RSC/Q8201: Assistant Operator - Plastic Waste Recycling and Processing

Brief Job Description

The individual at work assists in setting up and supporting operations of plastic waste recycling processes. The person is responsible for preparing materials, tools and equipment, supporting pre-processing activities such as sorting, washing and shredding, and assisting the operator during the recycling process while ensuring cleanliness, basic safety and adherence to instructions.

Personal Attributes

The job requires the individual to be calm, composed, and physically fit along with good observational skills.

RSC/N8201: Prepare for plastic waste recycling operations

Description

This NOS covers the skills and knowledge to assist in preparing the workplace, materials, and equipment for plastic waste recycling operations. It includes identification of plastic waste categories, checking machine readiness, arranging tools and PPE, and preparing workstations under supervision.

Scope

The scope covers the following :

- Identify job instructions and work requirements
- Prepare tools, equipment and workplace
- Ensure safety and readiness

Elements and Performance Criteria

Identify job instructions and work requirements

To be competent, the user/individual on the job must be able to:

- PC1.** check with the supervisor about daily work allocation, targets and priorities
- PC2.** read or listen to work instructions related to the recycling job
- PC3.** identify the type and volume of plastic waste to be processed
- PC4.** check documentation regarding batch details and process parameters
- PC5.** report any missing or unclear instructions to the concerned person

Prepare tools, equipment and workplace

To be competent, the user/individual on the job must be able to:

- PC6.** collect required tools, PPE and basic materials for recycling operations
- PC7.** clean and organize the work area before beginning operations
- PC8.** inspect the tools and equipment for usability or damage
- PC9.** check basic machine settings as per supervisor's instructions
- PC10.** assist in performing minor cleaning or lubrication of machines

Ensure safety and readiness

To be competent, the user/individual on the job must be able to:

- PC11.** wear required PPE such as gloves, aprons, masks, shoes, etc.
- PC12.** follow standard operating procedures (SOP) and work instructions
- PC13.** ensure emergency exits and fire safety equipment are accessible
- PC14.** report any hazards, leaks or unsafe conditions to the supervisor
- PC15.** ensure availability of raw materials and segregated plastic waste

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** types of plastic waste (e.g. PET, HDPE, LDPE, PP, PVC)
- KU2.** basic functions of recycling machines and tools used
- KU3.** importance of cleanliness and readiness of tools and workplace
- KU4.** safety symbols, signage and emergency procedures
- KU5.** types and use of PPE in recycling operations
- KU6.** reporting lines and documentation procedures
- KU7.** implications of not following SOPs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read basic instructions, signs, and labels
- GS2.** listen to supervisor instructions carefully
- GS3.** fill out checklists and simple forms if required
- GS4.** communicate issues, doubts or delays to team members or supervisor
- GS5.** maintain basic hygiene and discipline at the workplace
- GS6.** follow safety, environment and organizational rules
- GS7.** observe machine readiness and report faults or abnormalities
- GS8.** work effectively as a team and take responsibility for assigned tasks

RSC/N9702: Support in pre-processing activities

Description

This NOS involves sorting, washing, drying, and shredding plastic waste materials according to specifications. It includes segregating different types of plastic, removing contaminants, and operating basic pre-processing equipment under the guidance of the operator.

Scope

The scope covers the following :

- Assist in plastic waste segregation
- Support in washing and drying operations
- Assist in shredding and storage

Elements and Performance Criteria

Assist in plastic waste segregation

To be competent, the user/individual on the job must be able to:

- PC1.** identify recyclable and non-recyclable plastic waste
- PC2.** segregate plastic based on type, color or grade
- PC3.** remove contaminants like paper, metal, or organic matter
- PC4.** place segregated waste in designated containers or areas
- PC5.** ensure safe handling and movement of plastic waste

Support in washing and drying operations

To be competent, the user/individual on the job must be able to:

- PC6.** feed segregated plastic into washing equipment as instructed
- PC7.** assist in adding water or cleaning agents
- PC8.** remove cleaned plastic and transfer to drying station
- PC9.** spread plastic properly to enable complete drying
- PC10.** ensure no moisture remains before shredding

Assist in shredding and storage

To be competent, the user/individual on the job must be able to:

- PC11.** feed dried plastic into shredder or grinder
- PC12.** monitor shredding process and avoid overloading
- PC13.** collect shredded plastic flakes or granules
- PC14.** store processed plastic in labelled containers
- PC15.** clean and maintain the area after pre-processing

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** types and grades of plastic used in recycling
- KU2.** basic color coding and classification methods
- KU3.** importance of proper washing and drying
- KU4.** functioning of washing, drying and shredding machines
- KU5.** contamination issues and how to prevent them
- KU6.** material handling procedures and storage practices
- KU7.** workplace safety and hygiene protocols

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** identify and read waste labels and instructions
- GS2.** follow verbal instructions regarding segregation and sorting
- GS3.** record basic information on processing quantities
- GS4.** communicate with coworkers and report inconsistencies
- GS5.** observe cleanliness and avoid material wastage
- GS6.** maintain safety while handling machines
- GS7.** cooperate with others during group work
- GS8.** adapt to new plastic types and procedures

RSC/N9703: Assist in operating recycling equipment

Description

This NOS covers assisting in operating plastic recycling machinery such as extruders, agglomerators, or grinders. It includes feeding materials, monitoring operations, checking outputs, and reporting abnormalities while adhering to quality and safety protocols.

