Qualification Pack

SGJ/N6105: Cleaning of Roads, Pavements, Public Area etc.

Description

This unit is about properly cleaning roads, pavements, streets, lanes, parks and public areas

Scope

The scope covers the following :

- Sweeping/cleaning of Roads, Pavements etc.
- Sweeping/cleaning of Parks and Public Areas
- Collect and segregate garbage
- Transportation of garbage/waste materials to designated area
- Separate solid waste, plastics and recyclable waste from biodegradable waste
- Effective waste management/recycling practices

Elements and Performance Criteria

Introduction to role of Safai Mitra

To be competent, the user/individual on the job must be able to:

- PC1.** provide an overview of the waste management sector and highlight its importance.
- PC2.** explain the importance of the role of Safai Mitra in waste management, by cleaning of roads, pavements, buildings and other public areas and demonstrate the role of Safai Mitra in cleaning of roads, pavements, buildings and other public areas
- PC3.** explain the advantages of doing this course and potential job opportunities.
- PC4.** understand basic skills possessed by individuals working as Safai Mitra.
- PC5.** acquire basic ability to read instructions, identify colour codes, signs and symbols used in waste management and demonstrate how to read instructions, identify colour codes, signs and symbols used in waste management.

Cleaning of Roads, Pavements, Public Area etc.

To be competent, the user/individual on the job must be able to:

- PC6.** explain different types of brooms and demonstrate how to identify different types of brooms.
- PC7.** identify different types of other tools used in cleaning like buckets, dust pans, bags, bins, etc and Show how to identify and utilise different types of other tools used in cleaning like buckets, dust pans, bags, bins, etc
- PC8.** explain how to select appropriate cleaning tools as per cleaning area.
- PC9.** discuss how to prepare different types of brooms and carry out their maintenance and Demonstrate to prepare different types of brooms and carry out their maintenance.
- PC10.** identify color coding of waste bins as per types of waste.
- PC11.** discuss how to collect waste in small portions appropriately and Demonstrate efficient techniques for cleaning/sweeping.
- PC12.** explain do's and don'ts while cleaning of roads, pavements, parks and public areas and demonstrate do's and don'ts while cleaning of roads, pavements, parks and public areas.
- PC13.** demonstrate appropriate methods of handling tools for various operations.

Qualification Pack

Transportation of waste collected from roads, pavements, parks and public areas

To be competent, the user/individual on the job must be able to:

- PC14.** explain to identify the broad category of waste normally encountered on roads, pavements, parks and public areas and demonstrate how to carry out broad segregation of collected waste, such as plastics, metals, other recyclable material, biodegradable waste, etc
- PC15.** discuss how to perform broad segregation of collected waste, such as plastics, metals, other recyclable material, biodegradable waste, etc
- PC16.** transport waste while maintaining segregation, using appropriate methods and demonstrate how to transport various types of waste while maintaining segregation, using appropriate methods.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizations culture and setup if working in a group/organization.
- KU2.** rules and regulations of a gated community/ society.
- KU3.** basic knowledge of addition and subtraction.
- KU4.** different types of solid waste, including hazardous waste.
- KU5.** handling of tools requires for the operation.
- KU6.** dos and donts while carrying and transportation of different types of waste, including handling of dry leaves.
- KU7.** categorization of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU8.** waste management and methods of waste disposal
- KU9.** common sources of pollution and ways to minimize it

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill up documentation applicable to ones role
- GS2.** read hindi or other vernacular language to understand all instructions
- GS3.** understand various disposal signs used on objects
- GS4.** express statements or information clearly so that others can understand
- GS5.** understand the main points of simple discussions
- GS6.** the local area from where he/she would work
- GS7.** communicate courteously with others in a polite manner
- GS8.** understand the main points of simple discussions
- GS9.** understand the main points of simple discussions
- GS10.** communicate with colleagues on the significance of greening of jobs
- GS11.** make timely decisions for efficient utilization of resources

SGJ/N6106: Cleaning of floor(s) of buildings

Description

This unit is about cleaning of floor(s) of buildings.

