SGJ/N6411: Emptying of sewer and septic tank

Description

This unit is about to emptying the manholes and septic tanks in residential, commercial and institutional areas

Scope

The scope covers the following :

- Initial checks before pumping out the septage from the sewer/septic tank
- Pumping out septage from the sewer/septic Tank

Elements and Performance Criteria

Initial checks before pumping out the septage from the sewer/septic tank

To be competent, the user/individual on the job must be able to:

- PC1.** identify types of sanitation system
- PC2.** identify the location and size of septic tank and manholes
- PC3.** ensure proper opening of septic tank cover/manholes
- PC4.** visual inspect the consistency of sludge and breakdown the solid sludge with water in case it is solid in consistency

Pumping out septage from the sewer/septic Tank

To be competent, the user/individual on the job must be able to:

- PC5.** install pipe in the manholes/septic tank connecting with sludge tank
- PC6.** ensure health and safety while installing the pipe in the septic tank for pumping out the sludge
- PC7.** schedule meter check before pumping out the sludge
- PC8.** demonstrate use of rodding and jetting tools
- PC9.** maintain logbook of desludging procedure
- PC10.** ensure that deep sludge should be left in the bottom of sewer/septic tank as per the industry standard and government norms
- PC11.** uninstall the suction pipes
- PC12.** ensure that the manhole/septic tank is properly closed
- PC13.** clean their surroundings and pipes before leaving the site
- PC14.** ensure that sludge vehicle is not leaking during the transit process

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizational culture and setup
- KU2.** various policies and regulations

Qualification Pack

- KU3.** organizations customer support policy
- KU4.** organizations documentation policy
- KU5.** health and safety policy
- KU6.** dos and donts of desludging services
- KU7.** no fire or flame should be used near the septic tanks as there may be inflammable gases inside septic tanks
- KU8.** installation of pipes
- KU9.** handling the vacuum tank
- KU10.** health and safety procedure
- KU11.** manual scavenging act 2013
- KU12.** personal protection equipment including the use of related safety gears & equipments

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill up relevant documents
- GS2.** read relevant documents to understand the purpose of the work
- GS3.** express statements or information clearly so that others can understand
- GS4.** participate in and understand main points of simple discussions
- GS5.** respond appropriately to queries
- GS6.** follow organization rule-based decision-making process
- GS7.** take decisions with systematic course of actions and/or response
- GS8.** complete tasks efficiently and accurately within stipulated time
- GS9.** working constructively and collaboratively with others
- GS10.** coordinate with multidisciplinary stakeholders
- GS11.** understand limitations of the customers
- GS12.** identify the spending trends of customers
- GS13.** recognize problems and search for solutions
- GS14.** choose best methods to complete assigned tasks
- GS15.** approach relevant authority when required
- GS16.** apply domain knowledge / observations and data to select course of action to perform tasks related to desludging services
- GS17.** critically evaluate the information obtained from other departments and stakeholders
- GS18.** ask questions for better understanding

SGJ/N6412: Preventive maintenance, transportation and safe disposal of sludge

Description

This unit is about preventive maintenance of desludging vacuum tank/truck and transporting sludge from source to identified desludging site

Scope

The scope covers the following :

- Preventive maintenance of desludging vacuum tank/truck
- Pumping out septage from the septic tank /sewer
- Transportation of sludge
- Safe disposal of sludge at dedicated sludge disposal site

Elements and Performance Criteria

Preventive maintenance of desludging vacuum tank/truck

To be competent, the user/individual on the job must be able to:

- PC1..** check the oil levels in the vacuum pump, oil-cooling tank, hydraulic tank and tanker engine
- PC2..** check the tanker fuel level, water levels in the tanker engine, windscreen water bottle, wash tank and water tank for the vacuum pump
- PC3..** check the cooling radiator for the hydraulic oil and pump oil

Pumping out septage from the septic tank /sewer

To be competent, the user/individual on the job must be able to:

- PC4..** check if rear door closed and secured
- PC5..** check tyre pressures, lights, indicators, horns
- PC6..** prevent the tank from being overfilled
- PC7..** check contacts between gaskets and seats and performance steel balls
- PC8..** check leaks in the hydraulic system and power take-off shafts

Transportation of sludge

To be competent, the user/individual on the job must be able to:

- PC9..** identify the dedicated route to the disposal site
- PC10..** transport the sludge from source of sludge to disposal site

Safe disposal of sludge at dedicated sludge disposal site

To be competent, the user/individual on the job must be able to:

- PC11..** maintain the log book of disposal site visit
- PC12..** ensure safe disposal of sludge at the disposal site
- PC13..** carry out cleaning of sludge vacuum tank after disposal

