### SPF/N8101: Assist in Production of Sports Goods

#### Description

This unit is about preparing equipment and materials for production of sports goods.

#### Scope

The scope covers the following :

- Assist in preparing for the production of sports goods
- Handle production materials
- Assist with equipment handling

#### Elements and Performance Criteria

##### *Assist in preparing for the production of sports goods*

To be competent, the user/individual on the job must be able to:

- PC1.** identify the work order and is able to meet the timelines as specified by the supervisor
- PC2.** prioritizes and schedules the work in the most efficient order for the day, accounting for inventory, maintenance schedules, etc.
- PC3.** help with machine setup by ensuring that materials and tools are correct, available, and ready to use.
- PC4.** load materials and/or removes product to prevent bottlenecks from forming.
- PC5.** assist in the monitoring of production equipment, under direction, to ensure machine operation is within acceptable limits.
- PC6.** provide relevant information (e.g., inventory levels, production numbers, build records, etc.) in order to enable decision- makers to have reliable information for review.

##### *Handle production materials*

To be competent, the user/individual on the job must be able to:

- PC7.** ensure self and others use appropriate lifting and handling techniques according to Occupational Health and Safety (OHS) standards and SOPs
- PC8.** assess safest and most efficient way to move materials to appropriate destination(s)
- PC9.** select appropriate equipment to aid in material handling, as required.
- PC10.** ensure the availability of the material to run the order
- PC11.** follow quality processes to identify nonconforming materials
- PC12.** mix ingredients, according to procedure
- PC13.** load and unloads processing equipment or conveyance used to receive raw materials or to ship finished products

##### *Assist with equipment handling*

To be competent, the user/individual on the job must be able to:

- PC14.** clean and lubricates equipment
- PC15.** replace damaged or worn equipment parts

## Qualification Pack

- PC16.** turn valves to regulate flow of liquids or air, to reverse machine, to start pump, and to regulate equipment
- PC17.** mark or tags identification on parts
- PC18.** place or position equipment or partially assembled product for further processing, manually, or using hoist
- PC19.** adjust machine settings to complete tasks accurately according to specifications and in a timely fashion
- PC20.** perform pre-operation activities on one or more pieces of equipment to ensure proper start-up and operation
- PC21.** follow appropriate procedures for changing over the machine to prepare for next order
- PC22.** check output quality to ensure it is as per the instruction
- PC23.** clean machine and ensures that it is in safe and proper working order for the next shift

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** various communication styles
- KU2.** various manufacturing environments
- KU3.** organizational document and quality systems structure
- KU4.** Inventory control
- KU5.** how to operate industrial vehicles
- KU6.** manual handling techniques
- KU7.** safe work practices and procedures
- KU8.** reducing, reusing, recycling, and storing work materials
- KU9.** waste disposal according to green practices

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and understand all usage and safety manuals
- GS2.** communicate in a clear and polite manner
- GS3.** comprehend instructions
- GS4.** instruct users with clear and easy to understand instructions
- GS5.** communicate effectively with senior citizens and young children to maintain safety
- GS6.** assess tools and equipment conditions

### SPF/N8102: Maintain Waste and Scrap Control

#### Description

This unit is about performing cutting operations using hand and machine.

#### Scope

The scope covers the following :

- Handle waste and recyclable materials
- Follow safe housekeeping practices
- Work effectively with others

#### Elements and Performance Criteria

##### *Handle waste and recyclable materials*

To be competent, the user/individual on the job must be able to:

- PC1.** report of materials ordered, materials used, and waste/scrap generated in order to ultimately reduce waste/scrap
- PC2.** categorizes waste according to SOPs and determines if waste is hazardous and/or regulated by legislation to ensure compliance
- PC3.** store the waste according to the waste characteristics and storage requirements
- PC4.** ensure all hazardous waste is labelled, stored, and/or sent to the correct location as per internal and external requirements to minimize harm to people and the environment
- PC5.** keep records to provide evidence that the waste is stored according to all requirements
- PC6.** remove product, machine attachments, and waste material from machine
- PC7.** identify recyclable and non-recyclable, and hazardous waste generated
- PC8.** segregate waste into different categories
- PC9.** dispose non-recyclable waste appropriately
- PC10.** deposit recyclable and reusable material at identified location
- PC11.** follow processes specified for disposal of hazardous waste

