be able to:

- PC9.** gradually expose seedlings to direct sunlight
- PC10.** reduce irrigation frequency step by step for hardening
- PC11.** remove shade structures at the recommended stage
- PC12.** monitor seedlings for signs of stress or wilting during hardening
- PC13.** report wilting or mortality to the supervisor
- PC14.** assist in grouping hardened plants ready for field planting

Maintain transplanted seedlings

To be competent, the user/individual on the job must be able to:

- PC15.** weed around transplanted plants regularly
- PC16.** mulch base of transplanted seedlings for moisture conservation
- PC17.** apply basal dose of fertilizers or manures after transplanting
- PC18.** assist in spraying pesticides or fungicides to control pests/diseases
- PC19.** replace dead or wilted seedlings with new ones (gap filling)

Qualification Pack

- PC20.** provide staking support for tall seedlings to avoid lodging
- PC21.** clean tools and equipment used for transplantation
- PC22.** assist in maintaining records of transplanted seedlings and survival rate

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** importance of transplantation in nursery and plantation establishment
- KU2.** selection criteria for seedlings suitable for transplantation
- KU3.** safe methods of uprooting and pruning roots
- KU4.** importance of immediate watering and shade for survival
- KU5.** recommended pit size and soil mixture for transplantation
- KU6.** concept of hardening and its significance in acclimatizing plant
- KU7.** techniques of gradually reducing shade and irrigation
- KU8.** symptoms of stress, wilting, or transplant shock
- KU9.** fertilizer and manure requirements after transplantation
- KU10.** common pest/disease issues during transplantation and their management
- KU11.** gap filling techniques in transplanted areas
- KU12.** role of mulching and staking in transplanted plant growth
- KU13.** importance of accurate record-keeping in transplantation and hardening
- KU14.** safe handling and transport of seedlings during transplantation
- KU15.** cleaning and upkeep of transplantation tools

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** follow verbal safety instructions
- GS2.** recognize basic safety and hygiene signs
- GS3.** report unsafe conditions or accidents to supervisors
- GS4.** practice responsible use of water and materials.
- GS5.** show discipline in maintaining cleanliness and order

RSC/N5629: Follow safety, environmental and hygiene practices

Description

This NOS involves adopting safety practices, using protective equipment, maintaining personal hygiene, and following environmentally sustainable practices in the nursery.

Scope

The scope covers the following :

- Follow health and safety procedures
- Maintain hygiene and cleanliness
- Practice environmental sustainability

Elements and Performance Criteria

Follow health and safety procedures

To be competent, the user/individual on the job must be able to:

- PC1.** wear basic protective equipment such as gloves and boots
- PC2.** use tools and materials safely under guidance
- PC3.** follow safety instructions while handling fertilizers and pesticides
- PC4.** store tools and agrochemicals in designated places

Maintain hygiene and cleanliness

To be competent, the user/individual on the job must be able to:

- PC5.** wash hands and maintain personal hygiene before and after work
- PC6.** keep nursery pathways and surroundings clean
- PC7.** dispose of nursery waste safely

Practice environmental sustainability

To be competent, the user/individual on the job must be able to:

- PC8.** avoid wastage of water during irrigation
- PC9.** follow eco-friendly practices such as use of organic manure
- PC10.** segregate biodegradable and non-biodegradable waste

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** importance of personal safety and protective gear
- KU2.** hazards related to improper handling of tools and agrochemicals
- KU3.** hygiene practices to prevent infections and diseases
- KU4.** safe methods of disposing waste
- KU5.** importance of water conservation and eco-friendly practices

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
RSC/N6010.Prepare the nursery site and materials	40	60	-	-	100	20

TVET	Technical and Vocational Education and Training

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
