SGSU/ESS/Q0101: Junior Supervisor - E-waste (Recycling and Resource Recovery)

Brief Job Description

The Junior Supervisor - E-waste (Recycling and Resource Recovery) qualification equips individuals with the skills to supervise daily operations in e-waste recycling facilities. The role focuses on monitoring team activities, ensuring compliance with safety and environmental regulations, supporting workforce training, and maintaining accurate operational records.

Personal Attributes

Attention to detail, Sense of responsibility, Problem-solving attitude, Team-oriented and dependable, Safety-conscious and disciplined

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [SGSU/ESS/N0101: Plan and organize e-waste recycling operations](#)
2. [SGSU/ESS/N0102: Supervise E-waste Processing and Recycling](#)
3. [SGSU/ESS/N0103: Support Workforce Training and Awareness](#)
4. [SGSU/ESS/N0104: Assist in managing data, reports and budgets](#)
5. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

SGSU/ESS/N0101: Plan and organize e-waste recycling operations

Description

Oversees the planning, coordination, and organization of e-waste collection, segregation, dismantling, and recycling activities to ensure safe, efficient, and environmentally compliant resource recovery operations.

Scope

The scope covers the following :

- Assessing and planning resource requirements
- Ensuring compliance with e-waste regulations
- Organising workspace and materials

Elements and Performance Criteria

Assessing and planning resource requirements

To be competent, the user/individual on the job must be able to:

- PC1.** Inspect and classify incoming e-waste by type (e.g., plastics, metals, hazardous components) for operational planning.
- PC2.** Evaluate the weight and volume of each e-waste category to determine processing priorities.
- PC3.** Identify the manpower and resource needs for daily operations, including dismantling, segregation, and recovery tasks.
- PC4.** Prepare checklists for required tools and equipment based on the types and quantities of e-waste.
- PC5.** Organize and document daily workflows and assign tasks to team members.
- PC6.** Assist in preparing contingency plans for potential bottlenecks or resource shortages.
- PC7.** Plan and coordinate the collection, transportation, and storage of e-waste, ensuring adherence to safety and environmental standards as per the E-Waste (Management) Rules, 2022.

Ensuring compliance with e-waste regulations

To be competent, the user/individual on the job must be able to:

- PC8.** Monitor team adherence to e-waste handling protocols during daily operations.
- PC9.** Verify that storage areas and workspaces meet safety and regulatory requirements.
- PC10.** Maintain records of licenses, permits, and certifications, ensuring availability for internal reviews and audits.
- PC11.** Report violations of safety or regulatory standards to the concerned authority for corrective action.
- PC12.** Demonstrate an understanding of key provisions under the E-Waste (Management) Rules, 2022, and other relevant Acts to guide team operations and ensure adherence to regulatory requirements.

Organising workspace and materials

To be competent, the user/individual on the job must be able to:

- PC13.** Designate and label bins and containers for hazardous and non-hazardous materials.

Qualification Pack

- PC14.** Perform routine checks to ensure tools, safety kits, PPE, and materials are properly maintained and available.
- PC15.** Ensure workspace layout adheres to company and regulatory safety standards.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Knowledge of e-waste categories, materials types, hazardous components, and CPCB's clarification norms for effective sorting, segregation, and operational planning.
- KU2.** Understanding of the E-Waste (Management) Rules, 2022, including compliance requirements, safety protocols, storage standards, and documentation obligations for authorised facilities.
- KU3.** Knowledge of resource planning principles, including assessing manpower needs, estimating weight/volume of incoming e-waste, and preparing tool/equipment checklists for daily operations.
- KU4.** Understanding of workflow organisation and task allocation methods, including maintaining records, preparing contingency plans, and ensuring smooth operational flow.
- KU5.** Knowledge of safety standards and workspace management practices, including proper labelling, PPE requirements, hazard identification, and maintenance of approved storage areas.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communication skills to coordinate with team members, report issues, and document daily operational activities clearly.
- GS2.** Numerical and analytical skills to measure weight/volume of e-waste, interpret checklists, and understand resource requirements.
- GS3.** Basic digital literacy to update records, use inventory tools, and access regulatory or operational information as required.

SGSU/ESS/N0102: Supervise E-waste Processing and Recycling

Description

Oversee dismantling, segregation, and material recovery operations to ensure safe, efficient, and compliant e-waste recycling processes.

Scope

The scope covers the following :

- Overseeing recycling processes
- Managing hazardous waste handling
- Ensuring safety and quality standards

Elements and Performance Criteria

Overseeing recycling processes

To be competent, the user/individual on the job must be able to:

- PC1.** Supervise dismantling and segregation activities to ensure adherence to quality and safety standards.
- PC2.** Monitor the operation of tools and equipment to identify and report malfunctions.
- PC3.** Track and document material recovery rates, reporting anomalies to the concerned authority
- PC4.** Guide team members in handling complex or unusual waste components.

Managing hazardous waste handling

To be competent, the user/individual on the job must be able to:

- PC5.** Identify hazardous materials, such as batteries and CRTs, during sorting and segregation.
- PC6.** Ensure proper labelling, containment, and storage of hazardous materials to prevent contamination.
- PC7.** Record quantities and types of hazardous waste for disposal and submit reports to the concerned authority.

Ensuring safety and quality standards

To be competent, the user/individual on the job must be able to:

- PC8.** Conduct pre-shift briefings to reinforce safety protocols.
- PC9.** Inspect workspaces regularly for adherence to safety and quality guidelines.
- PC10.** Address minor safety violations on the spot and escalate serious issues to the concerned authority.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Knowledge of e-waste processing and recycling methods, including dismantling, segregation, recovery, and safe material flow practices.

