RSC/Q8101: Assistant Operator - Printing and Packaging (Consumer & Industrial Products)

Brief Job Description

The individual assists in preparing and operating printing and packaging equipment, supports automated printing processes, and helps in packaging operations for consumer and industrial plastic products. The person ensures material flow, maintains equipment cleanliness, follows safety and quality standards, and coordinates with the team for smooth production.

Personal Attributes

The job requires the individual to have good eyesight, and physical fitness to stand for long hours along with good observational skills.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [RSC/N0310: Prepare for Printing and Packaging Operations](#)
2. [RSC/N8101: Assist in Operating Automated Printing Machines](#)
3. [RSC/N8102: Support in packaging processes](#)
4. [RSC/N5007: Follow health & safety protocol](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

RSC/N0310: Prepare for Printing and Packaging Operations

Description

This NOS covers the skills and knowledge required to prepare raw materials, tools, and equipment for printing and packaging operations, ensuring readiness of the machine and materials.

Scope

The scope covers the following :

- Collect and check raw materials
- Prepare machines, tools, and consumables
- Follow SOPs and documentation requirements

Elements and Performance Criteria

Collect and check raw materials

To be competent, the user/individual on the job must be able to:

- PC1.** receive raw materials (films, foils, labels, cartons) as per job sheet
- PC2.** check physical condition of raw materials for defects or damage
- PC3.** verify batch number, specifications, and supplier details
- PC4.** ensure proper handling of materials during transfer

Prepare machines, tools, and consumables

To be competent, the user/individual on the job must be able to:

- PC5.** clean rollers, trays, and machine parts before loading materials
- PC6.** prepare inks, coatings, and adhesives as per instructions
- PC7.** set up tools and consumables required for printing and packaging
- PC8.** check availability of safety gear and protective clothing
- PC9.** lubricate moving parts of the machine under operator's supervision

Follow SOPs and documentation requirements

To be competent, the user/individual on the job must be able to:

- PC10.** fill material requisition and issue slips correctly
- PC11.** display material identification tags at workplace
- PC12.** segregate defective or rejected materials as per SOPs
- PC13.** follow instructions of operator regarding machine readiness
- PC14.** perform housekeeping of work area before starting operation

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** basic types of printing substrates and packaging materials

Qualification Pack

- KU2.** types of plastic films, foils, and boards used in packaging
- KU3.** basics of inks, adhesives, and coatings used in printing
- KU4.** storage and handling requirements of printing/ packaging materials
- KU5.** importance of quality checks before starting operations
- KU6.** machine parts relevant to preparation (rollers, trays, feeders)
- KU7.** SOPs for requisition and issue of raw materials
- KU8.** importance of labeling, tagging, and documentation
- KU9.** safety practices while handling chemicals and sharp tools
- KU10.** importance of maintaining cleanliness before starting production

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret simple instructions, SOPs, and job sheets related to printing and packaging preparation
- GS2.** communicate clearly with the operator and team members to understand preparation requirements
- GS3.** fill basic checklists and logbooks for raw material receipt and machine readiness
- GS4.** identify common symbols, safety signs, and labels used in printing and packaging areas
- GS5.** apply basic numerical skills for counting raw materials, rolls, and packaging units
- GS6.** follow oral instructions from the operator or supervisor accurately
- GS7.** report issues such as shortage of materials, improper machine readiness, or deviations to the supervisor

Qualification Pack

RSC/N8101: Assist in Operating Automated Printing Machines

Description

This NOS involves assisting in operating automated printing machines, maintaining smooth production, performing quality checks, and ensuring safety and efficiency in the printing process.

Scope

The scope covers the following :

- Support in machine operation
- Monitor printing quality
- Assist in troubleshooting and adjustments

Elements and Performance Criteria

Support in machine operation

To be competent, the user/individual on the job must be able to:

- PC1.** load materials into automated printing machine under supervision
- PC2.** align materials properly on feeder trays
- PC3.** assist operator in setting machine speed and feed
- PC4.** ensure ink trays and rollers are filled as per requirement
- PC5.** carry out trial runs as instructed by operator
- PC6.** remove printed sheets/rolls and stack properly
- PC7.** assist in reel changeover without machine stoppage
- PC8.** handle waste collection and disposal during operations

Monitor printing quality

To be competent, the user/individual on the job must be able to:

- PC9.** observe print clarity, registration marks, and color consistency
- PC10.** identify smudges, ink bleeding, or misalignment
- PC11.** compare output with sample standards
- PC12.** segregate defective prints for reprocessing
- PC13.** record production counts and defects

Assist in troubleshooting and adjustments

To be competent, the user/individual on the job must be able to:

- PC14.** report machine malfunctions immediately to operator
- PC15.** help in replacing worn-out rollers or trays
- PC16.** check ink viscosity and report deviations
- PC17.** carry out minor adjustments like tightening clamps
- PC18.** clean printing heads periodically during shifts
- PC19.** assist in preventive maintenance checks
- PC20.** ensure safe shutdown of machine in emergencies

