WBSC/HCS/Q2301: Mat Maker

Brief Job Description

Mat Maker is responsible for crafting high-quality mats using various materials such as fabric, Korai Grass. The candidate will possess expertise in cutting, shaping and assembling materials to create aesthetically pleasing and durable mats on handloom for various purposes including decoration, utility and artistic expression.

Personal Attributes

A Mat Maker should possess patience, attention to detail and creativity. Good hand-eye coordination, physical stamina and a sense of aesthetics are essential to ensure quality craftsmanship and precision in weaving.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [WBSC/HCS/N2301: Apply safe working practices.](#)
2. [WBSC/HCS/N2302: Describe the roles of Mat Maker](#)
3. [WBSC/HCS/N2303: Recognize essential tools, equipment and materials.](#)
4. [WBSC/HCS/N2304: Demonstrate processing of raw materials](#)
5. [WBSC/HCS/N2305: Execute basic weaving operations for Mat products.](#)
6. [WBSC/HCS/N2306: Produce Mat from raw material.](#)
7. [WBSC/HCS/N2307: Set up a small unit for mat product.](#)
8. [WBSC/HCS/N2308: Work in real job situation with emphasis on basic safety and hazards.](#)
9. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

WBSC/HCS/N2301: Apply safe working practices.

Description

Apply safe working practices.

Scope

The scope covers the following :

- Usage of proper personal protective equipment.
- Safety rules and procedures.
- Application of safe working practices.
- Application of basic first aid to address common accidents.
- Maintenance of a clean, organized and safe work environment.
- Practice of safe handling and usage of tools, chemical and equipment involved in mat crafting.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Use proper personal protective equipment.

PC2. Follow safety rules and procedures.

PC3. Apply safe working practices.

PC4. Apply basic first aid to address common accidents.

PC5. Maintain a clean, organized and safe work environment.

PC6. Practice safe handling and usage of tools, chemical and equipment involved in mat crafting.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Occupational safety hazards.

KU2. Different types of occupational safety hazards in Mat making.

KU3. General safety Rules, common hazards in the work area and procedures for dealing with the same.

KU4. Personal protective equipment like gloves, nose mask, shoes etc. and their application under different working conditions.

KU5. Waste management and pollution control procedure.

KU6. Identification and selection of right equipment such as fire extinguisher based on type of fire.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Role play to demonstrate dealing common hazards in work area.

Qualification Pack

- GS2.** Identify Personal protective equipment like gloves, nose mask, shoes etc. and their application.
- GS3.** Demonstrate the safe practices while using tools and equipment.
- GS4.** Identify the chemical hazards and take proper safety measures while using the chemical.
- GS5.** Set up the workspace ergonomically by adjusting the height of the table or chair.
- GS6.** Simulate first aid scenario.

WBSC/HCS/N2302: Describe the roles of Mat Maker

Description

Describe the roles of Mat Maker

Scope

The scope covers the following :

- The role and duties of a Mat Maker.
- The selection of materials and basic weaving techniques.
- Communication of queries and issues effectively.
- Recognition of job opportunities in the mat making industry.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the role and duties of a Mat Maker.
- PC2.** Describe the selection of materials and basic weaving techniques.
- PC3.** Communicate queries and issues effectively.
- PC4.** Recognize job opportunities in the mat making industry.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The role of Mat Maker.
- KU2.** Identification of job opportunities and its importance.
- KU3.** History and cultural significance of mat crafting
- KU4.** The selection procedure of appropriate materials for different types of mats.
- KU5.** Basic weaving techniques to produce mats.
- KU6.** The economic and cultural importance of mat production.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Select appropriate materials for mat making based on quality and durability.
- GS2.** Ensure all mats meet the required standards for quality and design.
- GS3.** Communicate with supervisors or team members to clarify any doubts regarding products.
- GS4.** Report any issues with tools or materials promptly to prevent production delays.

WBSC/HCS/N2303: Recognize essential tools, equipment and materials.

Description

Recognize essential tools, equipment and materials.

