TEL/N2217: Maintain workplace efficiency and personal appearance

Description

This unit covers maintaining a professional work environment and personal presentation while ensuring efficient handling of customer interactions and service requests.

Scope

The scope covers the following :

- Maintain professional appearance
- Organize and manage the work area

Elements and Performance Criteria

Maintain professional appearance

To be competent, the user/individual on the job must be able to:

- PC1.** adhere to prescribed uniform/dress code and grooming standards as per organizational guidelines
- PC2.** maintain personal hygiene and professional etiquette in the workplace
- PC3.** wear and display identification badges as per standard operating procedures
- PC4.** greet customers courteously, understand their concerns, and provide relevant assistance

Organize and manage the work area

To be competent, the user/individual on the job must be able to:

- PC5.** log customer queries, complaints, and service requests in Customer Relationship Management(CRM) software, registers, or other designated software
- PC6.** record and update daily customer interactions, service requests, and unit intake for repair/replacement
- PC7.** verify and validate customer documents for service processing, ensuring compliance with company policies
- PC8.** monitor turnaround time and adherence to Service Level Agreements (SLAs) for customer resolutions
- PC9.** utilize digital tools and applications to streamline data entry, tracking, and customer service processes
- PC10.** manage workload efficiently to meet productivity, service, and quality benchmarks

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the policies on dress code, grooming, and workplace conduct
- KU2.** standard procedures for customer service documentation and data management
- KU3.** functions of key departments and escalation protocols for issue resolution
- KU4.** service targets, key performance indicators (KPIs), and quality benchmarks

Qualification Pack

KU5. the use of relevant digital tools, CRM software, and reporting systems in customer service operations

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain a professional and approachable demeanor in customer interactions
- GS2.** communicate clearly and effectively with customers, colleagues, and supervisors
- GS3.** listen actively to customer concerns and provide accurate information
- GS4.** organize and prioritize tasks to meet service targets and deadlines
- GS5.** handle customer complaints and escalations with patience and problem-solving skills
- GS6.** use digital tools and software for data entry, tracking, and reporting
- GS7.** follow written instructions, guidelines, and service protocols accurately
- GS8.** work collaboratively with team members to improve efficiency and customer satisfaction
- GS9.** adapt to new technology, software updates, and process changes
- GS10.** maintain confidentiality and integrity while handling customer data

TEL/N2201: Troubleshoot basic mobile handset/accessory issues and coordinate repair or replacement

Description

This unit is about identifying and diagnosing issues in mobile handsets and accessories brought by walk-in customers, troubleshooting at the front-end level, and coordinating with technical teams for repair or replacement.

Scope

The scope covers the following :

- Diagnose and troubleshoot issues
- Coordinate with technical teams for repair/replacement

Elements and Performance Criteria

Diagnose and troubleshoot issues

To be competent, the user/individual on the job must be able to:

- PC1.** engage with customers to gather information about mobile phone/accessory issues and usage conditions
- PC2.** log customer issues using the token/ticket management system as per standard process
- PC3.** conduct preliminary inspection and diagnostic tests on the handset/accessory
- PC4.** classify the issue as front-end (Level 1) or requiring back-end (Level 2 or 3) intervention
- PC5.** perform basic troubleshooting, including software/hardware resets, firmware updates, and connectivity checks
- PC6.** provide guidance to customers regarding software updates, security patches, and device maintenance
- PC7.** document findings and create a job sheet after receiving the handset/accessory
- PC8.** verify warranty status, assess repair/replacement costs, and communicate estimated charges to the customer
- PC9.** identify and process devices that qualify as Dead on Arrival (DOA) cases per company guidelines
- PC10.** inform the customer about resolution timelines, provide a job sheet copy, and manage expectations on service Turnaround Time (TAT)

Coordinate with technical teams for repair/replacement

To be competent, the user/individual on the job must be able to:

- PC11.** coordinate with Level 2 specialists to resolve advanced technical issues
- PC12.** escalate unresolved issues to Level 3 specialists and ensure proper handover with a complete job sheet
- PC13.** follow the escalation matrix to report complex cases to supervisors or technical support teams

Qualification Pack

- PC14.** notify customers within the committed TAT regarding the repair/replacement status and charges
- PC15.** ensure proper customer handover of the repaired/replaced handset/accessory, collect payments if applicable, and update service records

