THC/Q0419: Cooking (WorldSkills)

Brief Job Description

Professional chefs need to demonstrate outstanding skills in food preparation (with both speed and accuracy), in production (using varied cooking methods and techniques) and in the final presentation and flavor. They are expected to create and adapt dishes that meet the expectations of demanding customers with varying nutritional and religious dietary requirements. Fashions and trends in cuisine also fluctuate, so it is important that the professional chef keeps abreast of these trends and adapts their product and service accordingly. The Professional chef needs to be adept at managing food cost and maintaining environmentally-friendly sustainable food production by making use of locally sourced and seasonal ingredients, as well as controlling unnecessary waste by creatively re-using trimmings and reducing ingredient wastage.

Personal Attributes

The job requires the individual to have the stamina to work for long hours, attention to details, creativity and patience.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [THC/N0340: Maintain work organization and management \(Cooking\)](#)
2. [THC/N0441: Communicate and provide customer service \(Cooking\)](#)
3. [THC/N0443: Understand Food hygiene and health, safety, and environment](#)
4. [THC/N0444: Handle Ingredients and Develop Menu](#)
5. [THC/N0446: Prepare Ingredients](#)
6. [THC/N0447: Apply appropriate cooking techniques](#)
7. [THC/N0448: Present and plate final dish](#)
8. [THC/N0449: Purchase ingredients and control costs](#)

THC/N0444: Handle Ingredients and Develop Menu

Description

This NOS describes the proper handling of ingredients and application of nutrition principles while developing menu

Scope

The scope covers the following :

- Selecting and handling ingredients properly
- Maintaining standards while selecting ingredients
- Menu composition

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Advise on procurement of ingredients and equipment
- PC2.** Select appropriate product quality standards for menus, budgets, and situations
- PC3.** Recognize and comply with ingredient labelling
- PC4.** Apply nutritional principles in order to comply with guests' expectations and requirements
- PC5.** Identify the quality state of ingredients and recognize the signs of quality and freshness, e.g. appearance, aroma, structure, etc.
- PC6.** Appraise and reject sub-standard goods
- PC7.** Select appropriate products for speciality meals
- PC8.** Compose menus for a variety of situations and occasions
- PC9.** Be accurate in menu preparation and account for obligatory declarations such as dietary and allergy information
- PC10.** Compile menus for a variety of occasions and settings

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Market prices for ingredients and the correlation between price and quality
- KU2.** The nature and types of ingredients used in cookery
- KU3.** Product seasonal availability and value
- KU4.** The correlation between product quality, menu sophistication, and gastronomic level
- KU5.** The nutritional properties of ingredients
- KU6.** The physical nutritional impact of cooking methods
- KU7.** Import regulations and restrictions that apply to some ingredients
- KU8.** Types and styles of menu
- KU9.** Balance in menu compilation

Qualification Pack

KU10. Issues surrounding sustainability and ethics when sourcing ingredients

KU11. The impact of culture, religion, allergies, intolerances, and tradition on diet and cooking

Generic Skills (GS)

User/individual on the job needs to know how to:

THC/N0446: Prepare Ingredients

Description

This NOS unit describes preparing various ingredients and appropriate cooking techniques

Scope

The scope covers the following :

- Preparing various dishes from ingredients provided
- Preparation of eggs, meats, fish, and poultry
- Preparation of seasonal and other vegetables
- Preparation of dairy products

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Make environmentally sustainable choices and use locally sourced meat, poultry, game, offal, seafood, eggs, dairy, fruit, and vegetables currently in season.
- PC2.** Order and prepare only what is needed for producing sufficient output for a menu
- PC3.** Calculate, measure, and weigh correct amounts of products
- PC4.** Apply excellent knife skills and common cutting techniques
- PC5.** Debone meat, poultry and game cuts and prepare for further processing, and re-use any wastage and trimmings
- PC6.** Trim and tie meats, poultry, and game
- PC7.** Prepare, portion, and fillet meat, poultry, and game cuts
- PC8.** Prepare offal
- PC9.** Prepare whole fish for further processing - scale, remove entrails, fillet, and re-use any wastage and trimmings
- PC10.** Prepare accepted portions of fish for further processing and cooking
- PC11.** Prepare shellfish
- PC12.** Prepare and use eggs
- PC13.** Prepare and use dairy products
- PC14.** Prepare fruits, salad ingredients, and vegetables
- PC15.** Prepare stocks, soups, sauces, marinades, accompaniments, and dressings
- PC16.** Plan and assemble the mise en place for the menu in its entirety with minimal wastage
- PC17.** Re-use and utilize unused wastage, trimmings, and mise en place for other applications
- PC18.** Make preparations for the production of pastry, bakery products, and desserts
- PC19.** Produce a variety of pasta and other farinaceous items
- PC20.** Separate waste for recycling and composting

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** The importance of using environmentally sustainable and locally sourced meat, poultry, game, offal, seafood, eggs, dairy, fruit, and vegetables currently in season.
- KU2.** The importance of ordering and preparing only what is needed to produce sufficient output for a menu
- KU3.** The structure of a carcass and whole poultry or game bird
- KU4.** Methods of butchering and preparing meat for cooking with minimal wastage
- KU5.** The range of meats, game, and poultry and their best uses
- KU6.** Cuts of meat, poultry and game commonly used in cookery and the re-use of wastage and trimmings
- KU7.** The range of offal and their suitable uses
- KU8.** The range of fish and shellfish available and their suitable uses
- KU9.** Cuts of fish used in cookery, and the re-use of wastage and trimmings
- KU10.** Methods of preparing fish and shellfish for cooking
- KU11.** Methods of preparing and using eggs
- KU12.** The range of dairy products available and their suitable uses and re-uses
- KU13.** The range of fruits, salad ingredients, and vegetables available, their methods of preparation and the re-use of wastage and trimmings
- KU14.** Accepted vegetable cuts and their uses
- KU15.** The methods of making stocks, soups, and sauces and their uses
- KU16.** The methods of making pastry, bakery products, and desserts
- KU17.** The methods of making pasta and other farinaceous products
- KU18.** The equipment and tools used in butchery, fishmongery, and the preparation of ingredients
- KU19.** The safe use and care of tools, especially knives
- KU20.** The separation of waste for recycling and composting