Scope

The scope covers the following :

- Identification of tools, equipment and consumables.
- Safety protocols for handling and storing tools.
- Maintenance of stock and prevent theft or damage.
- Disposal of waste properly in designated areas.
- Storage and cleaning of equipment after use.
- Keeping of accurate records of inventory and stock updates.
- Application of techniques to minimize waste generation.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify tools, equipment and consumables.
- PC2.** Follow safety protocols for handling and storing tools.
- PC3.** Maintain stock and prevent theft or damage.
- PC4.** Dispose of waste properly in designated areas.
- PC5.** Store and clean equipment after use.
- PC6.** Keep accurate records of inventory and stock updates.
- PC7.** Apply techniques to minimize waste generation.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Tools, equipment and consumables used in mat making.
- KU2.** Guidelines for safe handling and storage of tools.
- KU3.** Safe storage of tools in a designated area after use.
- KU4.** Proper methods for waste disposal.
- KU5.** Procedures for maintaining records and documentation.
- KU6.** Waste reduction strategies.
- KU7.** Procedure for Resource optimization.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Practice safe handling of tools and equipment.
- GS2.** Perform basic maintenance of tools and equipment.
- GS3.** Organize tools to prevent theft and damage.
- GS4.** Carry out waste segregation and disposal.
- GS5.** Maintain inventory records and stock updates.

WBSC/HCS/N2304: Demonstrate processing of raw materials

Description

Demonstrate processing of raw materials

Scope

The scope covers the following :

- Key raw materials like mat grass, cotton yarn, cloth and stitching threads.
- Types of mat grass based on strength and durability.
- Basic hand stitches such as running and backstitch.
- Dyeing techniques on mat grass and cotton yarn.
- Engagement in cultivation, harvesting and processing of mat grass effectively.
- Recognition of material quality for optimal mat production use.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Identify key raw materials like mat grass, cotton yarn, cloth and stitching threads.

PC2. Classify types of mat grass based on strength and durability.

PC3. Demonstrate basic hand stitches such as running and backstitch.

PC4. Execute dyeing techniques on mat grass and cotton yarn.

PC5. Engage in cultivation, harvesting and processing of mat grass effectively.

PC6. Recognize material quality for optimal mat production use.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. The Raw materials used in mat production such as mat rolls, mat grass, cotton yarn, cloth and stitching threads.

KU2. The usage of mat grass in craft work - its nature, strength, varieties, quality etc.

KU3. The cultivation, harvesting and preservation process of mat grass.

KU4. The usage of different fabrics, including poplin cloth and other types in mat making.

KU5. The usage of additional materials like Jori, rubber sheets, sponge, cotton tape, chain, buttons, Velcro, D-ring locks, and adhesive to enhance mat functionality.

KU6. Natural and chemical dyeing techniques for mat grass and cotton yarn, focusing on color retention and material integrity.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Identify various raw materials used in mat crafting such as mat grass, cotton yarn and stitching thread.
- GS2.** Demonstrate harvesting and processing of mat grass.
- GS3.** Practice dyeing mat grass and cotton yarn using both natural and chemical dyeing methods.
- GS4.** Practice Zig-Zag/Industrial sewing techniques using various stitching threads to enhance durability and aesthetics.
- GS5.** Categorize the quality of raw materials focusing on the different varieties and strengths of mat grass.

WBSC/HCS/N2305: Execute basic weaving operations for Mat products.

Description

Execute basic weaving operations for Mat products.

Scope

The scope covers the following :

- Operation of the charkha efficiently for reeling yarn.
- The drumming and warping of cotton yarn.
- Weaving of mats and sheets in specified widths, lengths and design variations.
- Inspection of woven items visually for errors and quality defects.
- Verification of the size and design specifications of the woven mats.
- Rectification of weaving errors as per supervisor instructions.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Operate the charkha efficiently for reeling yarn.
- PC2.** Perform the drumming and warping of cotton yarn.
- PC3.** Weave mats and sheets in specified widths, lengths and design variations.
- PC4.** Inspect woven items visually for errors and quality defects.
- PC5.** Verify the size and design specifications of the woven mats.
- PC6.** Rectify weaving errors as per supervisor instructions.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The charka method for reeling different types of yarn.
- KU2.** The drumming process of cotton yarn as per specific design-wise: Tana and Jhala (Warping in drum and warping in wooden beam / Naraj).
- KU3.** Various weaving patterns like diamond, fish bone, wave, check, honey comb, falls etc.
- KU4.** The steps of visual check for any errors or damages in quality of weaved mat roll / sheet.
- KU5.** The steps of verification of the mat roll / sheet weaved as per size and designs.
- KU6.** The procedure for identifying and correcting weaving errors.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Practice reeling yarn using a charka safely and effectively.
- GS2.** Execute the drumming process for cotton yarn on different setups.

