WBSC/ELE/Q2801: Service Assistant (Domestic Electronics Products)

Brief Job Description

Service Assistant (Domestic Electronics Products) will provide service and customer support for the domestic electronics product during field visits or dispatches. Manage all onsite installation, repair, maintenance and test tasks. Diagnose errors or technical problems and determine proper solutions. Produce timely and detailed service reports.

Personal Attributes

A Service Assistant (Domestic Electronics Products) should possess strong technical aptitude combined with a hands-on, solution-oriented mindset. They are dependable, detail-oriented and capable of working independently during field visits while maintaining a high level of professionalism. They demonstrate clear communication skills to explain technical issues. He should be customer-focused, patient and willing to learn new things.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [WBSC/ELE/N2801: Apply Safe Working Practices \(Service Assistant \(Domestic Electronics Products\)\)](#).
2. [WBSC/ELE/N2802: Select and perform electrical/ electronic measurement of single range meters and record the data.](#)
3. [WBSC/ELE/N2803: Plan and execute soldering & de-soldering of various electrical components used in domestic appliances and assemble and test a AM/FM receiver and evaluate performance.](#)
4. [WBSC/ELE/N2804: Install, configure, interconnect given computer system\(s\) and demonstrate its I/O devices.](#)
5. [WBSC/ELE/N2805: Identify, operate various controls, troubleshoot and replace modules of the LCD/LED TV and its remote.](#)
6. [WBSC/ELE/N2806: Install a DTH system by proper selection of site, assembling of different parts/ accessories and troubleshoot the system.](#)
7. [WBSC/ELE/N2807: Dismantle, identify the parts of microwave oven and washing machine for the testing and repair.](#)
8. [WBSC/ELE/N2808: Install a CCTV system and configure the system for surveillance function.](#)
9. [WBSC/ELE/N2809: Work in real job situation with special emphasis on basic safety and hazards in this domain \(Service Assistant \(Domestic Electronics Products\)\).](#)

Qualification Pack

WBSC/ELE/N2801: Apply Safe Working Practices (Service Assistant (Domestic Electronics Products)).

Description

Apply Safe Working Practices.

Scope

The scope covers the following :

- Procedures to achieve a safe working environment in line with occupational health and safety regulations and requirements.
- Any unsafe situations according to site policy.
- Precautions on fire and safety hazards.
- Personal Productive Equipment (PPE).
- Basic first aid & CPR and use them under different circumstances.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Maintain procedures to achieve a safe working environment in line with occupational health and safety regulations and requirements according to site policy.
- PC2.** Recognize any unsafe situations according to site policy, and assess his report accordingly.
- PC3.** Identify and take necessary precautions on fire and safety hazards and report according to site policy and procedures.
- PC4.** Demonstrate Personal Productive Equipment (PPE) like: safety helmet, safety glove, safety shoe use the same as per related working.
- PC5.** Demonstrate basic first aid & CPR and use them under different circumstances.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Procedures to achieve a safe working environment in line with occupational health and safety regulations and requirements according to site policy.
- KU2.** Any unsafe situations according to site policy, and assessing his report accordingly.
- KU3.** Necessary precautions on fire and safety hazards and reporting according to site policy and procedures.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Recognize any unsafe situations according to site policy, and assess his report accordingly.

Qualification Pack

- GS2.** Demonstrate Personal Productive Equipment (PPE) like: safety helmet, safety glove, safety shoe, use the same as per related working environment.
- GS3.** Demonstrate basic first aid & CPR and use them under different circumstances.
- GS4.** Identify different fire extinguishers and use the same as per requirement in a mock drill.

Qualification Pack

Qualification Pack

WBSC/ELE/N2802: Select and perform electrical/ electronic measurement of single range meters and record the data.

Description

Select and perform electrical/ electronic measurement of single range meters and record the data.

Scope

The scope covers the following :

- Work in compliance with standard safety norms.
- Type of electronic instruments.
- The measurement errors while measuring resistance.
- Extension of the range of MC voltmeter and ammeter.
- Measurement of the value of resistance, voltage and current using digital multimeter.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Plan work in compliance with standard safety norms.

PC2. Identify the type of electronic instruments.

PC3. Determine the measurement errors while measuring resistance.

PC4. Extend the range of MC voltmeter and ammeter.

PC5. Measure the value of resistance, voltage and current using digital multimeter.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Introduction to electrical and electronic measuring instruments.

KU2. Basic principle and parts of simple meters. Importance and classification of meters. MC and MI meters.

KU3. Range extension, need of calibration.

KU4. Characteristics of meters and errors in meters.

