Qualification Pack

TNSD/CSC/Q0201: Manufacturing Assembler - Electrical & Electronics.

Brief Job Description

This qualification pack for the Manufacturing Assembler - Electrical & Electronics job role is designed to equip learners with the essential skills and knowledge required for efficient assembly of electrical and electronic components.

Personal Attributes

Upon successful completion, learners will be able to: Perform skilled assembly of electrical and electronic components to industry standards. Contribute effectively to manufacturing processes within Electronics/Electrical engineering industries.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [TNSD/CSC/N0212: Perform Basic Manufacturing Operations.](#)
2. [TNSD/CSC/N0213: Conduct Engineering Measurements.](#)
3. [TNSD/CSC/N0214: Interpret and Create Basic Engineering Drawings.](#)
4. [TNSD/CSC/N0215: Execute Basic Electrical Wiring and Panel Assembly](#)
5. [TNSD/CSC/N0216: Troubleshoot and Repair Basic Electronic Circuits](#)
6. [TNSD/CSC/N0217: Work with Fundamentals of Microcontroller along with the digital electronics](#)
7. [TNSD/CSC/N0218: Utilize AutoCAD for Basic Technical Drafting](#)
8. [TNSD/CSC/N0219: Apply Fundamental Mathematical Concepts](#)
9. [TNSD/CSC/N0220: Apply Principles of Applied Science.](#)
10. [DGT/VSQ/N0104: Employability Skills \(120 Hours\)](#)
11. [TNSD/CSC/N0221: Demonstrate Basic Computer Literacy](#)

Qualification Pack (QP) Parameters

Sector	Capital Goods
--------	---------------

Qualification Pack

Sub-Sector	
Occupation	Manufacturing Assembler – Electrical & Electronics
Country	India
NSQF Level	3.5
Credits	40
Aligned to NCO/ISCO/ISIC Code	7422.1901
Minimum Educational Qualification & Experience	10th grade pass
Minimum Level of Education for Training in School	
Pre-Requisite License or Training	NA
Minimum Job Entry Age	15 Years
Last Reviewed On	NA
Next Review Date	07/10/2028
NSQC Approval Date	07/10/2025
Version	1.0
Reference code on NQR	QG-3.5-CG-04451-2025-V1-TNSDC
NQR Version	1.0

Qualification Pack

TNSD/CSC/N0212: Perform Basic Manufacturing Operations.

Description

Able to understand the different types of hand tools Able to understand machine tools used in machine shop and their applications for making different jobs/exercises as per specified drawing. Able to check the parts/exercises with the metrological instruments.

Scope

The scope covers the following :

- Learn about classification of metals with the properties & uses of ferrous and non-ferrous metals & alloys with the scope of heat treatment of process.
- Awareness of properties and uses of polymers and insulating materials.
- Familiarize with Drilling and related operations.
- Awareness of different machining practices like Turning, Milling and grinding.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the basic safety rules, shop floor safety, and know about the use of personal protective equipment, First Aid and OSH
- PC2.** Familiarize with ferrous metals and alloys
- PC3.** Familiarize with the scope of heat treatment of metals and alloys in Engineering field.
- PC4.** Perform Basic fitting operation - Filing, Marking, Hack sawing, Drilling, Taping, Chipping, and Grinding as accuracy of 0.1mm
- PC5.** Understand different fit of components for assembling as per required tolerance , observing principle of interchange ability and check for functionality
- PC6.** Perform different operations on Lathe, Milling, Grinding, following personal and equipment safety with standard operating procedure.
- PC7.** Learn Different types of Fasteners and its applications
- PC8.** Familiarize with Different fit of components for assembling as per required tolerance observing principle of interchangeability and check for functionality.
- PC9.** Familiarize with the properties & uses of ferrous and non-ferrous metals & alloys and properties and uses of rubber, timber and insulating materials
- PC10.** Produce components involving bench work, different operations on Lathe, Milling and Grinding machines observing standard procedure and check for accuracy.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the basic safety rules, shop floor safety, and know about the use of personal protective equipment, First Aid and OSH

Logo
Not
Available

Qualification Pack

KU2. Understand different fit of components for assembling as per required tolerance , observing principle of interchange ability and check for functionality

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Understand different fit of components for assembling as per required tolerance , observing principle of interchange ability and check for functionality
- GS2.** Familiarize with the properties & uses of ferrous and non-ferrous metals & alloys and properties and uses of rubber, timber and insulating materials

Qualification Pack

Qualification Pack

TNSD/CSC/N0213: Conduct Engineering Measurements.

