WBSC/AMH/Q1901: Garment Maker

Brief Job Description

The Garment Maker is responsible for the end-to-end process of garment production from material selection to final quality checks. This role requires proficiency in sewing techniques, pattern drafting and cost estimation to ensure high-quality finished products that meet design specifications.

Personal Attributes

A Garment Maker demonstrates precision, creativity and attention to detail, along with strong technical skills in drafting, stitching and finishing. They maintain a disciplined, safety-conscious and customer-oriented attitude. Adaptability, teamwork and entrepreneurial thinking further enhance their professional growth.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [WBSC/AMH/N1901: Describe the roles of garment maker.](#)
2. [WBSC/AMH/N1902: Identify garment-making tool.](#)
3. [WBSC/AMH/N1903: Operate sewing machines efficiently.](#)
4. [WBSC/AMH/N1904: Make basic garment patterns using drafting techniques.](#)
5. [WBSC/AMH/N1905: Apply hand and machine stitching techniques.](#)
6. [WBSC/AMH/N1906: Cut and stitch garments.](#)
7. [WBSC/AMH/N1907: Ensure proper finishing of the produced garments.](#)
8. [WBSC/AMH/N1908: Estimate the cost of garments.](#)
9. [WBSC/AMH/N1909: Work in real job situation with emphasis on basic safety and hazards.](#)
10. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Electives (mandatory to select at least one):

Elective 1: Set up new business

1. [WBSC/AMH/N1910: Set up a small garment business unit.](#)

Qualification Pack

Elective 2: Hand Embroidery

1. [WBSC/AMH/N1911: Design hand embroidery on fabric.](#)

Elective 3: Batik work

1. [WBSC/AMH/N1912: Make batik designs.](#)

Qualification Pack

WBSC/AMH/N1901: Describe the roles of garment maker.

Description

Describe the roles of garment maker.

Scope

The scope covers the following :

- Unsafe working conditions in line with site policies.
- Punctuality, responsibility, and respect for materials in practice.
- Ergonomic principles in workstation setup and posture awareness.
- Handling of customer queries, complaints, and alterations effectively.
- Role-playing exercises to simulate customer interactions and upselling.
- Customer feedback for service improvement.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify unsafe working conditions in line with site policies.
- PC2.** Demonstrate punctuality, responsibility, and respect for materials in practice.
- PC3.** Apply ergonomic principles in workstation setup and posture awareness.
- PC4.** Handle customer queries, complaints, and alterations effectively.
- PC5.** Engage in role-playing exercises to simulate customer interactions and upselling.
- PC6.** Analyze customer feedback for service improvement.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Procedures to achieve a safe working environment in line with occupational health and safety regulations and requirements according to site policy.
- KU2.** Work ethics such as Punctuality, Quality of Work, Responsibility, Honesty and Transparency, Teamwork, respect for Materials and Resources, time management, adaptability etc.
- KU3.** Ergonomics like proper Workstation Design, Tool and Equipment Placement, Posture Awareness, Lighting and Ventilation, Use of Ergonomic Tools etc.
- KU4.** First-Aid, nature and causes of injury and utilization of first-aid.
- KU5.** Various employment opportunities for the job holder in the apparel industry.
- KU6.** Garment production process and the role of Garment maker in the process.
- KU7.** Handling of customer queries and complaints.
- KU8.** Management of customer order and alterations.
- KU9.** Sales techniques and upselling.
- KU10.** Customer feedback and improvement.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Recognize any unsafe situations according to site policy, and assess his / her report accordingly.
- GS2.** Identify the roles and responsibilities of all departments of Garment Industry.
- GS3.** List the exact roles and responsibilities of a Garment maker.
- GS4.** Practice discipline, hygiene, safety and effective communication.
- GS5.** Role play customer interactions.
- GS6.** Handle customer complaints and queries.
- GS7.** Provide recommendations and advice.
- GS8.** Collect and analyze customer feedback.

Qualification Pack

WBSC/AMH/N1902: Identify garment-making tool.

Description

Identify garment-making tool.

