SGJ/N6501: Carry out market analysis

Description

This unit is about conducting analysis of the market to understand existing trends and customer preferences

Scope

The scope covers the following :

- Assess the demand of the product
- Carry out market analysis in the given geography and identify target customers

Elements and Performance Criteria

Introduction to Waste Management

To be competent, the user/individual on the job must be able to:

- PC1.** discuss the objectives and benefits of the Skill India Mission
- PC2.** describe the scope of Indian Green Job Industry and its sub-sectors
- PC3.** discuss the relationship between greening and sustainability
- PC4.** explain how to acquire the basic skills to perform the task of Circular systems Manager
- PC5.**
 - discuss the advantages of doing this
 - Course and the importance of the sector
- PC6.** explain basic terminologies used in Waste Management and the key aspects of the sector
- PC7.** explain standard code of ethics and professional practices to be adhered by Circular systems Manager

Carry out market analysis

To be competent, the user/individual on the job must be able to:

- PC8.** explain and demonstrate how to determine existing demands of the product in the market.
- PC9.** discuss and demonstrate how to conduct primary research through interactions and surveys to understand the positioning of customers.
- PC10.** discuss and demonstrate how to conduct secondary research to gather information on market determinants such as volume of sales, economic growth rate, per capita income, etc.
- PC11.** discuss and demonstrate how to estimate project growth using statistical tool and develop profiles of resulting market segments.
- PC12.** explain and show how to identify various segments of customers and their respective needs in the given market develop profiles of resulting market segments
- PC13.** discuss and demonstrate how to select target segments based on demand forecasting and market segmentation.
- PC14.** discuss and show how to identify competitors in the market and assess their respective sales strategies.

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** organizational culture and setup
- KU2.** various policies and regulations
- KU3.** organizations customer support policy
- KU4.** organizations documentation policy
- KU5.** methodology for conducting market study in order to identify customer requirements from current and future products
- KU6.** monitoring and analysis of market trends
- KU7.** statistical tools for demand growth projection
- KU8.** facts of waste management industry
- KU9.** laws and policies applicable in waste management industry

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill up relevant documents
- GS2.** prepare and write detailed reports of the studies performed
- GS3.** read and understand organizational and regulatory guidelines
- GS4.** read and understand manuals, health and safety instructions, memos, and other company documents

- PC23.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC24.** operate digital devices and use their features and applications securely and safely
- PC25.** carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.
- PC26.** display responsible online behaviour while using various social media platforms

Qualification Pack

- PC27.** create a personal email account, send and process received messages as per requirement
- PC28.** carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications
- PC29.** utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC30.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC31.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC32.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC33.** identify different types of customers and ways to communicate with them
- PC34.** identify and respond to customer requests and needs in a professional manner
- PC35.** use appropriate tools to collect customer feedback
- PC36.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC37.** create a professional Curriculum vitae (Résumé)
- PC38.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively
- PC39.** apply to identified job openings using offline /online methods as per requirement
- PC40.** answer questions politely, with clarity and confidence, during recruitment and selection
- PC41.** identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for employability skills and different learning and employability related portals
- KU2.** various constitutional and personal values
- KU3.** different environmentally sustainable practices and their importance
- KU4.** Twenty first (21st) century skills and their importance
- KU5.** how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up
- KU6.** importance of career development and setting long- and short-term goals
- KU7.** about effective communication
- KU8.** POSH Act
- KU9.** Gender sensitivity and inclusivity
- KU10.** different types of financial institutes, products, and services

Qualification Pack

- KU11.** components of salary and how to compute income and expenditure
- KU12.** importance of maintaining safety and security in offline and online financial transactions
- KU13.** different legal rights and laws
- KU14.** different types of digital devices and the procedure to operate them safely and securely
- KU15.** how to create and operate an e- mail account
- KU16.** use applications such as word processors, spreadsheets etc.
- KU17.** how to identify business opportunities
- KU18.** types and needs of customers
- KU19.** how to apply for a job and prepare for an interview
- KU20.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and write different types of documents/instructions/correspondence in English and other languages
- GS2.** communicate effectively using appropriate language in formal and informal settings
- GS3.** behave politely and appropriately with all to maintain effective work relationship
- GS4.** how to work in a virtual mode, using various technological platforms
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

SGJ/N6505: Manage overall operations of biomass depot

Description

This unit is about managing overall operation of biomass depot.

