WBSC/CSC/Q0801: Welder (Manual Metal Arc Welding and Gas Cutting)

Brief Job Description

A Welder (Manual Metal Arc Welding and Gas Cutting) welds and assembles metal pieces and products by using handheld welding equipment. He will also be responsible for setting up parts for welding using hand tools, clamps, jigs and fixtures and ensures weld quality through visual inspection. The role involves interpreting drawings and work instructions and performing welding and cutting tasks in accordance with specified procedures and safety standards.

Personal Attributes

A Welder (Manual Metal Arc Welding and Gas Cutting) should be safety-conscious, disciplined, and able to follow procedures and instructions carefully. Physical stamina, the ability to work in different positions and environments and a responsible attitude toward tools and equipment are essential. The role also requires basic problem-solving skills, the ability to read and understand technical drawings, teamwork and a willingness to learn and adapt to new techniques or workplace requirements.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [WBSC/CSC/N0801: Apply Safe Working Practices \(Welder \(Manual Metal Arc Welding and Gas Cutting\)\).](#)
2. [WBSC/CSC/N0802: Recognize the application of electricity in welding.](#)
3. [WBSC/CSC/N0803: Illustrate the formation of arc and principle of arc welding with parameters and related terms.](#)
4. [WBSC/CSC/N0804: Demonstrate different types of electrodes, their symbols, welding symbols, edge preparation.](#)
5. [WBSC/CSC/N0805: Demonstrate different types of weld joints with neat and appropriate sketch for welding different types of materials.](#)
6. [WBSC/CSC/N0806: Perform arc welding in different joint of two plates having different thicknesses.](#)
7. [WBSC/CSC/N0807: Set up gas welding plant and Perform gas welding & gas cutting following safety precautions.](#)
8. [WBSC/CSC/N0808: Recognize various defect of welding for plates and pipes.](#)
9. [WBSC/CSC/N0809: Work in real job situation with special emphasis on basic safety and hazards in this domain \(Welder \(Manual Metal Arc Welding and Gas Cutting\)\).](#)
10. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

WBSC/CSC/N0801: Apply Safe Working Practices (Welder (Manual Metal Arc Welding and Gas Cutting)).

Description

Apply Safe Working Practices.

Scope

The scope covers the following :

- Safe Working Practices.
- Unsafe situations according to site policy.
- Fire and safety and fire hazards.
- Different types of fire extinguishers and their use.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Apply and maintain Safe Working Practices.
- PC2.** Recognize any unsafe situations according to site policy.
- PC3.** Identify fire and safety and fire hazards.
- PC4.** Identify different fire extinguishers and use them as per requirements.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Procedures to achieve a safe working environment in line with occupational health and safety regulations and requirements according to site policy.
- KU2.** Unsafe situations according to site policy, and assess his report accordingly.
- KU3.** Necessary precautions on fire and safety hazards and report according to site policy and procedures.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Recognize any unsafe situations according to site policy, and assess his report accordingly.
- GS2.** Demonstrate Personal Productive Equipment (PPE) like: safety helmet, safety glove, and safety shoe, use the same as per related working environment.
- GS3.** Demonstrate basic first aid & CPR and use them under different circumstances.
- GS4.** Identify different fire extinguishers and use the same as per requirement in a mock drill.

Qualification Pack

Qualification Pack

WBSC/CSC/N0802: Recognize the application of electricity in welding.

Description

Recognize the application of electricity in welding.

Scope

The scope covers the following :

- Different basic terms used in electricity.
- Various use of ammeter and voltmeter.
- The use of electricity as applied to both AC and DC welding machine.
- Types of electric welding.
- Power source required for arc welding: transformer, inverter.
- Flow diagram for electric arc welding process.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Identify different basic terms used in electricity.

PC2. Identify and demonstrate the various use of ammeter and voltmeter.

PC3. Demonstrate the use of electricity as applied to both AC and DC welding machine.

PC4. Demonstrate the types of electric welding.

PC5. Identify Power source required for arc welding: transformer, inverter (types, function only).