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** working principle of automated printing machines
- KU2.** major parts of printing press (feeders, rollers, dryers)
- KU3.** common printing processes in packaging (flexo, gravure, offset)
- KU4.** role of color theory and ink mixing in printing
- KU5.** importance of registration marks and alignment
- KU6.** quality standards in printed packaging materials
- KU7.** common defects in printing and their causes
- KU8.** basics of machine troubleshooting and adjustments
- KU9.** preventive maintenance schedules for printing machines
- KU10.** safety and emergency procedures during printing

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read simple diagrams, markings, and labels on printing machines and printed material
- GS2.** record machine parameters and quality checks in prescribed formats
- GS3.** communicate politely with the operator and quality inspector while following instructions
- GS4.** apply basic mathematical calculations such as measuring sheet sizes, roll lengths, and counting printed outputs
- GS5.** recognize routine printing defects (misalignment, smudging, color fade) and inform the operator
- GS6.** use digital or manual tools (counters, gauges) for assisting machine operations
- GS7.** follow sequence of tasks and maintain discipline while handling automated equipment
- GS8.** report abnormalities such as machine vibration, overheating, or jammed material to the operator

RSC/N8102: Support in packaging processes

Description

This NOS covers supporting activities in packaging of consumer and industrial products, including material handling, assisting in automated packaging operations, and maintaining workplace hygiene and safety.

Scope

The scope covers the following :

- Handle packaging materials
- Support packaging operations
- Maintain packaging area and equipment

Elements and Performance Criteria

Handle packaging materials

To be competent, the user/individual on the job must be able to:

- PC1.** bring required cartons, films, or foils to the machine
- PC2.** check packaging materials for damage before use
- PC3.** cut or prepare materials to required size
- PC4.** load packaging materials into machine

Support packaging operations

To be competent, the user/individual on the job must be able to:

- PC5.** assist in machine-based sealing, cutting, or wrapping
- PC6.** stack packed goods as per batch size
- PC7.** apply labels or barcodes under guidance
- PC8.** segregate defective packs
- PC9.** record packaging counts

Maintain packaging area and equipment

To be competent, the user/individual on the job must be able to:

- PC10.** clean sealing jaws, rollers, or conveyors
- PC11.** carry out basic lubrication of packaging machine
- PC12.** keep packaging area organized and free of clutter
- PC13.** follow waste segregation norms in packaging area

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** types of packaging materials for consumer & industrial products
- KU2.** basic functions of packaging: protection, identification, branding

Qualification Pack

- KU3.** overview of packaging machines (wrapping, sealing, filling)
- KU4.** importance of correct labeling and barcoding
- KU5.** quality standards for packaged goods
- KU6.** handling and storage of packaging materials
- KU7.** SOPs for packaging count and reporting
- KU8.** basics of machine lubrication and cleaning
- KU9.** workplace organization techniques
- KU10.** environmental and sustainability aspects in packaging

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and understand packaging labels, barcodes, and product identification marks
- GS2.** communicate with the team to coordinate material movement and packaging sequence
- GS3.** fill basic records of packaging quantities, rejected items, and dispatch-ready lots
- GS4.** apply basic numeracy for counting, weighing, and arranging packaged items
- GS5.** identify common packaging defects (tearing, misprint, improper sealing) and escalate them
- GS6.** use simple tools and aids (tape dispenser, strapping tool, barcode scanner) safely
- GS7.** follow 5S practices while arranging packaged material in designated areas
- GS8.** report damaged packaging material or shortages to the supervisor

Qualification Pack

RSC/N5007: Follow health & safety protocol

Description

This unit is about maintaining health and safety of self and others at workplace.

Scope

The scope covers the following :

- Maintain a clean and efficient workplace
- Render appropriate emergency procedures
- Maintain standard safety procedures at the workplace
- Participate in safety awareness campaigns
- Understand potential sources of accidents
- Use safety gears to avoid accidents

Elements and Performance Criteria

Maintain a clean and efficient workplace

To be competent, the user/individual on the job must be able to:

- PC1.** undertake basic safety checks before operation of all machinery and equipment and report hazards to the appropriate supervisor
- PC2.** work for which protective clothing or equipment is required is identified and the appropriate protective clothing or equipment is used in performing these duties in accordance with workplace policy
- PC3.** read and understand the hazards of use and contamination mentioned on the labels of chemicals, utilities etc
- PC4.** prior to performing manual handling jobs, risk is assessed and work is carried out according to currently recommended safe practices.
- PC5.** use equipment and materials safely and correctly and return the same to designated storage when not in use
- PC6.** dispose off waste safely and correctly in a designated area
- PC7.** risks to bystanders are recognized and action taken to reduce risk associated with jobs in the workplace
- PC8.** perform work in a manner which minimizes environmental damage
- PC9.** all procedures and work instructions for controlling risk are followed closely
- PC10.** report any accidents, incidents or problems without delay to an appropriate person and take immediate necessary action to reduce further danger

Render appropriate emergency procedures

To be competent, the user/individual on the job must be able to:

- PC11.** follow procedures for dealing with accidents, fires and emergencies, including communicating location and directions to emergency.
- PC12.** follow emergency procedures as per company standards and workplace requirements