Scope

The scope covers the following :

- Different types of fabrics, threads, buttons, and fasteners used in garment making.
- Selection of appropriate materials based on the design.
- Demonstration of correct use of measuring tools.
- Conversion of units of measurement.
- Taking of body measurements accurately using measuring charts and a dummy.
- Usage of cutting tools and marking tools effectively for different fabrics.
- Cutting of fabrics precisely following patterns.
- Adjustment of cutting techniques as required.
- Maintenance cutting tools through proper cleaning and sharpening procedures.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify different types of fabrics, threads, buttons, and fasteners used in garment making.
- PC2.** Select appropriate materials based on the design.
- PC3.** Demonstrate correct use of measuring tools.
- PC4.** Convert units of measurement.
- PC5.** Take body measurements accurately using measuring charts and a dummy.
- PC6.** Use cutting tools and marking tools effectively for different fabrics.
- PC7.** Cut fabrics precisely following patterns.
- PC8.** Adjust cutting techniques as required.
- PC9.** Maintain cutting tools through proper cleaning and sharpening procedures.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Types of fabrics and their use in garment industry (cotton, silk, polyester).
- KU2.** Different types of threads (cotton, polyester, nylon) and their uses based on fabric type.
- KU3.** Buttons and Fasteners: Types of buttons (plastic, metal, wooden) and their application.
- KU4.** Fabric grain and its importance in cutting.
- KU5.** Selection of materials based on the design.
- KU6.** Different measuring tools: measuring tape, ruler, French curve, and L-square.
- KU7.** How to read a measuring tape used by tailor.

Qualification Pack

- KU8.** Conversion of units from one measurement to another unit of measurement.
- KU9.** Measuring charts.
- KU10.** Body measurement.
- KU11.** Measuring the Form: Preparing the form for measuring
- KU12.** Taking Measurements.
- KU13.** Procedure measurements of different body length from the Dummy. Introduction to dummy, such as princess line High Shoulder Point, Neck line, etc.
- KU14.** Pattern chart.
- KU15.** Overview of the importance of cutting tools in garment making.
- KU16.** Types of cutting tools: Fabric shears, rotary cutters, Pinking shears, Thread snips, Seam rippers, Cutting mats and rulers.
- KU17.** Cutting techniques and best practices.
- KU18.** Identification & use of Marking tools such as Tailor's Chalk, Fabric Marker Pen, Tracing Paper, Pins & Safety Pins etc
- KU19.** Identification & use of Finishing tools such as Pinking Shears, Seam Ripper, Fabric Clippers/Thread Snips, Bias Tape Maker, Pressing Tools (Iron, Ironing Board, Pressing Ham, Seam Roll).
- KU20.** Identification & use of Sewing tools such as Sewing Needles, Sewing Machine Feet, Thimble, Seam Gauge, Needle Threader.
- KU21.** Proper handling and maintenance of cutting tools.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Practice cutting different types of fabrics (lightweight, medium, and heavy fabrics).
- GS2.** Match threads with fabric and practice threading and stitching.
- GS3.** Attach buttons (plastic, metal, wooden) and other fasteners like zippers and hooks.
- GS4.** Select appropriate buttons and fasteners based on the garment design.
- GS5.** Adjust cutting techniques based on fabric type.
- GS6.** Prepare the form for taking body measurements.
- GS7.** Take Body Measurements: Circumference, vertical & horizontal.
- GS8.** Demonstrate the measurement of tape in a fabric with correct reading. Read a tape in Centimeters. Conversion of unit between Centimeters & inches while measuring.
- GS9.** Practice using tape. Taking measurement. Sequencing of Measurement. Use of L scale. Procedure measurements of different body length from the Dummy.
- GS10.** Identify different cutting tools for the trade.
- GS11.** Practice basic cutting techniques.
- GS12.** Select the appropriate pattern to be used.
- GS13.** Cut the cloth as per the actual measurement of pattern.
- GS14.** Prepare sample pieces by cutting.
- GS15.** Design and cut simple ladies dresses, mens shirt, trousers, kids dresses.

Qualification Pack

GS16. Clean and sharpen cutting tools.

WBSC/AMH/N1903: Operate sewing machines efficiently.

Description

Operate sewing machines efficiently.

