TSC/Q8101: Machine Operator - Sanitary Napkin

Brief Job Description

A Machine Operator-Sanitary Napkin- gets work allotted by his supervisor and is responsible for operating the machine efficiently so as to get maximum output with minimum defect and carrying out all activities on the machine, giving due importance to safety and environmental aspects.

Personal Attributes

A Sanitary Napkin Machine operator should have physical skills like dexterity, coordination, motor skills, strength, stamina and handle heavy equipment. A sanitary napkin machine operator should also have sensory skills like hearing ability and vision (normal distance vision, colour vision, night vision, peripheral vision, depth perception and ability to change focus).

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [TSC/N8101: Taking charge of shift and handing over shift to machine operator - Sanitary Napkin](#)
2. [TSC/N8102: Identification of Sanitary Napkin Machine parts and Understanding Process flow](#)
3. [TSC/N8103: Operating of Sanitary Napkin Making Machine](#)
4. [TSC/N8104: Maintaining the Sanitary Napkin Making Machine](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)
6. [TSC/N8105: Soft Skills to improve behaviour, hygiene, attitude, etc. and safety precautions](#)

Qualification Pack

TSC/N8101: Taking charge of shift and handing over shift to machine operator - Sanitary Napkin

Description

This unit is about taking charge of shift from previous shift sanitary napkin machine and relieving the responsibilities to the next shift sanitary napkin machine operator

Scope

The scope covers the following :

- taking charge of shift from Machine operator - Sanitary napkin
- handing over shift to sanitary Machine operator - Sanitary napkin

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** reach the department at least 15-20 minutes earlier
- PC2.** take a round around the Machine
- PC3.** check the cleanliness of the Sanitary Napkin machine
- PC4.** check the ongoing material/lot on machine
- PC5.** check the availability of sufficient raw materials and auxiliaries required during the shift
- PC6.** discuss with previous shift machine operator regarding working of the machines. If any issue then report to Supervisor
- PC7.** check that the wastes collection is properly carried-out
- PC8.** take a charge of machine from the outgoing operator in a proper manner
- PC9.** take information regarding the machine stoppages or breakdown of machines, production and quality issues. If any report to the Supervisor
- PC10.** check the machine has to be properly handed over to the incoming machine operator
- PC11.** report to the Supervisor before leaving the department

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** potential hazards associated with sanitary napkin machines and important safety precautions
- KU2.** protocol and standard procedures and formats to obtain information on work-related tasks in the production area
- KU3.** details of the various job roles and responsibilities in the production department
- KU4.** quality particulars pertaining to the sanitary napkin pad
- KU5.** production defects and causes
- KU6.** importance of quality napkin production
- KU7.** reporting methods and log book formats

Qualification Pack

KU8. protocol for taking charge, handing over the shift in production department as per SOP

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write clear and short sentences in the log book
- GS2.** communicate with colleagues and superiors as per standard protocol
- GS3.** comprehend written production, work method poster, safety, and routine maintenance instructions, etc.

TSC/N8102: Identification of Sanitary Napkin Machine parts and Understanding Process flow

Description

This NOS unit is about identification of machine parts and understanding process flow in the sanitary napkin machine operation process

Scope

The scope covers the following :

- Process flow and Machine parts identification in sanitary napkin machine

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** identify of the raw material used to make Sanitary napkins
- PC2.** identify the fibres that are used to make Sanitary napkins
- PC3.** identify about the required final product on machine
- PC4.** check the different parts of machine for its proper functioning
- PC5.** identify the different parts of the sanitary napkin machine
- PC6.** identify feed and delivered material of sanitary napkin machine
- PC7.** identify the defects in the feed and delivered material
- PC8.** check the continuous process flow of sanitary napkin making machine
- PC9.** identify the four sections of the sanitary napkin machine
- PC10.** monitor the working of each section of the sanitary napkin machine
- PC11.** check that the product is passing to next section as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** raw materials and other required accessories required for Sanitary Napkin Production
- KU2.** various varieties of man-made fibres and suitable type for sanitary napkin production
- KU3.** working principal of the sanitary napkin machine
- KU4.** various working parts of the sanitary napkin machine
- KU5.** time limits for attending various types of stoppages
- KU6.** tolerance limits in the sanitary napkin production

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** write clear and short sentences in the production log
- GS2.** communicate with colleagues and superiors as per standard protocol
- GS3.** comprehend written production, work method poster, safety, routine maintenance instructions, etc.
- GS4.** plan the tasks based on instructions from superiors

TSC/N8103: Operating of Sanitary Napkin Making Machine

Description

This NOS unit is about the machine operation in the sanitary napkin machine.

Scope

The scope covers the following :

- Operating the Sanitary Napkin Machine
- Monitoring the Sanitary Napkin Machine Operation

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** check the quality and quantity of raw material to be used on machine before running the machine
- PC2.** check that control switches for starting, running and stopping of machine are functioning properly
- PC3.** operate the sanitary napkin machine
- PC4.** check that the flow of the Continuous process divides into four steps - wood pulveriser, core forming unit, wing making, packing unit
- PC5.** check the proper functioning of compressed sheet form of wood pulp passed into Pulverizer unit to open the sheet into individual fibres
- PC6.** check the proper functioning of Super Absorbent Polymer is laying over wood fluff/fibres and pressed in SAP feeding unit
- PC7.** check the functioning of sheet passing to bottom film feeding unit where glue film placed over core material.
- PC8.** check the proper functioning of the material passes over to cutting unit where required shape is given
- PC9.** check the proper working condition of Packing cum sealing unit
- PC10.** inspect the produced sanitary napkin is free from faults
- PC11.** identify the damaged caused in sanitary napkin produced in the shift
- PC12.** leave the work area safe and secure after work done

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** potential hazards associated with machine operation
- KU2.** quality requirements of sanitary pad
- KU3.** various defects in the sanitary napkin machine
- KU4.** time limits for attending various types of stoppages

Qualification Pack

KU5. organizational quality systems like 5S, ISO, SA, etc.