Scope

The scope covers the following :

- Assist in machine operation
- Maintain quality and safety during operation
- Clean and shut down equipment

Elements and Performance Criteria

Assist in machine operation

To be competent, the user/individual on the job must be able to:

- PC1.** confirm machine settings from operator or supervisor
- PC2.** feed pre-processed plastic into the designated hopper or feeder
- PC3.** check input quality and report defects
- PC4.** monitor basic indicators such as temperature or speed
- PC5.** remove processed output from the discharge end

Maintain quality and safety during operation

To be competent, the user/individual on the job must be able to:

- PC6.** check processed product for defects or color changes
- PC7.** stack or store finished output safely
- PC8.** avoid direct contact with hot or moving parts
- PC9.** ensure cooling or cutting units are working properly
- PC10.** immediately inform the operator in case of breakdown or issue

Clean and shut down equipment

To be competent, the user/individual on the job must be able to:

- PC11.** remove remaining material from hopper or chamber
- PC12.** assist in basic cleaning and wiping of equipment
- PC13.** dispose of rejected material as per instructions
- PC14.** shut down machines under supervision
- PC15.** record basic production and downtime details

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** types of recycling machines and their input-output
- KU2.** machine safety features and alarms
- KU3.** temperature, speed and pressure parameters
- KU4.** handling of rejected or defective material
- KU5.** importance of shut down and cleaning procedures
- KU6.** documentation and logbook basics
- KU7.** quality standards and basic product checks

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read basic machine indicators and signals
- GS2.** follow verbal guidance from the machine operator
- GS3.** note down quantities or times if asked
- GS4.** report unusual machine behavior
- GS5.** act quickly in case of emergency or malfunction
- GS6.** maintain workplace safety and housekeeping
- GS7.** learn through observation and repetition
- GS8.** work patiently and consistently to assist in operations

RSC/N5007: Follow health & safety protocol

Description

This unit is about maintaining health and safety of self and others at workplace.

Scope

The scope covers the following :

- Maintain a clean and efficient workplace
- Render appropriate emergency procedures
- Maintain standard safety procedures at the workplace
- Participate in safety awareness campaigns
- Understand potential sources of accidents
- Use safety gears to avoid accidents

Elements and Performance Criteria

Maintain a clean and efficient workplace

To be competent, the user/individual on the job must be able to:

- PC1.** undertake basic safety checks before operation of all machinery and equipment and report hazards to the appropriate supervisor
- PC2.** work for which protective clothing or equipment is required is identified and the appropriate protective clothing or equipment is used in performing these duties in accordance with workplace policy
- PC3.** read and understand the hazards of use and contamination mentioned on the labels of chemicals, utilities etc
- PC4.** prior to performing manual handling jobs, risk is assessed and work is carried out according to currently recommended safe practices.
- PC5.** use equipment and materials safely and correctly and return the same to designated storage when not in use
- PC6.** dispose off waste safely and correctly in a designated area
- PC7.** risks to bystanders are recognized and action taken to reduce risk associated with jobs in the workplace
- PC8.** perform work in a manner which minimizes environmental damage
- PC9.** all procedures and work instructions for controlling risk are followed closely
- PC10.** report any accidents, incidents or problems without delay to an appropriate person and take immediate necessary action to reduce further danger

Render appropriate emergency procedures

To be competent, the user/individual on the job must be able to:

- PC11.** follow procedures for dealing with accidents, fires and emergencies, including communicating location and directions to emergency.
- PC12.** follow emergency procedures as per company standards and workplace requirements

Qualification Pack

- PC13.** use emergency equipment in accordance with manufacturers' specifications and workplace requirements
- PC14.** provide treatment appropriate to the patient's injuries in accordance with recognized first aid techniques.
- PC15.** recover (if practical), clean, inspect/test, refurbish, replace and store the first aid equipment as appropriate
- PC16.** dispose off medical waste in accordance with workplace requirements
- PC17.** report details of first aid administered in accordance with work place procedures

Maintain standard safety procedures at the workplace

To be competent, the user/individual on the job must be able to:

- PC18.** comply with general safety procedures
- PC19.** follow standard safety procedures while handling equipment, hazardous material or tool
- PC20.** check parts of the workplace and take preventive actions like spraying and other steps to protect from leakages, water logging, pests, fire, pollution, etc.
- PC21.** ensure no accidents and damages at the workplace, reporting of any breach of company safety procedure
- PC22.** keep the workplace organized, swept, clean and hazard free

Participate in safety awareness campaigns

To be competent, the user/individual on the job must be able to:

