Qualification Pack

WBSC/HCS/N2201: Apply safe working Practices (Jute Product Maker).

Description

Apply safe working Practices.

Scope

The scope covers the following :

- Safe working environment in line with occupational health and safety regulations.
- Any unsafe situations according to site policy.
- Necessary precautions on fire and safety hazards.
- Personal Productive Equipment (PPE).
- Basic first aid & CPR.
- Different types of fire extinguishers and their use.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Maintain procedures to achieve a safe working environment in line with occupational health and safety regulations and requirements according to site policy.
- PC2.** Recognize any unsafe situations according to site policy, and assess his report accordingly.
- PC3.** Identify and take necessary precautions on fire and safety hazards and report according to site policy and procedures.
- PC4.** Demonstrate Personal Productive Equipment (PPE) use the same as per related working environment.
- PC5.** Demonstrate basic first aid & CPR and use them under different circumstances.
- PC6.** Identify different fire extinguishers and use the same as per requirement in a mock drill.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Procedure to ensure a safe working environment.
- KU2.** Occupational health and safety regulations and requirements in accordance with site policy.
- KU3.** Implementation procedure to measure to prevent accidents and ensure the well being of all personnel.
- KU4.** Unsafe situations in the workplace.
- KU5.** Potential fire and safety hazards.
- KU6.** Correct use of personal protective equipment (PPE) in line with the related working environment.
- KU7.** Basic first aid and CPR techniques.
- KU8.** Different types of fire extinguishers and their applications.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Maintain safe working environment procedures.
- GS2.** Ensure compliance with occupational health and safety regulations and site policies.
- GS3.** Recognize and assess of unsafe situations.
- GS4.** Apply site policy in assessing and reporting unsafe conditions.
- GS5.** Identify fire and safety hazards in the working environment.
- GS6.** Role play scenarios to simulate real life situations and report hazards according to site policy.
- GS7.** Demonstrate to correct application of PPE.
- GS8.** Demonstrate first aid and CPR.
- GS9.** Identify and handle different types of fire extinguishers in a practical setting.

WBSC/HCS/N2202: Recognize various Raw materials for Jute product making.

Description

Recognize various Raw materials for Jute product making.

Scope

The scope covers the following :

- Different types of raw materials.
- Basic requirements to set up a unit for Jute Product Making.
- Different preparation practices along with merit & demerits.
- Various ingredients along with colouring of Jute Product Making.
- Various conventional & non-conventional raw materials of Jute Product Making.
- Various forms of Raw materials of Jute Product Making.
- Various proportions of Raw materials of Jute Product Making.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Describe different types of raw materials.

PC2. Demonstrate basic requirements to set up a unit for Jute Product Making.

PC3. Elaborate different preparation practices along with merit & demerits.

PC4. Describe various ingredients along with colouring of Jute Product Making.

PC5. Elaborate the various conventional & non-conventional raw materials of Jute Product Making.

PC6. Identify various forms of Raw materials of Jute Product Making.

PC7. Select various proportions of Raw materials of Jute Product Making.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Introduction & Scope of Jute and its products.

KU2. Tools required for preparation of Jute products.

KU3. Various types of raw materials used in jute product making.

KU4. Essential components for establishing a unit dedicated to jute product manufacturing.

KU5. Elaboration of different preparation practices with merits and demerits.

KU6. Different ingredients used in jute product making process.

KU7. Conventional and non-conventional raw materials used in product making.

KU8. Different sources of jute product making.

KU9. Different forms in which raw materials are available for jute product making.

KU10. Selection of various proportions of raw materials.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Identify different types of raw materials used in jute product making.
- GS2.** Demonstrate different preparation practices used in jute product making.
- GS3.** Analyze the merits and demerits of each practice in real time scenarios.
- GS4.** Compare the outcomes of different preparation methods.
- GS5.** Demonstrate the application of various coloring techniques in jute product making.
- GS6.** Apply natural and synthetic dyes to jute materials.
- GS7.** Explore and handle both conventional and non- conventional raw materials.
- GS8.** Demonstrate various sources of jute product making.
- GS9.** Identify various forms of raw materials.
- GS10.** Select appropriate proportions of raw materials.
- GS11.** Calculate and mix different proportions of raw materials in practical scenarios.