PC6. Draw Flow diagram for electric arc welding process.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Basic Electricity - Current, Voltage, Conductor, Insulator D.C., A.C., Resistance, Ohms Law, Voltmeter, Ammeter power & heating effect or current.

KU2. Use of Electricity as applied to welding - A.C. - D.C. types of electric welding and application.

KU3. Types of power sources along with applications required in arc welding.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Demonstrate Ohms Law.

GS2. Identify the different electrical instruments used.

GS3. Demonstrate the uses of Electricity as applied to welding - A.C. - D.C. types of Electric welding and application.

GS4. Draw flow diagram of arc welding process along with all components.

Qualification Pack

WBSC/CSC/N0803: Illustrate the formation of arc and principle of arc welding with parameters and related terms.

Description

Illustrate the formation of arc and principle of arc welding with parameters and related terms.

Scope

The scope covers the following :

- The principles of arc, characteristic of arc, effect of arc length.
- The effect of polarity on arc and their use.
- The defects such as arc blow, distortion in welding caused by arc along with the method of minimizing its effect.
- The arc formation.
- The application of welding fixture.
- Different Process parameters: voltage, current, travel speed, heat input, cooling rate (definition and overall influence on arc welding in tabular form only), Weldability, metallurgy (concept only).

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate the principles of arc, characteristic of arc, effect of arc length.
- PC2.** Illustrate the effect of polarity on arc and their use.
- PC3.** Identify the defects such as arc blow, distortion in welding caused by arc along with the method of minimizing its effect.
- PC4.** Demonstrate the arc formation.
- PC5.** Describe the application of welding fixture.
- PC6.** Identify different Process parameters: voltage, current, travel speed, heat input, cooling rate (definition and overall influence on arc welding in tabular form only).

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The principles of arc welding - necessity of welding machines types of machines - care and maintenance.
- KU2.** Arc - its formation & characteristics, arc length its effect and uses, advantages & disadvantages.
- KU3.** Polarity-types, uses.
- KU4.** Principles of arc welding - Use of welding fixture.
- KU5.** Arc blow definition, distortion in arc welding, causes & effects, methods of minimizing its effects.

Qualification Pack

- KU6.** The formation of bead as per high/low of process parameter such as voltage, current, torch travel speed, heat input, cooling rate.
- KU7.** Weldability, weld bead metallurgy.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Set the Arc and Gas apparatus / machineries -Striking on Arc - adjustment of flame.
- GS2.** Operate generator, transformer and rectifier.
- GS3.** Mark out M. S. Plate or flat, filing square to dimensions.
- GS4.** Demonstrate Edge chipping & cutting, Hack sawing, drilling.
- GS5.** Demonstrate to develop good weld bead on MS plate keeping welding parameters in prescribed limit (for particular thickness).

Qualification Pack

Qualification Pack

WBSC/CSC/N0804: Demonstrate different types of electrodes, their symbols, welding symbols, edge preparation.

Description

Demonstrate different types of electrodes, their symbols, welding symbols, edge preparation.

Scope

The scope covers the following :

- Different types of electrodes along with their symbols.
- The reason of edge preparation required in different welding joint.
- Amount of edge preparation in accordance with plate thickness with the help of Table.
- Size of electrodes in accordance with plate thickness with the help of Table.
- Rated current against different plate thickness with the help of Table.
- Identification and selection of electrode holder according to LS-815-1974.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Identify different electrodes along with their symbols.

PC2. Demonstrate the reason of edge preparation required in different welding joint.

PC3. Select amount of edge preparation in accordance with plate thickness with the help of Table.

PC4. Select size of electrodes in accordance with plate thickness with the help of Table.

PC5. Select rated current against different plate thickness with the help of Table.

PC6. Identify and select electrode holder according to LS-815-1974.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Different types of Welding symbols - description and use, edge preparation-necessity - types on plate thickness.

KU2. Electrode - types, size, holder (description with sketch) LS. - 815-1974.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Identify different electrodes along with their symbols.

GS2. Demonstrate the reason of edge preparation required in different welding joint.

