THC/Q0418: Bakery (WorldSkills)

Brief Job Description

The baker is a highly skilled professional, with a high level of knowledge about food and nutrition, who produces a wide range of bread and pastry items. The baker produces all varieties of fresh and tasty bakery products, made of any kind of grains. Different types of fermentation and other processes will be used to turn the raw material into sweet or savory products. For example, wheat bread, rye bread, artisan bread, enriched breads, laminated products, and ingredients to flavor their bakery products. Bakers also produce elaborate displays of decorative breads using creative skills and knowledge.

Personal Attributes

The job requires the individual to have good eye sight, patience, attention to details, good communication skills, and physical strength to work for long working hours.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [THC/N0440: Maintain work organization and communicate effectively \(Bakery\)](#)
2. [THC/N0442: Maintain Food hygiene and workplace health, safety, and environment \(Bakery\)](#)
3. [THC/N0445: Prepare enriched breads](#)
4. [THC/N0450: Prepare wheat Breads](#)
5. [THC/N0451: Prepare laminated Doughs/Pastries](#)
6. [THC/N0452: Prepare specialty breads](#)
7. [THC/N0453: Prepare decorative breads](#)

Qualification Pack

THC/N0440: Maintain work organization and communicate effectively (Bakery)

Description

This NOS describes working efficiently in a bakery and communicating effectively within a team

Scope

The scope covers the following :

- Involves maintaining effective communication
- Ensures smooth operation in a bakery while working

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Prepare and correctly use tools and equipment
- PC2.** Prioritize and plan work effectively to work within a given time
- PC3.** Show respect for raw materials
- PC4.** Use ingredients cost-effectively and minimize waste
- PC5.** Prepare products within prescribed costs
- PC6.** Pre-order goods and materials accurately for planned work
- PC7.** Work efficiently and cleanly, paying attention to the workplace and the people in it
- PC8.** Demonstrate good workflow skills
- PC9.** Demonstrate inspiration, flair, and innovation in design and work techniques
- PC10.** Work within given themes
- PC11.** Produce large quantities of bakery products to a consistent standard
- PC12.** Be consistent with size and weight of products in order to maintain customer satisfaction and profit margins
- PC13.** React professionally and effectively to unexpected situations
- PC14.** Work to deadlines
- PC15.** Have all costumers' orders ready at the right time
- PC16.** Have professional conversations with customers
- PC17.** Work out the right products with customers according to their wishes for their special orders
- PC18.** Work effectively with colleagues and other professionals
- PC19.** Be an effective team member
- PC20.** Display products in order to maximize sales
- PC21.** Always pay attention to own cleanliness and appearance
- PC22.** Communicate effectively with colleagues, teams, and customers
- PC23.** Provide advice and guidance on specialist matters to managers, colleagues, and customers

Qualification Pack

PC24. Develop recipes in a way that every other baker can read them and achieve good quality products

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles of business
- KU2.** The stages from buying raw material to producing valuable products and selling them to costumers
- KU3.** The importance of minimizing waste and maximizing sustainability
- KU4.** The factors bearing on ingredients used in bakery including seasons, availability, costs, storage, and use
- KU5.** The range of tools and equipment used in bakery
- KU6.** Legislation and good practice relating to the purchase, storage, preparation, cooking, baking, and service of food products
- KU7.** How bakery products should be displayed for sale
- KU8.** The importance of displays and notices as sales and communication tools
- KU9.** Legal restrictions on the presentation of promotional materials
- KU10.** The importance of appearance when on public view and dealing with customers
- KU11.** The importance of effective communications across teams, colleagues, contractors, and other professionals
- KU12.** The need to communicate effectively with customers

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively with the guests and team members
- GS2.** read and interpret instructions, procedures, information
- GS3.** read organizational documents, information displayed at the workplace, and comments received from guest and supervisor
- GS4.** Resolve conflicts and problems arising at workplace

THC/N0442: Maintain Food hygiene and workplace health, safety, and environment (Bakery)

Description

This NOS describes adherence to food hygiene standards and and maintain a safe healthy workplace in a bakery

Scope

The scope covers the following :

- Adherence to strict food hygiene practices in all aspects of bakery operations
- Implementation and continuous upkeep of measures promoting workplace health and safety

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Follow all personal hygiene standards and safety regulations for food storage, preparation, cooking, and service (HACCP)
- PC2.** Comply with all Health and Food Safety regulations and best practices
- PC3.** Store all commodities safely according to HACCP
- PC4.** Ensure all work areas are cleaned based on the highest standards
- PC5.** Apply the business internal HACCP concept to the last detail
- PC6.** Work safely and uphold accident prevention regulations
- PC7.** Use all tools and equipment safely and within manufacturer's instructions
- PC8.** Promote health, safety, and environment and food hygiene within the working environment