KU5. Multi meter, use of meters in different circuits.

KU6. Care and maintenance of meters.

KU7. The use of CRO.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Demonstrate various analog measuring instruments.

Qualification Pack

- GS2.** Find the minimum and maximum measurable range of the meter.
- GS3.** Carryout mechanical zero setting of a meter.
- GS4.** Measure AC & DC.
- GS5.** Use the multi-meter to measure the various functions (AC V, DC V, DC I, AC I, R).
- GS6.** Identify the different types of meter for measuring AC & DC parameters.
- GS7.** Identify the different controls on the CRO front panel and observe the function of each control.
- GS8.** Measure DC voltage, AC voltage, time period using CRO sine wave parameter.

WBSC/ELE/N2803: Plan and execute soldering & de-soldering of various electrical components used in domestic appliances and assemble and test a AM/FM receiver and evaluate performance.

Description

Plan and execute soldering & de-soldering of various electrical components used in domestic appliances and assemble and test a AM/FM receiver and evaluate performance.

Scope

The scope covers the following :

- Work in compliance with standard safety norms.
- The primary and secondary transformer winding's and test the polarity.
- The primary and secondary voltage of different transformers.
- Soldering and de-soldering for a given components and circuits.
- Avoiding waste, ascertaining unused materials and components for disposal, storing these in an environmentally appropriate manner and preparing for disposal.
- Planning and selecting tools to assemble the receiver.
- The various components of AM and FM on the trainer kit.
- Troubleshooting and replacing the faulty components.
- The functionality of AM/ FM receiver.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Plan work in compliance with standard safety norms.
- PC2.** Identify the primary and secondary transformer winding's and test the polarity.
- PC3.** Measure the primary and secondary voltage of different transformers.
- PC4.** Solder the given components Identify and test.
- PC5.** Practice soldering and de-soldering for a given components and circuits.
- PC6.** Avoid waste, ascertain unused materials and components for disposal, store these in an environmentally appropriate manner and prepare for disposal.
- PC7.** Plan and select tools to assemble the receiver.
- PC8.** Test the various components of AM and FM on the trainer kit.
- PC9.** Troubleshoot and replace the faulty components.
- PC10.** Check the functionality of AM/ FM receiver.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Soldering process.
- KU2.** Soldering materials and their grading.

Qualification Pack

- KU3.** Use of flux and other materials.
- KU4.** Soldering and de-soldering stations and their specifications.
- KU5.** Introduction to AM, FM transistor.
- KU6.** Its various components and working viz. RF amplifier, Mixer, IF amplifier, AF amplifier and speaker.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Demonstrate Soldering/ De-soldering procedure.
- GS2.** Identify the primary and secondary transformer winding's and test the polarity.
- GS3.** Practice soldering on different electronic components, small transformer and lugs.
- GS4.** Practice soldering on IC bases and PCBs.
- GS5.** Practice de-soldering using pump for de- soldering.
- GS6.** Demonstrate AM and FM Radio Wave Propagation (principle, fading).
- GS7.** Construct and test AM transmitter and receivers.
- GS8.** Dismantle the given FM receiver set and identify different stages.
- GS9.** Identify the components microphone, audio pre- amplifier, modulator, oscillator, RF- amplifier, and antenna.

Qualification Pack

WBSC/ELE/N2804: Install, configure, interconnect given computer system(s) and demonstrate its I/O devices.

Description

Install, configure, interconnect given computer system(s) and demonstrate its I/O devices.

Scope

The scope covers the following :

- Work in compliance with standard safety norms.
- Hardware and software component.
- Operating systems and applications.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Plan, work in compliance with standard safety norms.

PC2. Select hardware and software component.

PC3. Install and configure operating systems and applications.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Introduction to computer, Components of desktop and laptop computer.

KU2. Hardware and software, I/O devices, and their working.

KU3. Different types of printers.

KU4. Windows and operating systems.

KU5. Procedure of installation of software in a computer.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Demonstrate various parts of the computer system and motherboard components.

GS2. Identify various computer peripherals and connect it to the system.

GS3. Boot the system from different options.

GS4. Install OS in a desktop computer.

GS5. Install a Printer driver software and test for print outs.

GS6. Install antivirus software, scan the system and explore the options in the antivirus software.

WBSC/ELE/N2805: Identify, operate various controls, troubleshoot and replace modules of the LCD/LED TV and its remote.

Description

Identify, operate various controls, troubleshoot and replace modules of the LCD/LED TV and its remote.