Scope

The scope covers the following :

- Major sewing machine parts and their functions.
- Difference between types of sewing machines and their uses.
- Selection of suitable needle, thread, and machine for fabric types.
- Demonstration of threading, tension adjustment, and basic machine operation.
- Routine cleaning and oiling of machine components.
- Common machine issues like thread breakage or skipped stitches.
- Repairing of machine faults using correct methods and tools.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify major sewing machine parts and their functions.
- PC2.** Differentiate between types of sewing machines and their uses.
- PC3.** Select suitable needle, thread, and machine for fabric types.
- PC4.** Demonstrate threading, tension adjustment, and basic machine operation.
- PC5.** Perform routine cleaning and oiling of machine components.
- PC6.** Diagnose common machine issues like thread breakage or skipped stitches.
- PC7.** Repair machine faults using correct methods and tools.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Overview of sewing machines and their uses in garment production.
- KU2.** The major parts of the sewing machines such as needle, bobbin, presser foot, feed dogs etc and their functions.
- KU3.** Types of machines: Manual & Motorized sewing machine, buttonhole machines
- KU4.** Types of Sewing Machines beds: flatbed, raised bed, post bed, cylindrical bed, and side bed.
- KU5.** Types of belts used: flat belt and V-belt.
- KU6.** The cleaning process and cleaning of oil, dirt from the machine.
- KU7.** Common machine problems such as thread breakage, skipped stitches.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Identify different types of sewing machines.
- GS2.** Identify machine parts of sewing machine.
- GS3.** Select appropriate needle and thread.
- GS4.** Select right type of machine for a particular fabric & particular construction.
- GS5.** Perform Basic operation such as threading the machine, adjusting tension, and starting/stopping.
- GS6.** Demonstrate proper oiling techniques for various parts of the machine.
- GS7.** Perform basic maintenance such as cleaning lint, tightening screws.
- GS8.** Identify the fault of the equipment and repair with correct method.

WBSC/AMH/N1904: Make basic garment patterns using drafting techniques.

Description

Make basic garment patterns using drafting techniques.

Scope

The scope covers the following :

- Drafting of accurate garment patterns using drafting techniques.
- Key technical terms in pattern making.
- Pattern manipulation and grading for different sizes.
- Cutting of basic pattern blocks for various garments.
- Transferring of paper patterns onto a fabric.
- Sketching of key garment components such as necklines, sleeves, and collars.
- Creation of patterns for men's, women's, and children's garments with proper measurements.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Draft accurate garment patterns using drafting techniques.
- PC2.** Explain key technical terms in pattern making.
- PC3.** Demonstrate pattern manipulation and grading for different sizes.
- PC4.** Cut basic pattern blocks for various garments.
- PC5.** Transfer paper patterns onto a fabric.
- PC6.** Sketch key garment components such as necklines, sleeves, and collars.
- PC7.** Create patterns for men's, women's, and children's garments with proper measurements.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Drafting and Paper Patterns: Types, Importance, Pattern drafting
- KU2.** Familiarization of technical terms used like pattern, block, dart, seam allowance, grain line, notch, ease, drafting, yoke, placket, muslin etc.
- KU3.** Principles of pattern drafting.
- KU4.** Pattern a bodice block.
- KU5.** Patterns manipulation techniques.
- KU6.** Pattern grading Size M, L, XL.
- KU7.** Overview of different garments: Mens kurta, pyjama, shirt, pant, Womens petticoat, blouse, nightwear, salwar, kurti, Childrens wear.
- KU8.** Drafting and patterns making on brown paper & transfer all on a cloth, cut with the scissor.

Qualification Pack

- KU9.** Procedure of cutting the cloth of definite measurement. Uses of different types of scissors for cutting cloth.
- KU10.** Spreading and material handling.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Identify different pattern making tools.
- GS2.** Practice on taking body measurements.
- GS3.** Create basic pattern blocks on a ladies bodice.
- GS4.** Make simple draft. Make Pattern. Cut Paper pattern.
- GS5.** Sketch the Following: Neckline, Collars, Sleeves, Cascade, Pockets.
- GS6.** Draft basic patterns for men's kurta, pyjama, shirt, and pant.
- GS7.** Draft patterns for women's petticoat, blouse, salwar, kurti, and nightwear.
- GS8.** Create patterns for childrens' wear.
- GS9.** Make draft of sleeve block.
- GS10.** Make draft of skirt block.

WBSC/AMH/N1905: Apply hand and machine stitching techniques.

Description

Apply hand and machine stitching techniques.

Scope

The scope covers the following :

- Demonstration of basic hand stitches like running, backstitch, etc..
- Performance of basic machine stitches with accuracy and consistency.
- Adjustment of stitch tension and length according to fabric type.
- Identification of appropriate stitches for different seams and fabrics.
- Performance of a variety of seams and seam finishes.
- Inspection of stitching quality for tension, alignment, and consistency.
- Troubleshooting of common stitching problems effectively.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Demonstrate basic hand stitches like running, backstitch, etc..

PC2. Perform basic machine stitches with accuracy and consistency.

PC3. Adjust stitch tension and length according to fabric type.