##### *Follow safe housekeeping practices*

To be competent, the user/individual on the job must be able to:

- PC12.** practice good housekeeping in own area to reduce risk of injury to self and others.
- PC13.** use lockout/tag-out procedures when repairing/servicing tools and equipment.
- PC14.** ensures self and others use personal protective equipment (e.g., face masks, gloves, safety glasses, steel-toed boots, hearing protection, etc.).
- PC15.** inspect tools, materials, equipment, and machines prior to use for visible defects and informs appropriate personnel if damage found
- PC16.** report health and safety hazards, injuries, or concerns, including any unsafe machine practices, damaged equipment, and workplace harassment to supervisors.

##### *Work effectively with others*

To be competent, the user/individual on the job must be able to:

## Qualification Pack

- PC17.** interact (verbal, non-verbal and written) in a gender, disability, and culturally sensitive manner
- PC18.** promote a safe and interactive environment
- PC19.** identify and report inappropriate behaviour (e.g. sexual harassment) to appropriate authority

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** legislation relevant to the workplace
- KU2.** accident and emergency procedures as per company policy
- KU3.** organization's safety training requirements
- KU4.** safe bending, carrying, and lifting procedures
- KU5.** safe use, storage, and handling of tools, machines, and grounding procedures
- KU6.** proper disposal and storage procedures
- KU7.** SOPs for the machine(s) and Safe Work Procedures (SWP)
- KU8.** emergency response skills appropriate to the location and personal health care
- KU9.** importance of gender and its related concepts such as gender roles, gender equality, gender power relations etc.
- KU10.** POSH (Prevention of Sexual Harassment) Act

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** monitor client behaviour and activities
- GS2.** complete statutory documents relevant to safety and hygiene
- GS3.** read Standard Operating Practices (SOP) documents
- GS4.** communicate with colleagues on the significance of greening of jobs
- GS5.** make timely decisions for efficient utilization of resources
- GS6.** complete tasks efficiently and accurately within stipulated time
- GS7.** work with supervisors/team members to carry out work related tasks
- GS8.** identify cause and effect of greening of jobs

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                                                                         | Theory Marks | Practical Marks | Project Marks | Viva Marks |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-----------------|---------------|------------|
| <i>Handle waste and recyclable materials</i>                                                                                                                                             | <b>22</b>    | <b>45</b>       | -             | -          |
| <b>PC1.</b> report of materials ordered, materials used, and waste/scrap generated in order to ultimately reduce waste/scrap                                                             | 2            | 4               | -             | -          |
| <b>PC2.</b> categorizes waste according to SOPs and determines if waste is hazardous and/or regulated by legislation to ensure compliance                                                | 2            | 4               | -             | -          |
| <b>PC3.</b> store the waste according to the waste characteristics and storage requirements                                                                                              | 2            | 4               | -             | -          |
| <b>PC4.</b> ensure all hazardous waste is labelled, stored, and/or sent to the correct location as per internal and external requirements to minimize harm to people and the environment | 2            | 4               | -             | -          |
| <b>PC5.</b> keep records to provide evidence that the waste is stored according to all requirements                                                                                      | 2            | 5               | -             | -          |
| <b>PC6.</b> remove product, machine attachments, and waste material from machine                                                                                                         | 2            | 4               | -             | -          |
| <b>PC7.</b> identify recyclable and non-recyclable, and hazardous waste generated                                                                                                        | 2            | 4               | -             | -          |
| <b>PC8.</b> segregate waste into different categories                                                                                                                                    | 2            | 4               | -             | -          |
| <b>PC9.</b> dispose non-recyclable waste appropriately                                                                                                                                   | 2            | 4               | -             | -          |
| <b>PC10.</b> deposit recyclable and reusable material at identified location                                                                                                             | 2            | 4               | -             | -          |
| <b>PC11.</b> follow processes specified for disposal of hazardous waste                                                                                                                  | 2            | 4               | -             | -          |
| <i>Follow safe housekeeping practices</i>                                                                                                                                                | <b>5</b>     | <b>10</b>       | -             | -          |
| <b>PC12.</b> practice good housekeeping in own area to reduce risk of injury to self and others.                                                                                         | 1            | 2               | -             | -          |
| <b>PC13.</b> use lockout/tag-out procedures when repairing/servicing tools and equipment.                                                                                                | 1            | 2               | -             | -          |