Scope

The scope covers the following :

- Sweeping of floor(s) of buildings
- Collect and segregate garbage
- Transportation of garbage/ waste materials to designated area
- Effective waste management/recycling practices

Elements and Performance Criteria

Cleaning of floor(s) of buildings

To be competent, the user/individual on the job must be able to:

- PC1.** identify different types of brooms and mops.
- PC2.** identify different types of other tools used in cleaning like buckets, dust pans, bags, bins, etc and demonstrate how to identify different types of other tools used in cleaning like buckets, dust pans, bags, bins, etc
- PC3.** discuss how to identify different types of cleaning agents and demonstrate to identify different types of cleaning agents and how to select appropriate cleaning agents as per requirement of cleaning area.
- PC4.** discuss to select appropriate cleaning agents as per requirement cleaning area and demonstrate how to optimally use cleaning agents as per requirement cleaning area.
- PC5.** select and use appropriate safety signage and demonstrate how to use appropriate safety signage.
- PC6.** demonstrate appropriate handling of tools for various operations.
- PC7.** identify appropriate colour and signs of waste bins as per types of waste.
- PC8.** discuss how to collect waste from waste bins as per standard practice and demonstrate efficient techniques for cleaning/sweeping.
- PC9.** explain Do's and don'ts while cleaning of floor(s) of buildings and demonstrate Do's and don'ts while cleaning of floor(s) of buildings.

Transportation of waste collected from buildings

To be competent, the user/individual on the job must be able to:

- PC10.** identify the broad category of waste normally encountered in buildings and demonstrate how to identify the broad category of waste normally encountered in buildings.
- PC11.** explain to carry out broad segregation of collected waste, such as plastics, metals, other recyclable material, biodegradable waste, etc and demonstrate to perform broad segregation of collected waste, such as plastics, metals, other recyclable material, biodegradable waste, etc

Qualification Pack

- PC12.** discuss how to use different types of bags/ bins/ carts used in carrying segregated waste and show how to utilise different types of bags/ bins/ carts used in carrying segregated waste.
- PC13.** explain how to transport waste while maintaining segregation, using appropriate methods to designated location and demonstrate how to transport waste while maintaining segregation, using appropriate methods to designated location.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizational culture and setup if working in a group/organization
- KU2.** different types of solid waste, including hazardous waste
- KU3.** handling of tools required for the operation
- KU4.** do's and don'ts while handling and transportation of different types of waste
- KU5.** waste management and methods of waste disposal

SGJ/N6107: Maintain Personal Health & Safety while Cleaning

Description

This unit is about maintaining health and work safety while working with Waste

Scope

The scope covers the following :

- Establish and follow safe work procedure
- Use and maintain personal protective equipment
- Follow good housekeeping practices and infection control guidelines

Elements and Performance Criteria

Maintain Personal Health & Safety while Cleaning

To be competent, the user/individual on the job must be able to:

- PC1.** explain requirement of Personal Cleanliness and Hygiene.
- PC2.** identify proper personal Health and safety tools including gloves and masks and demonstrate how to use appropriate Personal Protective Equipment (PPE) while performing work.
- PC3.** demonstrate proper use of Gloves and Masks.
- PC4.** demonstrate steps to be followed to maintain personal cleanliness while working and Perform the steps to clean and disinfect material, tools, equipment and other supplies before starting work and after completing the job.
- PC5.** locate first aid box and take action in case of self-injury and demonstrate correct techniques to move an injured person during an emergency.
- PC6.** show how to provide first aid to a victim in case of exposed wounds, cuts, burns, choking, electric shock, poisoning, or any other situation such as a cardiac arrest.
- PC7.** identify the hazards associated waste/garbage handling and demonstrate how to dispose hazardous waste as per organisational norms.
- PC8.** identify work safety procedures and instructions while cleaning, collection, segregation and transportation of waste and demonstrate how to dispose hazardous waste as per organisational norms.
- PC9.** demonstrate how to measure temperature of a person.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizations documentation policy
- KU2.** organizations reporting structure & organization culture
- KU3.** organizations different department and concerned authority
- KU4.** occupational health and safety (OHS) standards
- KU5.** importance of personal protective equipment (PPE)

Qualification Pack

- KU6.** application of masks and gloves while sweeping road
- KU7.** importance of reflective materials while working on roads
- KU8.** tools & tackles required to carry out the work
- KU9.** forms and classification of hazardous substances
- KU10.** symptoms of infection like fever, cough, swelling and inflammation
- KU11.** housekeeping activities relevant to task

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill up documentation applicable to ones role
- GS2.** ability to read from different sources, books
- GS3.** understand the various colour codes used in safety
- GS4.** express statements to inform clearly so that others can understand
- GS5.** understand the main points of simple discussions
- GS6.** the local area from where he/she would work
- GS7.** communicate courteously with others in a polite manner
- GS8.** approach local authorities, in case of emergency (police, doctor, etc.)
- GS9.** analyze day to day experience to correct future course of action
- GS10.** interpret general safety guidelines, labels, charts and signage

SGJ/N6112: Cleaning of toilets

Description

This unit is about wet Cleaning i.e. wet sweeping and mopping of floors, lavatories of buildings, hospitals etc.