PC4. Identify appropriate stitches for different seams and fabrics.

PC5. Perform a variety of seams and seam finishes.

PC6. Inspect stitching quality for tension, alignment, and consistency.

PC7. Troubleshoot common stitching problems effectively.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Overview of hand stitching and machine stitching in garment making.

KU2. Types of basic stitches (Running stitch, Backstitch, Basting stitch, Slip stitch, Overcast stitch, Zigzag stitch, Blanket stitch).

KU3. Basic machine stitches: straight stitch, zigzag stitch, buttonhole stitch, and blind hem stitch.

KU4. Demonstration of stitch tension, stitch length, and consistency.

KU5. Identification of the right stitch for different fabrics and seams.

KU6. Types of seams and seam finishes and their applications.

KU7. Types of threads and their compatibility with fabrics and stitching techniques.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Practice basic hand stitching such as running stitches, backstitches, basting stitches, slip stitches.
- GS2.** Practice finishing edges and seams using hand stitches.
- GS3.** Perform straight, zigzag, and buttonhole stitches using a sewing machine.
- GS4.** Adjust stitch length and tension for different fabrics.
- GS5.** Practice using both hand and machine stitches on a single garment.
- GS6.** Make Sample of different types of Seams :Plain Seam, Double stitched Seam, French Seam, Bound Seam, Flat felled seam, Welt Seam, Lapped Seam
- GS7.** Inspect stitches for consistent length, tension, and alignment.
- GS8.** Troubleshoot common stitching problems.

WBSC/AMH/N1906: Cut and stitch garments.

Description

Cut and stitch garments.

Scope

The scope covers the following :

- Examination of garment fitting accuracy after cutting and stitching.
- Assessment of precision in pattern layout and cutting techniques.
- Verification of correctness in stitching procedures for various garments.
- Checking of the quality of pockets, collars, buttonholes, hooks, and buttons.
- Inspection of the removal of fabric stains and garment cleanliness.
- Measurement of consistency with fabric estimation and cutting accuracy.
- Reviewing of garment finishing, including pressing, folding, and defect checks.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Examine garment fitting accuracy after cutting and stitching.
- PC2.** Assess precision in pattern layout and cutting techniques.
- PC3.** Verify correctness in stitching procedures for various garments.
- PC4.** Check the quality of pockets, collars, buttonholes, hooks, and buttons.
- PC5.** Inspect the removal of fabric stains and garment cleanliness.
- PC6.** Measure consistency with fabric estimation and cutting accuracy.
- PC7.** Review garment finishing, including pressing, folding, and defect checks.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Pattern layout and cutting techniques for each garment type.
- KU2.** Sample making.
- KU3.** • Pattern making, fabric estimation, cutting, sewing of the following:
 - Mens' Kurta, Pyjama, Shirt, and Pant, womens' Petticoat, Blouse, Nightwear, Salwar, and Kurti, children's garments.
- KU4.** The procedure for stitching of men's Kurta, Pyjama, Shirt, and Pant, womens' Petticoat, Blouse, Nightwear, Salwar, and Kurti, children's garments.
- KU5.** Cutting and stitching the pockets, collars, buttons hole, hooks and eye and stitch buttons.
- KU6.** Checking the fittings of the garments.
- KU7.** Methods of removing different kinds of stains in fabrics.

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** Practice basic cutting techniques.
- GS2.** Select the appropriate pattern to be used.
- GS3.** Cut the cloth as per the actual measurement of pattern.
- GS4.** Prepare sample pieces by cutting& stitching.
- GS5.** Stitch different dresses by appropriate procedure. Combination of colour of dresses.
- GS6.** Make Sketches and drafts of the following garments: Mens' Kurta, Pyjama, Shirt, and Pant, womens' Petticoat, Blouse, Nightwear, Salwar, and Kurti, children's garments.
- GS7.** Make Pattern, fabric estimation, cutting, stitching, sewing, pressing and folding of the followings garments: Mens' Kurta, Pyjama, Shirt, and Pant, womens' Petticoat, Blouse, Nightwear, Salwar, and Kurti, children's garments
- GS8.** Cut and stitch the pockets, collars, button hole, hooks and eye and stitch buttons.
- GS9.** Remove different kind of stains in fabric.
- GS10.** Check garments in respect of- Measurements, Stitching, Stains, Defects, Pattern alteration.

WBSC/AMH/N1907: Ensure proper finishing of the produced garments.

Description

Ensure proper finishing of the produced garments.