### Qualification Pack

| Assessment Criteria for Outcomes                                                                                                                                          | Theory Marks | Practical Marks | Project Marks | Viva Marks |

## Qualification Pack

### SPF/N1169: Improve workplace resource usage

#### Description

This unit is about increasing efficiencies and maximizing the use of materials, particularly resources, energy, and trash, in workplace operations.

#### Scope

The scope covers the following :

- conservation procedures for materials
- power conservation methods
- waste management/recycling procedures

#### Elements and Performance Criteria

##### *conservation procedures for materials*

To be competent, the user/individual on the job must be able to:

- PC1.** determine ways to optimize usage of material including water in various tasks/activities/processes
- PC2.** examine various tasks/activities/processes for spills/leaks
- PC3.** eliminate spills/leaks and escalate to appropriate authorities if they cannot be corrected
- PC4.** conduct routine cleaning of tools, machines, and equipment

##### *power conservation practices*

To be competent, the user/individual on the job must be able to:

- PC5.** determine ways to optimize usage of electricity/energy in various tasks/activities/processes
- PC6.** ensure if the equipment/machine is functioning normally before commencing work and rectify wherever required
- PC7.** report equipment malfunctions (fumes/sparks/emission/vibration/noise) and lapses in maintenance
- PC8.** ensure that all electrical equipment and appliances are correctly connected and turned off when not in use

##### *waste management/recycling procedures*

To be competent, the user/individual on the job must be able to:

- PC9.** determine recyclable and non-recyclable, and hazardous waste generated
- PC10.** separate waste into different categories
- PC11.** discard non-recyclable waste appropriately
- PC12.** store recyclable and reusable materials in a designated spot

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

## Qualification Pack

- KU1.** potential hazards, risks and threats based on the nature of work
- KU2.** layout of the workstation and electrical and thermal equipment used
- KU3.** organizations' procedures for minimizing waste
- KU4.** efficient and inefficient utilization of material and water
- KU5.** ways of efficiently managing material and water in the process
- KU6.** basics of electricity and prevalent energy efficient devices
- KU7.** ways to recognize common electrical problems
- KU8.** common practices of conserving electricity
- KU9.** usage of different colours of dustbins
- KU10.** categorization of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU11.** waste management and methods of waste disposal
- KU12.** common sources of pollution and ways to minimize it

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** record data on waste disposal at workplace
- GS2.** complete statutory documents relevant to safety and hygiene
- GS3.** read Standard Operating Practices (SOP) documents
- GS4.** communicate with colleagues on the significance of greening of jobs
- GS5.** make timely decisions for efficient utilization of resources
- GS6.** complete tasks efficiently and accurately within stipulated time
- GS7.** work with supervisors/team members to carry out work related tasks
- GS8.** identify cause and effect of greening of jobs

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                         | Theory Marks | Practical Marks | Project Marks | Viva Marks |

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 50% of aggregate marks to successfully clear the assessment.

## Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

**Minimum Aggregate Passing % at QP Level : 50**

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

## Assessment Weightage

Compulsory NOS

| National Occupational Standards                | Theory Marks | Practical Marks | Project Marks | Viva Marks | Total Marks | Weightage  |
|------------------------------------------------|--------------|-----------------|---------------|------------|-------------|------------|
| SPF/N8101.Assist in Production of Sports Goods | 50           | 100             | 0             | 0          | 150         | 43         |

|                                              |                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                                                                                               |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