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Legislation and good practice relating to the purchase, storage, preparation, cooking, and service of food
- KU2.** Quality indicators for fresh and preserved foods
- KU3.** The causes of deterioration of food
- KU4.** The range of tools and equipment used in bakery
- KU5.** Legislation and safe working practices in a bakery kitchen and for using commercial equipment

THC/N0445: Prepare enriched breads

Description

This NOS emphasize to skillfully create and present a range of bakery products including sweet or enriched doughs, ensuring consistent quality, appearance, and flavor through proper production techniques, frying, baking, or boiling processes, effective use of flavorings, and meticulous finishing and display for sale

Scope

The scope covers the following :

- Expertly prepare a diverse range of bakery products
- Employ appropriate cooking methods

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Produce a range of sweet or enriched doughs
- PC2.** Produce a range of bakery products using sweet or enriched dough
- PC3.** Produce products in bulk to a consistent size, shape, appearance, flavor, and standard
- PC4.** Undertake appropriate frying, baking, or boiling process
- PC5.** Use appropriate flavorings effectively
- PC6.** Finish or decorate products as appropriate
- PC7.** Display products for sale

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The factors that impact on the performance of yeast
- KU2.** The use of yeast in its various forms
- KU3.** The range of sweet and enriched dough products
- KU4.** How to produce and enriched dough enhancing with such ingredients as sugar, eggs, butter, and milk
- KU5.** The impact of enriching ingredients on the proving process
- KU6.** How sweet or enriched dough products should be displayed for sale
- KU7.** The different techniques for shaping like braiding, moulding in different shapes, baking or frying these products
- KU8.** How sweet or enriched dough products should be store

THC/N0450: Prepare wheat Breads

Description

This NOS emphasize to utilize knowledge of milling products, flours, and raw materials to formulate high quality bakery recipes

Scope

The scope covers the following :

- Apply knowledge to formulate innovative and high quality bakery products
- Design and produce a diverse range of bakery products

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Use the knowledge of the impact of various milling products and flours on bakery products
- PC2.** Use own understanding of the impact of dry and liquid raw materials to make different doughs
- PC3.** Apply knowledge of the characteristics of raw materials in bakery products
- PC4.** Use appropriate ingredients and flavorings effectively
- PC5.** Devise products demonstrating innovation and flair
- PC6.** Formulate recipes to make quality products
- PC7.** Create recipes to produce a range of breads, rolls, and loaves
- PC8.** Design products in bulk to a consistent size, shape, appearance, flavor, and standard
- PC9.** Use appropriate flavorings effectively
- PC10.** Design display pieces based on clients' briefs
- PC11.** Create designs that take account of the purpose of the pieces and the environment where they will be displayed

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The factors that impact on the performance of yeast
- KU2.** The use of yeast in its various forms
- KU3.** The stages in the bread producing process
- KU4.** The range of large and small bread products
- KU5.** The range and characteristics of bread products from around the world
- KU6.** The importance of appearance, texture, and taste
- KU7.** The influence of different working techniques to produce bakery products
- KU8.** The importance of the dough temperature
- KU9.** The importance of developing gluten structure in wheat doughs

Qualification Pack

- KU10.** How the different doughs must be handled and stored
- KU11.** The science of fermentation such as types of fermentation, substances involved in the fermentation process, and acidification
- KU12.** When to use an all-in dough method for a bakery product
- KU13.** The benefits of using a preferment dough leavening method, with starters like polish, sponge, biga, and levains
- KU14.** The benefits of refrigeration technology systems to control the fermentation to the next day for long-term leavening methods
- KU15.** The purpose of pre-absorption or starch gelatinization methods known as soaker, boiled dough, or mash
- KU16.** The sourdough leavening method with and without bakers yeast

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively with the guests and team members
- GS2.** read and interpret instructions, procedures and information
- GS3.** read organisational documents, information displayed at the workplace, and comments received from guest and supervisor

THC/N0451: Prepare laminated Doughs/Pastries

Description

This NOS emphasis on creating and presenting a variety of high-quality bakery products, while prioritizing safe and hygienic storage and appealing display for sale.