Scope

The scope covers the following :

- Identification of defects in raw materials
- Maintenance of seam quality and consistent tension in stitching.
- Demonstration of proper pressing techniques based on garment fabric types.
- Removal of stains using appropriate equipment and methods.
- Remedy for common fitting issues.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Identify defects in raw materials.

PC2. Maintain seam quality and consistent tension in stitching.

PC3. Demonstrate proper pressing techniques based on garment fabric types.

PC4. Remove stains using appropriate equipment and methods.

PC5. Provide remedy for common fitting issues.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. The common defects and quality issues in raw materials(Fabric, threads, buttons),

KU2. Maintenance of seam quality and consistent tension during stitching.

KU3. Correct Method of pressing different garments according to fabric and folding of garments. Precautions while pressing & finishing.

KU4. Classification of stains. Means of stains removing & stain removing equipment.

KU5. Importance of Pressing and Finishing.

KU6. Types of pressing equipment.

KU7. Types of finishing processes.

KU8. Precautions while pressing & finishing.

KU9. Principals of fitting. Common fitting problem & how to remedy them.

KU10. Safety precautions in pressing and finishing.

KU11. Identification of regulatory requirements for garment labels such as fiber content, care instructions, manufacturer details.

KU12. Types of documentation: inspection reports, quality control checklists, and defect logs.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ensure Neatness and Precision in Stitching to Maintain the Quality of garment products.
- GS2.** Apply finishing touches to completed Garment pieces such as securing threads, trimming excess and pressing the fabric.
- GS3.** Identify different types of Pressing equipment.
- GS4.** Press - Cotton garments, Terylene garments, Silk garments, packing of various garments (folding).
- GS5.**
 - Follow pressing sequence for garments
 - Tailor marks, Fittings & alterations, New garments from old-fabric / garments.
- GS6.** Apply Methods of removing different kind of stains in fabric.
- GS7.** Check garments in respect of- Measurements, Stitching, Stains, Defects, Pattern alteration.
- GS8.** Practice creating and attaching content labels, including fiber content, care instructions, and size.
- GS9.** Demonstrate proper package and storage techniques to maintain the quality of the garments.
- GS10.** Perform Q.C. test for different raw materials.
- GS11.** Fill out inspection reports and quality control checklists during and after garment production.
- GS12.** Record specific details of defects, quality issues, and corrective measures taken.

Qualification Pack

WBSC/AMH/N1908: Estimate the cost of garments.

Description

Estimate the cost of garments.

Scope

The scope covers the following :

- Estimation of the cost of raw materials for individual garment pieces accurately.
- Identification of cost components for various types of garments including labor and overhead.
- Calculation of waste percentages for each garment type effectively.
- Determination of appropriate profit margins for different garments based on market standards.
- Tax implications related to garment production for individual and bulk orders.
- Preparation of detailed cost sheets for both individual pieces and bulk orders.
- Generation of accurate quotations and invoices for bulk garment orders.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Estimate the cost of raw materials for individual garment pieces accurately.
- PC2.** Identify cost components for various types of garments including labor and overhead.
- PC3.** Calculate waste percentages for each garment type effectively.
- PC4.** Determine appropriate profit margins for different garments based on market standards.
- PC5.** Explain tax implications related to garment production for individual and bulk orders.
- PC6.** Prepare detailed cost sheets for both individual pieces and bulk orders.
- PC7.** Generate accurate quotations and invoices for bulk garment orders.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Importance of accurate cost estimation in the garment manufacture.
- KU2.** The cost of raw materials.
- KU3.** Different types of costing.
- KU4.** Identification of cost components for making Individual pieces and bulk orders of Mens Kurta, Pyjama, Shirt and Pant, womens Petticoat, Blouse, Nightwear, Salwar and Kurti, childrens garments
- KU5.** Calculation of waste for each garment types.
- KU6.** Identification of different profit margins for different garments (e.g. for Mens' garments: Moderate margins, for Womens' garments: Higher margins etc)
- KU7.** Tax implications for different garment types (local GST/VAT rates).
- KU8.** Tax differences in individual vs bulk production for mens', womens' and childrens' garments.