GS3. Select amount of edge preparation in accordance with plate thickness with the help of Table.

Qualification Pack

WBSC/CSC/N0805: Demonstrate different types of weld joints with neat and appropriate sketch for welding different types of materials.

Description

Demonstrate different types of weld joints with neat and appropriate sketch for welding different types of materials.

Scope

The scope covers the following :

- Different types of weld joint such as lap, flange, butt, corner, Tee, plug lap, strapped joints.
- Edge preparation: types, function, change with plate thickness.
- Illustration of butt joint for various thickness of joining plate.
- Demonstration of Spot welding process used for single spot on three work pieces.
- Fillet weld joint for different thickness plate
- The technique for weaving motion of electrode.
- The necessity of single pass and multi pass deposition of electrode
- The use of different types of electrode motion and the corresponding weld bead.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate different types of weld joint such as lap, flange, butt, corner, Tee, plug lap, strapped joints with neat and appropriate sketches.
- PC2.** Perform Edge preparation: types, function, change with plate thickness.
- PC3.** Illustrate butt joint for various thickness of joining plate.
- PC4.** Demonstrate the Spot welding process used for single spot on three work pieces with help of neat sketch.
- PC5.** Describe fillet weld joint for different thickness plate.
- PC6.** Demonstrate the technique for weaving motion of electrode.
- PC7.** Describe the necessity of single pass and multi pass deposition of electrode.
- PC8.** Describe the use of different types of electrode motion and the corresponding weld bead with neat sketch.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Basic joint types - Butt - Flange - Butt (Pieces differing in thickness)
- KU2.** Lap, Corner, Tee, Slot and Plug Lap, Edge, Strapped, Spot - (Single spot - 3 Work pieces) - Sketches of all - Techniques of welding all the above cases, fillet weld.
- KU3.** Advantages & disadvantages of Butt joint and Lap joint., Reading of Simple Drawings.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Illustrate butt joint for various thickness of joining plate.
- GS2.** Demonstrate the Spot welding process used for single spot on three work pieces with help of neat sketch.
- GS3.** Describe fillet weld joint.
- GS4.** Demonstrate the technique for weaving motion of electrode.
- GS5.** Describe the necessity of single pass and multi pass deposition of electrode.

WBSC/CSC/N0806: Perform arc welding in different joint of two plates having different thicknesses.

Description

Perform arc welding in different joint of two plates having different thicknesses.

Scope

The scope covers the following :

- Different types of equipment used for arc welding process.
- The operations of the equipment used for arc welding.
- Different welding position such as horizontal (H) , flat(F) and overhead (OD).
- Setting up the machine for the operation.
- Different types of weld materials(only example and application).
- Arc welding to prepare F position bead on 8/6 mm MS plate
- Arc welding to prepare different joint in the plates by preparing normal bead
- Fillet joint by arc welding
- Weaved bead on plates having different thicknesses.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate different types of equipment used for arc welding process with neat sketches.
- PC2.** Identify the operations of the equipment used for arc welding.
- PC3.** Describe different welding position such as horizontal (H) , flat(F) and overhead (OD).
- PC4.** Set up the machine for the operation.
- PC5.** Identify different weld materials: mild steel, low alloy steel, high strength low alloy steel, stainless steel, austenite stainless steel, ferrite stainless steel, duplex stainless steel, cast iron, non-ferrous metals and alloy (only example and application).
- PC6.** Perform arc welding to prepare F position bead on 8/6 mm MS plate.
- PC7.** Perform arc welding to prepare different joint in the plates by preparing normal bead.
- PC8.** Perform Fillet joint by arc welding.
- PC9.** Perform weaved bead on plates having different thicknesses.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Electrode - types, size, holder (description with sketch) LS. - 815-1974.
- KU2.** Basic joint types - Butt - Flange - Butt (Pieces differing in thickness).
- KU3.** Lap, Corner, Tee, Slot and Plug Lap, Edge, Strapped, Spot - (Single spot - 3 Work pieces) - Sketches of all - Techniques of welding all the above cases, fillet weld.

