RSC/Q8202: Plastic Waste Segregator

Brief Job Description

The Plastic Waste Segregator is responsible for identifying, classifying, and sorting various types of plastic waste, followed by cleaning, pre-processing, and ensuring compliance with safety, environmental, and waste management norms. The role demands basic operational skills, awareness of plastic categories, and the ability to follow routine instructions under supervision.

Personal Attributes

The job requires the individual to be physically fit to work for long hours with good observational and learning skills.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [RSC/N8202: Identify and Sort Plastic Waste](#)
2. [RSC/N9701: Perform Cleaning and Pre-Processing Activities](#)

RSC/N8202: Identify and Sort Plastic Waste

Description

This unit is about identifying different types of plastic waste based on resin codes, appearance, or material type and sorting them as per processing or recycling category.

Scope

The scope covers the following :

- Identify and classify plastic waste
- Segregate and organize plastic waste

Elements and Performance Criteria

Identify and classify plastic waste

To be competent, the user/individual on the job must be able to:

- PC1.** recognize common types of plastic waste such as PET, HDPE, LDPE, PVC, PP, and PS
- PC2.** distinguish plastic materials based on texture, flexibility, and transparency
- PC3.** identify plastic items by shape, size, and usage category (e.g., bottles, films, containers)
- PC4.** interpret plastic resin identification symbols
- PC5.** group waste based on compatibility for recycling

Segregate and organize plastic waste

To be competent, the user/individual on the job must be able to:

- PC6.** separate plastics by resin code or recyclability
- PC7.** use color-coded bins or containers for sorting
- PC8.** ensure correct placement to avoid contamination
- PC9.** stack, bundle, or label sorted plastic waste
- PC10.** follow schedule for moving waste to pre-processing area

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** types and sources of plastic waste
- KU2.** plastic identification codes and their meanings
- KU3.** basic characteristics of PET, HDPE, LDPE, PP, PS, etc.
- KU4.** differences between recyclable and non-recyclable plastics
- KU5.** common contamination risks in plastic segregation
- KU6.** sorting methods: manual, semi-automatic
- KU7.** use of color-coded bins and identification tags
- KU8.** health and environmental impact of improper plastic disposal

Qualification Pack

KU9. safety measures during segregation

KU10. importance of accuracy in segregation to support recycling

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read symbols and labels on plastic items

GS2. follow pictorial guides or instructions

GS3. count, label, and track segregated plastic batches

GS4. communicate with team members for instructions and clarifications

GS5. apply care while handling sharp or contaminated plastic

GS6. maintain pace and accuracy while segregating

RSC/N9701: Perform Cleaning and Pre-Processing Activities

Description

This unit is about cleaning plastic waste, removing contaminants, drying, and conducting basic shredding or size reduction before the recycling process.

Scope

The scope covers the following :

- Conduct cleaning of plastic waste
- Perform basic pre-processing

Elements and Performance Criteria

Conduct cleaning of plastic waste

To be competent, the user/individual on the job must be able to:

- PC1.** remove labels, caps, and residues from plastic waste
- PC2.** clean plastic using water, brushes, or detergent solution
- PC3.** handle waste that may contain food, dirt, or chemicals
- PC4.** rinse and dry plastic before processing
- PC5.** wear gloves and safety gear during cleaning

Perform basic pre-processing

To be competent, the user/individual on the job must be able to:

- PC6.** inspect cleaned plastic for visible contamination
- PC7.** sort again if contamination is detected
- PC8.** operate hand-operated or basic shredders
- PC9.** feed cleaned plastic into shredding units safely
- PC10.** collect shredded material and transfer to designated containers
- PC11.** follow SOPs for equipment use and cleaning

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for cleaning before recycling
- KU2.** types of contamination: food, oil, chemicals
- KU3.** tools used for cleaning (brushes, tanks, gloves)
- KU4.** detergents and cleaning agents permitted
- KU5.** drying methods for plastic materials
- KU6.** use of manual, semi-automatic shredders
- KU7.** operating procedure of shredding equipment

Qualification Pack

- KU8.** safety precautions while using sharp tools
- KU9.** importance of size reduction in recycling
- KU10.** personal hygiene while handling waste materials

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read basic symbols on cleaning materials
- GS2.** understand oral or visual instructions for washing and drying
- GS3.** follow step-by-step cleaning procedure
- GS4.** coordinate with co-workers to process batches
- GS5.** maintain hygiene and avoid skin contact
- GS6.** organize cleaned and shredded waste efficiently

RSC/N5007: Follow health & safety protocol

Description

This unit is about maintaining health and safety of self and others at workplace.