Scope

The scope covers the following :

- Selection of tools and materials for the job.
- The different modules of TV and their functions.
- The faults of various remote controls.
- Measurement and checking of various connectors.
- Connection of the cable operators external decoder (set top box) to the TV.
- Troubleshooting and rectification of fault by replacing the module.
- Cells & Batteries Construction of Remote.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Ascertain and select tools and materials for the job and make this available for use in a timely manner.
- PC2.** Identify the different modules of TV and their functions.
- PC3.** Trace and rectify the faults of a various remote controls.
- PC4.** Measure and check various connectors and connect the cable operator's external decoder (set top box) to the TV.
- PC5.** Troubleshoot and rectify the fault by replacing the module and test for its functionality.
- PC6.** Demonstrate Cells & Batteries Construction of Remote.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Difference between a conventional CTV with LCD & LED TVs.
- KU2.** Principle of LCD and LED TV and function viz. screen, chassis, motherboard, power board, remote receiving board, keypad, horn, remote control, all connection lines.
- KU3.** Working principle, operation of remote control.
- KU4.** Different adjustments, general faults in remote control.
- KU5.** Cells & Batteries Construction, types of primary and secondary cells.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Identify and operate different Controls on LCD, LED TV.
- GS2.** Identify components and different sections of LCD and LED TV.
- GS3.** Identify the parts of the remote control.
- GS4.** Dismantle the given LCD/LED TV to find faults with input stages through connectors.
- GS5.** Detect the defect in a LED/LCD TV receiver given to you.
- GS6.** Rectify the fault.
- GS7.** Troubleshoot the faults in the given LED/LCD TV receiver.
- GS8.** Locate and rectify the faults.
- GS9.** Test LED/LCD TV after troubleshooting the defects.
- GS10.** Identify the positive and negative terminals of the battery.
- GS11.** Identify the rated output voltage and Ah capacity of given battery.
- GS12.** Measure the voltages of the given cells/battery using analog/ digital multimeter.

WBSC/ELE/N2806: Install a DTH system by proper selection of site, assembling of different parts/ accessories and troubleshoot the system.

Description

Install a DTH system by proper selection of site, assembling of different parts/ accessories and troubleshoot the system.

Scope

The scope covers the following :

- Plan & setup the workplace.
- Different tools and equipment used in DTH installation procedure & cabling procedure.
- Form of a surface areas of a DTH system, selection of the site accordance with technical requirements.
- Setting up the connection to STB by selecting the suitable port and cable.
- The faults in DTH system & rectification.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Plan & setup the workplace different tools and equipment used in DTH installation procedure & cabling procedure and take due care using the tools.
- PC2.** Monitor form of a surface areas a DTH system, select the site accordance with technical requirements.
- PC3.** Set up the connection to STB by selecting the suitable port and cable.
- PC4.** Identify the faults in DTH system & rectify.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Basic components of DTH system viz. Broadcasting Centre, Encryption Transmission, The Satellite Dish, Multiplexer, Modulator, Encoder, The Receiver, Broadcasting Technology.
- KU2.** Satellite receiver terminal, dish installation aspects, settings of dish/ DTH receiver.
- KU3.** Types of cables used in DTH system. Set top box features.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Identify & use DTH system assembly.
- GS2.** Identify & use different tools and equipment used in DTH installation procedure & cabling procedure.
- GS3.** Identify various types of connectors and cables.

Qualification Pack

GS4. Install DTH system & get a TV station.

Qualification Pack

WBSC/ELE/N2807: Dismantle, identify the parts of microwave oven and washing machine for the testing and repair.

Description

Dismantle, identify the parts of microwave oven and washing machine for the testing and repair.

Scope

The scope covers the following :

- Different parts of microwave oven.
- Usage of the controls on touch keypad of Microwave oven.
- Identification of the faults, dismantling and rectification of the faults.
- Identification of the faults in the given washing machine.
- Dismantling and identification of various parts, sensors, wire, trace of various controls.
- Rectification of the faults by repair/ replacement of parts.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Identify the different parts of microwave oven.

PC2. Identify, use the controls on touch keypad of Microwave oven.

PC3. Identify the faults, dismantle and rectify the faults.

PC4. Identify the faults in the given washing machine.

PC5. Dismantle and identify of various parts, sensors, wire, trace of various controls.

PC6. Rectify the faults by repair/ replacement of parts.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Different types of viz. Solo microwave, convection microwave and grill microwave.

KU2. The various functions of Oven.

KU3. Different types of washing machines Manual, Semi-automatic, fully automatic.

KU4. Washing techniques, manual, semiautomatic and fully automatic machines, basic working principle of manual, semi- automatic and fully automatic machines.