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** policies and procedures that impact the desludging business process.
- KU2.** legal formalities applicable for the desludging business.
- KU3.** possible contingencies.
- KU4.** local corporations/authorities that have a bearing on desludging service business process.
- KU5.** health and safety procedure while transportation and disposal of sludge
- KU6.** dedicated route
- KU7.** operation of sludge vacuum tank with truck
- KU8.** operation and maintenance of sludge vacuum tank
- KU9.** safe disposal procedure
- KU10.** use of equipment used in transportation

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated
- GS2.** record the readings of various parameters in the prescribed format
- GS3.** note down observations related to the activity
- GS4.** write information documents to internal departments/ internal teams
- GS5.** read from different sources- books, screens in machines and signage.
- GS6.** read internal information documents sent by internal teams
- GS7.** express statements or information clearly so that co-workers can hear and understand
- GS8.** participate in and understand the main points of simple discussions.
- GS9.** respond appropriately to any queries
- GS10.** communicate effectively with supervisor, peers and subordinates
- GS11.** follow organization rule-based decision-making process
- GS12.** take decisions with systematic course of actions and/or response
- GS13.** complete tasks efficiently and accurately within stipulated time
- GS14.** delegate tasks to improve efficiencies
- GS15.** coordinate with multidisciplinary stakeholders
- GS16.** follow organization code of conduct
- GS17.** recognize problems and search for solutions
- GS18.** choose best methods to complete assigned tasks
- GS19.** approach relevant authority when required
- GS20.** apply domain knowledge to acquire physical assets for business
- GS21.** critically evaluate the information obtained from other departments and stakeholder
- GS22.** ask questions for better understanding

SGJ/N6410: Maintain Personal Health & Safety in FSSM

Description

This unit is about being aware of, communicating & taking steps towards minimizing potentials hazards and dangers of accidents on the job and maintaining occupational health & safety

Scope

The scope covers the following :

- Ensure personal cleanliness and hygiene
- Utilise proper personal health and safety tools including gloves and masks
- Safety SOPs for faecal sludge management
- Identify first aid kit and administering first aid

Elements and Performance Criteria

Establish and follow safe work procedure

To be competent, the user/individual on the job must be able to:

- PC1.** demonstrate how to keep workplace clean
- PC2.** ensure personal cleanliness and hygiene and safe for work
- PC3.** discuss to follow and comply with workplace and job specific safety procedures
- PC4.** ensure no accidents and damages take place at the workplace
- PC5.** ensure proper hygiene and protection from dust and other infections
- PC6.** identify and communicate workplace hazards and associated emergencies to workers
- PC7.** explain to organize and attend fire drills and workplace safety workshops

Utilise proper personal health and safety tools including gloves and masks

To be competent, the user/individual on the job must be able to:

- PC8.** identify the personal protection equipment required for specific work activity and location
- PC9.** demonstrate the proper use of Gloves and Masks and other PPE
- PC10.** demonstrate use of Emergency Response Support System (ERSU)

Safety SOPs for faecal sludge management

To be competent, the user/individual on the job must be able to:

- PC11.** demonstrate safe and accepted practices for personal protection
- PC12.** discuss evacuation and emergency procedures

Identify first aid kit and administering first aid

To be competent, the user/individual on the job must be able to:

- PC13.** demonstrate how to identify the location of first aid materials and administer first-aid

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** organizations documentation policy on safety and hazards and personnel management
- KU2.** organizations reporting structure & organization culture
- KU3.** organizations different department and concerned authority
- KU4.** how to use tools and equipment without suffering any physical harm
- KU5.** first-aid procedure
- KU6.** diseases caused due to unsafe water, biting of insects and following unhygienic practices
- KU7.** evacuation and emergency procedures
- KU8.** Occupational Health and Safety (OHS) standards
- KU9.** importance of Personal Protective Equipment (PPE)

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** effectively communicate the danger and emergency
- GS2.** express statements to inform clearly so that others can understand
- GS3.** understand the main points of simple discussions
- GS4.** read from different sources
- GS5.** understand the various colour codes used in safety
- GS6.** keep all the tools in an organised manner so as to avoid accidents
- GS7.** keep the work environment safe and clean
- GS8.** report potential sources of danger and emergency
- GS9.** follow prescribed procedure in the event of an accident
- GS10.** wear appropriate safety gear to avoid an accident
- GS11.** plan safety check schedules
- GS12.** communicate courteously with others in a polite manner
- GS13.** approach local authorities, in case of emergency (police, doctor, etc.)
- GS14.** analyze day to day experience to correct future course of action
- GS15.** learn from past mistake regarding use of hazardous tools and equipment

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification will be created by the Sector Skill Council/Awarding Body. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC/AB will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC/AB.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the assessment, every trainee should score the Recommended Pass % aggregate for the Qualification.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification.

Minimum Aggregate Passing % at QP Level : 70

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