Qualification Pack

- GS3.** Create various patterns on Sana Handloom to build weaving skills.
- GS4.** Make different item by weaving in particular width & length.
- GS5.** Measure and cut yarn accurately for mat dimensions.
- GS6.** Conduct inspections to identify defects in woven products.
- GS7.** Verify the prepared mat as per design and specification.
- GS8.** Rectify common weaving errors in practice.

WBSC/HCS/N2306: Produce Mat from raw material.

Description

Produce Mat from raw material.

Scope

The scope covers the following :

- Estimation of size accurately for prototypes and mat making.
- Operation of the Zig-Zag/Industrial sewing machine with basic troubleshooting skills.
- Cutting and assembling of materials precisely as per design.
- Apply finishing techniques with clean stitching and edges.
- Evaluation of product quality for functionality, neatness and appeal.
- Testing and packaging of finished items as per quality guidelines.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Estimate size accurately for prototypes and mat making.
- PC2.** Operate the Zig-Zag/Industrial sewing machine with basic troubleshooting skills.
- PC3.** Cut and assemble materials precisely as per design.
- PC4.** Apply finishing techniques with clean stitching and edges.
- PC5.** Evaluate product quality for functionality, neatness and appeal.
- PC6.** Test and package finished items as per quality guidelines.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The methods for accurate size estimation in mat crafting.
- KU2.** Zig-Zag/Industrial sewing machine components.
- KU3.** The cutting techniques for mat roll and sheets.
- KU4.** Adhesive types and their applications in mat assembly.
- KU5.** Stitching and assembly techniques including piping in borders.
- KU6.** The method for ensuring accuracy of the craft items.
- KU7.** The guidelines for neatness, functionality and aesthetics.
- KU8.** The Importance of proper packaging to prevent damage during storage/display.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Practice size estimation for prototype creation.

Qualification Pack

- GS2.** Operate the Zig-Zag/Industrial sewing machine and solve minor issues.
- GS3.** Cut mat sheets as per specifications and designs.
- GS4.** Apply adhesives and bond materials as needed.
- GS5.** Paste rubber sheet / sponge / lining etc. as per requirement.
- GS6.** Practice on Stitching of piping in border through Zig-Zag/Industrial sewing machine.
- GS7.** Assemble and fit attachments as per requirements.
- GS8.** Practice on Hand stitching and finishing of the item.
- GS9.** Properly package for storing and displaying of the craft item.
- GS10.**
 - Check the quality of the product in terms of perfect stitching, trimming, usefulness, aesthetic beauty, neatness
 - etc.
- GS11.** Conduct performance test of the finished product to ensure product functionality and durability.

WBSC/HCS/N2307: Set up a small unit for mat product.

Description

Set up a small unit for mat product.

Scope

The scope covers the following :

- The mission, vision and goals of the mat making business unit.
- Identification of target markets, industry trends and competitors.
- Identification of various funding sources and their applications.
- A comprehensive operational plan covering production and logistics.
- Realistic financial projections including income and expenses.
- The system for tracking business performance using KPIs.
- Recording of various cash transactions accurately using appropriate methods.
- Practising compliance with GST concepts.
- Utilisation of inventory management tools to maintain accurate stock levels.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Define the mission, vision and goals of the mat making business unit.
- PC2.** Identify target markets, industry trends and competitors.
- PC3.** Identify various funding sources and their applications.
- PC4.** Create a comprehensive operational plan covering production and logistics.
- PC5.** Create realistic financial projections including income and expenses.
- PC6.** Explain the system for tracking business performance using KPIs.
- PC7.** Record various cash transactions accurately using appropriate methods.
- PC8.** Practice compliance with GST concepts.
- PC9.** Utilize inventory management tools to maintain accurate stock levels.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The business's mission, vision, goals, and the range of products or services offered in its industry.
- KU2.** The entire business concept, unique selling points (USPs) and competitive advantages.
- KU3.** The target market, current industry trends, and competitors strategies for better positioning.
- KU4.** Collaboration with sales and marketing teams to gather insights on promotions, seasonal variations and market changes.