Qualification Pack

KU9. Preparation of quotation and invoice format for bulk garment orders.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Practice on estimating cost for Individual piece of Mens' Kurta, Pyjama, Shirt and Pant, womens' Petticoat, Blouse, Nightwear, Salwar and Kurti, childrens' garments.
- GS2.** Calculate raw material, labor and overhead costs etc. for making individual pieces of garment.
- GS3.** Prepare detail cost sheet.
- GS4.** Calculate profit margins for individual pieces.
- GS5.** Derive final making charge.
- GS6.** Practice on estimating cost for Bulk Order of Mens' Kurta, Pyjama, Shirt, and Pant, womens' Petticoat, Blouse, Nightwear, Salwar and Kurti, childrens' garments
- GS7.** Calculate the cost for producing 1000 blouses or petticoats including raw material, labor, and overhead, packing & shipping charges etc.
- GS8.** Prepare detail cost sheet.
- GS9.** Calculate profit margins for individual pieces and derive final making charge.
- GS10.** Generate quotation for bulk orders.
- GS11.** Prepare invoice for the same bulk orders.
- GS12.** Apply strategies to reduce waste during fabric cutting.

WBSC/AMH/N1909: Work in real job situation with emphasis on basic safety and hazards.

Description

Work in real job situation with emphasis on basic safety and hazards.

Scope

The scope covers the following :

- Work in the real job situation.
- Report preparation on the competency developed.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Work in the real job situation with special emphasis on basic safety and hazards in this domain.
- PC2.** Prepare report for this component of training of the course to ensure whether competency has been developed.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Work in the real job situation with special emphasis on basic safety and hazards in this domain.

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

WBSC/AMH/N1910: Set up a small garment business unit.

Description

Set up a small garment business unit.

Scope

The scope covers the following :

- The mission, vision, and goals of the garment business unit.
- Target markets, industry trends and competitors.
- Various funding sources and their applications.
- Creation of a comprehensive operational plan covering production and logistics.
- Creation of a realistic financial projections including income and expenses.
- The system for tracking business performance using KPIs.
- Recording of various cash transactions accurately using appropriate methods.
- Practising compliance with GST concepts.
- Utilisation of inventory management tools to maintain accurate stock levels.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Define the mission, vision, and goals of the garment business unit.
- PC2.** Identify target markets, industry trends and competitors.
- PC3.** Identify various funding sources and their applications.
- PC4.** Create a comprehensive operational plan covering production and logistics.
- PC5.** Create realistic financial projections including income and expenses.
- PC6.** Explain the system for tracking business performance using KPIs.
- PC7.** Record various cash transactions accurately using appropriate methods.
- PC8.** Practice compliance with GST concepts.
- PC9.** Utilize inventory management tools to maintain accurate stock levels.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Definition of the mission, vision, goals and the products or services offered in its industry.
- KU2.** The entire business concept, unique selling points (USPs) and competitive advantages.
- KU3.** Identification of the target market, industry trends and analysis of competitors.
- KU4.** Collaboration with sales and marketing teams to gather insights on promotions, seasonal variations and market changes.

Qualification Pack

- KU5.** • Identification of different Sources of Fund for Start-up such as state Government schemes:
 - Smami Vivekanda Swanibhar Karmasanthan Prakalpa (SVSKP)
 - West Bengal Swanirbhar Sahayak Prakalpa (WBSSP)
 - Bhavisyat Credit Card
 - WBMDFC Schemes
- KU6.** Specification of product/service details, pricing and positioning in the market.
- KU7.** Planning of day-to-day operations (production, logistics and facilities), financial forecasts (income, balance sheets) and potential risks the business may face.
- KU8.** A system for regular monitoring and evaluation of the business plans' implementation.
- KU9.** Difference between various forms of payments (cash, card, UPI).
- KU10.** The significance of invoices, cash receipts, vouchers, and cash memos.
- KU11.** E-payment concepts, debit and credit cards, UPI and mobile applications.
- KU12.** The terms such as event, transaction, account, capital, asset, liabilities, income, expenses, profit, loss, cost and vouchers.
- KU13.** The GST concepts, applicability, exemptions, SGST, CGST, IGST, input tax, output tax, TCS, TDS, including rates and compliance.
- KU14.** Categorisation of products into A, B and C classes based on their importance and value.
- KU15.** Implementation of Just-In-Time (JIT) inventory systems with reliable suppliers to reduce excess inventory.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Estimate the amount of funding required and the purpose, whether through loans, investments or other means.
- GS2.** Demonstrate detailed financial projections based on realistic assumptions and market trends.
- GS3.** Provide the operational plan on how the business will function, covering processes, technology and resources.
- GS4.** Demonstrate step-by-step plan for implementing the business strategy along with key metrics (KPIs) to track the business progress.
- GS5.** Hands-on practice in identifying and recording various cash transactions.
- GS6.** Gather practical experience with e-payment methods, debit/credit cards, UPI and mobile applications.
- GS7.** Perform practical exercises in generating cash memos and related documents.
- GS8.** Role-play scenarios for effectively managing returns, refunds and exchanges.
- GS9.** Use accounting software or manual methods, record various financial transactions.
- GS10.** Practice preparing invoices, receipts, and vouchers.
- GS11.** Perform practical application of GST concepts, including calculations and compliance.
- GS12.** Implement inventory management software to automate processes, track stock levels in real-time and generate accurate reports.
- GS13.** Conduct regular physical audits and cycle counts to ensure the accuracy of inventory records.

