WBSC/CON/Q0501: Assistant House Wireman and Motor Winder

Brief Job Description

Install, maintain and repair electrical wiring, and lighting systems. Read technical diagrams and blueprints. Perform general electrical maintenance. Also rewind and produce coils, replacing and preparing components, such as the stator core for winding.

Personal Attributes

An Assistant House Wireman and Motor Winder should have attention to detail, teamwork, physical stamina, time management, communication skills, numerical ability, organizational skills and safety consciousness to perform tasks effectively and accurately.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [WBSC/CON/N0501: Apply Safe Working Practices \(Assistant House Wireman and Motor Winder\)](#)
2. [WBSC/CON/N0502: Make electrical wire joints & soldering](#)
3. [WBSC/CON/N0503: Analyse, demonstrate and test basic electrical connection](#)
4. [WBSC/CON/N0504: Plan and prepare Earthing installation](#)
5. [WBSC/CON/N0505: Assemble, install and test wiring system](#)
6. [WBSC/CON/N0506: Plan and execute electrical illumination system](#)
7. [WBSC/CON/N0507: Perform winding for armature of a ceiling fan / table fan](#)
8. [WBSC/CON/N0508: Work in real job situation with special emphasis on basic safety and hazards in this domain.](#)
9. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

WBSC/CON/N0501: Apply Safe Working Practices (Assistant House Wireman and Motor Winder)

Description

Apply Safe Working Practices

Scope

The scope covers the following :

- Application and maintenance of Safe Working Practices.
- Recognition of any unsafe situations according to site policy.
- Identification of fire and safety and fire hazards.
- Identification of different fire extinguishers and use them as per requirements.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Apply and maintain Safe Working Practices

PC2. Recognize any unsafe situations according to site policy.

PC3. Identify fire and safety and fire hazards

PC4. Identify different fire extinguishers and use them as per requirements.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Maintenance of procedures to achieve a safe working environment in line with occupational health and safety regulations and requirements according to site policy.
- KU2.** Recognition of any unsafe situations according to site policy and assess his report accordingly.
- KU3.** Identification and taking necessary precautions on fire and safety hazards and report according to site policy and procedures.
- KU4.** Concepts of standard operation of electrical mains.
- KU5.** The process of responding to emergencies seg. Power failure, fire and system failure.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Recognize any unsafe situations according to site policy, and assess his report accordingly.
- GS2.** Demonstrate Personal Productive Equipment (PPE) like: safety helmet, safety glove, safety shoe, use the same as per related working environment.
- GS3.** Demonstrate basic first aid & CPR and use them under different circumstances
- GS4.** Identify different fire extinguishers and use the same as per requirement in a mock drill.

Qualification Pack

- GS5.** Apply the concept of standard operation of electrical mains and other switches.
- GS6.** Response to emergencies of power failure and system failure.

Qualification Pack

Assessment Criteria

WBSC/CON/N0502: Make electrical wire joints & soldering

Description

Make electrical wire joints & soldering

Scope

The scope covers the following :

- Making of simple straight twist and rat-tail joints in single strand conductors / married and T (Tee) joint in stranded conductors.
- Soldering and de-soldering of the finished copper conductor joints with precaution.
- Safety/precaution taken during joints & soldering.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Make simple straight twist and rat-tail joints in single strand conductors / married and 'T' (Tee) joint in stranded conductors.
- PC2.** Solder and de-solder the finished copper conductor joints with precaution.
- PC3.** Follow the safety/ precaution during joints & soldering.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Types of wires,cables and verify their specifications.
- KU2.** Simple straight twist and rat-tail joints in single strand conductors / married and T (Tee) joint in stranded conductors.
- KU3.** Procedure for soldering and de-soldering.
- KU4.** Safety precautions taken during joints and soldering.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Make simple straight twist and rat-tail joints in single strand conductors / married and T (Tee) joint in stranded conductors.
- GS2.** Solder and de-solder the finished copper conductor joints with precaution.
- GS3.** Demonstrate & identify Trade hand tools
- GS4.** Use, care & maintain various hand tools
- GS5.** Practice on using cutting pliers, screwdrivers etc. skinning the cables
- GS6.** Practice on joining a single strand.
- GS7.** Practice on bare conductors joints Viz Britannia, straight, Tee, Western union.