Description

Understand the usage of different measuring instruments Familiarization with different checking gauges used in tool room/manufacturing. Understand the system of limits & fits used in the manufacturing industry.

Scope

The scope covers the following :

- Understand the usage of different measuring tools & familiarization with different checking methods
- Understand the importance of limits and fits in engineering practices.
- Understand the system of GD& T

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Understand the object of measurements & Familiarization with measuring Instruments

PC2. Understand the purpose of marking & distinguish different system of marking.

PC3. Familiarize with marking tools

PC4. Understand the usage of different angle measuring instruments

PC5. Understand the importance of Limits, Fits & Tolerance

PC6. Familiarize with different gauges used for checking

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Understand the object of measurements & Familiarization with measuring Instruments.

KU2. Understand the purpose of marking & distinguish different system of marking.

KU3. Understand the usage of different angle measuring instruments

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Familiarize with marking tools

Qualification Pack

Assessment Criteria

Qualification Pack

TNSD/CSC/N0214: Interpret and Create Basic Engineering Drawings.

Description

Read and understand engineering drawing so that items can be manufactured as per dimensions and specifications mentioned. Draw Board drawings of parts which are required to be manufactured.

Scope

The scope covers the following :

- Ability to read engineering drawing.
- Understand the different types of threads and its representation.
- Understand simple mechanical assemblies.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Learn the importance of engineering drawing, Practice on drawing instruments and write engineering script.
- PC2.** Understand the importance of Drawing standards.
- PC3.** Construct standard geometrical shapes and curves in engineering practices
- PC4.** Draw Free Hand sketching.
- PC5.** Draw different views of Orthographic projection
- PC6.** Prepare 3 dimensional drawings of a given object.
- PC7.** Prepare Sectional views with dimensional drawing.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Learn the importance of engineering drawing, Practice on drawing instruments and write engineering script.
- KU2.** Understand the importance of Drawing standards.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare Sectional views with dimensional drawing.

Qualification Pack

TNSD/CSC/N0215: Execute Basic Electrical Wiring and Panel Assembly

Description

Able to understand the basic electrical components and their functions. Able to connect the circuits for domestic and industrial applications.

Scope

The scope covers the following :

- Understand different electrical sub system.
- Understand the functionality of various Protective devices.
- Understand the working procedure of AC & DC Machines
- Familiarize electrical measuring instruments
- Familiarize the Cables & Connectors used in AC & DC Circuits
- Learn to Realize the need of Electrical Safety

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** learn the Construction of different electronics sub system and test electronic devices and sub system.
- PC2.** Understand to Estimate and perform panel wiring using different types of cables & connectors
- PC3.** Understand the working procedure of AC & DC Machines
- PC4.** Understand the basics of different types of cores & connectors and usage
- PC5.** Familiarize Cables & Connectors used in DC Circuits & AC Circuits
- PC6.** Realize the need of Electrical Safety
- PC7.** Learn to Construct different electrical sub-systems and measure parameters.
- PC8.** Estimate and perform panel wiring using cables, connectors, Protective devices and test functions
- PC9.** Demonstrate the troubleshoot and repair different Electrical, Electronic systems/ devices.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand to Estimate and perform panel wiring using different types of cables & connectors
- KU2.** Understand the working procedure of AC & DC Machines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Familiarize Cables & Connectors used in DC Circuits & AC Circuits

TNSD/CSC/N0216: Troubleshoot and Repair Basic Electronic Circuits

Description

Able to understand the electronic components and their functions Able to construct simple electronic circuits and trouble shoot.