Qualification Pack

- PC13.** use emergency equipment in accordance with manufacturers' specifications and workplace requirements
- PC14.** provide treatment appropriate to the patient's injuries in accordance with recognized first aid techniques.
- PC15.** recover (if practical), clean, inspect/test, refurbish, replace and store the first aid equipment as appropriate
- PC16.** dispose off medical waste in accordance with workplace requirements
- PC17.** report details of first aid administered in accordance with work place procedures

Maintain standard safety procedures at the workplace

To be competent, the user/individual on the job must be able to:

- PC18.** comply with general safety procedures
- PC19.** follow standard safety procedures while handling equipment, hazardous material or tool
- PC20.** check parts of the workplace and take preventive actions like spraying and other steps to protect from leakages, water logging, pests, fire, pollution, etc.
- PC21.** ensure no accidents and damages at the workplace, reporting of any breach of company safety procedure
- PC22.** keep the workplace organized, swept, clean and hazard free

Participate in safety awareness campaigns

To be competent, the user/individual on the job must be able to:

- PC23.** attend fire drills and other safety related workshops organized at the workplace
- PC24.** be aware of first aid, evacuation and emergency procedures
- PC25.** be alert of any events and do not be negligent to any safety procedures to be followed

Understand potential sources of accidents

To be competent, the user/individual on the job must be able to:

- PC26.** avoid accidents while using hazardous chemicals, machines, sharp tools and equipment

Use safety gears to avoid accidents

To be competent, the user/individual on the job must be able to:

- PC27.** use safety materials such as protective gear, goggles, caps, shoes, etc.(as applicable with workplace)
- PC28.** handle heavy and hazardous materials with care and using appropriate tools and handling equipment such as trolleys, ladders

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** policies on incentives, delivery standards, and personnel management.
- KU2.** occupational safety and health policy followed
- KU3.** emergency evacuation procedure
- KU4.** medical policy
- KU5.** company laws and acts
- KU6.** the risks to health and safety and the measures to be taken to control those risks in the area of work

Qualification Pack

- KU7.** workplace procedures and requirements for the handling of workplace injuries/illnesses.
- KU8.** basic emergency first aid procedure
- KU9.** local emergency services
- KU10.** reporting on accidents, incidents and problems to appropriate authorities.
- KU11.** how to use machines as per standard operating procedure
- KU12.** how to maintain work area safe and secure
- KU13.** use of hazardous materials, tools and equipments
- KU14.** emergency evacuation and first aid procedures to be followed
- KU15.** personal hygiene and fitness requirements
- KU16.** general duties under the relevant health and safety legislation
- KU17.** what personal protective equipment and clothing should be worn and how it is cared for
- KU18.** the correct and safe way to use materials and equipment required for work
- KU19.** the importance of good housekeeping in the workplace
- KU20.** safe disposal methods for waste
- KU21.** methods for minimizing environmental damage during work

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** record data which are required for record keeping purpose
- GS2.** report problems to the appropriate person in a timely manner
- GS3.** write descriptions and details about incidents in reports
- GS4.** read instruction manuals for hand tools and equipment
- GS5.** read instructions on work orders and procedures
- GS6.** receive instructions and seek advice from superiors
- GS7.** communicate clearly and effectively with others
- GS8.** take a decision for any change/issue based on earlier successes(documented previous history)on similar issues
- GS9.** work out changes in case a new improved machine/equipment is added in the process or any new material/chemical is developed replacing existing one.
- GS10.** make changes in cycle time due to improved process.
- GS11.** use the standard operating procedure or trouble shooting manuals for trouble shooting and other reference documents approved by plant management
- GS12.** consult the peer group and superiors to arrive at a favourable decision.
- GS13.** use of standard available problem solving techniques for decision making
- GS14.** review and analyze the process steps to check on system non adherence andnon conformity
- GS15.** review the current sop and other standards for continuous improvement to facilitate decision making
- GS16.** take a calculated risk with minimum losses
- GS17.** schedule daily activities and drawing up priorities; allocate start times, estimation of completion times and materials, equipment and assistance required for completion.

Qualification Pack

- GS18.** match customer needs/specification by adjusting the processing conditions (interact with customer in case any clarification required)
- GS19.** ensure that performance of his action/operation/activity does not lead to any divergence from the specified quality of the final product as required by the customer.
- GS20.** complete the assigned task in timely manner so that the final product is delivered in the timeline given by the customer.
- GS21.** communicate effectively to the superior/customer for any delay in supplies to the clients.
- GS22.** work towards fulfilling the customers requirement as per their demand.
- GS23.** in case of any complaint, ensure its timely resolution if the problem is emanating at his level
- GS24.** communicate effectively to the superior/customer for any delay in resolving the problem faced by the customer.
- GS25.** maintain good/cordial relation with customers.
- GS26.** work on the feedback received from customer regarding the product.
- GS27.** use first aid treatment in case of any injury/accident.
- GS28.** monitor and maintain the condition of tools and equipment
- GS29.** assess situation & identify appropriate control measures
- GS30.** act, communicate and report in emergency situation

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