Qualification Pack

- GS8.** Identify different types of cables
- GS9.** Practice on using standard wire gauge.
- GS10.** Practice on crimping thimbles, Lugs.
- GS11.** Practice on checking of cables and conductors, insulation

Qualification Pack

Assessment Criteria

WBSC/CON/N0503: Analyse, demonstrate and test basic electrical connection

Description

Analyse, demonstrate and test basic electrical connection

Scope

The scope covers the following :

- Types of wires, cables and verify their specifications.
- The characteristics of series, parallel and its combination circuit.
- Measure Current, Voltage and Resistance in a single phase supply / load.
- Identification of the phase, neutral and earth in a single phase supply.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify types of wires, cables and verify their specifications.
- PC2.** Verify the characteristics of series, parallel and its combination circuit.
- PC3.** Measure Current, Voltage and Resistance in a single phase supply / load.
- PC4.** Identify the phase, neutral and earth in a single phase supply.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The characteristics of series, parallel and its combination circuit.
- KU2.** Testing of single phase voltage using test lamp.
- KU3.** Measurement of Voltage, current and resistance.
- KU4.** Testing of domestic wiring installation by using Megger
- KU5.** Draw wiring of house.
- KU6.** Practice of common domestic wiring.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Test single phase voltage using test lamp.
- GS2.** Measure current, voltage in a single phase system.
- GS3.** Demonstrate the types of fuses, their ratings and applications and also to identify the parts of a MCB, ELCB and RCCB.
- GS4.** Check installation of earthing system and test of earthing system.

Qualification Pack

GS5. Install single phase Energy meters and take reading.

Qualification Pack

WBSC/CON/N0504: Plan and prepare Earthing installation

Description

Plan and prepare Earthing installation

Scope

The scope covers the following :

- Installation of the pipe earthing / plate earthing and test it.
- Demonstration of how earth resistance can improve.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Install the pipe earthing / plate earthing and test it.

PC2. Demonstrate how earth resistance can improve.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. The necessity of earthing and protective devices.

KU2. The details of pipe and plate earthing.

KU3. Different types of fuse, MCB, RCCB, ELCB

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Install the pipe earthing and plate earthing and test it.

GS2. Demonstrate the earth resistance and measure it.

Qualification Pack

Assessment Criteria

WBSC/CON/N0505: Assemble, install and test wiring system

Description

Assemble, install and test wiring system

Scope

The scope covers the following :

- Performing the wiring with the safety rules.
- Preparation and mounting of the energy meterboard.
- Drawing and wiring up the consumers mainboard with ICDP switch and distribution fuse box in a house/building.
- The types of fuses, their ratings and applications and identification of the parts of a MCB, ELCB and RCCB.
- Estimation of the requirement for metal conduit wiring and wire up.
- Estimation of the materials and wire up the lighting circuit for a PVC conduit wiring.
- Estimation of the materials and wire up.
- A lighting circuit for a corridor in metal PVC conduit.
- Testing of a domestic wiring installation by using Megger.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Perform the wiring with the safety rules.

PC2. Prepare and mount the energy meterboard.

PC3. Draw and wire up the consumers mainboard with ICDP switch and distribution fuse box in a house/building.

PC4. Demonstrate the types of fuses, their ratings and applications and also identify the parts of a MCB, ELCB and RCCB.

PC5. Estimate the requirement for metal conduit wiring and wire up.

PC6. Estimate the materials and wire up the lighting circuit for a PVC conduit wiring.

PC7. Estimate the materials and wire up.

PC8. Install and Test a lighting circuit for a corridor in metal PVC conduit.

PC9. Test a domestic wiring installation by using Megger.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. The safety rule while electrical wiring.

KU2. Procedure for mounting of energy meter board.

KU3. Procedure for drawing and wiring up the consumers main board with ICDP switch and distribution fuse box in a house/building.

Qualification Pack

- KU4.** Estimation of the requirement for metal conduit wiring and wire up.
- KU5.** Estimation of the materials and wiring up the lighting circuit for a PVC conduct wiring.
- KU6.** • Estimation of the materials and wire up a lighting circuit for a corridor in metal
• conduit.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Practice on simple House wiring including installation of common electrical accessories Viz. fixing of switches, holders, plugs, etc. in T.W. boards.
- GS2.** Identify and use wiring accessories.
- GS3.** Connect Calling Bell, Buzzer, Alarms, Light & Fan etc.
- GS4.** Practice Conduit wiring.
- GS5.** Identify conduits and accessories & their uses, cutting, threading & laying.
- GS6.** Practice Installation of conduit pipe wiring for lighting and power circuits on 230V with minimum to more number of points.
- GS7.** Use two way switches.
- GS8.** Test insulation by two lamp methods & megger.
- GS9.** Make test boards & extension boards.
- GS10.** Fit, fix suitable rated fuses & MCB.