Qualification Pack

- GS14.** Collaborate with key partners in the supply chain for shared demand forecasting and planning.
- GS15.** Utilize data analytics tools to analyze historical data, identify trends and make informed decisions.
- GS16.** Practice on creating detail project report template.

WBSC/AMH/N1911: Design hand embroidery on fabric.

Description

Design hand embroidery on fabric.

Scope

The scope covers the following :

- Different types of fabrics and threads suitable for embroidery techniques.
- Preparation of fabric by washing, ironing, and stabilizing before embroidery.
- Selection of appropriate tools for hand embroidery tasks.
- Transference of designs accurately onto fabric.
- Basic and advanced stitching techniques.
- Combination of multiple stitching techniques to create unique designs.
- Evaluation of stitched designs for quality, accuracy, and uniformity.
- Securing thread ends effectively.
- Presentation of the finished embroidered product using appropriate techniques.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify different types of fabrics and threads suitable for embroidery techniques.
- PC2.** Prepare fabric by washing, ironing, and stabilizing before embroidery.
- PC3.** Select appropriate tools for hand embroidery tasks.
- PC4.** Transfer designs accurately onto fabric.
- PC5.** Demonstrate basic and advanced stitching techniques.
- PC6.** Combine multiple stitching techniques to create unique designs.
- PC7.** Evaluate stitched designs for quality, accuracy, and uniformity.
- PC8.** Secure thread ends effectively.
- PC9.** Present the finished embroidered product using appropriate techniques.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Historical and cultural significance of embroidery.
- KU2.** Basic embroidery techniques and their importance as surface decoration.
- KU3.** Overview of Indian heritage in embroidery.
- KU4.** Types of fabrics (cotton, linen, silk) and their suitability for different techniques.
- KU5.** Types of threads (cotton, silk, metallic) and appropriate needle sizes.
- KU6.** Tools required: needles, hoops, scissors, and thimbles.
- KU7.** Preparation of fabric: washing, ironing, and stabilizing for embroidery.

Qualification Pack

- KU8.** Fabric stabilization using hoops or frames.
- KU9.** Selection of threads and embellishments based on design.
- KU10.** Techniques for tracing and transferring designs onto fabric.
- KU11.** Thread selection based on fabric type and design.
- KU12.** Importance of quality control during the embroidery process.
- KU13.** Identification of defects and ensuring uniformity in stitches.
- KU14.** Final preparation and presentation of embroidered products.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Select appropriate fabrics and threads for different embroidery techniques.
- GS2.** Prepare and stabilize fabrics for stitching.
- GS3.** Practice fundamental stitches: running stitch, backstitch, satin stitch, cross-stitch.
- GS4.** Develop proficiency with variations like French knots, bullion stitch, and couching.
- GS5.** Combine multiple techniques to create unique designs.
- GS6.** Trace and transfer designs accurately onto fabric.
- GS7.** Reproduce designs using selected embroidery techniques.
- GS8.** Evaluate stitched designs for quality and accuracy.
- GS9.** Secure thread ends and removes tracing marks.
- GS10.** Inspect completed work for uniformity and neatness.
- GS11.** Present the finished product using appropriate framing or mounting techniques.

Qualification Pack

WBSC/AMH/N1912: Make batik designs.

Description

Make batik designs.