KU6. tolerance limits for the sanitary napkin pad

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. write clear and short sentences in the production log book

GS2. communicate with colleagues and superiors as per standard protocol

GS3. comprehend written production, work method poster, safety, routine maintenance instructions, etc

GS4. plan the tasks based on instructions from superiors

TSC/N8104: Maintaining the Sanitary Napkin Making Machine

Description

This unit is about maintaining the sanitary napkin machine, and other safety work responsibilities associated to the sanitary napkin machine.

Scope

The scope covers the following :

- Maintaining the Sanitary Napkin Machine

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** check that all the stop motions are functions as per the standards
- PC2.** check the material is properly passes over to next section in the sanitary napkin machine
- PC3.** follow the preventive maintenance schedule as per the instructions
- PC4.** check that any tool/ spare/raw material/any other waste are not thrown under/near the machine
- PC5.** follow the prescribed precautionary measures in the work place
- PC6.** follow the instructions to be followed in the work place
- PC7.** check the machines and work area cleanliness as per the guidelines
- PC8.** check the process parameters during the production process
- PC9.** report to the Supervisor for the maintenance related issues
- PC10.** attend the machine breakdown within the prescribed timelines
- PC11.** follow the prescribed waste collection procedure inside the department
- PC12.** use the personal protective equipment such as “ear plug”, “face mask”, “head cap” etc., as per protocol
- PC13.** carry out cleaning according to the scheduled and limits of responsibility

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizational standard procedures, quality standards, rules, codes, policies and safety standards in the textile sector
- KU2.** different type of tools and equipment used in textile sub- sector and their specifications and operating procedures
- KU3.** safe handling procedure of tools and equipment
- KU4.** the importance of displays and written instructions for the allocated machines
- KU5.** dos and donts specific to the assigned work responsibilities
- KU6.** protocol for minimizing the wastage of material, effort and time

Qualification Pack

- KU7.** organizations formats and procedures for reporting production, defects, faults, material/tool requisition and quality parameters and task completed for assigned job
- KU8.** schedule for cleaning and waste collection for the assigned job role
- KU9.** importance and standard procedure for disposal of soft, hard, non-hazardous and hazardous wastes and materials
- KU10.** available types of material handling equipment and handling methods used in the textile sector

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and comprehend policies in notice boards displayed in the workplace
- GS2.** minimize the resource consumption for the assigned task
- GS3.** solve basic arithmetic calculations related to assigned job role
- GS4.** recognize and differentiate colors of materials used in textile sector
- GS5.** lift specified materials for the allotted task using prescribed ergonomic position
- GS6.** exhibit motor skill required for the allotted task

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

TSC/N8105: Soft Skills to improve behaviour, hygiene, attitude, etc. and safety precautions

Description

This unit is about soft skills to improve behaviour, hygiene, attitude and safety precautions to be followed by a sanitary napkin machine operator.

Scope

The scope covers the following :

- Generic Skills to be followed in Sanitary Napkin Production Operation

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** wear protective equipment as per the direction
- PC2.** store the maintenance equipment at the designated place
- PC3.** follow the electrical work handling instructions at workplace
- PC4.** follow prescribed work wear in the production line
- PC5.** perform only the trained activities inside the department
- PC6.** pay attention to safety inside the production area
- PC7.** follow work place etiquettes
- PC8.** keep the work area neat and clean
- PC9.** use fire safety equipment as per the standard instructions
- PC10.** follow the prescribed communication instructions at work place
- PC11.** provide respect irrespective of the gender/ race at the work place
- PC12.** treat Persons with Disability in a prescribed way
- PC13.** pay attention to cultural diversity

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** importance of teamwork and discipline
- KU2.** limits and responsibilities for the assigned duties in the textile sector
- KU3.** possible conflicts in the assigned job role and methods to resolve the same
- KU4.** importance of teamwork, group discussions and healthy work environment
- KU5.** importance of reporting as per the standard protocol
- KU6.** hierarchy of communication and communication etiquettes in the textile sector
- KU7.** protocol for communication with different ethnicity, gender and PwD
- KU8.** report and grievance submission formats

Qualification Pack

KU9. importance of hand, vocal sound signals in the textile sector

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and comprehend written instructions
- GS2.** listen effectivity for the instructions
- GS3.** coordinate with team mates for the allotted tasks
- GS4.** use and comprehend prescribed voice and hand signals in the textile production area
- GS5.**
 - fill forms and prepare reports such as production report, material requisition forms, leave application, etc. as per standard formats

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council.

Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.

The assessment for the theory part will be based on knowledge bank of questions created by the SSC. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).

Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.

In case of successfully passing only certain number of NOSs, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.

In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
TSC/N8101.Taking charge of shift and handing over shift to machine operator - Sanitary Napkin	3	7	0	0	10	10
TSC/N8102.Identification of Sanitary Napkin Machine parts and Understanding Process flow	10	20	0	0	30	30
TSC/N8103.Operating of Sanitary Napkin Making Machine	10	20	0	0	30	30
TSC/N8104.Maintaining the Sanitary Napkin Making Machine	3	7	0	0	10	10
DGT/VSQ/N0101.Employability Skills (30 Hours)	20	30	-	-	50	10
TSC/N8105.Soft Skills to improve behaviour, hygiene, attitude, etc. and safety precautions	3	7	0	0	10	10
Total	49	91	-	-	140	100

TVET	Technical and Vocational Education and Training

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