Scope

The scope covers the following :

- Understand the fundamentals of electronic components
- Familiarization of component testing
- Familiarization of circuits
- Understand transistor circuits and switching
- Understand opto electronic devices and circuits
- Understand power electronics components

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Understand the fundamentals of electronic components

PC2. Familiarize testing of electronics component

PC3. Familiarize electronics circuits

PC4. Understand transistor circuits and switching

PC5. Understand conversion and power supply techniques

PC6. Design op-amp circuits

PC7. Understand opto-electronic devices and circuits

PC8. Demonstrate power electronics components and circuits.

PC9. Construct and Demonstrate different electronics sub system and test electronic devices and sub system.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Understand the fundamentals of electronic components

KU2. Understand transistor circuits and switching

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Familiarize testing of electronics component

GS2. Familiarize electronics circuits

Qualification Pack

TNSD/CSC/N0217: Work with Fundamentals of Microcontroller along with the digital electronics

Description

Able to understand the basic concepts & usage of Digital logic circuits Able to understand the architecture of 8051 microcontroller & programming.

Scope

The scope covers the following :

- Understand the fundamentals of digital electronic components
- Familiarize the number systems conversion, logic gates & Boolean algebra
- Familiarize the combinational & sequential circuits
- Understand the fundamentals of converters, memory devices & microcontroller construction and its programming

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the fundamentals of digital electronic components
- PC2.** Familiarize the number systems conversion
- PC3.** Familiarize the logic gates & Boolean algebra
- PC4.** Familiarize the combinational & sequential circuits
- PC5.** Understand the fundamentals of converters & memory devices
- PC6.** Understand the components of microcontroller
- PC7.** Familiarize the microcontroller programming
- PC8.** Construct and verify different Digital Logic Circuits.
- PC9.** Programme and interface peripherals to 8051 Microcontroller to check functioning.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the fundamentals of digital electronic components

TNSD/CSC/N0218: Utilize AutoCAD for Basic Technical Drafting

Description

Understand the method of drawing mechanical parts by using Auto CAD software

Scope

The scope covers the following :

- Understand the tools and commands used for drawing in AutoCAD.
- Familiarization with the drawing tools options available in AutoCAD.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Familiar with AUTOCAD
- PC2.** Create a drawing with different command options
- PC3.** Set up a working area. Understand usage of Grid and Snap mode, zoom functions
- PC4.** Create and inserting symbols, assigning layers, control line weights
- PC5.** Draw 2D standards with details
- PC6.** Create Orthographic views using software

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Create a drawing with different command options
- KU2.** Set up a working area. Understand usage of Grid and Snap mode, zoom functions

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Familiar with AUTOCAD

TNSD/CSC/N0219: Apply Fundamental Mathematical Concepts

Description

Understand the concept of basic mathematics used for doing calculations related to engineering application and general purpose

Scope

The scope covers the following :

- Familiar with System of units, conversions, Simple Arithmetic operations of fractions and decimals.
- Understanding the basic concepts of Ratio, proportion and mensuration.
- Familiar with basic Trigonometric functions and matrix

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Learn Fundamental and derived units, System of units, conversions, Arithmetic operations of fractions and decimal fractions
- PC2.** Review of Basic concepts of Arithmetic operations under Whole numbers, Common fraction and Decimal Fraction.
- PC3.** Understand the Basic concepts of Square root ,perfect square numbers, Prime factorization method, Application of Pythagora's theorem
- PC4.** Learn to Calculate Ratio, proportion and Percentage related problems
- PC5.** Learn to Find the Area, Perimeter of circles, triangles, Quadrilaterals & Polygons and related problems.
- PC6.** Understand to Evaluate the Volume, lateral surface area, total surface area of 3 - D shapes.
- PC7.** Learn the Concepts of trigonometry -ratios and identities
- PC8.** Learn to Find the unknown sides of triangle by using the sine, cos, tan ratios, Sine bar , taper ratio related problems.
- PC9.** Understand to find the Solution of triangles using Sine rule, Cosine rule and projection formula and related problems.
- PC10.** Understand the Concepts of Algebra , algebraic expressions , algebraic equations and Factorization by using Algebraic Identities.
- PC11.** Learn to Solve the homogeneous equations by algebraic concepts.
- PC12.** Learn to Perform Addition, subtraction, multiplication and division of matrices.
- PC13.** Learn to find the determinant of matrices, inverse of Matrices, Form the Euclidean form and find the rank of matrices
- PC14.** Learn to Solve the linear equations by Cramer rule and classification of solution of homogeneous equations