Scope

The scope covers the following :

- The batik print process and its significance.
- Identification of various batik designs accurately.
- The differences between natural and chemical dyes used in batik.
- Illustration of the cracked batik design technique effectively.
- The drawing process on cloth with precision.
- Application of wax correctly to create batik designs including cracked patterns.
- Preparation of colour dyes appropriately for use on batik cloth.
- Demonstration of the correct handling of raw materials for batik.
- Evaluation of the quality of finished batik pieces based on specified criteria.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate the batik print process and its significance.
- PC2.** Identify various batik designs accurately.
- PC3.** Explain the differences between natural and chemical dyes used in batik.
- PC4.** Illustrate the cracked batik design technique effectively.
- PC5.** Execute the drawing process on cloth with precision.
- PC6.** Apply wax correctly to create batik designs including cracked patterns.
- PC7.** Prepare color dyes appropriately for use on batik cloth.
- PC8.** Demonstrate the correct handling of raw materials for batik.
- PC9.** Evaluate the quality of finished batik pieces based on specified criteria.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Introduction to batik printing, painting and its process
- KU2.** The role of batik in employment generation.
- KU3.** Identification process of batik designs, batik cloth, batik color (natural and chemical) and different chemical used.
- KU4.** Demonstration of cracked batik design process.
- KU5.** Demonstration of the drawing process on cloth to make batik design.
- KU6.** Application of various colour dye into one cloth to make mix colour batik.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Identify different batik designs.
- GS2.** Demonstrate the good quality batik specification.
- GS3.** Identify the raw material such as cotton, silk, maslin, tasar, khadi etc used for batik cloths.
- GS4.** Develop motifs for batik in various medium and quality of wax.
- GS5.** Apply wax into cloth for crack batik.
- GS6.** Apply Dry wax and fold the cloth to make crack.
- GS7.** Prepare color.
- GS8.** Apply color on waxed cloth and dye it.
- GS9.**
 - Follow process of applying wax on cloth
 - 1. Make drawings with pencil on cloths
 - 2. Apply Wax (such of color white, Red) on it.
 - 3. Dry the wax and fold the cloth to make the crack
- GS10.** Prepare various color.
- GS11.** Tie up the waxed cloth in various forms.
- GS12.** Dip the cloth in different color and dye it.

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Assessment will be based on the concept of Independent Assessors empaneled with West Bengal State Council of Technical & Vocational Education & Skill Development (WBSCT&VE&SD), identified, selected, trained and certified on Assessment techniques. These Assessors would be aligned to assess as per the laid down criteria.

WBSCT&VE&SD would conduct assessment only at the training centers or designated testing centers authorized by WBSCT&VE&SD. Ideally, the assessment will be a continuous process comprising of two distinct steps:

- Continuous assessment by Trainers
- Term end /Final Assessment by WBSCT&VE&SD

Each National Occupational Standard (NOS) in the respective QPs will be assigned weightage. Each Performance Criteria in the NOS will be assigned marks for theory and/or practical based on relative importance and criticality of function. This will facilitate preparation of question bank / paper sets for each of the QPs. Each of these papers sets/question banks created by subject matter experts through WBSCT&VE&SD, especially with regard to the practical test and the defined tolerances, finish, accuracy

Qualification Pack

etc. The following tools are proposed to be used for final assessment:

i. Written Test: This will comprise of (i) True/False Statements and/or (ii) Multiple Choice Questions and/or (iii) Matching Type Questions. Online system for this will be preferred.

ii. Practical Test: This will comprise a test job to be prepared as per project briefing following appropriate working steps, using necessary tools, equipment and instruments. Through observation it will be possible to ascertain candidate's aptitude, attention to details, quality consciousness etc.

iii. Structured Viva-voce: This tool will be used to assess the conceptual understanding and the behavioral aspects as regards the job role and the specific task at hand.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
WBSC/AMH/N1901. Describe the roles of garment maker.	20	50	0	0	70	7
WBSC/AMH/N1902. Identify garment-making tool.	10	80	0	0	90	9
WBSC/AMH/N1903. Operate sewing machines efficiently.	10	90	0	0	100	10
WBSC/AMH/N1904. Make basic garment patterns using drafting techniques.	30	60	0	0	90	9
WBSC/AMH/N1905. Apply hand and machine stitching techniques.	20	60	0	0	80	8
WBSC/AMH/N1906. Cut and stitch garments.	20	60	0	0	80	8

Qualification Pack

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
WBSC/AMH/N1907.Ensure proper finishing of the produced garments.	10	90	0	0	100	10
WBSC/AMH/N1908.Estimate the cost of garments.	10	80	0	0	90	9
WBSC/AMH/N1909.Work in real job situation with emphasis on basic safety and hazards.	0	150	0	0	150	15
DGT/VSQ/N0101.Employability Skills (30 Hours)	20	30	-	-	50	5
Total	150	750	-	-	900	90

Elective: 1 Set up new business

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
