SSC/Q0905: Analyst Endpoint Security

Brief Job Description

The Endpoint Security Analyst is responsible for implementing and managing security measures for an organization's endpoint devices and data. This role involves installing and configuring endpoint security tools, monitoring security incidents, and enforcing security policies to ensure compliance with regulations. Key responsibilities include conducting audits of cloud environments, leveraging IT analytics for security reports, and utilizing AI-driven tools for anomaly detection. The analyst manages mobile devices through Mobile Device Management (MDM) solutions and applies data encryption strategies to protect sensitive information. Additionally, the analyst troubleshoots security issues, implements automated responses to incidents, and collaborates with cross-functional teams to communicate findings and recommend improvements. Overall, the Endpoint Security Analyst plays a vital role in identifying vulnerabilities and enhancing the organization's cybersecurity posture.

Personal Attributes

This job may require the individual to work independently and take decisions for his/her own area of work. The individual should be result oriented and have a high attention for detail. The individual should also be able to demonstrate communication skills, logical thinking along with willingness to undertake desk-based job and work in shifts.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [SSC/N0912: Conduct the end-point security monitoring & response](#)
2. [SSC/N0913: Carryout the Endpoint Security Management and Policy Enforcement](#)
3. [SSC/N0965: Carryout the Installation and Infrastructure Support for Endpoint Security](#)
4. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

SSC/N0912: Conduct the end-point security monitoring & response

Description

This NOS focuses on the essential functions an Endpoint Security Analyst must perform to ensure robust monitoring and response capabilities

Scope

The scope covers the following :

- Conduct the Endpoint Security Monitoring and Response

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Verify the scope of endpoint assets and components to be monitored with authorized persons
- PC2.** Participate in security operations center shift schedules
- PC3.** Verify that endpoint security clients are online and functional
- PC4.** Obtain reports and notifications from endpoint security tools and respond per laid-out processes
- PC5.** Use reports and logs to identify security problems and monitor status and security events
- PC6.** Interpret the results of reports and determine priorities and actions to remediate situations
- PC7.** Respond to endpoint security client messages and apply solutions accordingly
- PC8.** Monitor and troubleshoot an endpoint security environment, its security management tools, and client content delivery
- PC9.** Monitor and troubleshoot protection and communication technologies using basic troubleshooting and other monitoring tools
- PC10.** Troubleshoot and remediate virus outbreaks or client installation failures.
- PC11.** Use AI for anomaly detection to identify unusual patterns indicative of potential threats.
- PC12.** Implement automated responses to neutralize threats in real-time
- PC13.** Integrate threat intelligence feeds to enhance monitoring capabilities and proactively address emerging threats

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Organization policies, procedures, standards and guidelines for managing information security
- KU2.** Organization knowledge base and how to access and update this
- KU3.** limits of your role and responsibilities and who to seek guidance from
- KU4.** Organizational systems, procedures and tasks/checklists within the domain and how to use these

Qualification Pack

KU5. How to engage with both internal and external specialists for support in order to resolve incidents and service requests

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to analyze data and incident reports to identify patterns, anomalies, and potential security threats.
- GS2.** Proficiency in diagnosing security issues and implementing effective solutions under pressure.
- GS3.** Keen observation to detect subtle security vulnerabilities and monitor systems for unusual behavior.
- GS4.** Strong verbal and written communication skills to articulate technical issues and collaborate with team members and stakeholders.
- GS5.** Ability to work effectively within a team to achieve security objectives and share knowledge.

Qualification Pack

SSC/N0913: Carryout the Endpoint Security Management and Policy Enforcement

Description

This NOS focus on Endpoint Security management and policy enforcement

Scope

The scope covers the following :

- Installation of endpoint security measures

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Enable debugging and gather logs for technical support use
- PC2.** Upgrade and maintain the endpoint security environment and clients
- PC3.** Manage and apply policies such as antivirus, spyware protection, firewall, and intrusion prevention.
- PC4.** Use IT analytics to generate comprehensive reports from Endpoint Protection
- PC5.** Ensure compliance with relevant legislation, standards, policies, and procedures
- PC6.** Work within a zero-trust architecture, ensuring all access is authenticated and authorized
- PC7.** Implement micro-segmentation to minimize lateral movement in case of a breach.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Organization policies, procedures, standards, guidelines and service level agreements for responding to information security incidents
- KU2.** Organizations knowledge base and how to access and update this
- KU3.** Limits of your role and responsibilities and who to seek guidance from
- KU4.** How to engage with both internal and external specialists for support in order to resolve incidents and service requests
- KU5.** Service request procedures, tools, and techniques

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to assess security threats and evaluate risks critically, making informed decisions about policy adjustments.
- GS2.** Precision in reviewing policies, configurations, and security logs to identify potential vulnerabilities or compliance issues.

Qualification Pack

- GS3.** Strong verbal and written skills to convey complex security concepts and policies clearly to stakeholders at all levels.
- GS4.** Capacity to troubleshoot issues related to policy enforcement and implement effective solutions swiftly.
- GS5.** Flexibility to adjust to evolving security landscapes and new technologies affecting endpoint management.

SSC/N0965: Carryout the Installation and Infrastructure Support for Endpoint Security

Description

This Nos is about carrying out the activities related to Installation and Infrastructure Support for Endpoint Security

Scope

The scope covers the following :

- This Nos is about carrying out the activities related to Installation and Infrastructure Support for Endpoint Security

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Receive instructions for the installation of endpoint security tools
- PC2.** Create a database containing settings, privileges, events, and security policies
- PC3.** Configure clients for automatic updates and virus definition updates.
- PC4.** Use Mobile Device Management (MDM) solutions for securing all mobile endpoints
- PC5.** Employ data encryption strategies to protect sensitive information at rest and in transit.
- PC6.** Integrate endpoint security tools with cloud services to enhance visibility and protection.
- PC7.** Conduct audits of cloud environments to ensure robust endpoint protection.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Organizations policies, procedures, standards, guidelines and service level agreements for responding to information security incidents

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