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Learn Fundamental and derived units, System of units, conversions, Arithmetic operations of fractions and decimal fractions
- KU2.** Understand the Basic concepts of Square root ,perfect square numbers,Prime factorization method, Application of Pythagoras theorem

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Understand to Evaluate the Volume, lateral surface area, total surface area of 3 D shapes.
- GS2.** Learn to find the determinant of matrices,inverse of Matrices, Form the Euclidean form and find the rank of matrices.

Qualification Pack

TNSD/CSC/N0220: Apply Principles of Applied Science.

Description

Understand the concept of basic science parameters related to engineering application and general purpose.

Scope

The scope covers the following :

- Understand the concepts of work, power, energy, speed, velocity, heat and pressure.
- Applications of Electricity, Magnetism, system of forces, stress, strain, simple machines.
- Understand the concept of friction, types and laws of friction
- Study the definition and types of forces, laws of forces, equilibrium and types of equilibrium-resolution of forces - Concept of centroid and centre of gravity
- Understand the concepts of stress & strain and their types

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Learn the Concepts of units and Quantity , Conversion of units
- PC2.** Understand the concept of work , power & energy and Related problems
- PC3.** Understand Derived quantity and related problems
- PC4.** Understand the Density of different materials and weight calculations .
- PC5.** Learn the Concept of Heat and temperature and its effects and related problems
- PC6.** Learn the System of forces and equilibrium and related problems
- PC7.** Learn the principles of Electricity and Magnetism and related calculations
- PC8.** Understand Friction and relation between Stress and strain and related calculations

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the Density of different materials and weight calculations .
- KU2.** Learn the Concept of Heat and temperature and its effects and related problems

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Learn the principles of Electricity and Magnetism and related calculations
- GS2.** Understand Friction and relation between Stress and strain and related calculations

Qualification Pack

DGT/VSQ/N0104: Employability Skills (120 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** understand the significance of employability skills in meeting the current job market requirement and future of work
- PC2.** identify and explore learning and employability relevant portals
- PC3.** research about the different industries, job market trends, latest skills required and the available opportunities

Constitutional values - Citizenship

To be competent, the user/individual on the job must be able to:

- PC4.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. for personal growth and the nation's progress
- PC5.** follow personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC6.** follow and promote environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC7.** recognize the significance of 21st Century Skills for employment

Qualification Pack

- PC8.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life
- PC9.** adopt a continuous learning mindset for personal and professional development

Basic English Skills

To be competent, the user/individual on the job must be able to:

- PC10.** use English as a medium of formal and informal communication while dealing with topics of everyday conversation in different contexts
- PC11.** speak over the phone in English, in an audible manner, using appropriate greetings, opening, and closing statements both on personal and work front
- PC12.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC13.** write short messages, notes, letters, e-mails etc., using accurate English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC14.** identify career goals based on the skills, interests, knowledge, and personal attributes
- PC15.** prepare a career development plan with short- and long-term goals

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC16.** follow verbal and non-verbal communication etiquette while communicating in professional and public settings
- PC17.** use active listening techniques for effective communication
- PC18.** communicate in writing using appropriate style and format based on formal or informal requirements
- PC19.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC20.** • ensure personal behaviour, conduct, and use appropriate communication by taking gender into consideration
- PC21.** empathize with a PwD and aid a PwD, if asked
- PC22.** escalate any issues related to sexual harassment at the workplace in accordance with the POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC23.** identify and select reliable institutions for various financial products and services such as bank account, debit and credit cards, loans, insurance etc.
- PC24.** carry out offline and online financial transactions, safely and securely, using various methods and check the entries in the passbook
- PC25.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC26.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC27.** operate digital devices and use their features and applications securely and safely
- PC28.** carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.
- PC29.** display responsible online behaviour while using various social media platforms
- PC30.** create a personal email account, send and process received messages as per requirement
- PC31.** carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications
- PC32.** utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC33.** identify different types of Entrepreneurship and Enterprises
- PC34.** use research and networking skills to identify and assess opportunities for potential business
- PC35.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC36.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC37.** identify different types of customers
- PC38.** identify and respond to customer requests and needs in a professional manner
- PC39.** use appropriate tools to collect customer feedback
- PC40.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC41.** create a professional Curriculum vitae (Résumé)
- PC42.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively
- PC43.** apply to identified job openings using offline /online methods as per requirement
- PC44.** answer questions politely, with clarity and confidence, during recruitment and selection
- PC45.** identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for employability skills
- KU2.** different learning and employability related portals
- KU3.** various constitutional and personal values
- KU4.** different environmentally sustainable practices and their importance
- KU5.** Twenty first (21st) century skills and their importance