Scope

The scope covers the following :

- Prepare the materials and tools required for wet cleaning

Elements and Performance Criteria

Cleaning of toilets

To be competent, the user/individual on the job must be able to:

- PC1.** explain how to arrange and check the tools i.e., wiper.
- PC2.** demonstrate how to arrange and check the tools and disinfectant/ cleaning agent.
- PC3.** arrange liquid disinfectant/ cleaning agent.
- PC4.** discuss to prepare the proper mixture of liquid disinfectant and water and demonstrate how to prepare the proper mixture of liquid disinfectant and water.
- PC5.** prepare the area to be cleaned and demonstrate how the area shall be prepared for cleaning.
- PC6.** explain how to clean lavatory, basins, inside and outside surround of the sinks, taps, clean tiles, mirrors etc and demonstrate how to clean lavatory basins, inside and outside surround of the sinks, taps etc.
- PC7.** discuss to collect the garbage, waste etc. properly and place it in a designated area.
- PC8.** remove the garbage, waste etc. collected and carry it to the dumping place and show to sweep and mop the floors/lavatories with mop or wet cloth.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizations culture and setup if working in a group/organization
- KU2.** rules and Regulations of a gated community/ society
- KU3.** basic knowledge of liquid disinfectant/ cleaning agent
- KU4.** different types of tools required for wet cleaning
- KU5.** different categories and types of waste

SGJ/N6113: Cleaning with Mechanized cleaning tools

Description

This unit is about Cleaning with mechanized cleaning tools

Scope

The scope covers the following :

- Clean with vacuum cleaner
- Clean with mechanical sweeper
- Clean with mechanized sweeper ride
- Clean with mechanized scrubbing machine

Elements and Performance Criteria

Cleaning with Mechanized cleaning tools

To be competent, the user/individual on the job must be able to:

- PC1.** explain to identify the components of vacuum cleaner and demonstrate how to identify the components of vacuum cleaner.
- PC2.** identify and attach the appropriate suction hose.
- PC3.** demonstrate starting and shutting down procedure of vacuum cleaner.
- PC4.** carry out the drying of wet filter and change the filter if necessary.
- PC5.** show how to check the dirt container periodically and empty the container if required.
- PC6.** ensure proper shut down of the appliance.
- PC7.** discuss to clean the vacuum cleaner and visually inspect the appliance for any damages.
- PC8.** show to lean the dirt container and dispose the dirt collected to ensure that the dirt container has been inserted properly.
- PC9.** identify the components of mechanical sweeper demonstrate starting and shutting down procedure of the mechanical sweeper.
- PC10.** discuss to Check and remove any sharp objects and heavy debris in the cleaning area before using the sweeper and demonstrate to check and remove any sharp objects and heavy debris in the cleaning area before using the sweeper.
- PC11.** adjust the brush according to low, medium and highly dusty place.
- PC12.** explain to operate the mechanical sweeper and demonstrate to operate the mechanical sweeper.
- PC13.** clean the brush appropriately after the operation is completed.
- PC14.** properly shut down the mechanised sweeping equipment and inspect the appliance for any damages.
- PC15.** carry out proper disposal of the dust collected.
- PC16.** identify the components of mechanized sweeper ride and demonstrate starting and shutting down procedure of the mechanical sweeper ride.
- PC17.** check and remove the area for sharp and heavy debris or obstacles.

Qualification Pack

- PC18.** demonstrate the opening and securing the cover of the machine as per manufacturer instructions.
- PC19.** show how to check oil level / fuel level / battery level for smooth operation of the machine.
- PC20.** discuss how to visually inspect the machine for any damage and check the main cable regularly.
- PC21.** show how to identify the components of mechanized scrubbing machine.
- PC22.** inspect the area to be cleaned with no obstacles and fix the brush/pad appropriately.
- PC23.** demonstrate starting and shutting down procedure of the mechanized scrubbing machine.
- PC24.** prepare the cleaning solution as per the requirement and refill the detergent tank.
- PC25.** adjust the water quantity according to the dirt operate the mechanized scrubbing machine.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizations culture and setup if working in a group/organization
- KU2.** rules and regulations of a gated community/ society
- KU3.** component identification & Operating principle of various mechanised tools
- KU4.** knowledge of different types of appliances used for cleaning
- KU5.** handling of tools requires for the operation
- KU6.** dos and donts of various mechanised cleaning tools
- KU7.** dos and donts while carrying and transportation of different types of waste, including handling of dry leaves

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill up documentation applicable to ones role
- GS2.** understand various disposal signs used on objects

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification will be created by the Sector Skill Council/Awarding Body. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC/AB will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC/AB.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the assessment, every trainee should score the Recommended Pass % aggregate for the Qualification.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification.

Minimum Aggregate Passing % at QP Level : 70

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