Qualification Pack

KU4. Mild steel, low alloy steel, high strength low alloy steel, stainless steel, austenite stainless steel, ferrite stainless steel, duplex stainless steel, cast iron, non-ferrous metals and alloy (only example and application).

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Position F by Arc - Fusion run practice with / without filler rod. Straight line beads on M. S. plates 6/8/10 mm thick: Butt weld square butt joint on M. S. Plate 6 & 8 mm.
- GS2.** Position F. Fillet weld Lap joint on M. S. Plate 3 mm position F. Fillet weld Lap joint on M. S. Plate, M. S. Plate 5 mm position F. Butt weld in open square butt joint, M. S. Plate 5 mm, Position. F. Butt weld single Vee butt joint, M. S. Plate 10 mm position F (E).
- GS3.** • Fusion run with filler rod on M. S. Plate at par with theory, Fillet weld. Tee joint on M. S. Plate 10 mm. position H (E). Vee joint on M. S. Plate 10 mm. position H (E).
•
- GS4.** Fillet weld inside corner joint. M. S. Plate 6-8 mm. position H. Fusion run with filler weld Tee - joint M. S. Plate 10 mm. position 'Vee' (E)
- GS5.** Butt weld: Square butt joint. M. S. Plate 6 mm. position H. Fusion run with filler rod on M. S. Plate - 6 mm. position V. Weaved bead on M. S. Plate - 6/8/10 mm. position F (E). Fillet weld open corner joint on M. S. Plate - 6/8/10 mm. position F (E).
- GS6.** Fillet Tee joint on M. S. Plate 10 mm. position F (E). Butt weld / Single Vee butt joint - Grooved and fillet - M. S. Plate .mm. position upward (E). Straight line beads on M. S. Plate 10 mm. position OH (E) - Tee joint in same manner. Fillet weld weld Lap joint. M. S. Plate 6 mm. position V. Tee joint in same manner - 6 mm. plates - Fillet weld outside corner joint. M. S. Plate 6 mm. position V (E). Fillet Lap joint. M. S. Plate 10 mm. position OH (E). Butt weld single V butt joint M. S. P

WBSC/CSC/N0807: Set up gas welding plant and Perform gas welding & gas cutting following safety precautions.

Description

Set up gas welding plant and Perform gas welding & gas cutting following safety precautions.

Scope

The scope covers the following :

- Principles of gas welding with the help of neat sketch.
- Different components needed in gas welding along with their uses.
- Plan and select the nozzle size, flame, working pressure and filler rod.
- Different types of flames used in gas welding, their characteristics and their use.
- Normal bead on MS plate by gas welding.
- Different joint with/without use of filler material by gas welding.
- Gas cutting using Oxidizing flame for MS plate.
- Visual inspection to ascertain the quality welds joint.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate principles of gas welding with the help of neat sketch.
- PC2.** Describe different components needed in gas welding along with their uses.
- PC3.** Plan and select the nozzle size, flame, working pressure and filler rod.
- PC4.** Demonstrate different types of flames used in gas welding, their characteristics and their use with the help of neat sketch.
- PC5.** Perform normal bead on MS plate by gas welding.
- PC6.** Perform different joint with/without use of filler material by gas welding.
- PC7.** Perform gas cutting using Oxidizing flame for MS plate.
- PC8.** Carryout the visual inspection to ascertain the quality welds joint.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Demonstrate principles of gas welding with the help of neat sketch.
- KU2.** Describe different components needed in gas welding along with their uses.
- KU3.** Plan and select the nozzle size, flame, working pressure and filler rod. Gas welding types of fuel gases, Oxy - acetylene welding - types of flames and their uses.
- KU4.** Weld ability and materials having good welding characteristics.
- KU5.** Explain Gas cutting, how it differs from gas welding.

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** Describe different components needed in gas welding along with their uses.
- GS2.** Plan and select the nozzle size, flame, working pressure and filler rod.
- GS3.** Demonstrate different types of flames used in gas welding, their characteristics and their use with the help of neat sketch.
- GS4.** Perform normal bead on MS plate by gas welding.
- GS5.** Perform different joint with/without use of filler material by gas welding.
- GS6.** Perform gas cutting for different thickness MS plate.
- GS7.** Carryout the visual inspections to ascertain the quality weld joint.

