## Qualification Pack

### SSC/Q2202: Customer Care Sr. Executive (Voice and Non- Voice)

#### Brief Job Description

The individual in this job role is responsible for collecting payments over the phone, chat, or email and converting customer inquiries into sales. They make outbound tele sales calls to promote products or services and close deals. Additionally, they handle customer queries remotely, ensuring a high level of customer satisfaction. This role requires excellent communication skills and the ability to manage customer interactions effectively to drive sales and payment collection.

#### Personal Attributes

This job requires the individual to work independently and interact with customers. The individual should be result oriented and should also be able to demonstrate logical thinking and interpersonal skills and should have good typing speed.

#### Applicable National Occupational Standards (NOS)

##### Compulsory NOS:

1. [SSC/N2308: Collect payments over the telephone](#)
2. [SSC/N3001: Convert customer enquiries into sales](#)
3. [SSC/N3002: Make outbound telesales calls](#)
4. [SSC/N3003: Deal remotely with customer queries](#)
5. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

### SSC/N2308: Collect payments over the telephone

#### Description

This unit is about collecting payments from customers over the telephone.

#### Scope

The scope covers the following :

- Set standards for payment collection
- Interact with appropriate people like colleagues at the IT helpdesk, members of financial team, line manager, etc.

#### Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** contact customers as per the operational procedure
- PC2.** verify customer account details and outstanding balances before initiating a payment call
- PC3.** introduce yourself and explain the purpose of the call following appropriate verbiage/script throughout the interaction
- PC4.** use AI-powered tools / platforms to automate verification process
- PC5.** inform customers of the payment amount due, including any late fees or discounts, if applicable
- PC6.** explain the available payment options clearly (e.g., credit card, debit card, net banking, digital wallets)
- PC7.** negotiate payment terms with customers following standard verbiage/script
- PC8.** confirm with customers their commitment to make the payment
- PC9.** assist the customer in completing the payment process through a secure and authorised channel and confirm the transaction details
- PC10.** refer the issues outside the area of competence and authority to team leader/line managers, following the operational procedures
- PC11.** update payment records in the system immediately after receiving the payment confirmation
- PC12.** document the call summary, including payment status and next steps, if any
- PC13.** ensure all information shared with customers regarding banking products and services is accurate and up-to-date
- PC14.** follow-up on incomplete payments within a specified timeframe
- PC15.** handle payment-related inquiries and concerns professionally and courteously
- PC16.** maintain strict confidentiality when handling sensitive customer information and banking details

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

## Qualification Pack

- KU1.** organizational procedures and protocols for initiating and handling payment-related calls.
- KU2.** types of customer data and account information required to verify identity and outstanding balances
- KU3.** standard scripts/verbiage and communication etiquette used in tele-calling for payments.
- KU4.** functionalities and features of AI-powered tools and platforms used for verification and record updating
- KU5.** various payment modes available and the procedures for guiding customers through each of them.
- KU6.** guidelines and boundaries for negotiating payment terms and when to escalate issues
- KU7.** importance of accuracy and clarity in recording call summaries, payment updates, and customer commitments.
- KU8.** legal and organizational policies related to data confidentiality, privacy, and secure payment handling.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate clearly and empathetically while handling customer queries and concerns over the phone.
- GS2.** listen actively and interpret customer responses to ensure effective negotiation and resolution.
- GS3.** use technology tools and CRM platforms efficiently for data retrieval, payment processing, and documentation
- GS4.** apply problem-solving skills to address incomplete payments or discrepancies in account information
- GS5.** manage time and follow-up schedules effectively to ensure timely collection and customer satisfaction.
- GS6.** demonstrate professional integrity and discretion when dealing with sensitive financial and personal information

### SSC/N3001: Convert customer enquiries into sales

#### Description

This unit is about using opportunities provided by inbound telephone calls to sell products/services to customers. It includes up-selling and cross-selling also.

#### Scope

The scope covers the following :

- Handle telephone calls from existing and prospective customers
- Interact with appropriate people like colleagues, members of sales team, financial team, line manager, etc.

#### Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** use information provided by customers or accessed from the customer relationship management (CRM) system to understand customer needs and preferences
- PC2.** provide accurate information on products/services that meet customer requirements
- PC3.** deliver convincing sales pitches to customers adhering to the standard scripts
- PC4.** highlight any current promotions, discounts, or benefits related to the product/service
- PC5.** address customer questions or objections with persuasive responses and rebuttals
- PC6.** identify customer needs and preferences to suggest relevant up-sells or cross-sells
- PC7.** use a CRM platform to access customer history, preferences, and purchase history to provide tailored solutions and upsell relevant products
- PC8.** guide the customer through the purchasing process smoothly by obtaining and confirming the necessary information to complete the sale
- PC9.** actively promote telecom plans, packages, and value-added services to meet customer needs and increase service adoption
- PC10.** follow up with customers after the initial enquiry to encourage conversion
- PC11.** record details of the enquiry, including customer requirements and sale status, in the CRM
- PC12.** consistently meet or exceed daily, weekly, and monthly sales targets

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizational sales processes, including lead handling, sales pitching, conversion, and closure protocols.
- KU2.** range of products and services offered, along with their features, benefits, terms, and applicable eligibility criteria.
- KU3.** importance of using CRM systems to access and interpret customer data, history, and preferences.