Scope

The scope covers the following :

- Maintain a clean and efficient workplace
- Render appropriate emergency procedures
- Maintain standard safety procedures at the workplace
- Participate in safety awareness campaigns
- Understand potential sources of accidents
- Use safety gears to avoid accidents

Elements and Performance Criteria

Maintain a clean and efficient workplace

To be competent, the user/individual on the job must be able to:

- PC1.** undertake basic safety checks before operation of all machinery and equipment and report hazards to the appropriate supervisor
- PC2.** work for which protective clothing or equipment is required is identified and the appropriate protective clothing or equipment is used in performing these duties in accordance with workplace policy
- PC3.** read and understand the hazards of use and contamination mentioned on the labels of chemicals, utilities etc
- PC4.** prior to performing manual handling jobs, risk is assessed and work is carried out according to currently recommended safe practices.
- PC5.** use equipment and materials safely and correctly and return the same to designated storage when not in use
- PC6.** dispose off waste safely and correctly in a designated area
- PC7.** risks to bystanders are recognized and action taken to reduce risk associated with jobs in the workplace
- PC8.** perform work in a manner which minimizes environmental damage
- PC9.** all procedures and work instructions for controlling risk are followed closely
- PC10.** report any accidents, incidents or problems without delay to an appropriate person and take immediate necessary action to reduce further danger

Render appropriate emergency procedures

To be competent, the user/individual on the job must be able to:

- PC11.** follow procedures for dealing with accidents, fires and emergencies, including communicating location and directions to emergency.
- PC12.** follow emergency procedures as per company standards and workplace requirements

Qualification Pack

- PC13.** use emergency equipment in accordance with manufacturers' specifications and workplace requirements
- PC14.** provide treatment appropriate to the patient's injuries in accordance with recognized first aid techniques.
- PC15.** recover (if practical), clean, inspect/test, refurbish, replace and store the first aid equipment as appropriate
- PC16.** dispose off medical waste in accordance with workplace requirements
- PC17.** report details of first aid administered in accordance with work place procedures

Maintain standard safety procedures at the workplace

To be competent, the user/individual on the job must be able to:

- PC18.** comply with general safety procedures
- PC19.** follow standard safety procedures while handling equipment, hazardous material or tool
- PC20.** check parts of the workplace and take preventive actions like spraying and other steps to protect from leakages, water logging, pests, fire, pollution, etc.
- PC21.** ensure no accidents and damages at the workplace, reporting of any breach of company safety procedure
- PC22.** keep the workplace organized, swept, clean and hazard free

Participate in safety awareness campaigns

To be competent, the user/individual on the job must be able to:

- PC23.** attend fire drills and other safety related workshops organized at the workplace
- PC24.** be aware of first aid, evacuation and emergency procedures
- PC25.** be alert of any events and do not be negligent to any safety procedures to be followed

Understand potential sources of accidents

To be competent, the user/individual on the job must be able to:

- PC26.** avoid accidents while using hazardous chemicals, machines, sharp tools and equipment

Use safety gears to avoid accidents

To be competent, the user/individual on the job must be able to:

- PC27.** use safety materials such as protective gear, goggles, caps, shoes, etc.(as applicable with workplace)
- PC28.** handle heavy and hazardous materials with care and using appropriate tools and handling equipment such as trolleys, ladders

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** policies on incentives, delivery standards, and personnel management.
- KU2.** occupational safety and health policy followed
- KU3.** emergency evacuation procedure
- KU4.** medical policy
- KU5.** company laws and acts
- KU6.** the risks to health and safety and the measures to be taken to control those risks in the area of work