WBSC/CON/N0506: Plan and execute electrical illumination system

Description

Plan and execute electrical illumination system

Scope

The scope covers the following :

- Assembling and connection of a single twin tube F.L.
- Connection of the neon sign with the accessories and test it.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Assemble and connect a single twin tube F.L

PC2. Connect the neon sign with the accessories and test it.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. The procedure for connection of tube light, LED light and other light connection.

KU2. The procedure for connection of neon sign with the accessories and test it.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Identify the accessories for connection of tube light, LED light and other electrical light.

GS2. Connect the single twin tube F.L.

GS3. Connect the neon sign and the accessories and test it.

WBSC/CON/N0507: Perform winding for armature of a ceiling fan / table fan

Description

Perform winding for armature of a ceiling fan / table fan

Scope

The scope covers the following :

- Different parts off a table fan and ceiling fan.
- Winding diagram of a single-phase split type AC motor (concentric coil).
- Stripping of old winding in a fan armature by using appropriate methods.
- Usage of insulating paper and wooden/insulating stick as per slot of the core.
- Preparation of the winding coil as per size, no. of turns and coil pitch.
- Insertion of the coil and mark start/end point, including connection of the coil.
- Testing of the continuity and winding insulation.
- Assembly of a motor and run the same.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify different parts off a table fan and ceiling fan.
- PC2.** Draw winding diagram of a single-phase split type AC motor (concentric coil).
- PC3.** Strip old winding in a fan armature by using appropriate methods.
- PC4.** Use insulating paper and wooden/insulating stick as per slot of the core.
- PC5.** Prepare the winding coil as per size, no. of turns and coil pitch.
- PC6.** Insert the coil and mark start/end point, including connection of the coil.
- PC7.** Test the continuity and winding insulation.
- PC8.** Assemble a motor and run the same.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The theory of winding upto 1 hp ac motor.
- KU2.** Assembly and installation procedure up to 1HP AC motor.
- KU3.** External connection and insulation methods.
- KU4.** Details of testing and fault finding.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Identify different parts of a table fan and ceiling fan.
- GS2.** Insert coil in the armature and complete winding of armature of a fan motor
- GS3.** Test armature winding and use insulating paper and wooden/insulating stick as per slot of the core.
- GS4.** Prepare the winding coil as per size.
- GS5.** Test the continuity and winding insulation.
- GS6.** Assemble a motor and run the same.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Assessment will be based on the concept of Independent Assessors empaneled with West Bengal State Council of Technical & Vocational Education & Skill Development (WBSCT&VE&SD), identified,

selected, trained and certified on Assessment techniques. These Assessors would be aligned to assess as per the laid down criteria. WBSCT&VE&SD would conduct assessment only at the training centers or designated testing centers authorized by WBSCT&VE&SD. Ideally, the assessment will be a continuous process comprising of two distinct steps:

A. Continuous assessment by Trainers

B. Term end /Final Assessment by WBSCT&VE&SD

Each National Occupational Standard (NOS) in the respective QPs will be assigned weightage. Each Performance Criteria in the NOS will be assigned marks for theory and/or practical based on relative importance and criticality of function. This will facilitate preparation of question bank / paper sets for each of the QPs. Each of these papers sets/question banks created by subject matter experts through WBSCT&VE&SD, especially with regard to the practical test and the defined tolerances, finish, accuracy etc. The following tools are proposed to be used for final assessment: i. Written Test: This will comprise of

Qualification Pack

(i) True/False Statements and/or (ii) Multiple Choice Questions and/or (iii) Matching Type Questions. Online system for this will be preferred. ii. Practical Test: This will comprise a test job to be prepared as per project briefing following appropriate working steps, using necessary tools, equipment and instruments. Through observation it will be possible to ascertain candidate's aptitude, attention to details, quality consciousness etc. iii. Structured Viva-voce: This tool will be used to assess the conceptual understanding and the behavioral aspects as regards the job role and the specific task at hand.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
National Occupational Standard	NOS define the measurable performance outcomes required from an individual engaged in a particular task. They list down what an individual performing that task should know and also do.
Qualification	A formal outcome of an assessment and validation process which is obtained when a competent body determines that an individual has achieved learning outcomes to given standards
Qualification File	A Qualification File is a template designed to capture necessary information of a Qualification from the perspective of NSQF compliance. The Qualification File will be normally submitted by the awarding body for the qualification.
Sector	A grouping of professional activities on the basis of their main economic function, product, service or technology
Long Term Training	Long-term skilling means any vocational training program undertaken for a year and above. https://ncvet.gov.in/sites/default/files/NCVET.pdf