Qualification Pack

- KU2.** Understanding of hazardous waste identification and handling procedures, including labelling, storage, and disposal requirements as per CPCB and MoEFCC guidelines.
- KU3.** Knowledge of safety and environmental standards applicable to e-waste recycling facilities under the E-Waste (Management) Rules, 2022.
- KU4.** Understanding of quality assurance parameters such as recovery efficiency, contamination control, and reporting of deviations.
- KU5.** Knowledge of operational documentation and reporting procedures, including tracking recovery rates, hazardous waste logs, and incident reports.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communication skills to brief teams, document observations, and report issues to supervisors or regulatory authorities.
- GS2.** Observation and analytical skills to monitor processes, identify safety risks, and ensure quality compliance.
- GS3.** Leadership and coordination skills to guide team members during recycling and hazardous waste handling operations.
- GS4.** Basic digital and record-keeping skills to maintain logs and update data in reporting systems or software.

SGSU/ESS/N0103: Support Workforce Training and Awareness

Description

Assist in organising training sessions and promoting environmental awareness among workers to enhance safety, skill, and sustainability practices.

Scope

The scope covers the following :

- Assisting in workforce training
- Promoting environmental awareness

Elements and Performance Criteria

Assisting in workforce training

To be competent, the user/individual on the job must be able to:

- PC1.** Facilitate training logistics, such as setting up equipment and distributing training materials.
- PC2.** Support trainers by assisting participants during practical demonstrations.
- PC3.** Monitor team members' performance during and after training, providing constructive feedback to the trainers and management
- PC4.** Maintain attendance records for training sessions and report team performance improvements.

Promoting environmental awareness

To be competent, the user/individual on the job must be able to:

- PC5.** Distribute awareness materials on the environmental impact of improper e-waste disposal.
- PC6.** Organize team discussions to identify sustainable practices and areas for improvement.
- PC7.** Report team suggestions for process improvements to the management for review.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Knowledge of workforce training methods and procedures, including preparation, facilitation, and post-training evaluation.
- KU2.** Understanding of communication and feedback techniques for effectively supporting trainers and engaging participants.
- KU3.** Knowledge of environmental sustainability principles related to e-waste recycling and resource recovery.
- KU4.** Understanding of documentation and reporting protocols for maintaining attendance, performance, and feedback records.
- KU5.** Knowledge of awareness-building approaches such as group discussions, demonstrations, and dissemination of educational materials.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Interpersonal and communication skills to coordinate with trainers, participants, and management effectively.
- GS2.** Organisational skills to manage training logistics, materials, and schedules efficiently.
- GS3.** Observation and feedback skills to monitor participant performance and provide meaningful inputs.
- GS4.** Team collaboration skills to encourage active participation and promote sustainable workplace practices.

SGSU/ESS/N0104: Assist in managing data, reports and budgets

Description

Maintain operational records, track expenses, and support budgeting activities to ensure transparency, cost efficiency, and regulatory compliance in e-waste management.

Scope

The scope covers the following :

- Maintaining accurate records
- Supporting in budget and expenditure tracking

Elements and Performance Criteria

Maintaining accurate records

To be competent, the user/individual on the job must be able to:

- PC1.** Log daily e-waste inputs and outputs, categorized by type.
- PC2.** Record quantities of hazardous and non-hazardous materials processed and stored.
- PC3.** Maintain logs of tool usage, maintenance schedules, and inventory levels.
- PC4.** Ensure records are secure and accessible for audits and internal reviews.

Supporting in budget and expenditure tracking

To be competent, the user/individual on the job must be able to:

- PC5.** Track daily operational expenses, such as fuel, consumables, and equipment usage.
- PC6.** Identify cost overruns or inefficiencies and report them to the concerned authority
- PC7.** Suggest cost-saving measures for routine activities without compromising safety or quality

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Knowledge of record-keeping systems and documentation procedures used for tracking e-waste inflow, outflow, and storage.
- KU2.** Understanding of data entry and reporting formats required for audits, internal reviews, and regulatory compliance.
- KU3.** Knowledge of basic budgeting principles, including expense categorisation, cost tracking, and variance reporting.
- KU4.** Understanding of financial control measures to identify inefficiencies, wastage, or cost overruns in daily operations.
- KU5.** Knowledge of digital tools or spreadsheet applications used for maintaining logs, expense reports, and inventory data.

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** Numerical and analytical skills to record, track, and verify data related to materials, costs, and resource use.
- GS2.** Communication skills to prepare and share reports accurately with supervisors or auditors.
- GS3.** Basic computer literacy to manage records using spreadsheets or data management software.
- GS4.** Attention to detail and organisational skills to maintain accurate, up-to-date documentation for operational transparency.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Awarding Body (AB). Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. AB will also lay down a proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on a knowledge bank of questions created by the AB.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training centre (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skills practical for every student at each examination/ training centre based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
National Occupational Standard	NOS define the measurable performance outcomes required from an individual engaged in a particular task. They list down what an individual performing that task should know and also do.
Qualification	A formal outcome of an assessment and validation process which is obtained when a competent body determines that an individual has achieved learning outcomes to given standards
Qualification File	A Qualification File is a template designed to capture necessary information of a Qualification from the perspective of NSQF compliance. The Qualification File will be normally submitted by the awarding body for the qualification.
Sector	A grouping of professional activities on the basis of their main economic function, product, service or technology.