KU5. The working of motors, different types of timers, power supply circuits.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Identify & use controls on touch keypad of Microwave oven.

GS2. Dismantle and identify various parts, wiring, tracing of various controls of Microwave oven.

Qualification Pack

- GS3.** Identify the faults in the given Microwave oven & rectify.
- GS4.** Dismantle and identify of various parts, sensors, wiring, tracing of various controls, Electronic circuits, in various types of washing M/C.
- GS5.** Identify the faults in the given washing M/C and rectify.

Qualification Pack

WBSC/ELE/N2808: Install a CCTV system and configure the system for surveillance function.

Description

Install a CCTV system and configure the system for surveillance function.

Scope

The scope covers the following :

- Different tools and equipment used for installation of CCTV.
- Different CCTV components, Tracing or following the CCTV setup for any domestic installation.
- The strategic locations for the installation of cameras.
- The procedure for switching the cameras to have different views.
- The connectors and sockets used on DVRs.
- Connection of CCTV Cameras to DVR.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify & use different tools and equipment used for installation of CCTV, handle the tools with due care and safety.
- PC2.** Identify the different CCTV components, Trace or follow the CCTV setup for any domestic installation.
- PC3.** Identify the strategic locations for the installation of cameras.
- PC4.** Plan and setup the procedure for switching the cameras to have different views.
- PC5.** Identify the connectors and sockets used on DVRs, connect CCTV Cameras to DVR.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Types of cameras viz. Dome CCTV Cameras, Bullet CCTV Cameras.
- KU2.** C-Mount CCTV Cameras, PTZ Pan Tilt & Zoom Cameras.
- KU3.** Day/Night CCTV Cameras, Infrared/night vision CCTV Cameras.
- KU4.** Network/IP CCTV Cameras and Wireless CCTV Cameras and their specifications.
- KU5.** CCTV setup and its components Working of Digital Video Recorders and types of DVRs.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Identify different CCTV components.
- GS2.** Draw, trace or follow the CCTV setup of any commercial installation.

Qualification Pack

- GS3.** Identify the strategic locations for the installation of cameras.
- GS4.** Operate and learn the procedure for switching cameras to have different views. Identification of connectors and sockets used on DVRs.
- GS5.** Connect CCTV Cameras to DVR, Record and Replay.

Qualification Pack

WBSC/ELE/N2809: Work in real job situation with special emphasis on basic safety and hazards in this domain (Service Assistant (Domestic Electronics Products)).

Description

Work in real job situation with special emphasis on basic safety and hazards in this domain.

Scope

The scope covers the following :

- Work in the real job situation.
- Report preparation on the competency developed.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Work in the real job situation with special emphasis on basic safety and hazards in this domain.
- PC2.** Prepare report for this component of training of the course to ensure whether competency has been developed.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Work in the real job situation with special emphasis on basic safety and hazards in this domain.
- GS2.** Prepare report for this component of training of the course to ensure whether competency has been developed.

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Assessment will be based on the concept of Independent Assessors empaneled with West Bengal State Council of Technical & Vocational Education & Skill Development (WBSCT&VE&SD), identified, selected, trained and certified on Assessment techniques. These Assessors would be aligned to assess as per the laid down criteria.

WBSCT&VE&SD would conduct assessment only at the training centers or designated testing centers authorized by WBSCT&VE&SD. Ideally, the assessment will be a continuous process comprising of two distinct steps:

- Continuous assessment by Trainers
- Term end /Final Assessment by WBSCT&VE&SD

Each National Occupational Standard (NOS) in the respective QPs will be assigned weightage. Each Performance Criteria in the NOS will be assigned marks for theory and/or practical based on relative importance and criticality of function. This will facilitate preparation of question bank / paper sets for each of the QPs. Each of these papers sets/question banks created by subject matter experts through WBSCT&VE&SD, especially with regard to the practical test and the defined tolerances, finish, accuracy

Qualification Pack

etc. The following tools are proposed to be used for final assessment:

i. Written Test: This will comprise of (i) True/False Statements and/or (ii) Multiple Choice Questions and/or (iii) Matching Type Questions. Online system for this will be preferred.

ii. Practical Test: This will comprise a test job to be prepared as per project briefing following appropriate working steps, using necessary tools, equipment and instruments. Through observation it will be possible to ascertain candidate's aptitude, attention to details, quality consciousness etc.

iii. Structured Viva-voce: This tool will be used to assess the conceptual understanding and the behavioral aspects as regards the job role and the specific task at hand.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