National Occupational Standards (NOS) Parameters

NOS Code	WBSC/CSC/N0807
NOS Name	Set up gas welding plant and Perform gas welding & gas cutting following safety precautions.
Sector	Capital Goods
Sub-Sector	
Occupation	Welder and Flame Cutters
NSQF Level	3
Credits	2
Version	1.0
Last Reviewed Date	27/08/2024
Next Review Date	27/08/2027
NSQC Clearance Date	27/08/2024

Qualification Pack

WBSC/CSC/N0808: Recognize various defect of welding for plates and pipes.

Description

Recognize various defect of welding for plates and pipes.

Scope

The scope covers the following :

- The common defects occur during welding with help of neat sketches.
- Analysis of the defects and identification of the cause.
- Some methods to minimize the defects caused during welding.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Identify the common defects occur during welding with help of neat sketches.

PC2. Analyze the defects and identify the cause.

PC3. Demonstrate some methods to minimize the defects caused during welding.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. The arc welding defects - reasons and remedies.

KU2. Analysis of the defects.

KU3. The cause of defects.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Identify the common defects occur during welding with help of neat sketches.

GS2. Analyze the defects and identify the cause.

GS3. Demonstrate the methods to minimize the defects caused during welding.

WBSC/CSC/N0809: Work in real job situation with special emphasis on basic safety and hazards in this domain (Welder (Manual Metal Arc Welding and Gas Cutting)).

Description

Work in real job situation with special emphasis on basic safety and hazards in this domain.

Scope

The scope covers the following :

- Work in the real job situation.
- Report preparation on the competency developed.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Work in the real job situation with special emphasis on basic safety and hazards in this domain.
- PC2.** Prepare report for this component of training of the course to ensure whether competency has been developed.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Work in the real job situation with special emphasis on basic safety and hazards in this domain.
- GS2.** Prepare report for this component of training of the course to ensure whether competency has been developed.

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Assessment will be based on the concept of Independent Assessors empaneled with West Bengal State Council of Technical & Vocational Education & Skill Development (WBSCT&VE&SD), identified, selected, trained and certified on Assessment techniques. These Assessors would be aligned to assess as per the laid down criteria.

WBSCT&VE&SD would conduct assessment only at the training centers or designated testing centers authorized by WBSCT&VE&SD. Ideally, the assessment will be a continuous process comprising of two distinct steps:

- Continuous assessment by Trainers
- Term end /Final Assessment by WBSCT&VE&SD

Each National Occupational Standard (NOS) in the respective QPs will be assigned weightage. Each Performance Criteria in the NOS will be assigned marks for theory and/or practical based on relative importance and criticality of function. This will facilitate preparation of question bank / paper sets for each of the QPs. Each of these papers sets/question banks created by subject matter experts through WBSCT&VE&SD, especially with regard to the practical test and the defined tolerances, finish, accuracy

Qualification Pack

etc. The following tools are proposed to be used for final assessment:

i. Written Test: This will comprise of (i) True/False Statements and/or (ii) Multiple Choice Questions and/or (iii) Matching Type Questions. Online system for this will be preferred.

ii. Practical Test: This will comprise a test job to be prepared as per project briefing following appropriate working steps, using necessary tools, equipment and instruments. Through observation it will be possible to ascertain candidate's aptitude, attention to details, quality consciousness etc.

iii. Structured Viva-voce: This tool will be used to assess the conceptual understanding and the behavioral aspects as regards the job role and the specific task at hand.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
WBSC/CSC/N0801. Apply Safe Working Practices (Welder (Manual Metal Arc Welding and Gas Cutting)).	20	60	-	-	80	8
WBSC/CSC/N0802. Recognize the application of electricity in welding.	10	60	-	-	70	7
WBSC/CSC/N0803. Illustrate the formation of arc and principle of arc welding with parameters and related terms.	10	80	-	-	90	9

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