Qualification Pack

- KU7.** workplace procedures and requirements for the handling of workplace injuries/illnesses.
- KU8.** basic emergency first aid procedure
- KU9.** local emergency services
- KU10.** reporting on accidents, incidents and problems to appropriate authorities.
- KU11.** how to use machines as per standard operating procedure
- KU12.** how to maintain work area safe and secure
- KU13.** use of hazardous materials, tools and equipments
- KU14.** emergency evacuation and first aid procedures to be followed
- KU15.** personal hygiene and fitness requirements
- KU16.** general duties under the relevant health and safety legislation
- KU17.** what personal protective equipment and clothing should be worn and how it is cared for
- KU18.** the correct and safe way to use materials and equipment required for work
- KU19.** the importance of good housekeeping in the workplace
- KU20.** safe disposal methods for waste
- KU21.** methods for minimizing environmental damage during work

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** record data which are required for record keeping purpose
- GS2.** report problems to the appropriate person in a timely manner
- GS3.** write descriptions and details about incidents in reports
- GS4.** read instruction manuals for hand tools and equipment
- GS5.** read instructions on work orders and procedures
- GS6.** receive instructions and seek advice from superiors
- GS7.** communicate clearly and effectively with others
- GS8.** take a decision for any change/issue based on earlier successes(documented previous history)on similar issues
- GS9.** work out changes in case a new improved machine/equipment is added in the process or any new material/chemical is developed replacing existing one.
- GS10.** make changes in cycle time due to improved process.
- GS11.** use the standard operating procedure or trouble shooting manuals for trouble shooting and other reference documents approved by plant management
- GS12.** consult the peer group and superiors to arrive at a favourable decision.
- GS13.** use of standard available problem solving techniques for decision making
- GS14.** review and analyze the process steps to check on system non adherence andnon conformity
- GS15.** review the current sop and other standards for continuous improvement to facilitate decision making
- GS16.** take a calculated risk with minimum losses
- GS17.** schedule daily activities and drawing up priorities; allocate start times, estimation of completion times and materials, equipment and assistance required for completion.

Qualification Pack

- GS18.** match customer needs/specification by adjusting the processing conditions (interact with customer in case any clarification required)
- GS19.** ensure that performance of his action/operation/activity does not lead to any divergence from the specified quality of the final product as required by the customer.
- GS20.** complete the assigned task in timely manner so that the final product is delivered in the timeline given by the customer.
- GS21.** communicate effectively to the superior/customer for any delay in supplies to the clients.
- GS22.** work towards fulfilling the customers requirement as per their demand.
- GS23.** in case of any complaint, ensure its timely resolution if the problem is emanating at his level
- GS24.** communicate effectively to the superior/customer for any delay in resolving the problem faced by the customer.
- GS25.** maintain good/cordial relation with customers.
- GS26.** work on the feedback received from customer regarding the product.
- GS27.** use first aid treatment in case of any injury/accident.
- GS28.** monitor and maintain the condition of tools and equipment
- GS29.** assess situation & identify appropriate control measures
- GS30.** act, communicate and report in emergency situation

RSC/N5628: Adhere to Environmental, Safety and Regulatory Guidelines

Description

This NOS outlines environmental awareness, sustainable practices, and workplace compliance with plastic waste disposal and resource conservation.

Scope

The scope covers the following :

- Comply with environmental guidelines
- Contribute to sustainable practices

Elements and Performance Criteria

Comply with environmental guidelines

To be competent, the user/individual on the job must be able to:

- PC1.** dispose of contaminated plastic as per instructions
- PC2.** avoid mixing hazardous and non-hazardous waste
- PC3.** use bins as per color code for different waste types
- PC4.** reduce water and material wastage during operations

Contribute to sustainable practices

To be competent, the user/individual on the job must be able to:

- PC5.** participate in cleanliness and greening initiatives
- PC6.** maintain 5S practices at workplace
- PC7.** reuse and repurpose tools when possible
- PC8.** follow instructions for energy-saving (lights/machines off)

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** environmental issues related to plastic waste
- KU2.** segregation guidelines by municipal bodies
- KU3.** plastic waste management rules (basics)
- KU4.** color-coding system for waste bins
- KU5.** significance of clean workplace
- KU6.** Principles 5S (Sort, Set, Shine, Standardize, Sustain)
- KU7.** ways to conserve water and electricity

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** follow signage and verbal instruction for waste handling
- GS2.** participate in group cleanliness drives
- GS3.** practice resource conservation techniques
- GS4.** respect environment and maintain discipline

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