Qualification Pack

WBSC/HCS/N2203: Prepare jute fiber from raw jute & staining of jute fiber.

Description

Prepare jute fiber from raw jute & staining of jute fiber.

Scope

The scope covers the following :

- Different system extracting of jute fiber from raw jute.
- Different types of post production of jute fiber from raw jute with proper examples.
- Various tools and equipment along with its utility for jute fiber from raw jute & staining of jute fiber.
- The selection of site and principles of profitable jute fiber from raw jute & staining of jute fiber.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the different system extracting of jute fiber from raw jute.
- PC2.** Describe different types of post production of jute fiber from raw jute with proper examples.
- PC3.** Explain various tools and equipment along with its utility for jute fiber from raw jute & staining of jute fiber.
- PC4.** Describe the selection of site and principles of profitable jute fiber from raw jute & staining of jute fiber.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Various systems involved in extracting jute fiber from raw jute.
- KU2.** Various post production processes for jute fiber from raw jute.
- KU3.** Tools and equipment used in the extraction of jute fiber from jute.
- KU4.** Criteria for selecting a suitable site for jute fiber extraction.
- KU5.** The significance of each system in obtaining high quality jute fiber.
- KU6.** The environmental impact of jute production compared to synthetic materials.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Demonstrate various systems for extracting jute fiber from raw jute.
- GS2.** Perform post production processes such as retting, breaking, scutching and hackling.
- GS3.** Identify the tools and equipment for jute fiber extraction.
- GS4.** Identify a suitable site for jute fiber extraction.

Qualification Pack

GS5. Demonstrate the procedures of retting, stripping, washing, drying and grading for high-quality jute fiber.

WBSC/HCS/N2204: Prepare various bags.

Description

Prepare various bags.

Scope

The scope covers the following :

- The methods of Preparation of bags by jute.
- Different functions of sewing machine.
- Operation of sewing machine for preparation of jute products.
- Regular maintenance of the machine.
- Various types of items like Ladies hand bag, Side bag, Shopping bag, Office bag, Office files etc.
- Different uses of bags.
- Preparation of different Ladies hand bag, Side bag, Shopping bag.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Plan and select the methods of Preparation of bags by jute.

PC2. Identify the different functions of sewing machine.

PC3. Operate sewing machine for preparation of jute products.

PC4. Maintain the machine regularly.

PC5. Recognize various types of items like Ladies hand bag, Side bag, Shopping bag, Office bag, Office files etc.

PC6. Describe different uses of bags.

PC7. Prepare different Ladies hand bag, Side bag, Shopping bag.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. The planning for preparation of jute bags.

KU2. The factors like design, size and purpose.

KU3. Sustainable and innovative approaches in jute bag production

KU4. Various functions of sewing machine used in jute product manufacturing.

KU5. Role of each function in stitching different parts of a bag.

KU6. Operation of sewing machines for jute product preparation.

KU7. Maintenance of sewing machines.

KU8. Various types of jute products including ladies handbags, side bags, shopping bags, office bags and office files.

KU9. The diverse uses of jute bags.

Qualification Pack

KU10. The process of preparation of different jute bags in a commercial farm.

KU11. Waste management of jute products.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Plan and select the methods for jute bag preparation.
- GS2.** Plan and choose appropriate methods for designing and producing jute bags.
- GS3.** Select jute fabric based on durability and aesthetics.
- GS4.** Determine the cutting patterns and dimensions for each types of bag.
- GS5.** Identify the functions of sewing machine.
- GS6.** Operate sewing machine for jute products.
- GS7.** Demonstrate cleaning, lubricating and adjusting machines.
- GS8.** Troubleshoot common issues to ensure seamless machine operation.
- GS9.** Demonstrate routine maintenance of sewing machines.
- GS10.** Dispose of waste management of jute products.
- GS11.** Prepare different bags with proper techniques.
- GS12.** Cut the jute fabric according to the selected patterns for each bag.
- GS13.** Sew the pieces together using appropriate stitching techniques.
- GS14.** Check the final product for quality and functionality before use.

WBSC/HCS/N2205: Prepare jute-based home decor items.

Description

Prepare jute-based home decor items.

