SSC/N2201: Build and maintain positive relationship with customer

Description

This unit focuses on the skills required for a IT Customer Care Executive to build and maintain positive relationships with customers, ensuring high-quality service and customer satisfaction. It emphasizes creating a rapport, understanding customer needs, and providing consistent and empathetic support across all touchpoints.

Scope

The scope covers the following :

- Establish and Build Customer Rapport
- Provide Consistent and Empathetic Customer Service
- Resolve Customer Complaints and Queries
- Maintain Ongoing Customer Relationships

Elements and Performance Criteria

Establish and Build Customer Rapport

To be competent, the user/individual on the job must be able to:

- PC1.** greet customers warmly, using polite language to establish rapport
- PC2.** actively listen to customers' needs and concerns, displaying understanding and empathy
- PC3.** use clear, professional, and friendly communication to create a welcoming atmosphere
- PC4.** identify customer needs and offer relevant support, information, or solutions

Provide Consistent and Empathetic Customer Service

To be competent, the user/individual on the job must be able to:

- PC5.** maintain a positive tone and attitude throughout all customer interactions
- PC6.** respond promptly and effectively to customer inquiries, ensuring customer satisfaction
- PC7.** recognize and address potential customer issues before they escalate, showing proactive support
- PC8.** demonstrate patience and understanding when dealing with challenging situations or complaints

Resolve Customer Complaints and Queries

To be competent, the user/individual on the job must be able to:

- PC9.** investigate complaints or issues thoroughly, seeking relevant information to resolve them
- PC10.** provide clear, accurate, and timely resolutions to customer problems or concerns
- PC11.** escalate unresolved or complex issues to the appropriate authority while keeping the customer informed
- PC12.** ensure that customers are satisfied with the resolution and follow up when necessary

Maintain Ongoing Customer Relationships

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC13.** engage with customers regularly through follow-up communications, ensuring satisfaction and trust
- PC14.** keep customers informed about relevant updates, changes, or new products/services.
- PC15.** encourage feedback to understand customer satisfaction levels and identify areas for improvement.
- PC16.** use customer feedback to improve service delivery and relationship-building strategies

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the importance of empathy and active listening in building customer relationships
- KU2.** how to communicate effectively with customers using appropriate language and tone
- KU3.** the techniques for de-escalating customer complaints and resolving issues diplomatically.
- KU4.** the organizations products, services, and processes to provide accurate and relevant information
- KU5.** customer feedback methods and the importance of using it for continuous improvement.
- KU7.** best practices for maintaining a positive and professional demeanor in all customer interactions
- KU7.** the impact of good customer relationships on customer retention and business success
- KU8.** the significance of follow-up communication in strengthening customer relationships.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and records
- GS2.** Read the relevant material to stay updated on the latest developments in the field of work
- GS3.** listen attentively to understand the information/ instructions being shared by the speaker
- GS4.** communicate clearly and politely with co-workers and clients
- GS5.** coordinate with co-workers to achieve work objectives
- GS6.** plan and prioritize tasks to ensure timely completion
- GS7.** identify possible disruptions to work and take appropriate preventive measures
- GS8.** take quick decisions to deal with workplace emergencies/ accidents
- GS9.** evaluate all possible solutions to a problem to select the best one

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

SSC/N3020: Make Outbound Calls to Customers

Description

This unit is about making telephone calls to existing and prospective customers concerning the marketing of relevant products/services.

Scope

The scope covers the following :

- Undertake outbound calling
- Log and escalate complains
- Collect customer feedback

Elements and Performance Criteria

Undertake outbound calling

To be competent, the user/individual on the job must be able to:

- PC1.** develop a good understanding of the company's products or services to provide accurate information to customers
- PC2.** establish contact with customers, following the organization's procedures
- PC3.** communicate clearly and professionally with customers using appropriate language and tone
- PC4.** provide an appropriate introduction to the customer and explain the purpose of the call, following standard scripts
- PC5.** listen actively and obtain relevant information from customers to identify their product or service requirements
- PC6.** provide accurate and up-to-date information to customers about relevant products, services, policies, and procedures
- PC7.** handling customer calls to address their queries, objections, and concerns with empathetic tone while adhering to standard scripts.
- PC8.** adapt the approach and style to customer preferences, within the limits of competence and authority
- PC9.** identify and act on opportunities to up-sell or cross-sell other products/services to customers
- PC10.** close sales with confirmation from customers, ensuring they have all the necessary information about the products/services being marketed to them
- PC11.** obtain required financial information from customers, following organizational procedures
- PC12.** complete the organization's post-sales procedures to finalize sales

Manage Customer Interaction

To be competent, the user/individual on the job must be able to:

- PC13.** ensure high-quality customer service in every interaction.
- PC14.** maintain accurate and detailed records concerning customer interactions and transactions
- PC15.** comply with the relevant standards, policies, procedures, and guidelines when making outbound telesales calls.