Scope

The scope covers the following :

- Ensure consistent quality, size, and produce a range of bulk products
- Create a range of bakery products, including Danish pastries, croissants and puff pastry items

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Produce high quality laminated pastes and doughs
- PC2.** Produce bakery products using laminated pastes and doughs including Danish pastries, croissants, pains au chocolate, brioche, and puff pastry products
- PC3.** Produce products in bulk, ensuring that the quality, size and finish remains consistent
- PC4.** Finish or decorate products
- PC5.** Display products for sale
- PC6.** Store products safely and hygienically at the point of sale

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The principle of lamination as a form of raising a paste or dough
- KU2.** The range of laminated pastes and doughs used in bakery products
- KU3.** Methods of making and using laminated pastes and doughs
- KU4.** Colour applications, taste combinations, and texture coordination
- KU5.** The range and uses of doughs and pastes used to produce bakery products
- KU6.** The range of raw materials and how can they be worked into a filling
- KU7.** Why fillings which are baked need to be stable at high temperature
- KU8.** The effect of using seasonal fruits and vegetables for fillings
- KU9.** The importance of appearance, texture, and taste

THC/N0452: Prepare specialty breads

Description

The NOS is inclusive of artisanal baking of specialty breads, crafted with precision to elevate culinary experience

Scope

The scope covers the following :

- Experimenting and creating diverse flavor profiles of specialty breads
- Offering personalized services to meet expectation and guest orders

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Shape common bakery products out of dough
- PC2.** Recognize when the dough has fermented enough and is ready to scale and shape
- PC3.** Handle and scale doughs appropriated after fermenting
- PC4.** Shape bread products consistently and to pre-determined shapes
- PC5.** Produce small and large bakery products
- PC6.** Be creative to shape dough following customer orders
- PC7.** Shape large quantities of the same product identically
- PC8.** Produce products in bulk ensuring that the quality, size, and finish remain consistent
- PC9.** Make filled products which are filled and decorated before baking
- PC10.** Apply different techniques for shaping
- PC11.** Decide how long the product needs to have a final proof before baking
- PC12.** Finish the decoration before the dough is baked, using different techniques
- PC13.** Use various techniques to produce display pieces or decorative breads

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The importance of shaping and decorating dough before baking
- KU2.** The commonly used shapes for certain products which are known around the world
- KU3.** The range of tools and equipment used in bakery for shaping and decorating
- KU4.** The importance of recipes for quality control
- KU5.** The range and characteristics of bakery products which are known around the world, leavened and unleavened
- KU6.** Colour applications, taste combinations, and texture coordination
- KU7.** Basic principles involved in accurately combining ingredients in order to produce products

Qualification Pack

- KU8.** How to create appearance, texture, and taste from the bakery product by using different ingredients and working techniques
- KU9.** How to process different grains, cereals, and pseudo cereals
- KU10.** The impact of various flours and ingredients on finished products
- KU11.** The manipulation of raw materials through production techniques
- KU12.** The influence of different working techniques to produce bakery products
- KU13.** Colour applications, taste combinations, and texture coordination
- KU14.** Finesse and artistic appreciation
- KU15.** The importance of the finale proof in its different methods like on couches, on loading devices, in bannetons, or on trays
- KU16.** The different methods of finishing before baking. This can be reshaping, cutting, scoring, piercing, sprinkling, brushing, spreading, dusting, and so on

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively with the guests and team members
- GS2.** read and interpret instructions, procedures and information
- GS3.** read organisational documents, information displayed at the workplace, and comments received from guest and supervisor

THC/N0453: Prepare decorative breads

Description

This NOS describes and helps the learner to learn artful techniques and innovative designs that transform ordinary loaves into extraordinary edible masterpieces.

Scope

The scope covers the following :

- Making various design using techniques, to shape breads to create visually stunning loaves

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Design display pieces based on clients' briefs
- PC2.** Create designs that take account of the purpose of the pieces and the environment where they will be displayed
- PC3.** Create display pieces to meet specifications
- PC4.** Use appropriate ingredients to assemble products if required
- PC5.** Work with leavened and unleavened doughs together in harmony

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** The purpose and function of display pieces
- GS2.** The importance of creativity of design
- GS3.** Various techniques used to produce display pieces
- GS4.** The hygiene implications of displaying edible pieces

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Judgement uses a scale of 0-3. To apply the scale with rigour and consistency, judgement must be conducted using:

- benchmarks (criteria) for detailed guidance for each Aspect (in words, images, artefacts or separate guidance notes)
- the 0-3 scale to indicate:
 - 0: performance below industry standard
 - 1: performance meets industry standard
 - 2: performance meets and, in specific respects, exceeds industry standard
 - 3: performance wholly exceeds industry standard and is judged as excellent

Three Experts will judge each Aspect, normally simultaneously, and record their scores. A fourth Expert

Qualification Pack

coordinates and supervises the scoring, and checks their validity. They also act as a judge when required to prevent compatriot marking.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