- PC23.** attend fire drills and other safety related workshops organized at the workplace
- PC24.** be aware of first aid, evacuation and emergency procedures
- PC25.** be alert of any events and do not be negligent to any safety procedures to be followed

Understand potential sources of accidents

To be competent, the user/individual on the job must be able to:

- PC26.** avoid accidents while using hazardous chemicals, machines, sharp tools and equipment

Use safety gears to avoid accidents

To be competent, the user/individual on the job must be able to:

- PC27.** use safety materials such as protective gear, goggles, caps, shoes, etc.(as applicable with workplace)
- PC28.** handle heavy and hazardous materials with care and using appropriate tools and handling equipment such as trolleys, ladders

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** policies on incentives, delivery standards, and personnel management.
- KU2.** occupational safety and health policy followed
- KU3.** emergency evacuation procedure
- KU4.** medical policy
- KU5.** company laws and acts
- KU6.** the risks to health and safety and the measures to be taken to control those risks in the area of work

Qualification Pack

- KU7.** workplace procedures and requirements for the handling of workplace injuries/illnesses.
- KU8.** basic emergency first aid procedure
- KU9.** local emergency services
- KU10.** reporting on accidents, incidents and problems to appropriate authorities.
- KU11.** how to use machines as per standard operating procedure
- KU12.** how to maintain work area safe and secure
- KU13.** use of hazardous materials, tools and equipments
- KU14.** emergency evacuation and first aid procedures to be followed
- KU15.** personal hygiene and fitness requirements
- KU16.** general duties under the relevant health and safety legislation
- KU17.** what personal protective equipment and clothing should be worn and how it is cared for
- KU18.** the correct and safe way to use materials and equipment required for work
- KU19.** the importance of good housekeeping in the workplace
- KU20.** safe disposal methods for waste
- KU21.** methods for minimizing environmental damage during work

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** record data which are required for record keeping purpose
- GS2.** report problems to the appropriate person in a timely manner
- GS3.** write descriptions and details about incidents in reports
- GS4.** read instruction manuals for hand tools and equipment
- GS5.** read instructions on work orders and procedures
- GS6.** receive instructions and seek advice from superiors
- GS7.** communicate clearly and effectively with others
- GS8.** take a decision for any change/issue based on earlier successes(documented previous history)on similar issues
- GS9.** work out changes in case a new improved machine/equipment is added in the process or any new material/chemical is developed replacing existing one.
- GS10.** make changes in cycle time due to improved process.
- GS11.** use the standard operating procedure or trouble shooting manuals for trouble shooting and other reference documents approved by plant management
- GS12.** consult the peer group and superiors to arrive at a favourable decision.
- GS13.** use of standard available problem solving techniques for decision making
- GS14.** review and analyze the process steps to check on system non adherence andnon conformity
- GS15.** review the current sop and other standards for continuous improvement to facilitate decision making
- GS16.** take a calculated risk with minimum losses
- GS17.** schedule daily activities and drawing up priorities; allocate start times, estimation of completion times and materials, equipment and assistance required for completion.

Qualification Pack

- GS18.** match customer needs/specification by adjusting the processing conditions (interact with customer in case any clarification required)
- GS19.** ensure that performance of his action/operation/activity does not lead to any divergence from the specified quality of the final product as required by the customer.
- GS20.** complete the assigned task in timely manner so that the final product is delivered in the timeline given by the customer.
- GS21.** communicate effectively to the superior/customer for any delay in supplies to the clients.
- GS22.** work towards fulfilling the customers requirement as per their demand.
- GS23.** in case of any complaint, ensure its timely resolution if the problem is emanating at his level
- GS24.** communicate effectively to the superior/customer for any delay in resolving the problem faced by the customer.
- GS25.** maintain good/cordial relation with customers.
- GS26.** work on the feedback received from customer regarding the product.
- GS27.** use first aid treatment in case of any injury/accident.
- GS28.** monitor and maintain the condition of tools and equipment
- GS29.** assess situation & identify appropriate control measures
- GS30.** act, communicate and report in emergency situation

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC7.** communicate and behave appropriately with all genders and PwD
- PC8.** report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC9.** use various financial products and services safely and securely
- PC10.** calculate income, expenses, savings etc.
- PC11.** approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC12.** operate digital devices and use its features and applications securely and safely
- PC13.** use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC14.** identify and assess opportunities for potential business
- PC15.** identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

- PC16.** identify different types of customers
- PC17.** identify customer needs and address them appropriately
- PC18.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC19.** create a basic biodata
- PC20.** search for suitable jobs and apply
- PC21.** identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for employability skills
- KU2.** various constitutional and personal values
- KU3.** different environmentally sustainable practices and their importance
- KU4.** Twenty first (21st) century skills and their importance
- KU5.** how to use basic spoken English language
- KU6.** Do and dont of effective communication
- KU7.** inclusivity and its importance
- KU8.** different types of disabilities and appropriate communication and behaviour towards PwD
- KU9.** different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 50

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