Qualification Pack

- KU6.** how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up
- KU7.** importance of career development and setting long- and short-term goals
- KU8.** Do's and don'ts of effective communication
- KU9.** POSH Act
- KU10.** inclusivity and its importance
- KU11.** different types of disabilities and appropriate verbal and non-verbal communication and behaviour towards PwD
- KU12.** different types of financial institutes, products, and services
- KU13.** components of salary and how to compute income and expenditure
- KU14.** importance of maintaining safety and security in offline and online financial transactions
- KU15.** different legal rights and laws
- KU16.** different types of digital devices and the procedure to operate them safely and securely
- KU17.** how to create and operate an e- mail account
- KU18.** use applications such as word processors, spreadsheets etc.
- KU19.** different types of Enterprises and ways to identify business opportunities
- KU20.** types and needs of customers
- KU21.** how to apply for a job and prepare for an interview
- KU22.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and write different types of documents/instructions/correspondence in English and other languages
- GS2.** communicate effectively using appropriate language in formal and informal settings
- GS3.** behave politely and appropriately with all to maintain effective work relationship
- GS4.** how to work in a virtual mode, using various technological platforms
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

TNSD/CSC/N0221: Demonstrate Basic Computer Literacy

Description

Understand the usage of computer and its application for personal and professional use

Scope

The scope covers the following :

- Knowledge to work on a computer by using MS office
- Knowledge of internet applications with E-mail and mobile.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the computers and its applications
- PC2.** Learn the operating systems and basic operations
- PC3.** Practice working with MS – Word
- PC4.** Practice working with MS – Excel
- PC5.** Practice working with MS - Power Point Presentation
- PC6.** Learn WEB Browser using internet
- PC7.** Practice communicating with Email and mobile applications

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Learn the operating systems and basic operations
- KU2.** Understand the computers and its applications

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Learn WEB Browser using internet

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Assessment System Overview:

- Batches assigned to the assessment agencies for conducting the assessment on SIP or email
- Assessment agencies send the assessment confirmation to VTP/TC looping SSC
- Assessment agency deploys the ToA certified Assessor for executing the assessment
- SSC monitors the assessment process & records

2. Testing Environment:

- Check the Assessment location, date and time
- If the batch size is more than 30, then there should be 2 Assessors.
- Check that the allotted time to the candidates to complete Theory & Practical Assessment is correct.

3. Assessment Quality Assurance levels/Framework:

Qualification Pack

- Question bank is created by the Subject Matter Experts (SME) are verified by the other SME
- Questions are mapped to the specified assessment criteria
- Assessor must be ToA certified & trainer must be ToT Certified

4. Types of evidence or evidence-gathering protocol:

- Time-stamped & geotagged reporting of the assessor from assessment location
- Centre photographs with signboards and scheme specific branding

5. Method of verification or validation:

- Surprise visit to the assessment location

6. Method for assessment documentation, archiving, and access

- Hard copies of the documents are stored

On the Job:

1. Each module which covers in the job profile will be assessed separately.
2. The candidate must score 60% in each module to successfully complete the OJT.
3. Tools of Assessment that will be used for assessing whether the candidate is having desired skills and perform the Assembling Tasks.
 - Videos of Trainees during OJT
4. Assessment of each Module will ensure that the candidate is able to:
 - Effectively perform the task as per the job role of Manufacturing Assembler
 - Understand the working of various tools and equipment

Minimum Aggregate Passing % at QP Level : 60

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