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the significance of representing the organization appropriately and ensuring customer satisfaction
- KU2.** the token and ticket management process for tracking customer queries
- KU3.** different mobile operating systems and the range of handsets/accessories offered by the organization
- KU4.** common technical issues, software bugs, and available updates/upgrades
- KU5.** standard troubleshooting procedures, including physical inspection, connectivity checks, and battery performance tests
- KU6.** types of open-ended and close-ended questions to gather issue details efficiently
- KU7.** procedures for logging service entries in CRM systems, Excel sheets, or paper registers
- KU8.** warranty policies and company guidelines for repair and replacement
- KU9.** DOA guidelines and assessment criteria
- KU10.** organizational repair/replacement workflows, including interdepartmental coordination
- KU11.** responsibilities of Level 1, Level 2, and Level 3 support teams for issue resolution
- KU12.** standard procedures for query handling, issue resolution, and escalation management
- KU13.** pricing structure, service charges, and company-defined TAT for different service requests

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively with customers and colleagues
- GS2.** identify and analyze technical issues for quick and effective troubleshooting
- GS3.** apply logical reasoning to classify and escalate customer problems appropriately
- GS4.** adapt communication style based on customer interaction, technical complexity, and urgency
- GS5.** show empathy and professionalism when handling customer concerns and complaints
- GS6.** document issue details, service actions, and resolution status for record-keeping
- GS7.** coordinate effectively with team members and technical specialists to ensure seamless service
- GS8.** follow standard processes and safety protocols while handling electronic devices
- GS9.** maintain a positive and service-oriented attitude in a high-pressure environment
- GS10.** stay updated with industry advancements to enhance troubleshooting efficiency

TEL/N9108: Follow sustainability practices in telecom operations

Description

This unit focuses on sustainability practices in the telecom sector, detailing processes to identify components for recycling, refurbishment, or responsible disposal while ensuring compliance with environmental standards and promoting sustainable repair and maintenance practices.

Scope

The scope covers the following :

- Identify recyclable, reusable, and disposable components
- Adhere to environmental standards
- Follow sustainable repair practices
- Comply with sustainability protocols

Elements and Performance Criteria

Identify recyclable, reusable, and disposable components

To be competent, the user/individual on the job must be able to:

- PC1.** identify telecom components that can be recycled, refurbished, or reused during repair and maintenance
- PC2.** sort materials into recyclable, reusable, and hazardous waste categories
- PC3.** examine faulty components for potential refurbishment and document findings
- PC4.** label and segregate hazardous materials for specialized disposal
- PC5.** evaluate dismantled parts to determine their suitability for recycling or safe disposal

Adhere to environmental standards

To be competent, the user/individual on the job must be able to:

- PC6.** follow guidelines for safe handling, storage, and disposal of hazardous and non-hazardous materials
- PC7.** maintain compliance with environmental regulations relevant to e-waste management
- PC8.** record all e-waste disposal and recycling activities as per company policies
- PC9.** use protective equipment when handling hazardous waste to prevent environmental contamination
- PC10.** conduct regular audits of waste management processes to ensure alignment with sustainability standards

Follow sustainable repair practices

To be competent, the user/individual on the job must be able to:

- PC11.** use repair techniques that minimize waste generation and energy consumption
- PC12.** select energy-efficient and eco-friendly spare parts for repairs
- PC13.** optimize material usage by reusing functional components from discarded devices
- PC14.** minimize the use of single-use materials during maintenance and repair tasks
- PC15.** diagnose faults accurately to avoid unnecessary replacements

Qualification Pack

Comply with sustainability protocols

To be competent, the user/individual on the job must be able to:

PC16. follow organizational sustainability policies during repair and maintenance activities

PC17. coordinate with certified recyclers for responsible disposal of non-recyclable waste

PC18. ensure proper documentation of waste transfer to recycling or disposal agencies

PC19. participate in training programs on environmental conservation and sustainability

PC20. promote awareness of sustainable practices among team members and stakeholders

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the relevant environmental laws and regulations for the telecom sector

KU2. different recyclable and hazardous components in telecom equipment

KU3. the relevant tools and techniques that support sustainable repair practices

KU4. the safe handling, storage, and disposal of hazardous materials

KU5. e-waste recycling through certified vendors

KU6. the documentation related to sustainability and waste disposal

KU7. waste segregation and sorting guidelines

KU8. the industry's best practices for reducing environmental impact

KU9. the importance of energy efficiency and using eco-friendly parts

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. improve and modify work practices

GS2. communicate effectively with team members and stakeholders

GS3. record and report waste management and recycling activities accurately

GS4. solve problems related to waste segregation and disposal

GS5. plan and organize tasks to ensure compliance with sustainability protocols

GS6. make informed decisions about recyclable and reusable components

GS7. coordinate with external agencies for responsible waste management

GS8. ensure accuracy in maintaining compliance records

GS9. adapt to new sustainability policies and practices

GS10. identify and mitigate risks associated with hazardous materials

GS11. promote teamwork to achieve sustainability goals

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