Scope

The scope covers the following :

- Different materials needed to create jute products for home decorating
- The tools and equipment required.
- The process of making jute window curtains by measuring, cutting, and sewing the fabric.
- Preparation of wall hanging, cushion covers, floor coverings, rugs, bottle covers, lamp shades, and table mats.
- Patchwork techniques to create a unique jute product.
- Construction of a jute basket by weaving strips of jute together.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify different materials needed to create jute products for home decorating.
- PC2.** Identify the tools and equipment required.
- PC3.** Demonstrate the process of making jute window curtains by measuring, cutting, and sewing the fabric.
- PC4.** Prepare wall hanging, cushion covers, floor coverings, rugs, bottle covers, lamp shades, and table mats.
- PC5.** Apply patchwork techniques to create a unique jute product.
- PC6.** Construct a jute basket by weaving strips of jute together.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Various types of jute products for home decoration.
- KU2.** The procedure to make the jute window curtain by the measurement, cutting jute fabric to size and sewing the hems.
- KU3.** The procedure to prepare wall hanging, cushion covers, floor coverings, rugs, bottle covers, lamp shades and table mats.
- KU4.** The techniques of applique and patchwork in jute crafting.
- KU5.** The market trends and consumer preferences for jute products, as per growing demand for handmade items.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Identify different materials needed to create jute products for home decorating.
- GS2.** Identify the tools and equipment required.
- GS3.** Demonstrate the process of making jute window curtains by measuring, cutting, and sewing the fabric.

WBSC/HCS/N2206: Select the matching colour on the Jute product.

Description

Select the matching colour on the Jute product.

Scope

The scope covers the following :

- Various principles of bleaching and colouring in Jute products.
- General process and precautions in the use of matching colour on the Jute products.
- Preparation of the specific schedule for Work Area Maintenance in different Jute Products.
- The commercial production process in different Jute product.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Describe various principles of bleaching and colouring in Jute products.
- PC2.** Describe general process and precautions in the use of matching colour on the Jute products.
- PC3.** Prepare the specific schedule for Work Area Maintenance in different Jute Products.
- PC4.** Perform the commercial production process in different Jute product.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The principles of bleaching and coloring of jute product.
- KU2.** Matching the colors on jute products including color selection and application methods.
- KU3.** Commercial production process for various jute product.
- KU4.** All stages involved from raw material preparation to the final product.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Apply bleaching and coloring principles on jute products.
- GS2.** Maintain work area for jute product maker.
- GS3.** Evaluate color consistency and quality in the finished jute products.
- GS4.** Implement color matching process.
- GS5.** Make a specific schedule for work area maintenance.
- GS6.** Maintain safety protocols during maintenance activities.
- GS7.** Demonstrate the procedure of commercial production of various jute products.

WBSC/HCS/N2207: Set up a small jute product Business unit.

Description

Set up a small jute product Business unit.

Scope

The scope covers the following :

- The mission, vision and goals of the Jute product business unit.
- Target markets, industry trends and competitors.
- Various funding sources and their applications.
- A comprehensive operational plan covering production and logistics.
- Realistic financial projections including income and expenses.
- The system for tracking business performance using KPIs.
- Various cash transactions using appropriate methods.
- Compliance with GST concepts.
- Inventory management tools to maintain accurate stock levels.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Define the mission, vision and goals of the Jute product business unit.
- PC2.** Identify target markets, industry trends and competitors.
- PC3.** Identify various funding sources and their applications.
- PC4.** Create a comprehensive operational plan covering production and logistics.
- PC5.** Create realistic financial projections including income and expenses.
- PC6.** Explain the system for tracking business performance using KPIs.
- PC7.** Record various cash transactions accurately using appropriate methods.
- PC8.** Practice compliance with GST concepts.
- PC9.** Utilize inventory management tools to maintain accurate stock levels.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The mission, vision, goals of a business and the range of products or services offered in its industry.
- KU2.** The entire business concept, unique selling points (USPs) and competitive advantages.
- KU3.** The target market, current industry trends, and competitors strategies for better positioning.
- KU4.** Collaboration with sales and marketing teams to gather insights on promotions, seasonal variations and market changes.

