Qualification Pack

SSC/Q8803: XR Designer

Brief Job Description

The assessment will consist of a blend of hands-on practical evaluations, viva-voce, and online proctored scenario-based multiple-choice questions ensuring a thorough evaluation of the individual's proficiency in learning outcomes, practical understanding, and real-world application of concepts.

Personal Attributes

AR/VR Designer must manage and collaborate with various stakeholders involved in the development of AR/VR solution experiences. They must work independently and collaboratively to develop user interfaces and designs. They should have an analytical mindset, and a zeal to learn new things.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [SSC/N8810: Design user experience for AR/VR solution](#)
2. [SSC/N8811: Develop Content and generate concept ideas for AR VR experiences, considering user needs and project objectives.](#)
3. [SSC/N8823: Build prototypes to visualize and test AR/VR concepts, allowing for iterations based on user feedback.](#)
4. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

SSC/N8810: Design user experience for AR/VR solution

Description

This unit is about curating the AR/VR solution designing to enhance the user experience while using the product/service

Scope

The scope covers the following :

- UX design

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Understand user requirements and user behavior patterns using various ethnographic research methods.
- PC2.** . Create wireframes to define the features to be included in the solution (visual, sound, motion, etc.), the general layout of visuals, and user flows
- PC3.** Define the story-telling aspects to be included in the solution to enhance the user journey
- PC4.** Identify the no. of users (single or multiple) and define how they would interact
- PC5.** Set up the environment for designing the interface by identifying suitable canvas size and software tools
- PC6.** Define the specifications of various visual objects to be created in the solution (dimensions, resolution, intended viewing distance, etc.)
- PC7.** Define standards for various factors affecting user experience (e.g., range of motion, viewing zones, brightness, synchronization between physical and visual motion cues, etc.)
- PC8.** Implement core design principles throughout the user experience design process (relevant to current time)
- PC9.** Drive the prototyping process by facilitating wireframing, visualization, and beta version development processes
- PC10.** Conduct user interviews to test the product/solution hypothesis for prototype design

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizational policies, procedures, and guidelines which relate to conducting research methods and documenting research data
- KU2.** organizational policies and procedures for sharing data
- KU3.** who to involve while conducting market research
- KU4.** range of standard templates and tools available and how to use them
- KU5.** how to create a storyboard and conceptualize requirements
- KU6.** wireframing tools

Qualification Pack

- KU7.** how to enhance user experience through added features
- KU8.** how to build an interface using appropriate software tools
- KU9.** how to identify factors influencing user experience to improve the user journey
- KU10.** how to simulate sample product/solution for prototyping

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** follow instructions, guidelines, procedures, rules, and service level agreements
- GS2.** ask for clarification and advice from appropriate people
- GS3.** listen effectively and communicate information accurately
- GS4.** follow rule-based decision-making processes
- GS5.** plan and organize the work to achieve targets and meet deadlines
- GS6.** apply problem-solving approaches to different situations
- GS7.** analyze the business impact and disseminate relevant information to others
- GS8.** apply balanced judgments to different situations
- GS9.** work independently and collaboratively
- GS10.** contribute to the quality of teamwork

Qualification Pack

Assessment Criteria

SSC/N8811: Develop Content and generate concept ideas for AR VR experiences, considering user needs and project objectives.

Description

This NOS is about developing and generating concepts for AR/VR experiences

Scope

The scope covers the following :

- Three D asset creation

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Develop storyboards that illustrate the flow of the user experience, including key interactions, transitions, and emotional beats, allowing for a visual representation of the proposed content.
- PC2.** Create and optimize 3D models and scenes for the development of AR/VR solutions
- PC3.** Evaluate resources that have pre-existing 3D models
- PC4.** Develop texturing, animation, and lighting features of the created/optimized 3D model
- PC5.** Test 3D model on appropriate platforms to gather feedback on the content and experience
- PC6.** Render 3D model in the AR/VR solution
- PC7.** Ensure that the visual is crisp using suitable editing and post-processing techniques
- PC8.** Add compositing, special FX, and music to the solution
- PC9.** Export the solution to the required formats

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizational policies, procedures, and guidelines which relate to 3D content development and documenting data
- KU2.** organizational policies and procedures for sharing data
- KU3.** who to involve while developing AR/VR 3D solution
- KU4.** range of standard templates and tools available and how to use them
- KU5.** how to create a storyboard and conceptualize requirements
- KU6.** tools and software to build 3D models and create animations
- KU7.** tools and techniques to add additional features (music, lighting, post-processing, etc.) to enhance user experience
- KU8.** tools and techniques to test the models for stability and scalability
- KU9.** how to create standard technical and supporting documents

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

SSC/N8823: Build prototypes to visualize and test AR/VR concepts, allowing for iterations based on user feedback.

Description

This NOS is about building the prototype

Scope

The scope covers the following :

- Type of Prototypes, Prototyping Process, Iteration and Refinement,

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the purpose of prototypes
- PC2.** Understand different types of prototypes (Low, Medium & High-Fidelity Prototypes)
- PC3.** Brainstorm and outline the core functionalities and features of the AR/VR application. Use sketches or storyboards to map user journeys and identify key interactions
- PC4.** Develop the prototype using chosen tools and technologies. Ensure the prototype reflects the conceptual design and intended user experience.
- PC5.** Incorporate visual assets (3D models, animations) and interaction scripts to simulate the environment and user interactions
- PC6.** Conduct usability testing sessions with actual users to observe interactions with the prototype. Focus on gathering qualitative and quantitative feedback regarding usability, navigation etc.
- PC7.** Use techniques like think-aloud protocols, where users express their thoughts while interacting with the prototype, to capture their impressions and frustrations
- PC8.** . Analyze the data collected during user testing. Identify common pain points, feature requests, and areas of confusion to inform the next iteration of the prototype
- PC9.** Based on feedback, make necessary adjustments to the prototype. This may involve refining user flows, improving interactions, enhancing visual design, or fixing usability issues

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Prototyping techniques
- KU2.** AR/VR Development tools
- KU3.** User Centered design principles
- KU4.** Interaction and experience design
- KU5.** Programming and Scripting
- KU6.** Feedback and iteration processes
- KU7.** Performance and Optimization

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** The ability to clearly convey ideas, information, and instructions to team members and stakeholders.
- GS2.** The ability to mediate disputes and facilitate discussions to achieve consensus among team members.
- GS3.** Evaluating information and identifying patterns to solve complex problems effectively.
- GS4.** The ability to prioritize tasks effectively to meet deadlines and manage competing demands.
- GS5.** The ability to empathize with users, understanding their perspectives, needs, and challenges to create solutions that truly resonate.
- GS6.** Understanding the needs and perspectives of users, ensuring that products and solutions are designed to deliver value and satisfy customer expectations.
- GS7.** The ability to remain composed and effective in the face of challenges or setbacks.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Helpdesk	Helpdesk is an entity to which the customers will report their IT problems. IT Service Helpdesk Attendant is responsible for managing the helpdesk.
Helpdesk	Helpdesk is an entity to which the customers will report their IT problems. IT Service Helpdesk Attendant is responsible for managing the helpdesk.