Scope

The scope covers the following :

- Identify sources for procurement and supply of biomass
- Ensure smooth running of biomass depot operations
- Oversee business marketing

Elements and Performance Criteria

Manage overall operations of biomass depot

To be competent, the user/individual on the job must be able to:

- PC1.** Explain and show the structure and functioning of Biomass Depot.
- PC2.** explain how to identify various suppliers for biomass procurement and supply and demonstrate how to identify various suppliers for biomass procurement and supply to ensure continuous supply.
- PC3.** explain how to ensure biomass supply is channelized from identified suppliers.
- PC4.**
 - explain how to ensure proper sorting, densification and appropriate storage of biomass and Demonstrate the method of sorting, densification and storage of biomass.
 - Show how to conduct regular meetings with various supervisors and identify technical challenges in daily operations.
- PC5.**
 - Discuss how to conduct regular meetings with various supervisors and
 - Show how to conduct regular meetings with various supervisors and identify technical challenges in daily operations.
- PC6.** explain how to identify technical challenges encountered in daily operations.
- PC7.** discuss how to monitor financial performance of the business and Show how to effectively monitor financial performance of the business.
- PC8.** discuss how to oversee business marketing and Show how to oversee business marketing and organize resources for business marketing.
- PC9.** discuss how to organize resources for efficient business marketing of agri-biomass and Show to work closely with marketing managers, distributors, key customers and representatives in solving customer problems and developing service programs.
- PC10.** Explain how to communicate the value proposition and pricing of the products to the marketing team and Show how to communicate the value proposition and pricing of the products to the marketing team.
- PC11.** explain to work closely with marketing managers, distributors, key customers and representatives in solving customer problems and developing service programs
- PC12.** Explain the mode of stakeholder engagement and identify challenges encountered in daily operations and Demonstrate the mode of stakeholder engagement and identify challenges encountered in daily operation.

Qualification Pack

- PC13.** Describe monitoring of financial performance of the business and Demonstrate monitoring of financial performance of the business
- PC14.** Describe resources and inventory management and Demonstrate resources and inventory management.
- PC15.** Discuss how to demonstrate customer redressal system for solving customer problems and Demonstrate customer redressal system for solving customer problems.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** resource requirements of the organization
- KU2.** financial performance of the organization
- KU3.** methods to upkeep employee productivity and morale
- KU4.** relevant manufacturing standards and procedures followed in the industry
- KU5.** use of financial statements such as income statement, balance sheet, profit and loss statements etc.
- KU6.** grievance management processes and tools in the organization
- KU7.** significance of performance monitoring against established benchmarks

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** populate legal formats
- GS2.** maintain various records
- GS3.** compose e-mails, letters, and other official documents
- GS4.** read and understand statutory documents
- GS5.** read reports related to own business
- GS6.** read and understand financial reports
- GS7.** maintain knowledge on the evolving trends and latest developments in agri-residue (biomass) management and storage in India
- GS8.** discuss tasks, schedules, and other aspects of business operations with supervisors and other employees
- GS9.** work expectations, targets, policies, and processes
- GS10.** listen attentively with full attention the queries and grievances raised by employees
- GS11.** follow organization rule-based decision making process
- GS12.** take decision with systematic course of actions and/or response
- GS13.** delegate tasks to relevant supervisors depending on desired operation
- GS14.** plan realistic goals for employees to achieve production and sales targets
- GS15.** plan, organize, and mobilize team to work towards achieving organizational goals
- GS16.** coordinate with multidisciplinary stakeholders
- GS17.** break the problem into smaller issues and tasks to arrive at a solution

Qualification Pack

- GS18.** make use of experience to find solutions to problems
- GS19.** use basic analytical tools to devise solutions to problems encountered
- GS20.** use reasoning skills to identify and resolve problems
- GS21.** make judgements on day to day basis on situations pertaining to various aspects of business

NSQC Clearance Date	08/05/2025

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