Qualification Pack

- KU5.** • Different Sources of funding for Start-up such as state Government schemes:
 - Smami Vivekanda SwanibharKarmasanthanPrakalpa (SVSKP)
 - West Bengal Swanirbhar Sahayak Prakalpa (WBSSP)
 - Bhavisyat Credit Card
 - WBMDFC Schemes
- KU6.** Specification of product/service details, pricing and positioning in the market.
- KU7.** The operational aspects including production processes, logistics management and facility requirements.
- KU8.** Determination of financial performance using income statements, balance sheets, and risk assessments.
- KU9.** System for regular monitoring and evaluation of the business plan's implementation.
- KU10.** Differentiation between various forms of payments (cash, card, UPI).
- KU11.** The purpose and importance of invoices, cash receipts, vouchers and cash memos.
- KU12.** The e-payment systems such as debit and credit cards, UPI and mobile applications.
- KU13.** Concepts like event, transaction, account, capital, asset, liabilities, income, expenses, profit, loss, cost and vouchers.
- KU14.** The key aspects of GST including applicability, exemptions, SGST, CGST, IGST, input tax, output tax, TCS, TDS and compliance rates.
- KU15.** Categorization of products into A, B and C classes based on their importance and value.
- KU16.** Implementation of Just-In-Time (JIT) inventory systems with reliable suppliers to reduce excess inventory.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Estimate the amount of funding required and the purpose, whether through loans, investments or other means.
- GS2.** Demonstrate detailed financial projections based on realistic assumptions and market trends.
- GS3.** Provide the operational plan on how the business will function, covering processes, technology and resources.
- GS4.** Demonstrate step-by-step plan for implementing the business strategy along with key metrics (KPIs) to track the business's progress.
- GS5.** Hands-on practice in identifying and recording various cash transactions.
- GS6.** Demonstrate e-payment methods, debit/credit cards, UPI and mobile applications.
- GS7.** Generate cash memos and related documents.
- GS8.** Role-play scenarios for effectively managing returns, refunds and exchanges.
- GS9.** Practice on using accounting software or manual methods, record various financial transactions.
- GS10.** Practice preparing invoices, receipts, and vouchers.
- GS11.** Apply GST concepts through practical exercises, including calculations and compliance.
- GS12.** Implement inventory management software to automate processes, track stock levels in real- time and generate accurate reports.

Qualification Pack

- GS13.** Conduct regular physical audits and cycle counts to ensure the accuracy of inventory records.
- GS14.** Collaborate with key partners in the supply chain for shared demand forecasting and planning.
- GS15.** Utilize data analytics tools to analyze historical data, identify trends and make informed decisions.
- GS16.** Practice on creating detail project report template.

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Assessment will be based on the concept of Independent Assessors empaneled with West Bengal State Council of Technical & Vocational Education & Skill Development (WBSCT&VE&SD), identified, selected, trained and certified on Assessment techniques. These Assessors would be aligned to assess as per the laid down criteria.

WBSCT&VE&SD would conduct assessment only at the training centers or designated testing centers authorized by WBSCT&VE&SD. Ideally, the assessment will be a continuous process comprising of two distinct steps:

- Continuous assessment by Trainers
- Term end /Final Assessment by WBSCT&VE&SD

Each National Occupational Standard (NOS) in the respective QPs will be assigned weightage. Each Performance Criteria in the NOS will be assigned marks for theory and/or practical based on relative importance and criticality of function. This will facilitate preparation of question bank / paper sets for each of the QPs. Each of these papers sets/question banks created by subject matter experts through WBSCT&VE&SD, especially with regard to the practical test and the defined tolerances, finish, accuracy

Qualification Pack

etc. The following tools are proposed to be used for final assessment:

i. Written Test: This will comprise of (i) True/False Statements and/or (ii) Multiple Choice Questions and/or (iii) Matching Type Questions. Online system for this will be preferred.

ii. Practical Test: This will comprise a test job to be prepared as per project briefing following appropriate working steps, using necessary tools, equipment and instruments. Through observation it will be possible to ascertain candidate's aptitude, attention to details, quality consciousness etc.

iii. Structured Viva-voce: This tool will be used to assess the conceptual understanding and the behavioral aspects as regards the job role and the specific task at hand.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)