Qualification Pack

- PC16.** collect customer feedback to identify areas for improvement in products or services.
- PC17.** identify and resolve customer complaints in a timely manner, escalating unresolved issues to the appropriate department
- PC18.** handling calls from furious customers with strong call handling skills, addressing their complaints with empathy, and ensuring timely resolution to maintain customer satisfaction
- PC19.** managing service requests through effective multi-tasking, ensuring all customer needs are met in a timely manner

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** in-depth knowledge about the products or services being marketed to customers
- KU2.** different questioning techniques for identifying customer requirements and how to match products/services to the requirements
- KU3.** the appropriate etiquette for making outbound calls
- KU4.** how to access and update the customer database or Customer Relationship Management (CRM) system
- KU5.** the importance of checking and ensuring the availability of correct information before making outbound calls
- KU6.** the importance of appropriate verbal communication skills for making outbound calls, including clarity of speech, effective use of language, and the ability to articulate information in a way that is easily understood by customers
- KU7.** the importance of listening actively and attentively to customers
- KU8.** how to develop empathy towards customers to build a positive rapport
- KU9.** how to follow scripts, if using scripts during calls
- KU10.** the appropriate strategies to effectively handle customer queries and concerns
- KU11.** the ethical considerations of outbound calling, including compliance with telemarketing regulations, privacy laws, and do-not-call lists
- KU12.** the appropriate practices for efficient time management
- KU13.** the goals of outbound calling, such as lead generation, and sales
- KU14.** the appropriate follow-up procedures, e.g. callbacks and follow-up emails, to build ongoing relationships with customers
- KU15.** different styles and approaches while working with customers and how to adapt approaches and styles to meet customer preferences
- KU16.** the importance of learning from and incorporating customer feedback
- KU17.** how to make sales pitches using standard scripts and tools
- KU18.** the use of relevant CRM tools for recording, completing, and fulfilling sales
- KU19.** how to gather various types of financial information from customers.
- KU20.** different opportunities for up-selling or cross-selling products/services to customers

SSC/N2202: Use Basic Gen AI and BPM Platforms in Voice Customer Services

Description

This unit is about using generative artificial intelligence (Gen AI) and emerging BPM platforms to improve the quality of voice customer services.

Scope

The scope covers the following :

- Use basic generative artificial intelligence (Gen AI)
- Integrate and Manage BPM Platforms

Elements and Performance Criteria

Use basic generative artificial intelligence (Gen AI)

To be competent, the user/individual on the job must be able to:

- PC1.** use basic Gen AI tools, such as chatbots or virtual assistants, to handle routine customer inquiries and provide simple solutions.
- PC2.** apply basic Gen AI language features to assist with understanding customer concerns and responding in different languages
- PC3.** use basic Gen AI tools to identify common customer issues and suggest appropriate responses based on provided guidelines
- PC4.** utilize basic Gen AI features to summarize customer interactions and support basic scripting for consistent communication
- PC5.** follow instructions to use basic Gen AI tools for identifying customers securely and tracking performance data with guidance
- PC6.** follow Gen AI ethical standards to ensure fairness, safeguard privacy, and maintain transparency.

Integrate and Manage BPM Platforms

To be competent, the user/individual on the job must be able to:

- PC7.** use Accounts Payable on Cloud (APOC) to streamline customer-related accounts payable processes when applicable
- PC8.** Use pre-configured features in BPM systems to handle complex, domain-specific customer service requirements
- PC9.** use cloud computing platforms for secure data storage, backup, and processing of customer information
- PC10.** use simple data tracking tools in BPM systems to view and report service metrics and improve decision-making in real time
- PC11.** use ticketing platforms to log and track customer queries, complaints, and service requests in an organized manner.
- PC12.** perform basic data entry and validation tasks using ERP systems integrated with BPM platforms.