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively with the guests and team members
- GS2.** read and interpret instructions, procedures, information
- GS3.** read organisational documents, information displayed at the workplace, and comments received from guest and supervisor

THC/N0447: Apply appropriate cooking techniques

Description

This NOS elaborates on appropriate cooking techniques for various ingredients and international dishes

Scope

The scope covers the following :

- Cooking techniques for-
- Meat
- Fish
- Rice
- Paste
- Salads
- Vegetables
- Bakery

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Select the appropriate cooking equipment for each cooking method
- PC2.** Apply correct cooking methods for each ingredient and dish
- PC3.** Apply a full range of cookery methods, maximizing the freshness and nutritional value of the ingredient
- PC4.** Monitor cooking times and temperatures so as not to dry out, overcook or burn anything
- PC5.** Combine and apply various cooking methods simultaneously
- PC6.** Account for shrinkage during cooking
- PC7.** Follow recipes, adapting them as necessary, and calculate ingredients based on covers required
- PC8.** Combine ingredients and assemble dishes to achieve the required result for cold food presentation and cold desserts
- PC9.**
- Produce a wide range of dishes including:
 - Soups and sauces (either hot and/or cold);
 - Starters (either hot and/or cold);
 - Salads and hors d'oeuvres;
 - Fish and shellfish dishes;
 - Meat, poultry, game and offal dishes;
 - Vegetable and vegetarian dishes;
 - Speciality and international dishes;
 - Rice, pasta and farinaceous dishes;
 - Egg dishes
 - Pastry, bakery products, sweets, and desserts
- PC10.** Prepare and cook complex dishes combining ingredients to produce interesting and innovative dishes with various flavours and textures (including hot, cold, crisp, soft, moist, dry)

Qualification Pack

- PC11.** Prepare and cook various ingredients to the required point of doneness
- PC12.** Prepare regional, national, and international dishes using recipes
- PC13.** Prepare and cook dishes for a range of meals including breakfast, lunch, afternoon tea, high tea, and dinner
- PC14.** Apply modern technologies and methodologies in food production

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The range of wet, dry, and non-thermal cooking methods available and their appropriate uses for various ingredients and menus
- KU2.** The effects of cooking on ingredients
- KU3.** The assembly of dishes for cold food presentation and cold desserts

THC/N0448: Present and plate final dish

Description

This OS unit describes plating various dishes across all plates appropriately for an aesthetic and attractive appearance

Scope

The scope covers the following :

- Plating techniques of various dishes
- Presentation of various dishes

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Portion the components in the required yield and replicate portions, ingredients, and garnishes across all plates
- PC2.** Produce harmony of ingredients, colours, preparation methods and plating techniques
- PC3.** Display complex techniques and technical skills in the dish presentation
- PC4.** Present cold plates and assorted salads
- PC5.** Present food items for hot and cold buffets and self-service settings
- PC6.** Prepare acceptable edible garnishes and use them for the effective presentation of dishes
- PC7.** Adjust preparation and plating styles to service methods
- PC8.** Taste dishes and apply seasonings, herbs, and spices to achieve a balanced flavour of taste and aroma
- PC9.** Present food attractively to enhance the meal experience and customer appreciation of the food
- PC10.** Present food using service equipment such as flat plates, tureens, dishes, etc.
- PC11.** Present plated dishes on appropriate service plates or dishes to provide an attractive and pleasing appearance

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Present plated dishes on appropriate service plates or dishes to provide an attractive and pleasing appearance
- KU2.** The range of servicing dishes, plates, and other presentation equipment available
- KU3.** Trends in food presentation
- KU4.** Styles of food service and their impact on the presentation of dishes
- KU5.** Acceptable garnishes and accompaniments for traditional dishes

Qualification Pack

- KU6.** The importance of clean plating, clean slicing, and precision of technical skills in visual presentation with balance of colour and harmony of ingredients.
- KU7.** The importance of plate replication and portion control in commercial restaurants and catering operations
- KU8.** The importance of nutritional balance and maximizing the freshness and nutritional value of the ingredient

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively with the guests and team members
- GS2.** read and interpret instructions, procedures and information
- GS3.** read organisational documents, information displayed at the workplace, and comments received from guest and supervisor
- GS4.** resolve conflicts and problems arising at workplace

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Judgement uses a scale of 0-3. To apply the scale with rigour and consistency, judgement must be conducted using:

- benchmarks (criteria) for detailed guidance for each Aspect (in words, images, artefacts or separate guidance notes)
- the 0-3 scale to indicate:
 - 0: performance below industry standard
 - 1: performance meets industry standard
 - 2: performance meets and, in specific respects, exceeds industry standard
 - 3: performance wholly exceeds industry standard and is judged as excellent

Three Experts will judge each Aspect, normally simultaneously, and record their scores. A fourth Expert coordinates and supervises the scoring, and checks their validity. They also act as a judge when required to prevent compatriot marking.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