## Qualification Pack

- KU4.** use of sales scripts and standard verbiage to maintain consistency and regulatory compliance in customer interactions.
- KU5.** strategies for identifying customer needs and aligning them with appropriate up-sell and cross-sell opportunities.
- KU6.** methods for delivering persuasive rebuttals and handling objections effectively without pressuring the customer
- KU7.** promotional schemes, offers, and seasonal discounts applicable to various products/services.
- KU8.** company performance targets, key performance indicators (KPIs), and reporting norms for sales conversions.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate persuasively and confidently while maintaining clarity, politeness, and customer orientation.
- GS2.** actively listen to customer queries to identify latent needs and tailor solutions accordingly
- GS3.** manage time efficiently to balance inbound/outbound calls and follow-ups to meet daily sales targets.
- GS4.** analyze customer behaviour patterns and past interactions to suggest relevant telecom solutions
- GS5.** maintain self-motivation and resilience in high-pressure, target-driven environments.

### SSC/N3003: Deal remotely with customer queries

#### Description

This unit is about dealing with queries received from customers by telephone, e-mail or chat.

#### Scope

The scope covers the following :

- Receive queries from the customers through emails/ chats
- Interact with people like line managers, peers, etc.

#### Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** acknowledge and respond promptly to customer queries received through various channels (e.g., phone, email, chat)
- PC2.** identify the customer's issue and gather relevant information
- PC3.** translate customer messages into preferred languages using AI tools.
- PC4.** apologise for any inconvenience and assure customers of timely resolution
- PC5.** use email management software to categorize incoming emails and chats
- PC6.** leverage AI-powered platforms to handle routine inquiries
- PC7.** escalate complex issues to the appropriate department or team leader/line managers if needed
- PC8.** document each interaction, including the query/complaint, resolution steps, and outcome, in the CRM using appropriate call disposition/tagging
- PC9.** ensure clarity and consistency in all communication, avoiding jargon or unclear terms
- PC10.** prioritise urgent or high-impact queries and manage response times (TAT)
- PC11.** resolve tickets within the CRM in compliance with defined workflows, providing clear and actionable resolutions to customers
- PC12.** aim to resolve most queries within the first point of contact, where possible
- PC13.** gather feedback on the customer's experience post-resolution
- PC14.** provide instant, accurate and comprehensive responses/solutions to the customer's query by accessing a centralized AI-driven knowledge base
- PC15.** follow the escalation matrix promptly to escalate unresolved issues to the appropriate level without delay
- PC16.** follow all relevant operational standards, policies, procedures, and guidelines when handling customer queries
- PC17.** demonstrate a thorough understanding of telecom products and services to effectively address customer inquiries and concerns
- PC18.** automate email responses to common inquiries with AI-generated templates
- PC19.** stay updated on the latest information and resources within the knowledge base

## Qualification Pack

**PC20.** use a cloud-based call center platform to handle customer inquiries, troubleshoot issues, and upsell services, even when working from home

### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizations standard operating procedures (SOPs), service-level agreements (SLAs), and escalation protocols for handling customer queries
- KU2.** functions and navigation of cloud-based call center platforms, CRM systems, and omnichannel customer support tools.
- KU3.** structure and use of AI-powered tools and centralized knowledge bases to support query resolution
- KU4.** principles of effective written and verbal communication, including clarity, tone, language appropriateness, and active listening
- KU5.** methods to categorize, tag, and document queries and resolutions using CRM software.
- KU6.** telecom products, services, features, and common customer issues related to them
- KU7.** significance of data privacy, cybersecurity, and customer confidentiality in remote query handling

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate empathetically and professionally across channels like email, phone, and chat
- GS2.** analyze customer messages to identify core issues and provide relevant solutions.
- GS3.** prioritize and manage multiple queries efficiently to meet turnaround time (TAT) targets
- GS4.** document interactions clearly, concisely, and accurately in CRM or ticketing platforms.
- GS5.** maintain self-discipline, focus, and service quality while working in a remote environment

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

The assessment shall be conducted through an online proctored format, incorporating scenario-based multiple-choice questions designed to effectively evaluate practical understanding and real-world application of concepts. Additionally, it will include a viva-voce and hands-on practical evaluation to comprehensively assess the individual's proficiency in specific learning outcomes.

### Minimum Aggregate Passing % at QP Level : 70

**(Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

### Glossary

|                                              |                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                                                                                               |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
| <b>Helpdesk</b>                         | Helpdesk is an entity to which the customers will report their IT problems. IT Service Helpdesk Attendant is responsible for managing the helpdesk.                                                                                                                                                                                                                    |