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the fundamentals of Gen AI, including machine learning, natural language processing (NLP), and deep learning techniques
- KU2.** how to comprehend machine learning concepts (supervised and unsupervised learning) and how NLP is applied in voice-based applications
- KU3.** how the Gen AI models preprocess and train textual data for voice interactions and integrate voice recognition technologies like Google Cloud Speech-to-Text, Amazon Transcribe, and Microsoft Azure Speech.
- KU4.** the design, implementation, and deployment of chatbots and voice recognition technologies to enhance customer service applications
- KU5.** how to gain proficiency in speech analytics tools, including sentiment analysis and pattern recognition in customer interactions.
- KU6.** how to learn customer service processes, challenges, and how to tailor Gen AI solutions to meet industry-specific needs
- KU7.** the data management practices, including collection, storage, privacy, and legal regulations for using Gen AI in customer service
- KU8.** how to comprehend CRM system integration with Gen AI to optimize customer service workflows and ensure data security and compliance
- KU9.** how to apply user experience design principles to create intuitive and user-friendly voice interfaces.
- KU10.** the role of Gen AI, machine learning, and cloud computing in enhancing BPM platform functionality and scalability
- KU11.** how to leverage data analytics, business intelligence tools, and RPA to optimize BPM operations and improve decision-making
- KU12.** how to implement AI/ML-driven solutions within BPM platforms for domain-specific and complex customer service requirements
- KU13.** how to utilize cloud-based systems, ERP integrations, and ticketing platforms to streamline customer interactions and improve service metrics

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and records
- GS2.** read the relevant material to stay updated on the latest developments in the field of work.
- GS3.** listen attentively to understand the information/ instructions being shared by the speaker
- GS4.** communicate clearly and politely with co-workers and clients

SSC/N3021: Deal remotely with customer queries Domestic Non-Voice

Description

This unit is about dealing with customer queries over email and chat.

Scope

The scope covers the following :

- Provide customer service over email and chat
- Ensure effective written communication
- Assist in improving the quality of service

Elements and Performance Criteria

Provide customer service over email and chat

To be competent, the user/individual on the job must be able to:

- PC1.** greet customers and verify their details, following the organizational procedures, ensuring the security of account-specific information
- PC2.** Understand customer queries by reading messages carefully and asking relevant questions to gather necessary information
- PC3.** Record and categorize queries accurately according to standards for efficient tracking and resolution
- PC4.** empathize with customers, acknowledging their feelings and concerns
- PC5.** analyze customer issues, identify root causes and suggest appropriate solutions providing accurate and up-to-date information on relevant products and services.
- PC6.** use the appropriate support tools, CRM systems, ticketing tools such as Zoho Desk, and knowledge bases to assist customers
- PC7.** guide customers through troubleshooting steps as needed, ensuring clarity and effectiveness in technical support
- PC8.** deliver responses within the defined response time targets
- PC9.** manage multiple chat or email conversations simultaneously while maintaining quality
- PC10.** carry out appropriate documentation concerning customer interactions, as per the organizational processes
- PC11.** comply with the applicable standards, policies, procedures and guidelines when dealing with customer queries
- PC12.** resolve or escalate complaints based on the defined Limits of Authority (LoA) and SLAs, coordinating with relevant departments as necessary
- PC13.** maintain a typing speed of at least 35-40 words per minute with accuracy to manage email and chat communication effectively

Ensure effective written communication

To be competent, the user/individual on the job must be able to:

- PC14.** Communicate clearly and professionally in emails and chats, using correct grammar and spelling.

Qualification Pack

PC15. Use positive language and adapt the tone appropriately to maintain empathy and professionalism in all customer interactions

Assist in improving the quality of service

To be competent, the user/individual on the job must be able to:

PC16. identify the areas of improvement in customer service processes by collecting customer feedback

PC17. share insights and best practices with the team to enhance the quality of service

PC18. Leverage analytics from CRM or ticketing tools like Zoho Desk to identify trends in customer issues

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the quality standards applicable to customer service

KU2. the applicable standards, policies, procedures, guidelines and Service Level Agreements (SLAs)

KU3. the appropriate tools and systems for recording, categorizing, prioritizing and resolving customer queries

KU4. the importance of keeping customers informed about timescales for progress and resolution of queries

KU5. common types of customer queries and how to resolve them

KU6. different styles, approaches and questioning techniques for understanding customer queries

KU7. how to deal with different issues that may affect customer satisfaction

KU8. the features, specifications, and uses of relevant products and/ or services

KU9. the importance of clear, concise, and professional responses in written communication

KU10. how to adapt communication tone and language to match the customer's needs and the company's brand

KU11. the importance of asking appropriate probing questions to gather relevant information

KU12. the appropriate ways to empathize with customers and acknowledge their concerns

KU13. the application of analytical thinking to identify the root causes of customer issues and offer appropriate and effective solutions

KU14. how to prioritize and manage time effectively to respond to customer queries within established timelines

KU15. how to resolve conflicts, handle difficult customer situations and escalate complaints

KU16. how to use the relevant email and chat platforms for customer interactions, including the relevant Customer Relationship Management (CRM) system