Qualification Pack

- KU5.** Different Sources of funding for Start-up such as state Government schemes:
 - Smami Vivekanda Swanibhar Karmasanthan Prakalpa (SVSKP)
 - West Bengal Swanirbhar Sahayak Prakalpa (WBSSP)
 - Bhavisy at Credit Card
 - WBMDFC Schemes
- KU6.** Product/service details, pricing and positioning in the market.
- KU7.** The operational aspects including production processes, logistics management and facility requirements.
- KU8.** Financial performance using income statements, balance sheets, and risk assessments.
- KU9.** A system for regular monitoring and evaluation of the business plan's implementation.
- KU10.** Differentiation between various forms of payments (cash, card, UPI).
- KU11.** The purpose and importance of invoices, cash receipts, vouchers and cash memos.
- KU12.** The e-payment systems such as debit and credit cards, UPI and mobile applications.
- KU13.** Concepts like event, transaction, account, capital, asset, liabilities, income, expenses, profit, loss, cost and vouchers.
- KU14.** The key aspects of GST including applicability, exemptions, SGST, CGST, IGST, input tax, output tax, TCS, TDS and compliance rates.
- KU15.** Categorisation of products into A, B and C classes based on their importance and value.
- KU16.** Implementation of Just-In-Time (JIT) inventory systems with reliable suppliers to reduce excess inventory.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Estimate the amount of funding required and the purpose, whether through loans, investments or other means.
- GS2.** Demonstrate detailed financial projections based on realistic assumptions and market trends.
- GS3.** Provide the operational plan on how the business will function, covering processes, technology and resources.
- GS4.** Demonstrate step-by-step plan for implementing the business strategy along with key metrics (KPIs) to track the business's progress.
- GS5.** Hands-on practice in identifying and recording various cash transactions.
- GS6.** Gain practical experience with e-payment methods, debit/credit cards, UPI and mobile applications.
- GS7.** Practice generating cash memos and related documents.
- GS8.** Role-play scenarios for effectively managing returns, refunds and exchanges.
- GS9.** Practice on using accounting software or manual methods, record various financial transactions.
- GS10.** Practice preparing invoices, receipts, and vouchers.
- GS11.** Apply GST concepts through practical exercises, including calculations and compliance.
- GS12.** Implement inventory management software to automate processes, track stock levels in real-time and generate accurate reports.

Qualification Pack

- GS13.** Conduct regular physical audits and cycle counts to ensure the accuracy of inventory records.
- GS14.** Collaborate with key partners in the supply chain for shared demand forecasting and planning.
- GS15.** Utilize data analytics tools to analyze historical data, identify trends and make informed decisions.
- GS16.** Practice on creating detail project report template.

WBSC/HCS/N2308: Work in real job situation with emphasis on basic safety and hazards.

Description

Work in real job situation with emphasis on basic safety and hazards.

Scope

The scope covers the following :

- Work in the real job situation.
- Report preparation on the competency developed.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Work in the real job situation with special emphasis on basic safety and hazards in this domain.
- PC2.** Prepare report for this component of training of the course to ensure whether competency has been developed.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Work in the real job situation with special emphasis on basic safety and hazards in this domain.

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Assessment will be based on the concept of Independent Assessors empaneled with West Bengal State Council of Technical & Vocational Education & Skill Development (WBSCT&VE&SD), identified, selected, trained and certified on Assessment techniques. These Assessors would be aligned to assess as per the laid down criteria. WBSCT&VE&SD would conduct assessment only at the training centers or designated testing centers authorized by WBSCT&VE&SD. Ideally, the assessment will be a continuous process comprising of two distinct steps: A. Continuous assessment by Trainers, B. Term end /Final Assessment by WBSCT&VE&SD. Each National Occupational Standard (NOS) in the respective QPs will be assigned weightage. Each Performance Criteria in the NOS will be assigned marks for theory and/or practical based on relative importance and criticality of function. This will facilitate preparation of question bank / paper sets for each of the QPs. Each of these papers sets/question banks created by subject matter experts through WBSCT&VE&SD, especially with regard to the practical test and the defined tolerances, finish, accuracy etc. The following tools are proposed to be used for final assessment: i. Written Test: This will comprise of (i) True/False Statements and/or (ii) Multiple Choice Questions and/or (iii) Matching Type Questions. Online system for this will be preferred.

ii. Practical Test: This will comprise a test job to be prepared as per project briefing following appropriate working steps, using necessary tools, equipment and instruments. Through observation it will be possible to ascertain candidate's aptitude, attention to details, quality consciousness etc.

Qualification Pack

iii. Structured Viva-voce: This tool will be used to assess the conceptual understanding and the behavioral aspects as regards the job role and the specific task at hand.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