KU17. the standard templates and scripts for dealing with customer queries

KU18. the importance of safeguarding customer information

KU19. the importance of Identifying and respecting cultural differences when communicating with customers

KU20. the importance of seeking and incorporating feedback from customers

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and records
- GS2.** read the relevant material to stay updated on the latest developments in the field of work.
- GS3.** listen attentively to understand the information/ instructions being shared by the speaker
- GS4.** communicate clearly and politely with co-workers and clients
- GS5.** coordinate with co-workers to achieve work objectives
- GS6.** plan and prioritize tasks to ensure timely completion
- GS7.** identify possible disruptions to work and take appropriate preventive measures
- GS8.** take quick decisions to deal with workplace emergencies/ accidents
- GS9.** evaluate all possible solutions to a problem to select the best one

SSC/N2203: Usage of basic Gen AI and BPM Platforms in Non-Voice Customer Support

Description

This unit is about applying Basic Gen Artificial Intelligence (AI) technologies and BPM Platforms to provide effective non-voice customer support via email and chat.

Scope

The scope covers the following :

- Utilize Basic Gen AI in email and chat support
- Utilize BPM Platforms in Non-Voice Customer Support

Elements and Performance Criteria

Utilize Basic Gen AI in email and chat support

To be competent, the user/individual on the job must be able to:

- PC1.** operate Basic Gen AI tools to assist with drafting customer responses in chat and email support to ensure effective customer interaction.
- PC2.** use Basic Gen AI tools to automate routine tasks and draft responses, ensuring messages are personalized and relevant
- PC3.** apply Basic Generative AI to suggest customer issues and generate appropriate solutions tailored to individual needs
- PC4.** identify customer emotions using Basic Gen AI sentiment features and adjust responses accordingly.
- PC5.** follow organizational guidelines to ensure data privacy while using Basic Gen AI tools.
- PC6.** use Basic Gen AI-powered search features to find relevant information for addressing customer queries.
- PC7.** identify basic updates in Basic Gen AI technologies to improve support services with guidance
- PC8.** follow Gen AI ethical standards to ensure fairness, safeguard privacy, and maintain transparency
- PC9.** utilize AI-assisted ticketing tools to streamline customer query resolution and categorize issues for efficient handling

Utilize BPM Platforms in Non-Voice Customer Support

To be competent, the user/individual on the job must be able to:

- PC10.** learn to use BPM platforms to streamline workflows, automating and managing tasks to ensure prompt responses in non-voice support.
- PC11.** use BPM tools to track response times for email and chat support, ensuring adherence to simple guidelines.
- PC12.** document and follow standardized processes in BPM platforms, ensuring consistency in responses across email and chat channels.

Qualification Pack

- PC13.** utilize BPM dashboards to track key performance indicators (KPIs) related to response times, accuracy, and customer satisfaction
- PC14.** follow BPM instructions to document resolution outcomes for routine tasks..
- PC15.** incorporate data from BPM platforms and Zoho CRM to monitor overall customer satisfaction and suggest service improvements.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the basics of Machine Learning (ML) concepts and applications, particularly as they relate to automating customer support tasks.
- KU2.** the fundamentals of Natural Language Processing (NLP) for interpreting and responding to text-based customer inquiries
- KU3.** how to leverage Generative AI tools for automating content creation and generating dynamic, personalized responses in non-voice support
- KU4.** how to navigate BPM platforms (e.g., Appian, Pega) to streamline non-voice customer service workflows and improve efficiency
- KU5.** the key features and functionalities of BPM platforms for managing end-to-end customer service processes, such as task assignment, escalation, and service level tracking.
- KU6.** the basics of workflow automation within BPM platforms to handle routine support tasks, including ticket management, response routing, and query prioritization
- KU7.** how to use of BPM analytics and reporting tools for tracking key performance metrics, including response times, resolution rates, and customer satisfaction scores
- KU8.** the customer data security requirements and privacy regulations, particularly as they pertain to AI-driven and BPM-supported customer service interactions.
- KU9.** the common customer issues and inquiries in non-voice support, and how BPM platforms can optimize response and resolution processes
- KU10.** the importance of Service Level Agreements (SLAs) and response time standards within BPM platforms for maintaining quality and timeliness in support services.
- KU11.** the Key Performance Indicators (KPIs) to monitor AI and BPM-driven support performance, such as accuracy, resolution time, and customer satisfaction.
- KU12.** how to configure and use AI and BPM platforms together to automatically escalate unresolved or high-priority cases for further attention.
- KU13.** the role of AI-driven analytics in gathering insights from customer interactions and improving service delivery by updating workflows within BPM platforms.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and records
- GS2.** read the relevant material to stay updated on the latest developments in the field of work.

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
